Heidbrink and Tait Have Leads In Benefit Play

"A Successful Calamity", a Masquer's Production, to be Given Thursday Night

The cast of "A Successful Calamity" to be given in the college auditorium Thursday evening, February 2 will be led by Claude Tait of New Richmond and Joyce Heidbrink of River Falls.

With his easy conversational form, Mr. Tait will play the role of Henry Wilton, the tired business man longing to spend a quiet evening at home.

Mr. Tait, a junior in the agriculture department, has made previous appearances as the permanent husband in "Her Step-Husband" and the scientist in "Dwellers in the Darkness".

Miss Heidbrink, who is always charming on the stage, will appear as Emmie, Mr. Wilton's young second wife.

Miss Heidbrink, also a junior, who has shown her versatility by playing the sweet young girl in the "Romantic Age" and the eccentric old maid in "Back to Your Knitting", will portray still another type in the present production.

Deans Hathorn, Stratton Address Assembly

Dean C. G. Stratton addressed the men of the school in the gymnasium during the latter half of the assembly hour last Thursday. Even though he did not tell of his experience riding a bicycle or fishing, he told us a few facts which are well worth remembering. He gave us some very helpful information concerning our health, how we can keep what we have, how to keep our physical features so that they will not prevent us from getting positions after our graduation.

Don't be afraid of a doctor, he will do you more good than you can do yourself. Try some of Mr. Stratton's advice and let's see if we can't score a few less absences for the remainder of the year. Perhaps Mr. Voegle's suggestions on personal hygiene might help.

Miss Hathorn spoke to the girls in the auditorium. Her speech was principally about taking better care of the social room. She suggested a joint meeting of the girls and house mothers to work out a better system of rules than we now have.

A club for red-headed students has been organized at North Carolina.

Directs College Band

B. Rozehnal

College Band to Give Program At Assembly

Leader B. Rozehnal Directs Varied Program Before Assembly Thursday

The assembly program Thursday is to be put on by the college band under the direction of Mr. Rozehnal, music instructor here. The program consists of pieces arranged for variety and popular appeal. The following is the program to be given:

March, "Goldman Band" K. L. King
"Hungarian Overture", Karoly
"A Japanese Sunset", Deppen
"Pizzicato Polka", Strauss
"Country Gardens", Grainger
"Military Escort", 5 ways, Filmore
Following Victor Herbert Favorites: "March of the Toys", "Absinthe Frappe", "Because You're You", "I Can't do the Sum", "When You're Away", "Gypsy Love Song", "Italian Street Song", "Kiss Me Again", "The Irish Have a Great Day Tonight".

The band this year is fairly large, consisting of fifty pieces. It affords a fine training school for people planning to teach. The purpose, according to Mr. Rozehnal, is a dual one: to go through as much material that can be used in the future as teachers and to try to keep the level of the music as high as possible.

The object this year has been to work up four complete programs, each being different from the others. The idea is to have one or two well known numbers that are musically worth while, and several concert marches.

Plans are being made for a tour in the spring.

W. D. Wyman to Speak At Y. M. on New Russia

Next Tuesday evening Mr. W. D. Wyman will speak at the Y.M.C.A. upon the subject "The New Russia", an interesting topic by an interesting speaker.

Malott Elected To National Organization

Becomes Member of Society of College Teachers of Education

Mr. James I. Malott was recently voted into active membership in the National Society of College Teachers of Education.

This is a national organization that does research work and studies educational problems. There are four divisions in which they do work: history of education, educational sociology, public school administration, and educational psychology.

Mr. Malott is director of the department for rural school teachers and teaches psychology here at the college. The junior and senior students probably recall that in 1931, Mr. Malott was elected to Pi Gamma Mu, an honorary social science fraternity.

Pep Meeting

Mass Meeting Thursday evening at 7:15. The band will be there. A short and snappy pepfest. Over in time for the play. Everyone out. support the team.

J. P. Jacobson to Leave Friday For Chicago

It is quite an honor to have a local representative on the executive committee of the regional council of the student Y.M.C.A., a committee selected last June at the Geneva conference.

Prof. Jacobson is to represent our campus at this meeting at Chicago Saturday and Sunday of this week.

The personnel of the committee is as follows: Ted Schultz, executive secretary; Jeane McCreery, Ball State Teachers College, Miami, Indiana; Russel Smith, Ames, Iowa; Bill Yates, Chicago Wesleyan; Joe Werner, Wisconsin; eGorge Crockett, Michigan; John McKean, Purdue; J. E. Park, Ohio State; C. C. Schotts, Northwestern, and J. P. Jacobson, River Falls.

Let's Reciprocate!

