RIVER FALLS STATE COLLEGE

MONDAY, APRIL 29, 1963

THE SPRING PROM is scheduled for Saturday night in the Karges Center. Here's a scene of the preparation going into last year's prom.

Debates, Forum Slated Here With Indiana U

Four students representatives of Indiana University's debate team will arrive here tomorrow for a two-day series of debates at area high schools and a public forum with four members of the River Falls debate squad.

A public forum will take place at 7:30 p.m. Wednesday, May 1, in Rooms 201-203 of the Student Center.

The public is invited. Fee cards are necessary for student admission; admission for the general public will be 50 cents. Audience participation will be encouraged.

The topic under discussion is: **RESOLVED:** That the United States should cease nuclear disarmament talks.

High school debates will be given May 1 at Osceola, St. Croix Falls and at Unity high school in Milltown by the four participants in the public forum.

Other high school debates will be given May 1 and 2 by four other debaters. Representing Riv-

er Falls will be Wayne Hendrickson, senior from Spring Valley and Tom Knutson, junior from La-Crosse. Pamela Smith and Michael Donovan will represent Indiana University.

The group will debate at Chippewa Falls Senior high school and McDonell high school in Chippewa Falls on May 1. They will debate at Spring Valley May 2.

Supporting the resolution for River Falls are Kae Walker, junior from River Falls and Judith Runkle, senior from Dallas.

Opposing the resolution from Indiana University are Thomas J. Johnson Jr. and Marjorie Nixon.

Dr. Robert C. Jeffrey, professor of speech at Indiana University, will accompany the Indiana team. He will speak to the Woodrow Wilson Committee and their guests at 8 p.m. Tuesday, April 30, in Rooms 101-103 of the Student Center. The topic of his speech is "The Desirability of College Teaching."

'Suddenly It's Spring' This Year's Prom Theme

"Suddenly It's Spring" is the theme of the spring prom sponsored by the Social Committee of the Student Senate this year. The dance will be held on Saturday, May 4, from 9 p.m. until 1 a.m.

The Swinging Scots from the Twin Cities area will provide the music. The price of admission is four dollars per couple.

The gym will be literally turned into a flowerland by night. Twenty large Cibotiums will be placed around the top of the bleachers. The floor area will be decorated with 24 palms, ferns and six large arrangements of blossoms.

Some 24 trellises with greens and cut flowers will be placed around the walls.

At the West end of the gym there will be a fountain and assorted plants. A false ceiling and entrance arch will be formed with ribbon.

The Student Center Activities Committee will serve punch in the Hagestad Center during the dance.

Cocktail dresses or formals will be the dress for women. Men may wear dress suits or dinner jackets.

Residents of Hathorn Hall will have their hours extended until 2 a.m. the evening of the dance.

OVER ONE THOUSAND BOOKS were collected by Foreign Students Assn. in their "Books for Korea" drive which ended last week. Pictured below packing some of the books are Hashem Amini, Iran, John Bruce, Ghana and Hai R. Kim, Korea. The students received assistance from many quarters. The Newman Club collected books from the high schools in the River Falls and New Richmond area. Many volumes were also contributed by students, faculty members and town's people.

Pauline Frederick To Speak in May

NBC's United Nations correspondent, Pauline Frederick, will be the guest speaker at the Associated Women Students Parents' Day. The event will take place on May 21.

All students are urged to invite their parents to the various activities.

The activities include a style show sponsored by Hathorn Hall at 4:00 p.m., a banquet at 6:30 in the Hagestad Student Center sponsored by Associated Women Students, and the evening program in the Karges Center which will feature Miss Frederick.