The Student Voice is financed by a portion of your budget ticket and by funds derived from advertising in the Voice by local merchants. Their support is needed and we ask that all students show their appreciation by patronizing those who are in this way helping you.

Swartz Frat Entertains at Party

The Swartz's Eat-A-Bite-A Pi Frat celebrated with another party at their new location. About twenty couple were present. The evening was spent in playing bridge, dancing and a variety of games.

A very appetizing lunch was served by Mrs. Maud Swartz, house mother, who is noted for her fine cooking. The boys are planning more parties in the future.

Receives Ph.D. Degree

Dr. Williams

Another Faculty Member Gets Ph. D. Degree

Works With Dr. W. T. Root History Head at Iowa State University

The students and faculty are pleased to hear that Justin Williams has received his doctor's degree at the University of Iowa.

Mr. Williams took his bachelor's degree in 1926 from the Arkansas State Teachers College, and in 1928 he received his master's degree in history from the University of Iowa. During that same year he came to the River Falls State Teachers College where he has taught since then.

Mr. Williams went to Iowa City Sunday and has been taking his written examinations during the past week. He took his oral examination on Friday. Mr. Williams has been doing work with Dr. W. T. Root, head of the history department and professor of Colonial history at the Iowa university.

Dr. Williams took his major work in American History and his minor in European History. His thesis was entitled "England's Colonial Naval Stores Policy, 1588-1776."

Mr. Williams is staying for mid-year convocation which is to be held Tuesday night at the university. He will return to River Falls Wednesday.

Irving Gerhardt Elected President of Agrifallians

Irving Gerhardt, Neillsville senior, was elected president of the Agrifallian society Thursday night. He was the unanimous choice of the group to lead the society for the remainder of the year. The other officers elected were: vice president, Gerhard Christiansen, Prairie Farm; secretary, Ole Pederson, Cumberland; treasurer, Rudolph Christiansen, Wittenburg.

Meet Our Absent Minded Professor

"And when he got there, the cupboard was bare"; it wasn't bare in this case (it held all the basketball equipment) but it was locked.

Coach Cowles almost didn't take his team to Menomonie Friday, so you see how near we came to not being beat. In the morning Mr. Cowles went down stairs to get the boys' equipment together. When he got there he found that his keys were missing, and, what was worse, he had no idea where they were. After searching high and low, the coach asked Simpson and Helixon if they had borrowed the keys, but they said, "Not Guilty".

No duplicate keys could be found

G. O. P. Formal Saturday Night In South Hall

Mr. and Mrs. A. C. Voegle and Mr. and Mrs. W. D. Wyman to be Chaperones

The G.O.P. formal, one of the major social functions of the year, will be held Saturday evening, February 4 in the South Hall gymnasium.

Preceding the formal a reception will be held in the Social Room at 8:30 o'clock with the following in the receiving line. Evelyn Volla, Ralph Schneider, Bernice Smith, Vernon Peroutky, Dorothy Swenson, Robert Hyde, Joyce Heidbrink, Vern Woodward and Miss Alberta Greene, adviser of the G.O.P.

Music for the dancing will be furnished by Arnie Kuss and his Royal Badgers.

Chaperones for the evening will be Mr. and Mrs. A. C. Voegle and Mr. and Mrs. W. D. Wyman.

Plans for this social event are in charge of the following committees:

Decoration: Ruth Robinson, Hazel Wanner, Marjorie Gallup, Imelda Farrell, Evelyn Sias, Adele Williamson, Miriam Weed, Elaine Brunner, Margaret Ford, Frances Amundson, Lorraine Howe, Dorothy Mather, and Doris Shella.

Invitations for boys: Bernice Smith, Joyce Heidbrink, Helen Stewart, and Leona Weber.

Chaperones Guests, and Music: Esther Reinke, Nadia Howard, Ruth McIntyre, Elinor Bly.

Invitations for girls: Alice Lund, Carol Isaacson, Mary Quinlan, Helen Knutson.

Programs and favors: Dorothy Demulling, Jean McIntyre, Mildred Stevenson, Neile Roese.

Punch: Dagmar Pederson, Ella Polgar, Dorothy Swenson, Lois Bragstad, Catherine Phillips.

Joint Meetings Scheduled for Y.M.C.A. and Y.W.C.A.

As an outcome of the recent questionnaire, several discussion groups are to be organized with special leaders for each group. This questionnaire was concerning the type of discussion the students are interested in.

There will be joint Y.W. and Y.M. discussion groups for three consecutive Tuesday evenings, February 14, 21, and 28th.

The following discussion groups have been organized:

"Etiquette" led by Mith Hathorn.

"Economic and Vocational Problems" by Supt. H. C. Mason.

"Religious Problems" by the Rev. Weed.

"Charging Moral Standards" by Mrs. Williams.

"Student Honesty" by Justin Williams.

Old Man Winter Mixes His Dates

Old Man Winter got a little mixed on his dates and sent us a bit of March weather in January, but he realized his error and soon sent the thermometers rushing downward. As a result the rain froze, making all the sidewalks and roads one slippery sheet of ice.

A person did not have to go way over to the skating ring to skate, for every front yard and all the roads were rinks ready for use. Some of the youngsters made effective use of their skates as a method of locomotion. It worked much better than trying to walk.

One fellow unintentionally turned a graceful summer-sault while hurrying to an eight o'clock. High heels

didn't work so well either--more than one coed learned that to her sorrow, for few things are as embarrassing as suddenly sitting down on a slippery sidewalk with people on all sides. What a chance some ambitious photographer had to "snap" the faces of someone who just found himself sitting when he thought he was standing!

In spite of the few casualties, the few embarrassments, and the few inconveniences caused by the rain, nearly everybody enjoyed it. At least it made one feel that spring must be just around the corner when January seems like March. Mix your dates again Mr. Winter and please keep them mixed next time.

The River Falls Student Voice

aims to promote school spirit, to further professional interests, and to maintain River Falls Teachers College traditions.

Left-Overs

THIS is not war time. In fact, it is several years after the war, and yet it would seem that economy is still being practiced for scraps of paper must even be saved. What am I driving at? Well, haven't you noticed how a sign, if it once gets up, is liable to enjoy several months publicity? (I bet many an actress wishes for such a privilege.) The Kryl band is still featured down town, and there must be some election still on by the looks of the campaign material in several of the windows. And that is not the worst. If a chorus meeting, a Press Club party, a Y.W.C.A. meeting, or some other affair is held, it may be over and forgotten before the notice is removed from our school bulletin board. Let's have some cooperation on this subject, and maybe we can get rid of these mis-leading left-overs. S.S.

Minds that have nothing to confer find little to perceive. William Wordsworth.

Technocracy?

CONTRARY to general opinion Technocracy is not a new-born idealistic theory. It was first formulated more than one hundred years ago by Mrs. Shelley in England--years before the somewhat similar Marxian theories of government were set forth. However at that time industrialism was a mere infant, and Technocracy an idle dream. In 1920 a group of eminent research experts headed by Howard Scott formed an organization called Technocracy and began a systematic survey of our American industrialism. The exact energy required to make each of three thousand articles was determined and the total available power in the form of machinery was computed. It was proved that by proper distribution of labor and products, every man would be able to earn at least a living equal to a present ten thousand dollar annual salary by working twenty hours a week.

It is these facts, recently made public by Scott, that has caused the wave of criticism and apprehension. Technocracy's suggestion is to put at the head of our government a body of leading scientists, engineers, and thinkers, instead of the best "bally-hoosers." Instead of an ignorant dictator as in Russia, or a party which can sway the mobs as in America, we would have as our officials that class of men which has accomplished more in the past one hundred years for humanity, than all of the politicians in the entire history of the world. Is it worth at least a passing thought or shall we laugh it off? W. L.

Against stupidity the very gods themselves contend in vain. Schiller.

American Prosperity

HOW long will it take business men and the general population to discover the effects of our present systems which are continually lowering our standards of living? Each year seems to bring more trouble to everyone in the United States and the rest of the world. No one tries to better the conditions, and then how could they do it? The real cause must be sifted out before the readjustments can be made.

We should demand all of our war debts to be paid, for while other nations are too poor to pay them to us, they are preparing for future wars. Why not possibly prevent future wars and regain prosperity by paying the present war debts?

If the entire wealth of the United States were not concentrated in one place, probably a greater share of the American people could buy and sell and thus get money into circulation. How can the common people spend what they cannot get? How can they get it, if the wealth is so concentrated?

When the world is divided by trade barriers, a new duty or in increase in an old one may lead an industry to expand behind the tariff, despite the fact that the demand for its output at a profitable price does not equal the productive capacity already in existence, but located in other countries. These conditions did not directly precipitate the collapse of prosperity, but they did weaken the economic position of many of the countries and reduce the ability to reduce the depression.

Must we go through another depression, intensified and prolonged before our business leaders realize that we cannot add to the world's disaster without inflicting injury to ourselves? L.B.G.

Maybe prices generally are down but tuition fees in the school of experience were never higher.

Omaha Evening World-Herald.

Student Opinion

There are some members of the faculty who very strongly insist upon their classes commencing just when the bell rings, but, in some cases, make a practice of holding the same classes two or three minutes after the bell rings. This does not seem fair, especially to those students who must go from one building to the other between classes. I think that the teachers who are so sensitive about beginning their classes on time should be just as sensitive to letting classes out on time. I.J.D.