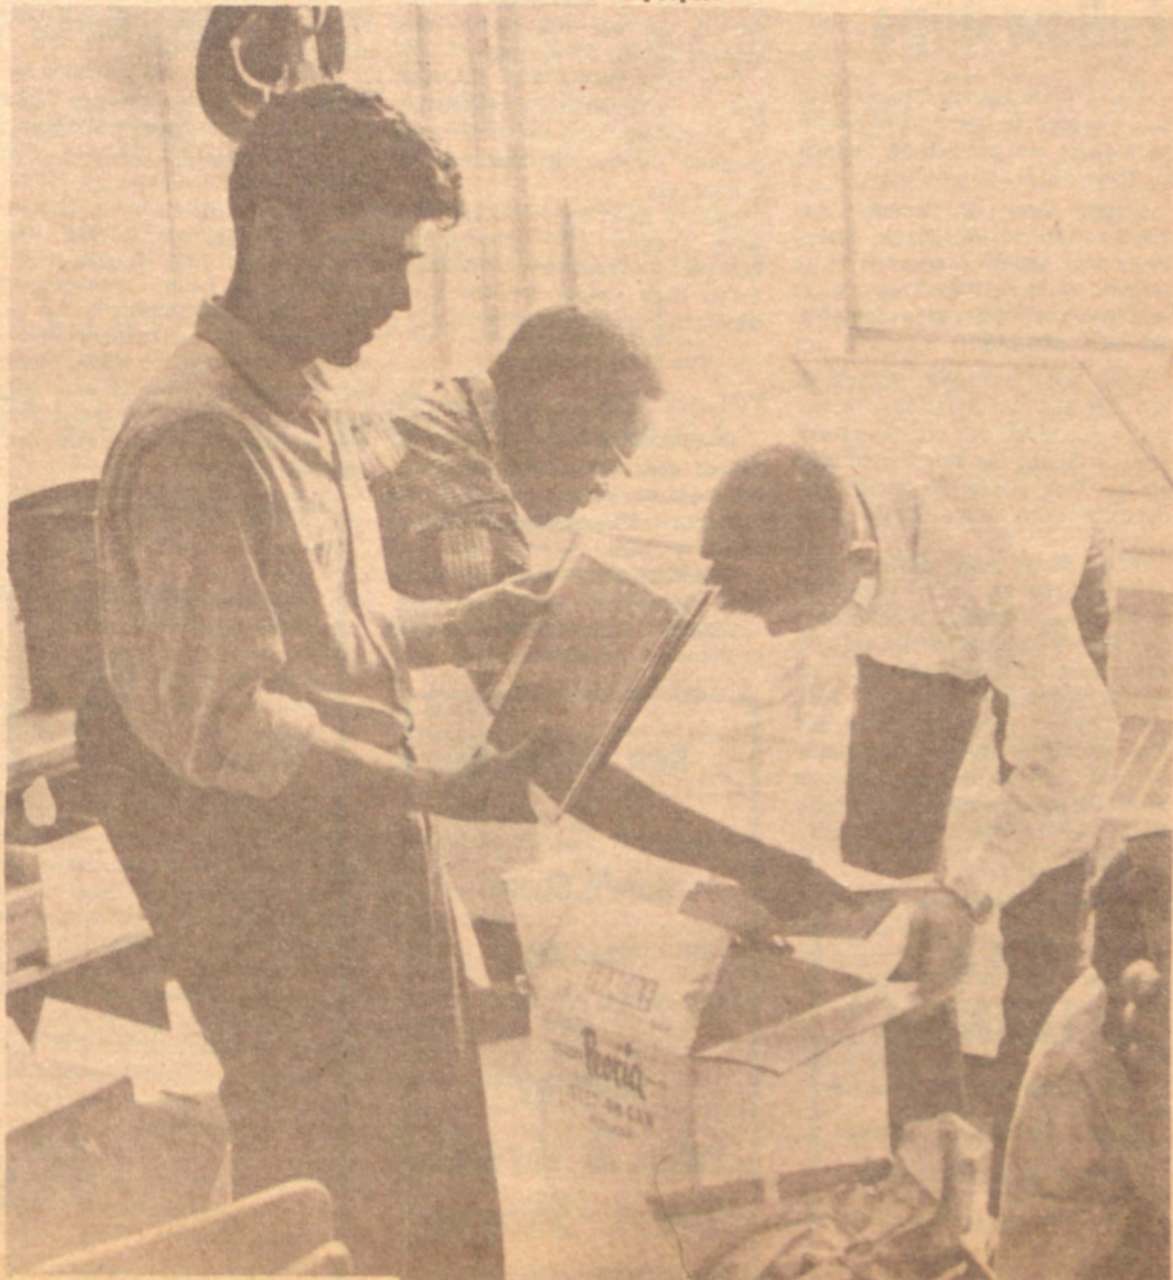

The AWS has two problems in planning its program with which the student body can help. The first one is support. Students are urged to invite their parents. The

second has to do with the dinner hour. Students whose parents cannot attend the activities will have to choose between eating from 4:30-5:30 p.m. in the main dining room--or in the Cage from 5:30-6:30 p.m.

An alternative would be a dinner at 7:00 p.m., an hour too late for convenient attendance by those who will want to hear Miss Frederick. Student opinion on this subject will be solicited later.

Banquet tickets are \$1.50 (or \$1.00 for students on the meal plan.) Lecture tickets are \$1.00 for parents, but students present-

ing an activity card will be admitted without charge. Tickets will be on sale from May 15 through May 17 in the Student Center.

Classes Elect Officers

Officers for next year's sophomore, junior and senior classes were elected on Wednesday, April 24.

The following candidates were chosen to serve in their respective offices.

SENIOR CLASS- 1964

John Hansen ----- president
Gerald Jenson --- vice president
Mary Ann Sandeen --- secretary
Ardy Hansen ----- treasurer

JUNIOR CLASS

Gene Smith ----- president
Daniel Brandenstein --- vice president

Lois Dow -- --- secretary
Robert Machacek ----- treasurer

SOPHOMORE CLASS

Harvey Stower - ---- president
David Pederson --- vice president
Beverly Froseth --- secretary
John Gilbert - --- treasurer

Approximately 760 votes were cast in this election compared to 651 cast last year.

Political Science Majors To Take Part In Mock UN

Five political science majors will take part in a mock United Nations session, May 26-28 at the University of Minnesota. The River Falls participants will represent the Federation of Malaya. Students taking part in the program will be Robert Richardson, Mike Mellgren, Paul Arneson, James Lukas and Vilas Nitithan.

The session will be made up of Security Council General Assembly meetings.

Students participating in the event have studied the policies of the country. The River Falls students received their information directly from the Malayan delegation in New York.

RF Students Receive AEC Fellowships

The Atomic Energy Commission has awarded fellowships in health physics to two graduating seniors at River Falls State College.

Ronald Berg of Cushing and Norman Millis of Black River Falls will attend Vanderbilt University at Nashville, Tenn., next year and work toward the master's degree in physics.

Both students have majors in physics and mathematics at River Falls and both will continue their studies during the summer of 1964 at the Oak Ridge National Laboratories, Oak Ridge, Tenn.

Four River Falls physics majors of previous years have AEC fellowships. Duane Hall of Roberts and Neal Prochnow of Gilman, 1962 graduates, are at Vanderbilt on health physics fellowships. Patrick Miller of River Falls and Tom Steele of Hudson, graduates of 1961, are in the second year of health physics fellowships at the University of Washington at Seattle.

Purdue Football Coach Slated For Coaches Clinic

Jack Mollenkopf, head football coach at Purdue University, will be one of the headliners at River Falls State College's 14th annual Coaching Clinic June 13, 14 and 15.

Sharing top billing during the three-day clinic will be Harry Combes, University of Illinois basketball coach, and LeRoy Alitz, wrestling coach at West Point.

Hudson Alumni To Meet Tuesday

The Hudson chapter of the River Falls Alumni Foundation will hold its spring dinner and business meeting Tuesday, April 30, at the Hotel Dibbo in Hudson at 7:30 p.m.

Dr. Robert Berg professor of political science, will be the featured speaker for the evening. His topic is entitled "Money, Politics and Education." Other items on the program include reports of the chapter's activities for the year and the election of officers.

The Purdue Boilermakers, known for their sound, fundamental defensive play and versatile offensive tactics, have won first division honors in the Big Ten four times in Mollenkopf's seven years as head coach. His Purdue teams have compiled a 33-22-8 record against some of the country's toughest competition.

Mollenkopf went to Purdue as an assistant coach in the spring of 1947 and took over a head coach in December, 1955. Before going to Purdue, the 1931 graduate of Bowling Green (Ohio) University had coached at Rossford, Ohio, High School and at Waite High School, Toledo, Ohio.

At Waite, his teams won the Toledo city championship six times and the mythical state championship three times.

Mollenkopf was instrumental in the reorganization of the Ohio High School Football Coaches Assn. and served as its president for two years. He also was responsible for organizing the first Ohio high school coaching school and promoting the first Ohio all-star high school football game. Both events have become annual fixtures.

YOUNG REPUBLICANS MEET TONIGHT

The Young Republicans will meet in the private dining room of the Student Center tonight at 7:30 p.m. All persons who are planning on attending the Young Republican, s convention this weekend in Green Bay must attend this very important meeting.

Walker Gets Newman Club 'Dimes' Scholarship

Robert Walker, a junior from Clinton, has been granted a \$500 scholarship by the Pierce county March of Dimes.

Walker, a pre-professional student, has been accepted by the University of Wisconsin medical school. He was one of four that applied for the scholarship.

The scholarship was the first one to be granted by the county organization. They were formerly granted through the national organization.

Others from Pierce county that were granted \$100 scholarships include two students from River Falls High School and one Ellsworth High School student.

State Colleges Near Graduating Seniors

MADISON -- Nine out of 10 of the seniors who will graduate from Wisconsin high schools this year live within 50 miles of one of the nine Wisconsin State Colleges, according to figures compiled by the Coordinating Committee for Higher Education (CCHE).

Last year only 4,632 or 9.6 per cent of the 49,062 high school graduates attended public or private high schools more than 50 miles, or an hour's drive, from a State College. Most of them live in northern counties.

Of those who graduated last June, 17,070 entered Wisconsin public and private colleges last fall, including 6,221 who enrolled in the nine Wisconsin State Colleges.

White a CCHE study shows that a majority chose State Colleges near their homes, many apparently made their decisions for other reasons, such as special courses offered at particular colleges.

For example, 232 or 24 per cent of the 986 graduates from Madison and other Dane County high schools who went on to college in 1962 now are enrolled in seven of the State Colleges as far away as Eau Claire and Stout (Menomonie).

The 766 Waukesha County high school graduates who entered Wisconsin colleges last fall included 201 to six State Colleges, 170 to the University of Wisconsin's Madison campus and 131 to the University of Wisconsin-Milwaukee.

The 4,446 Milwaukee County high school graduates enrolling as freshmen included 467 who went to seven State Colleges. They include 206 at Whitewater, 58 at La Crosse, 73 at Oshkosh, 47 at Stevens Point, 38 at Stout (Menomonie), 26 at Platteville and 19 at Eau Claire. Only River Falls and Superior have no Milwaukee County freshmen this year, according to the study.

Social Calendar Sign Up Asked

Members of any campus organization interested in obtaining a certain calendar date or a number of dates for their social activities during the 1963-1964 school year are asked to get in touch with the Social Committee as soon as possible.

The social Committee is preparing a definite calendar for next year's social activities and numerous dates are still open to any group that is interested in sponsoring a dance, jam session, etc.

The interested organization will be assured a date by sending a representative to the Social Committee meeting at 6 Monday evening.

SPRING SUFFERED A RELAPSE Monday when three inches of snow fell in the River Falls area. It melted the next day, however, and by the end of the week the temperatures were up in the sixties assuring everyone that Spring was really here.

River Falls Participating In Ford Teaching Program

River Falls is one of two state colleges participating in a cooperative teacher preparation program with the University of Wisconsin. The project is sponsored by a \$500,000 grant from the Ford Foundation.

River Falls State College was selected as a result of a survey conducted three years ago showing it to have the second highest ratio of doctorates in the area.

The experimental program is designed to attract two types of candidates. One is the well qualified undergraduate who is presently enrolled in a teacher education curriculum at any college or university and the other is the liberal arts student.

The education student may choose a semester of interning in an elementary or secondary school somewhere in this state to replace the standard student teaching program.

The program is essentially this. The student enrolls at River Falls State College in the summer and works toward the completion of a teaching major. If he does not have one, he takes work in professional education. He may also enroll in graduate courses at River Falls.

During a two-week work shop at Madison the student is introduced to team teaching by observing teams of interns now teaching in the state. He also plans his program for the coming year.

When the student returns to River Falls for the fall, he becomes a teaching intern and is paid a \$1,200 stipend.

At the present time there are three River Falls students participating in the internship. They are David Borg, Merrill Clark, and Peter Bronson. Borg and Clark are teaching at New Richmond. Bronson is at West Bend, Wis.

Sixteen other RF students, ten of whom are in secondary education and six in elementary, will take part in the Ford Foundation program next year.

Next year's interns have been personally selected by the college and the University of Wisconsin on the basis of academic and professional preparation.

Both freshmen and sophomores are urged to look into the possibility of applying for an internship. Questions about the program should be directed to either Dr. Allen Siemer, who is director of the program at River Falls, or Dr. Daniel Brown, the assistant director.

The River Falls State College interns who will be participating in the Ford program next year are:

ELEMENTARY

Barbarann Bergsrud, Wausau, 1st and 2nd grades; Mary Harcey, New Richmond, 1st and 2nd grades; Rebecca Junkman, Wausau, 1st and 2nd grades; Margaret Lindell, New Richmond, 1st grade; DeAn Wickboldt, New Richmond, 6th grade; Nancy Haller, New Richmond, 6th grade.

SECONDARY

Walter Culver, Amery, Music; Joan Frazier, New Richmond, Biology; Lorraine Gomez, Rice Lake, English; Dean Hauschildt, New Richmond, Biology; Larry Hos-

kins, New Richmond, Art; Chris Laska, Rice Lake, English; Joan Lensenlink, West Bend, Math; Lawrence Olsen, West Bend, Math; Donald Trudell, New Richmond, Art; Gail Vollert, Amery, Music.

Women's Dean Lists Housing Information

The Dean's office has released the following information concerning women's housing for next year and for the summer session.

Women students planning to register for the summer session who are freshmen or sophomores and are under 21 years of age must live in Hathorn Hall. Applications for room assignments should be made with Dean Knaak as soon as possible.

All resident freshman and sophomore women will be required to live in Hathorn Hall next year and to purchase board contracts. Junior women must also live in Hathorn Hall during the 1963-64 academic year but the board contract will be optional.

Senior women who wish dormitory housing and students interested in applying for positions as student counselors or assistants should see Miss Bowman before May 3.

Room choices and roommate preferences for all dormitory residents should be filed with Miss Bowman before May 15. Assignments will be confirmed as soon

Senate Kills Proposed Festival

The Student Senate reversed itself and voted last Monday to cancel the proposed Spring Festival this year. The warm-weather

Winter Carnival was voted down because of a lack of suitable events in which the student body would participate.

The proposed rodeo was received without enthusiasm and the Senate's opinion was that it would prove unsuitable to the needs of a Spring Festival. The Senate still

expects to sponsor activities but no special time will be allotted from the class-week for the festivities.

Among other business transacted was a grant to the publications department of \$45 for mileage money for those attending

the State Publications Convention at Oshkosh. The Annual Convention is a workshop and lecture series for journalists.

Possibilities for next year's Homecoming Chairmen Student Director editor, Prologue editor, Personnel Committee, Athletic Committee, Library Committee, and Development Committee, per-

sonel were suggested by the senators. These persons and others interested will be interviewed and the appointments will be made at the next Senate.

College 4-H Plans State Fair Exhibit

Collegiate 4-H State Fair Exhibit

Wisconsin State College at River Falls will be represented at the 1963 Wisconsin State Fair at Milwaukee this summer according to plans of the Collegiate 4-H Club.

Members of the local organization have enlisted the services of various groups on campus to assist in plans to construct and operate an exhibit at the fair in August.

The purpose of the exhibit will be to stimulate interest in the College among the people of Wisconsin and neighboring states and to answer questions about River Falls.

The River Falls exhibit will be in the "Wisconsin at Work" building which has an average traffic volume of a half-million people each year. The Collegiate 4-H Club has arranged for a special educational rate for space in the building which is two-thirds the standard commercial rate.

Working on a possible design for the exhibit are members of the design 42 class taught by Kurt Wild. A series of color slides, depicting campus scenes, also will be incorporated into the exhibit.

Special brochures will be printed and will be distributed by members of the Collegiate 4-H Club operating the exhibit.