Wouldn't bleacher style of seats in the balcony of the gym provide more seats? If bleachers were installed, there would be a greater number of reserved seats from which extra profits could be gathered, and more students could enjoy the games while sitting instead of standing. C.K.

Some students are accusing the Student Voice of being a "scandal sheet". If they are asked why they have that opinion of the college paper, they remark that a few of its columns are too personal.

If some of the columns do contain news that is personal, remember that all news writers just pray for something to happen so that their columns can be filled.

It is the privilege of news writers to publish anything that is true and fit to be published. If anyone doesn't want publicity, it's his duty to watch his step both in speech and action; otherwise don't complain. D.T.

In past years the training school boys have been held in check pretty well, but nothing seems to have been done to stop them from throwing snowballs. It is rather inconvenient and more than somewhat annoying to have to dodge snowballs when passing from one building to the other. No wonder some of us come a little late to a class now and then. E.C.

Friday night is the big game with Superior. Whether we win or lose depends to a great extent upon the student body. Perhaps you have noticed that we generally win our games on the home floor when the students stand behind the team and show some spirit in yelling. Now we have a chance to prove that we have the proper school spirit by turning out to the pep meeting Thursday night before the play and yelling for all we're worth. Everybody out and show the team that you have confidence in them, and that whether they win or lose, the student body still stands back of them. E.P.

The Forensic Forum seems to have died an unnoticed and unmourned death. Last year the club would have sponsored the tea such as was held Tuesday afternoon, or perhaps would have had a banquet. Did all of the life of the organization graduate? J.M.

New Books Worth Reading

In spite of the somewhat forbidding title this book is an intelligent, sincere, and helpful discussion of the problems of men and women of today by a man who has found life rich and beautiful though sometimes tragic. Powys is an Englishman descended from the Cowpers of an earlier day, a member of a gifted family of writers. Hence his book is excellent not only in its content but also in its writing. The author's outlook is philosophic and literary rather than scientific or esthetic. Concerning

THE MEANING OF CULTURE
by
JOHN COWPER POWYS

himself with man in his relation to philosophy, literature, painting, religion, nature, love, and other human beings, he points out some of the obstacles to culture and suggests how they may be overcome.

Any young person eager to plan for himself the richest life possible will be delighted to discover Powys' sympathetic thoughtful, honest comments and suggestions; for this book is not a trite, didactic treatise but an inspiring bit of guidance to finer living.

Have You Read

"It is not the attempted restraint by the League of Nations that has aroused Japanese resentment since the beginning of the Manchurian affair; it is not the succession of pronouncements by the American government. It is not the League that is held to blame for the strictures on Japan emanating from Geneva, but America for having goaded the League to action." If you wish to know more about Japanese and the American views on the war waged in Manchuria, read the article "Manchuria: A Warning to America" in February Harpers' Magazine.

Can the Allies pay their war debts? Even if the debts could be paid, would it be good economic policy for America to accept or except payment? This and other war debt conditions are discussed by Bernard Ostrorenk in the January issue of "Current History".

It is the duty of every American citizen to know what is taking place in history and to know something about the leading men of the time. Do you know anything about Roosevelt? If not, you should read the article "The President-Elect" by Mr. Drew Pearson in February issue of Harpers Magazine. The article gives a brief account of the conditions under which Roosevelt will assume office. It is said "Roosevelt's basic principle is the placing of man before property. Over production he describes as 'under consumption.'" He faces the gravest crisis in American history since the civil war.

"A survey in a large New York bank showed that only one of the twenty highest paid employees had been a socially prominent undergraduate.

"The average salaries for ex-college athletics, dramatic stars, and class presidents is less than the average for all college graduates.

"Annual and newspaper editing and debating are the only extra-curricular activities that tend to make students more successful after graduation."—Bee Gee News.

The Inquiring Reporter

What Magazines Do You Prefer?

The magazine I like especially well is "McCalls" because it always contains interesting stories by noted authors. These stories are published in the magazine before they come out in book form.

—Lois Espeseth

The "National Geographic" is one of my favorite magazines. The illustrations in color are especially beautiful and the articles appeal to me.

—William Lover

I like the "Forum" as well as any magazine I know of. The articles are always up-to-date, informative, and interesting.

—Irma Polgar

The "Delineator" is my idea of a good magazine, especially for recreational reading. The style section is interesting, and the stories are different from those in other magazines.

Emily Collins

I like the "Forum" because of the concise news it gives. It doesn't have such long tiresome articles like some magazines do.

The Three Arts

Since a considerable number of River Falls students and faculty members attend the weekly Friday night concerts of the Minneapolis Symphony Orchestra at Northrop auditorium, University of Minnesota, it may be of interest to the rest of the students to learn something of the nature of these concerts which lure their fellows from college activities.