Foreign Students Help In Korean Book Drive

By LORI GOMEZ
Voice Staff Writer

Last week, the Foreign Students Assn. in conjunction with the Student Senate, sponsored a "Books for Korea" drive as an expression of affection and awareness for the educational needs of Korean students. As a result of the drive, books were collected.

The books are being sent through the Asia Foundations to the World University Library in Seoul and to

Professor Chung, a principal of a Middle School and father of one of last year's River Falls graduates, Chin Ouyee Chung, who is now at the University of Kansas.

Books of all types, ranging from anthology to children's books, were brought to Room 100 of the Student Center to help the student community of Seoul, which consists nearly 50,000 students who need all the assistance possible. The books are needed to help improve the library facilities that suffered such devastations during the Korean War.

The schools in River Falls and the Sheridan Schools in St. Paul were contacted in the book drive.

There are 800 colleges belonging to World University Service, one of which is River Falls. The Student Senate selected the Foreign Students Assn. to carry on the WUS on campus and the book-drive is only one of the many projects expected.

The theory back of WUS is to raise money or material to help students in developing countries help themselves. The type of services rendered by WUS include student help, food and lodging, educational activities, individual and emergency aid.

In both long-term and emergency programs, WUS has demonstrated a consistent ability to act affectively on behalf of its far-reaching constituency. Moreover, this activity is often far in advance of world opinion, pointing a way and setting the pace for agencies and governments eventually to follow.

Sponsors of WUS in the United States are B'Nai B'Rith Hillel Foundations of American Universities, National Newman Club Federation, National Student Councils of the YMCA and the YWCA, and United States National Student Association.

after this date as possible.

Hathorn Cottage will not be available for student housing during the coming academic year. Seniors who do not wish to live in Hathorn Hall may select their rooms in any of the following college approved homes.

Mrs. S. Grant, 414 East Cascade, 5-2331.

Mrs. W. Griffith, 220 So. Fourth, 5-2569.

Mrs. Bud Berquist, 214 So. Fourth, 5-2784.

Mrs. D. Holt, 126 No. Third, 5-2218.

Mrs. R. Kurtz, 410 Seventh, 5-2226.

Mrs. F. Kurtz, 120 Fifth, 5-2622.

Class Elections Confusing

The election of class officers in last Wednesday's election proved to be a mixed up affair to say the least.

A VOICE reporter spent two hours trying to find the signed petitions so the paper could learn who was running for which office.

The class presidents didn't have the petitions and suggested the Dean's office. The Dean's office had had the petitions but had taken them over to the Student Center director's office. At the director's office some of the petitions were found. No one, however, had the slightest idea where the rest were, but suggested checking with the class presidents.

When the presidents were checked again they referred the reporter to an election chairman who was suppose to know what procedures were being followed. The election chairmen didn't know any more than anyone else and suggested checking with the class presidents.

How the ballots ever got printed with the right person running for right office remains a mystery, but then miracles have been known to happen in the past.

From this it would seem that some system of organization would be in order for future class elections.

Perhaps the petitions ought to be handed out and collected in the Dean's office so at least they could be found.

Since the class presidents are members of the Student Senate, and the Senate is technically in charge of all elections, the presidents ought to form a committee to take charge of the whole affair. They could work out a single ballot, select students from the various classes to work the polls and count and ballots, thus eliminating a lot of needless confusion.

Let's Get Voting Booths

One way which has been suggested to improve college elections here at River Falls is to use polling booths such as those used in city and state elections. It is said this would not only make the elections look more like elections but would also insure secrecy of the ballot.

This idea has merit and is one which ought to be put into practice.

Arrangements could probably be made with the city for the use of their polling booths. This has been done in other college towns and it has worked out very successfully.

Hoffa Interview Interesting

(Reprinted from the La Crosse RACQUET)

In a recent NBC TV program, David Brinkley discussed the Teamsters Union and, especially, its leader, James Hoffa. The last fifteen minutes of the program were dedicated to an interview with Hoffa on his personal philosophy and his experiences as Teamsters head. The most interesting part of this interview dealt with Hoffa's observations on the nature of Congressional investigations; despite the disrepute in which this man is held, I found these observations to be both forthright and profound.

Hoffa stated that a Congressional committee investigation has an aura of sanctity not possessed by any other investigating group. In fact, it can and does characterize itself as the elected avenger of the people. Thus, those who are investigated can only be assumed to be, because they are being investigated by such an august body, the prime foes of the public. Hoffa's contention was that those who appear before these committees are not always the worst enemies of the people, but, invariably, they are those people who can garner the most publicity and political advantage for the investigators.

Perhaps the most interesting part, however, concerned the investigating tactics of the McCellan Committee. Hoffa stated that witnesses are often asked to recall specific incidents that had occurred fifteen to twenty years previous and, when they stated that they could not remember exactly, were accused of evasion. This forced many a witness, under pressure from the questions and the presence of reporters and the radio and TV paraphernalia, to make a difficult decision; he could answer the question and run the risk of being tried for perjury if his answer was inaccurate or he could take the Fifth Amendment and avoid answering at all, though at the risk of being accused of concealing evidence. In this situation, many witnesses were forced to take the Fifth Amendment and, in many cases, were thought of as being as guilty as if they had confessed to something.

These observations were to me very timely, in view of the recent controversy over the House Un-American Activities Committee, and not without value in an honest appraisal of the accomplishments of Congressional investigators in the past.

--Bruce Vandervort

Budget Asks More Scholarships And Teacher Improvement

(This is the second in a series of excerpts on the proposed budget of the state colleges made by the report of the Subcommittee on Higher Education of the Joint Committee on Finance.)