By way of giving a concrete illustration let us review last Friday's program. The opening number was "Symphony in D Minor", written in 1889 by Cesar Franck, a Belgian claimed by France. This symphony which "speaks of doubt and faith", has three movements: I Lento-Allegro non troppo, II Allegretto, and III Allegro non troppo.

After the intermission the concert resumed with two Bach choral pre-

ludes orchestrated by Arnold Schonberg. Simple versions of these two chorales elaborated by Bach, "Schmucke Dich, O Liebe Seele" and "Kamm, Gott, Schopper, Heiliger Geist," appeared in the "Little Organ Book" in 1723.

These were followed by Richard Strauss' symphonic poem, "Don Juan" inspired by a dramatic poem of the same title by Nicholas Lenau, a Hungarian poet. The music was written in 1887-1888. Strauss portrays Lenau's "Don Juan" who is seeking "to find a woman who is to him incarnate womanhood, and to enjoy in the one all the women on earth, whom he cannot as individuals possess."

The concluding number was a polka from Weinberg's "Schwanda", which tells of the adventures of Schwanda, a piper of Strakomitz who has been lured away from his wife by a robber.

Falcons Clash Friday With Yellowjackets

River Falls, Superior Tied for Second Place Last Year Both Out to Win

River Falls will play host to the Superior Yellowjackets next Friday night in the first of the 1933 at-home series played between two schools.

The game will be devoid of some of its usual color due to the fact that both teams are not up to their usual standard. Nevertheless, the game is sure to be one of the fastest left on the conference schedule.

The Yellowjackets, rated as one of the three best teams in the conference, have started slowly, dropping games to La Crosse and Eau Claire. The latter defeat was a surprise to all followers of conference basketball and was termed as somewhat of an upset. Superior, however, plays her best brand of basketball against River Falls as does River Falls when they play Superior.

Last season the two teams finished in a tie for second place, each with a percentage of 750, having won 6 and lost two. The Falcons lost to the Yellowjackets at Superior 23-24, and won the home game 31-29 in as exciting a game of basketball as was ever played on the local floor.

My Daily Diary

January 21--Worked hard all day. Did chores which were piling up during the week. Spent part of day just wandering around school. Saw students crushing their brains with tons of work in the library. It's nice to have one day a week for rest. Slept a good deal of the day, dreaming of a dandy way to rest.

January 22--Rain, rain, go away; come again some other day--and it did. The kind warm sun shown as if it was ready to clean the earth, but not until we got what we didn't want. Everything was soaked--the streets, my clothes, my feet, quite a few basements, and even the ice. What a great day for studying! Night found me pulling the covers over my head for rest.

January 23--Awakened by a whistle. At first thought it was the "Peanut Limited", but later remembered that it wasn't due for two days yet. Saw two students playing race-horse rummy. It was a horse apiece. To school, most the time on all four, otherwise doing my best for perfect balance. Early to bed as the sun was coming up.

January 25--To school all day where I stayed most of the time doing nothing but studying. An hour off for my lunch, and four hours off for something to eat--third down and three to go. Many students attending classes unintentionally. The intra-mural B. B. league is going in fine shape. One second to switch off the light, and head first into the hay.

January 26--Got lots of information today. The deans put one over on the students. We need something like that more often. Some of us are never sure of what we are doing--right or wrong. Prof. expells student for singing "Pink Elephants"--G.O.P. song.

January 27--Up early, but to school late. Met the Profs. with a cheery smile. Spent four hours in the laboratory working jig-saw puzzles--left disgusted. Watched the future teachers of New Richmond defeat our future teachers. Calling it now a perfect day.

C.U.La Duke, a graduate of the college in the class of 1918, who is superintendent of the Lodi Public Schools was recently elected president of the Columbia County Teachers Association.

In Shots By Vern

The Falcons took two on the chin. Stout and Stevens Point defeated the Falls quint 20-17 and 38-26 respectively,--maybe I should say respectfully.

After leading the Blue Devils 11-5 at the first half, River Falls came back and demonstrated what not to do the second half. It was the poorest exhibition of basketball the Falcons have put on this year. But it's all over and the boys demonstrated the type of ball they are capable of playing when they came back and gave Stevens Point a stiff battle the following night.

Haberman played a good game at Stout and Stevens Point. He held the "big" Bishop without a field goal. Bishop scored only three points from fouls. Morrow and Kuss played good games at Stevens Point, each garnering eight points. Another man who is coming along on the team is Isaacson. He has the fight and speed, and saw action at Stout and demonstrated to the coach that he is capable of playing a good game. He played also in the Stevens Point game and made 5 points during the few minutes he was in. He's going to see plenty of service.