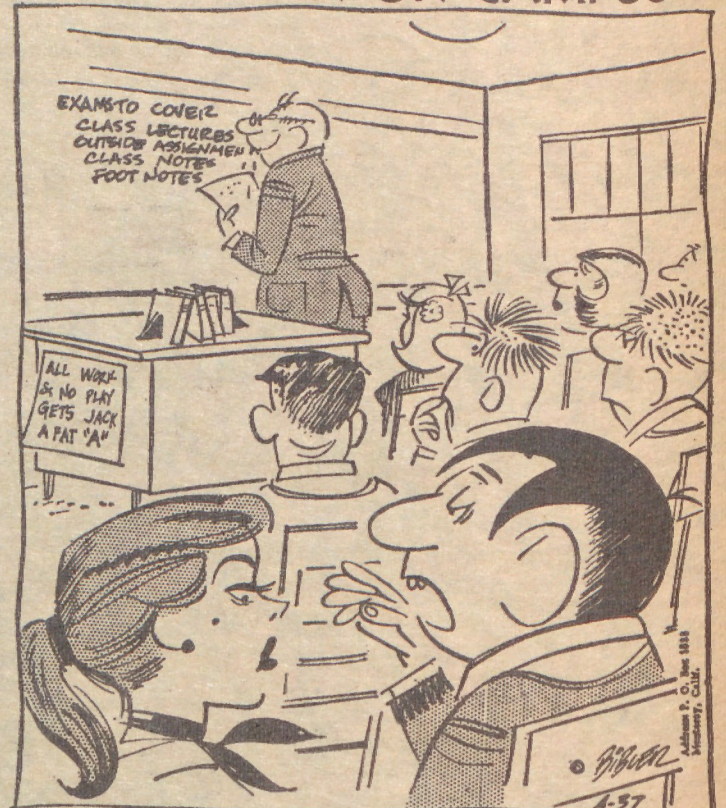

This program is designed as a positive approach to the problem of faculty recruitment. It would allow the state colleges to recruit outstanding graduate students who have not completed their PhD degrees, and offer them the opportunity to participate in a stipend program. After an initial year or two of teaching, during which their performance as teachers would be judged, those showing promising ability would be invited to compete for stipends which would provide them one-half year at full pay or one year at half pay to return to the graduate schools to complete their PhDs. In return for these grants, they would be committed, after completion of their PhD, to returning to the college for some specified period of time, probably two or three years. In this way, the colleges could recruit those teachers who would be desirable in the long run but who would not be sought by the universities and top private colleges because they have not completed their PhD degrees. In the process of going to the college for the trial teaching period and then returning to fulfill his contract stipend, the teacher

would very likely become sufficiently established in the community and school to remain for several years.

We believe this program has tremendous possibility and evidences outstanding foresight on the

part of the administration in requesting its enactment. We believe it is an extremely refreshing approach to the teacher recruitment problem at the colleges and may

LITTLE MAN ON CAMPUS

Although Mr. Harless tried to disassociate himself from these delays, we feel that Mr. Harless deserves a vote of thanks from the student body (those that received their annuals) for his perseverance in the face of technical difficulties.

Sincerely Yours,
Robert B. Beesen, Jr.
Claudia Graske
Leah Pitzer
Ted Fleming
Cy Durrand
Kristin Engebret
Darlene Erickson

LETTERS TO THE EDITOR

Dear Sir:

On the occasion of the distribution of the 1962 Meletean, we would like to take this opportunity to congratulate the advisor of that ill-fated book, Mr. James Harless.

The delays in getting out the 1962 book are as well known to River Falls students as the delays in "Cleopatra" were known to the world.

Our opinion

By ROBERT BEESON

The formation of the Greek Letter Council by the Student Senate is a wise move. It should be generally recognized that fraternities and sororities will present special problems of their own, and need a special governing council. The Student Senate is to be recommended for its foresight in establishing this council.

Speaking of the Student Senate, we would like to congratulate the new members of the Senate, Paul Arneson, Vince DiSalvo, Morgan Graham and Hampton Wilmot.

The importance and responsibility of becoming a Senator cannot be understated. The election of these four should provide next year's Senate with a strong foundation, along with the returning Senators.

We would like to raise one small question with the election, however. This is not intended to be an expression of dissatisfaction with the three incumbents, but is intended as a questioning of the procedure of election. A hypothetical case will do.

Let us suppose that there are to be only three returning Senators, such as was the case this year.

Let us further suppose that one of these Senators was not diligent in carrying out his duties as Senator, and that fact was generally recognized around the campus. In the election held, this Senator did not receive enough votes to be re-elected. Is the

supposedly democratic process of free choice waived in this case? Is the decision of the student body to be cast aside because there

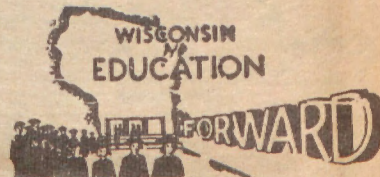

is a clause in the Constitution that states there will automatically be three incumbents re-elected? We would hope not.

The only solution is to change the clause in the Constitution, or better yet, strike it out completely. The incidental fact of prior service is not, we feel, an automatic qualification for re-election to a post that requires such demanding performance.

One more sidelight on the election. It is an interesting fact that not one woman was on the final ballot. Only one, as a matter of fact, even bothered to enter the primary. Is this signalling a start of a trend?

It has been many years since an all-male Student Senate was elected. It has not happened since were have been here.

The women in college today will also become the leaders of tomorrow. The right to lead is not an exclusive franchise of the male population. We hope the coeds recognize this fact and will volunteer their services for the various important posts that must be filled. These include appointments to the Student Center Governing Board, the Social Committee and the various Personnel Committees.

Presidents of the nine Wisconsin State Colleges recently completed a study to determine the home counties of their Wisconsin students. They obtained information for the present student bodies and for those at the Colleges in 1958-59. Among their findings were these:

All of the 72 counties are represented among students at the Colleges.

Milwaukee County leads both in the total number of students at State Colleges and in the percentage increase since 1958.

Five of the top 10 counties do not have a State College in the county.

Percentage increases of more than 100 per cent are shown for five counties -- Milwaukee 235 per cent, Ozaukee 224 per cent, Waukesha 170 per cent, Door 119 per cent and Dane 101 per cent.

Percentage increases are greater when comparing freshmen classes in the two years, with Ozaukee up 312 per cent and Milwaukee up 308 per cent.

The study was made under the direction of President E. H. Kleinpell of the College at River Falls, chairman of the WSC Council of Presidents. In the first semester of the present school year the State Colleges had a total of 20,551 students, including 18,410 Wisconsin students. Four years earlier there were 13,678 students, including 12,759 Wisconsin students.

Counties with the most students now attending the State Colleges, and their 1958 enrollments, are: Milwaukee 1,087 and 323, Winnebago 1,059 and 754, Eau Claire 854 and 581, Douglas 837 and 646, La Crosse 824 and 735, Dane 673 and 334, Waukesha 541 and 200, Rock 495 and 309, Grant 465 and 450, Fond du Lac 453 and 257.

Biggest percentage increase was reported for Florence County freshmen. The number increased 1100 per cent, from 1 in 1958 to 11 last fall.

The State Colleges are at Eau Claire, La Crosse, Menomonie (Stout), Oshkosh, Platteville, River Falls, Stevens Point, Superior and Whitewater.

Drama Groups Elect Officers For Next Year

The Iota Beta cast of Alpha Psi Omega, National Honorary Dramatic fraternity, elected their officers for the coming year on Tuesday, April 23. Alpha Psi Omega consists of students that have been recognized for their contributions to theatre and dramatics on this campus, and is affiliated with the National Fraternity of Alpha Psi Omega.

The newly elected officers are the following: president, Thomas Brucks; vice-president, Steven Hay; recording secretary, Mavis Grover; and treasurer, Anne Kingsbury.

At the April 24 meeting of Masquers, the following persons were elected officers for the group for the 1963-64 school year.

President, David Frazer, vice president, Mavis Grover, secretary, Barb Larson, and treasurer, Thomas Vest.

PEACE CORPS PETITION BEING CIRCULATED

Students on campus are circulating the following petition, which will be sent to the United Nations:

"Recognizing the achievements and goals of the United States Peace Corps, we the undersigned endorse the work of the International Peace Corps, and urge the establishment of Model Training Centers immediately. We support the promotion of volunteer service programs in all countries on the face of the earth."