The Falls play good ball until a slip is made and then they start down. Let's hope they can demonstrate the River Falls fighting spirit and come back and take the remaining six games. We are out of the running for the championship but, oh boy, we're going to make it tough for the rest of the teams.

We left here Friday by autos. The coach took ten men on the trip. Immediately following the Stout game, we left for Eau Claire where we stayed overnight. We left Eau Claire in the morning and arrived in Stevens Point at 12:30 where we stayed until 9 the next morning before starting our long journey home.

A dance was given after the game and the Falcons were all invited. A nice time was had by all. "Butch" claims it's not a bad school at all. Not at all!

Carl Klandrud, his wife and Christine Pederson, former librarian at the high school here, attended the game and lent their moral support; but it was of no avail, we could not win. Klandrud was feeling in good spirits for his team had just defeated the Marshfield high the night before 18-13. His team is given a chance to win the Valley championship. Here's hoping he does.

Coach Kotal of Stevens Point was unable to direct his team Saturday night as he has been suffering from quincy and had his throat lanced five times during the day. He listened to the game by wire, or was given the details over the telephone.

Coach Cowles went to the hospital and gave his regards to Kotal before the game.

Lampson has been improving at the center position and he is going to see quite a bit of service before the season is over.

Hill and St. Peter become eligible this week and should bolster up the strength of the team. Anyhow we hope they will.

Eau Claire upset the dope and beat Superior which means that the Yellowjackets will come down here striving to break into the win column.

Basketball Schedule

- February 3--Superior here
- February 10--LaCrosse there
- February 17--Stout here
- February 24--Eau Claire here
- February 27--Superior there
- March 3--Stevens Point here

"Turp" has made his brag that he is going to graduate with honors. He made a slam in no-trumps three times in succession.

League Standings

Team	W	L	Pct.
Helixon	4	0	1000
Braun	3	1	750
Clafin	3	1	750
Heiting	3	1	750
Nolde	3	1	750
Godfrey	2	2	500
La Dusire	2	2	500
Linehan	2	2	500
Sumner	1	3	250
Schneider	1	3	250
Kotleski	0	4	000
Standiford	0	4	000

Intra-Murals

The past week's games provided the intra-mural fans a variety of games with some of one-point leads to such lop-sided scores at 60-7.

Joe Braun set up a high score of 29 points for one game; a mark to shoot at.

Helixon should remain in the lead without trouble this next week having two easy games. The rest of the positions will be a toss-up as four teams now occupy second place.

This Week's Schedule

February 1

- Godfrey vs. La Dusire 6:30
- Heiting vs. Kotleski 6:45
- Standiford vs. Schneider 7:30
- Helixon vs. Sumner 7:45

February 2

- Braun vs. Linehan 8:30
- Clafin vs. La Dusire 8:45

February 3

- Godfrey vs. Kotleski 3:30
- Helixon vs. Standiford 3:45
- Heiting vs. Sumner 4:30
- Nolde vs. Schneider 4:45

Here and There

The Carleton symphony band under the direction of Professor James R. Gillette will leave on its annual tour February 6. The concert will be given in cities in Wisconsin, Indiana, Michigan, and Illinois.

Clark M. Eichelberger, editor-in-chief of League of Nations Chronicle, will be the principle speaker at the Minnesota Collegiate Model League of Nations Assembly when it convenes at Moorhead, Minnesota, on April 7-8.

A four-year curriculum for grade teachers was approved by President G. M. Snodgrass after being submitted to the LaCrosse Teachers College curriculum committee. The course, which will appear in the 1933 catalog of the institution, leads to a bachelor's degree in education.

Dr. Hughes of First Methodist church, formerly President of Hamline University, gave the address to the mid-year graduates of LaCrosse.

Out of Bounds

Last week end was a busy time for basketball teams throughout the state. Nearly every team in the conference saw action. Below is a list of scores:

- Whitewater 24, Milwaukee 21
- Eau Claire 39, Superior 31
- La Crosse 26, Platteville 19
- River Falls 17, Stout 20
- River Falls 28, Stevens Point 36

La Crosse by virtue of her 26-19 win over Platteville still leads the conference with a percentage of 1000. Stevens Point continued to show strength by turning back River Falls and is tied with LaCrosse for high honors also with a perfect percentage. The Eau Claire cagers came to life with surprising speed and trounced Superior. Stout broke into the win column by defeating River Falls in a game spectacular for the tight guarding displayed.

W. A. A.

The girls' basketball teams have worked up some fine spirit and competition. Judging from the past few games, not one member of any team lacks either vigor or vim.

Tuesday afternoon Notre Dame brought home the bacon by winning from Cornell 16-2. Those Notre Dame forwards surely can make baskets. Even Cornell's excellent guards could not stop them. During the same afternoon Southern California came out on the long end of a 9-1 score in a game against Northwestern.

Thursday's games were played with the same pep. Northwestern won the first game from Wisconsin 20-2. St. Peter was the star of the game. And can she handle a basketball? Southern California beat Cornell 19-4.

The competition is keen, the sportsmanship commendable, and everyone enjoys the games.

Laddy has some advice for all who are interested in chemistry--come supplied with waterproof pockets. Ordinary ones don't hold H2O so well.

Falcons Lose to Blue Devils And Pointers

Maintain Lead at Menomonie Until Few Minutes Before End of the Game

The Falcons dropped two games last Friday and Saturday, losing the first to Stout 20-17 and the second to Stevens Point 28-36.

The Falcons jumped into an early lead in the game at Menomonie and held it until a few minutes before the final gun. At this point, Haberman and Morrow were put out of the game with four fouls each, and the fighting Blue Devils rallied to lead by three points at the end. The game was featured by close guarding on the part of both teams as is indicated by the score.

Weakened by the preceding night game and the road trip, the Falcons lost to a superior Stevens Point five 28-36. Eddie Kotal's men played a brand of basketball that was hard to beat and the Falcons did well to keep the margin of defeat so small.

Falcons Debate Eau Claire Team

Falls Squad Acts as Host At Informal Tea Tuesday

The first squad gave their first home debate against Eau Claire in the auditorium Tuesday afternoon. Joan Smith and Dagmar Pederson upheld the negative of the question and Laverne Campbell and James Mason were affirmative speakers. The first debate was held at two o'clock. Immediately after the first debate the River Falls squad was host at an informal tea that was served to the Eau Claire debaters in the social room in South Hall. Miss Hathorn and Miss Elaine Forsythe poured.

At four o'clock the River Falls negative met the Eau Claire affirmative. These debates are only practice debates preparing for the tournaments scheduled to happen in March.

The Income Tax squad made an extensive debate trip last Saturday when two teams debated at Menomonie high school at one o'clock and at Chippewa Falls at four-thirty. The Chippewa Falls high school debaters are coached by Marshall Norseng, one of River Falls' outstanding debaters during the years 1926-1929.

The following people made the trip: Rosella Paulson, Margaret McCabe, Elaine Brunner, Harley Borgen, Carl Pflanz, Rudolph Christenson, Alfred Nelson, and Dale Johnson.

From the City Pulpits

Methodist Church—

The Congregational young people will entertain the Methodist young people in this church for the young people's activities on the coming Sunday evening.

The pastor will use as his text next Sunday morning the theme "Seeing God".

Baptist Church—

Sunday school at 10:00 with classes for all ages. The special class for young people is taught by Mr. Elvig Anderson, student at Northwestern Bible School, Minneapolis.

Morning church service at 11:00. This will be communion Sunday. The B.Y.P.U. meets at 6:30, followed by evening services at 7:30. This church extends a special invitation to the young people of the college and high school.

Congregational Church—

The preaching service is Sunday morning at 10:30 in the college auditorium. The sermon subject is "A Full-Grown Man".

The young people meet in joint session Sunday evening at 5 o'clock with the Methodist young people at the Methodist church.

The Worker's Conference has been postponed from Feb. 1st to Feb. 8. The meeting will be at the parsonage Wednesday evening at 7:00 o'clock.

Lutheran Church—

Services next Sunday evening at 7:30 p. m.

Swedish Mission—

The Holy Communion will be celebrated at the close of the sermon on Sunday. Mornish worship in Swedish. English service at 8 p. m. Theme: "Our Resources as Christians in a Time of Apostasy".

The Y.W.C.A. had an all Russian musical program Tuesday night. An interesting report on Russia and its music was given by Agnes Klep. Phyllis Glass played a Russian violin solo, "Oriental", by Cui. John Dzubay gave a talk on Carpatho Russian customs and legends. Vernice Clapp danced a very pretty Russian folk dance. A recording of a Russian folk song, "The Volga Boat Man" by Chaliapin was played. After Margarite Oberding sang the Russian national hymn, the girls served Russian tea.

Next week the series of joint meetings and discussion groups starts.

School Calendar

- February 1--
G.O.P. meeting in Social Room
Student Voice meeting at 4 p. m.
Band practice
- February 2--
College band at assembly
Agrifallian benefit play
Girls' basketball tournament
- February 3--
Superior-River Falls game
Dance following game
- February 4--
G.O.P. formal
- February 6--
Girls' chorus at 3:10
Orchestra practice
- February 7--
Y.M.C.A. and Y.W.C.A. meeting
Girls' basketball

Training School Notes

There is to be a series of assembly periods in the training school. At this time not all of the pupils in the elementary grades will be included at once, but all of them will invite different grades to be entertained. The fifth grade entertained the third, fourth, and sixth grades recently by giving a play, "Fulton's Folly".