THE HOUSTONE WOODWINDS in concert Tuesday at an all school convocation.

**Music Review
Houston Woodwinds' Concert Provides Excellent Convo**

The students of River Falls owe the Concerts and Lectures Committee a debt for bringing the Woodwinds of Houston to our campus. This group is as fine an example of excellent musicians as one will find.

The program was presented Tuesday, April 23, in North Hall Auditorium. The group was introduced briefly by Dr. William Abbott of music department. From

this point on, however, Raymond Weaver, oboist, announced all the numbers. It is hoped that students of music here notices the magnificent stage presence these men had. Students would do well of emulate them in their concerts.

The program consisted of eight numbers. From the first note of "Passacaille" by Barthe, it was obvious that these gentlemen were masters of their instruments. In Paul Hindemith's "Quintet for Woodwinds," the spritely and mirthful flute was a pleasure to hear; the soft French horn notes, exquisite.

The third presentation was "The Chimney of King Rene" by Milbaud. The mellow and sonorous sounds created by Paul Tucci on the bassoon and the rich French horn notes by Thomas Newell were especially pleasing.

"Blues" by Schuller was excellent. Here in this piece were some of the lowest and most difficult notes that a French horn player will ever find. Newell played them with ease.

Falcons Split Double Header

River Falls and La Crosse split their baseball doubleheader at Ramer Field Saturday. River Falls took the first game by a 7 to 3 margin and La Crosse eeked out a 3 to 2 win in the nightcap.

Ed Gregorich received credit for the Falcon win. He started strong, facing the minimum number of batters for the first four innings. Coach page said, "Gregorich pitched a real strong game."

Gregorich gave up four hits, one walk, and fanned four in his winning effort. This evens his season record at one victory and one defeat.

Wayne Jarvinin and Glenn Stuve led the Falcon hitters, getting

five of the team's ten hits. Jarvinin had three hits in four attempts while Stuve had two safeties in three tries.

"We hit the ball real well," Coach Page said after the game.

River Falls jumped off to a two run lead in the first inning and was never caught. The Falcons were in control for the entire game as they went into the final inning with a seven to one lead.

River Falls lost the second game despite the strong hurling of John Boortz. Boortz fired another four hitter at the Indians, but the Falcons could only get three hits themselves. Boortz, Johnson and Tichnor were the only Falcons to hit safely in the second game.

This tight pitcher's battle was finally decided by a lead off homer in the fifth inning by Dick Johnson, the Indian catcher.

The loss evened Boortz' record at three wins and three losses and evened the team's record at four and four.

I-M Softball

Schedule Begins

The intramural softball program got underway this past week with most of the 26 teams reporting scores.

The Hustlers rang up two victories, 15-1 over the Crib-Kickers for their first win. The Cross-roads proved harder to down as they hung tight until the last inning, finally losing 8-7. Larry Houser was the winning pitcher on both occasions.

The Steve Allan All Stars eeked out a 2-1 win over Prucha Plus Three in a tight pitchers battle. Winning chucker, Curt Hoard, and loser, Dave Jensen, each gave up only two hits and both struck out eight men. Dave Zoelle's homer was the difference in the tight contest.

The Week Twelve won two in a row, pounding the Dirty-socks 20-9 and then up-setting the Steve Allan All Stars 4-1. Chuck Kutz pitched both games for the winners. Harry Johnson's pop fly triple with the bases loaded provided the winning margin against the All Stars.

The Cellar Dwelling Ceiling Seekers clubbed the Churchkeys for 30 runs while giving up nine. Ed Mathison was the winning chucker John Rubin was the loser.

The Spit Fires split a pair of games squeezing out a 8-7 win over the Epicureans and losing to Stubby's 16-7.

Prucha III West errored a gave away to the Barrack's Barracudas. The Barracudas showed plenty of life as they rang up a 24-4 score.

The Gallupin Corps dropped a pair of games, 25-3 to the Dirty Socks and 22-10 to the Buzzards.

The Herd out slugged the Exports 17-12. John Hogan turned in some fine definsive plays and Fred McKenzie homered for the Herd.

Herd. Marc Delong won in relief as he held the Exports to four runs over the last four innings.

THIS IS GOLFING WEATHER??? The Falcon Golf team stands outside Karges Center with Coach Bergsrud after returning from Winona. The climate at Winona was bad, but the team didn't seem to mind as they knocked off two tough opponents.

Linksmen Upset Champions For First Win of Season

The fold team traveled to Winona last Monday and upset two state champions, Winona State and La Crosse State, in a triangular meet. The match was limited to nine holes due to the 30 degree weather and driving sleet and snow.

The weather failed to stop the Falcon's "Big Three" as Dave Stone fired an even par 35 to capture medalist honors. Stone was

followed closely by Jim "Bullet" Stolzman with a 36 and "Steady Eddie" Ganske with a 39.

The Falcon Linksmen edged Winona 51/2 to 41/2 and beat La Crosse by a 6 to 4 margin.

La Crosse gained revenge on Saturday as they clipped the Falcon's wings with a 9 to 6 win. The match was played at River Falls.

"The Long Knocker," Dave Stone, was top man again as he toured the par 70 course with a 38-35 for a three over par 73. Close behind were teammate Stolzman and Phil Toussaint of La Crosse, each with a 74. Ganske had a 79, Bob Wells shot an 83 and Dick Fiske had an 85 to round out the Falcon's attack.

Four of the five Indians golfers shot sub-80 rounds to account for the La Crosse Victory in match medal play.

The Falcons will entertain Bethel and Eau Claire tomorrow. Next Monday the team will travel to Menomonie to meet arch-rival Stout State.

Math Meeting This Week

The Math Club will elect officers for the year this Thursday at a picnic meeting in Glen Park.

The nominees are Donald Froelich and Evangeline Scott for president, Keith Selbrede and Roger Vanous for vice president, Christine Miller and Lynn Smith, secretary-treasurer, and Daniel Brandenstein and Frank Brown for publicity chairman.

Net Team Beats Pipers In Season Opener; 6-3

ST. PAUL, MINN. -- "It certainly was a long afternoon," said Coach Byron James. It was, however, a profitable one for the fledgling Falcon tennis squad.

In their opening match of the season, the six freshmen from River Falls defeated the Hamlin Pipers by a six to three score, last Saturday. Mark Harris, Al Camer, Saunders Howse and Randy Klink won their singles matches while Pete Falkman and Paul Anderson were beaten.

In the doubles competition, Harris and Falkman were beaten 4-6, 4-6 while Anderson and Camer took a 6-2, 6-2 match and Howse and Klink won 6-1, 7-9, 6-2 in a contest that nearly developed into a marathon.

Klink, a native of River Falls, played longer than anyone else. He took a long time to defeat Dave Mutchles in his singles match 6-1, 0-6, 10-8. He was also part

of the only doubles match which required three games to decide. Thus Klink was involved in the two longest matches of the long afternoon.