The second grade entertained the sixth grade by giving a two part program. The first part was a concert; during the second part they showed the sixth grade what they had been making such as illustrations of a story, toys made from compo board, and doll quilts. The applique work on the quilts was made by the children.

The fifth grade is giving an assembly very soon. The subject is to be "Pets".

The third grade is going to give an assembly for the others also very soon. They will give an entertainment for the others showing their exhibits of animals made from clay; also showing some mural decorations which will be finished by that time.

The fourth grade is going to present a program on great explorers they have studied.

One other interesting program has

been planned. The first grade is building a museum. When it is completed they are going to invite the others in to see it. They have already started the very interesting collection.

Rural Life Notes

Mrs. James I. Malott accompanied Miss Mabel Jorstad to Martell Thursday afternoon.

Miss Warden, supervising teacher for St. Croix county, visited the Red Brick and Valley View schools this last week. She gave some very encouraging reports for the practice teachers.

Mr. Alvin Jepson is going to take the four practice teachers out to Red Brick school the next six weeks. Misses Alice Thompson and Helen Stogdill are going to drive home each night.

The teachers who just finished their practice work resumed work Monday with the following program: History 8:00, School Management 8:55; Domestic Science 9:50, Manual 12:30, and Rural Art 2:20.

Nominations were made for Rural Life Club members for the rest of the year. The following nominees are to be voted on at the next club meeting: president, Margaret Brackey, Elsie Gfall, and Norma Callomore; vice-president, Doris Spreeman, Helen Kircher, and Gladys Blomgren; secretary, Helen Jorstad and Lucile Jackelin; treasurer, Gudren Anderson, Alton Moen, and George Bjork; chairman committee, Margaret Svec, Clara Severson, Joy Timmerman, Florence Blomgren, and Alice Thompson.

Stout Graduate Starts

Cotton Stocking Idea
Because France refuses to pay the United States the war debt, because Japan is embarked upon a campaign of aggression, and because these two countries furnish most of the silk stockings worn by the women of this country, Miss Georgia Aber, a graduate of Stout institute and now a teacher at Racine, has started a campaign for the wearing of cotton stockings among the girls of the Racine schools.—Eau Claire Leader

Campus Chips

WOMAN ANALYZED

A chemist (a man) reports that he has at last been able to analyze woman, and here it is: Symbol--WO. A member of the human family. Occurrence--can be found wherever man exists. Physical properties--all colors and sizes. Always appears in disguised condition. Surface of face seldom unprotected by coating of paint or film of powder. Boils at nothing and may freeze at any moment. However, melts when properly treated. Very bitter if not used correctly. Chemical properties--extremely active. Possess great affinity for gold, silver, platinum and precious stones of all kinds. Violent reaction when left alone by men. Ability to absorb all sorts of expensive food. Turns green when placed next to a better appearing sample. Ages very rapidly. Fresh variety has great magnetic attraction. Highly explosive and likely to be dangerous in inexperienced hands.—The Pathfinder

An Iowa coed analyzes man: Symbol: MN. A member of the human family. (Don't brag: remember the evolution idea.) Occurrence--can be found near women or food. Physical properties--odd colors, sizes, shapes. Has an eye for "loud" ties and socks. Extremely vain and conceited. Must be pampered and petted. Falls easily and often. Demands much undue attention. Has a tendency to be quite a cave-man. Fond of davenport. Chemical properties--very active; often quite wild. Sees red when certain women smile at other men.

There are more than 4,100,001 ways to part his hair. Imagines he possesses extraordinary ability to judge calves (not the barnyard variety, however). Really, it's marvelous how he can think of as much as he does with such a weak little brain.—The Pathfinder.

Did You Know That:

A movie, showing the life cycle of frogs, toads, and reptiles, was shown to the zoology class recently.

Jazz and classical music are broth-

er and sister to each other. Yes, but I've seen many sane sisters who had insane brothers.

Zorn would be no good as an M.D. He can't tell water from chloroform, so the reports say.

The Y.M.C.A.'s theories are not being followed as closely as they have been in times past.

A full jar will hold more than an empty one. A jar with a volume of one cubic foot will hold only one cubic foot of ammonia. Fill the jar with water and you will be able to put twelve hundred ninety-eight cubic feet of ammonia in the jar.

Out of nineteen boys working on farms there are no failures and only one condition. This is a very good average and it also has an edge on those working in town and those working at home. Of those working at home forty-two per cent had failures or conditions. Of those staying in town there was a still larger per cent of failures. F.C.H.