Mark Harris, the number one man for the Falcons, was beaten by Dick Strohkirch in his first game. He then switched to another racket and downed Strohkirch 2-6, 6-1, 6-1.

On the next court, Mark Strohkirch solved the "big serve" of Pete Falkman, the Falcon's number two man, to salvage a 2-6, 6-2, 6-3 win.

The two Hamlin brothers then teamed up to bear Harris and Falkman in the doubles.

The tennis team will have little chance to rest in the near future as they have six matches scheduled for the next two weeks. They play host to Bethel at 1:30 tomorrow.

Indians Scalp Falcons; Headley Takes Sprint

"La Crosse is a powerhouse" were the words Falcon sprinter Butch Headley used to describe the team that had downed both River Falls and Winona in a triangular track meet last Thursday at La Crosse. La Crosse scored 95 1/2 points to 29 for Winona and 27 1/2 for River Falls.

The Falcons scored most of their points in the sprints and middle distances. Of their 27 1/2 points, only 4 1/2 were scored in the field events and none in the distances. The meet was clearly a case of depth versus lack of depth. La Crosse has more men on their squad than River Falls and Winona combined.

the best individual performance for River Falls was without a doubt turned in by "Mr. Consistency" himself, Butch Headley. Headley won the 100 yard dash and the 220 to give River Falls its only individual firsts.

Butch had a rather unusual day on the rain-soaked La Crosse track. For one thing, he was forced to run the 100 with the aid of blocks.

In the 220, Butch had to come from behind to win after his La-Crosse opponent had had an unbelievably good start. Butch did have blocks in this race.

The only other first for River

Falls was scored by the mile relay team of Tom Bosman, Glenn Mc Naughten, Jerry Jensen and Danny Mc Farlene.

"This was the first time we ran this race," Coach Christainson said afterward.

son said afterward. "Our boys did an exceptionally fine job." The team won by a good 20 yards.

Mc Farlene and Bosman were mentioned once again for their second and third place finishes in the 440. These two Falcons pushed each other the whole distance and finished the race with identical times.

The next test for the Falcons will take place this Tuesday when River Falls, travels to Northfield, Minn. to take on St. Olaf. This coming Saturday, the Falcons will be here for a triangular meet. Coach Christainson is confident that River Falls will win the rematch.

Sen. Ribicoff hopes that the first national olympics can be staged this year in preparation for the 1964 Olympic Games in Tokyo: "If the details can't be worked out in time this year, then no effort should be spared to launch the program in 1965--and continue it every year thereafter," he declares.

Sen. Ribicoff Proposes Annual National Olympics

NEW YORK -- Connecticut Senator Abraham Ribicoff proposed an annual national olympics as the solution to America's slumping athletic prestige following Russian victories in the 1956 and 1960 Olympic Games.

The former Secretary of Health, Education and Welfare and head of President Kennedy's Council of Youth Fitness urges an emphasis on the "minor" sports, such as fencing and gymnastics, which are neglected in this country but at which many other nations excel.

Writing in the current issue of SPORT magazine, Sen. Ribicoff

blames our second-place finish to Russia in the unofficial team point standings on a concentration of victories in only a few of the 20 sports on the Olympic program: "It adds as many points to the team score to place first-- or second, third, fourth, fifth or sixth-- in a bicycle or canoe race as in the 100-meter dash. A victory on the parallel bars or with the saber is as important as a diving championship."

Besides providing outstanding athletes for all Olympic categories, Sen. Ribicoff maintains that a national olympics would help pro-

mote physical fitness among the nation's young people. It also would build the prestige of the little-recognized sports:

According to the Senator's plan, the U. S. Olympics could supplement or replace whatever national competitions exist in the various sports. A series of state and regional eliminations would take place, with public interest building up gradually. Then, around Labor Day week, the finals would be held. A different city would play host each year.

FINISHING STRONG in the quarter mile event at La Crosse, Danny Mc Farlene makes a desperate attempt to overtake his Indian rival at the tape.

Aqua Fantasy Draws Big Crowd

The Syncho-Paters, synchronized women's swim team, presented their first full scale program to the college students last Thursday. The show had been presented on Wednesday for the Campus Lab School.

Over 250 people jammed the 200 capacity natatorium for Thursday's performance. The show was favorably received by the students, many of whom stood for the entire show.

Heidi Flueger and Cathy Linden were especially well received for their work on the "Norway Fantasy." The Norway skit was planned and directed by Miss Marilyn Hinson, advisor to the Syncho-Paters.

Miss Hinson stated that the performance on Thursday had not been as good as the one which had been presented the night before. She pointed out that this was the first time that most of the girls have done anything of this type.

GYRATING HER WAY through her Germany skit in the Aqua Fantasies is Laurie Overholt.

College Lab Farm Hosts Ag Techniques Contest

The 1963 Agricultural Techniques Contest was held at the college farm Saturday. The contest, in its third year, is an evaluation of the skills and ideas learned by high school students in their Vocational Agriculture classes.

This year, the winning team was from Loyal with instructor Carl Lawrenz. The team compiled a total of 1,384 points out of a possible 2,000.

The next seven placings listing school and instructor were as follows:

2. Rice Lake Don Triebensee and Stanley Bergum.
3. Boyceville Gilbert Sykora
4. Clear Lake E. J. Greschner.
5. Bruce Eldon Skogen.
6. Menomonie Archie Abbot.
7. Spring Valley Walter Hansen.
8. Amery G. E. Niccum.

ville or did he give up? Britson said he passed him on the road about two miles back and he had been chasing a baseball for a couple of little kids.

What seemed like eternity, but was in reality only 20 minutes passed before Ruben came smiling in. Everyone let out a big cheer for him. But we knew that nothing fast can be expected from guys that come from Rice Lake. It's in the books and is a proven point.

I'm glad now when I look at my sunburn, blisters and sore legs that I'm only a pledge for a fraternity once in my life. I feel sorry however for the other 11 guys who have to take the final Wednesday night. Good Luck, guys!

The contest is steadily growing in favor as the number of contestants has tripled since its inception. In 1961, 18 schools and 168 participants took part in the contest. This year, the contest drew 30 high schools from the Northwest area with 480 students participating.

The contest is broken down into ten fields in which two-man teams from each school compete. Each team can compete in only one division. The divisions are as follows: agronomy, dairy, electricity, farm management, feeds, livestock, machinery, safety, soils and welding.

The winner of the over-all contest is determined by adding the team scores in each of the individual contests. This provides a rather thorough evaluation of a school's agriculture department, as the final team score is determined by the scores of twenty individuals.

It must be understood, that if a team enters all ten contests it stands a much better chance of winning the team trophy. In addition to a team trophy, certificates are awarded to the top individuals and teams in each of the ten contests.

Other schools participating in this year's contest were Barron, Cumberland, Ellsworth, Elmwood, Glenwood City, New Auburn, Osceola, Prairie Farm, Prescott, St. Croix Falls, Turtle Lake, Durand, Eau Claire, Hudson, River Falls, Augusta, Black River Falls, Colby, Flambeau, Mondovi, and Fall Creek.

Phi Nu Chis Almost Hike to Ellsworth

By MORGAN GRAHAM
Voice Staff Writer

(The following account of a hike to Ellsworth was written by VOICE staff writer Morgan Graham who is a pledge to Phi Nu Chi.)

Cries of protest greeted the statement the Phi Nu Chi pledges were to go on a hike to Ellsworth and back on Saturday, April 27. We wondered if being a pledge to Phi Nu Chi was worth it or not. Actually we knew it was, but we lacked the ambition to go on a hike no matter how far it was or what the end results were.

Finally, the big day arrived and the group started off for its destination at 10:30 a.m. Out of 18 pledges the only ones who came were Ben Meentz, Bill Murphy, Mick Olson, Bob Pritchard, John Ruben, Al Runkle and this reporter. We were led by our pledge-master, that old "raunchy stanchy" man Lee Zaborowski. I should say Lee Zaborowski, sir! This is a little tidbit that pledges have to put after every sentence that is uttered to an active member.

We walked until 11:30 making fairly good time. Everyone was enjoying themselves, but who can't when they hear some of Murphy's jokes. Finally, Zab, I and two of the other fellows decided to jog a little. This, to our surprise, felt good to our already ailing legs. However, we had to wait about five minutes, while the other "athletes" caught up.

After a while, Mick, Bob and Bill ran ahead of the pack and got off in the distance pretty far. I got to thinking that maybe they had some "goodies" stashed away, so I sprinted ahead to catch up with them, but to my dismay, found that they had nothing.

We kept a pretty good pace going. We had to because Zab was trying to catch up with us and we did not want him to. By this time he was a half mile behind us. Ben, who had been going like mad, finally caught us and just in time, because just ahead there was a STUDENT VOICE photographer to capture the event for posterity.

About 12:20 we came to Beldenville and were met by a few dogs who caused us to run faster than we had before. Up ahead, we knew was our destination. Three of the actives, Chuck Britson, Bob Kissling away. Murph started to jog us in a car at this point chuckling away. Murph started to jog a little, so Ben and I lit out after him and passed him up.

We ran under a railroad trestle and there to our surprise we dis-

covered a grove that was very shady. We stopped, and guess who was there? Britson, Kissling and Peterson. A couple minutes later, Bob, Mick and Murph came panting in.

Ten minutes later, Sir Zab and Al came "floating" in. But where was Ruben? Did he make friends with one of the dogs in Belden-

well be a factor in not only assuring an adequate supply of teachers by accomplishing it at a long range lower cost. The colleges request thirty grants in 1963-64 and an additional twenty grants in 1964-65 which we believe should be granted.

This request is included to allow a slight increase in the hourly rate paid student help and to provide additional student help for faculty members. We believe the wise utilization of student help on the campuses is worthwhile in that it can be secured at relative low cost and it provides opportunities for students to earn part of the cost of their education.

Recommendation: THAT THE REQUEST OF \$79,500 BE GRANTED.

COMPUTER CENTERS

The colleges are requesting \$75,000 to establish a computer center to serve the colleges at River Falls, Menominee and Eau Claire. The Center would be used primarily for instructional purposes and for research computations, and would be mounted on a trailer for easy movement among the colleges. This equipment can currently be obtained from the IBM Corporation at a 60 percent reduction from its usual cost because of its use for educational purposes.

We believe there will be continuing utilization of computers and electronic data processing in the fields of education and research. However, we feel that this request necessitates a value judgment as to whether this kind of a program is needed in this biennium or could be deferred until some later time. Therefore, we will recommend temporary exclusion or deletion of the request but recommend that the committee as a whole consider this request in detail.

Recommendation: THAT TEM-

State College Budget

(Continued from page 4)

PORARILY THE REQUEST FOR \$75,000 FOR A COMPUTER CENTER BE DELETED.

SUMMER SESSION SALARIES

This request is for funds to increase the salaries paid to summer session faculty from the current factor of 2/11 of their academic year salary to a new schedule of 20 per cent of the academic base.

We believe that the need for increasing faculty salaries for the summer session at the state colleges does not represent the same kind of problem as it down at the University where it is more difficult to recruit summer session teachers. In the state colleges, teachers are more willing to participate in the summer programs because they have less opportunity to do private work as consultants or less opportunity to participate in summer time research and travel programs. It

is not our intention to suggest the permanent establishment of two different policies for summer session salaries, but we do feel that because there are currently more recruitment problems for summer session programs of the University than for the state colleges, that the increased salary request for the State Colleges can be deferred to the next biennium.

Recommendation: THAT THE REQUEST FOR \$110,000 BE DENIED.

LIBRARY SERVICES

For some years the legislatures have approved a program of improving library book collections and library services at the several colleges. This program has included the completion of new libraries on eight of the campuses, expanded book purchasing and increased services and hours of service to the students. Funds in the

amount of \$375,000 have been requested for 1963-65.

We believe that this program of improving the marginal libraries which have existed on the campuses should be continued so that the colleges library program can approach recognized higher education standards. We believe, however, that since some progress has already been made that part of the request can be deferred.

Recommendation: THAT THE LIBRARY IMPROVEMENT PROGRAM AS REQUESTED BE GRANTED WITH THE EXCEPTION THAT THE ADDITIONAL BOOK PURCHASING PROGRAM OF THE SECOND YEAR BE DELETED.

LEGISLATIVE SCHOLARSHIPS

The statutes provide the state colleges with the opportunity to provide fee remission scholarships to qualified needy students. The request as submitted, is to provide an additional 500 scholarships in 1963-1964 and 750 scholarships in 1964-1965 to be used primarily for upper classmen. One of the problems of the current scholarship program is that although the scholarships are available to freshmen, they are not available to the same students who may continue to be in need of funds as they progress from the freshmen to the upper-class levels.

We believe that the additional program in scholarships is a valid one particularly to insure that no students will be denied the opportunity for education because of the increased student fee program we have recommended in this report.

Recommendation: THAT THE REQUEST FOR SCHOLARSHIPS BE GRANTED.

ROLLING IN THEIR MARCHARE (1 to r) Bill Burphy, Mickey Olson, Bob Pritchard, Ben Meents and Morgan Graham. Bringing up the rear (bottom picture) is Al Runkle.

Arbor Day, Car Wash This Week

Phi Nu Chi fraternity will hold its annual Spring Arbor Day this Thursday, to help clean up the campus. Anyone who wants to help in the clean up is welcome to.

The fraternity will also hold a car wash Saturday from 9 a.m. to 4 p.m. The price is one dollar per car. The fraternity will provide free pick up and delivery service if required. Reservation can be made by calling (HA 5-5313.)
