RIVER FALLS, WISCONSIN, WEDNESDAY, OCTOBER 26, 1938

Number 6

Date for GOP Formal Is November 19

Swing Theme Will Be Basis of Decorations for First Formal of the Year

The annual GOP formal is to be held on November 19 in North hall gymnasium, according to plans made by the members at their meeting last Thursday.

Tentative arrangements have been made for decorations. The "swing" motif will be carried out in the form of musical notes, clef signs, sharps, and flats.

Each member will receive three invitations which she may distribute as she chooses.

Chairmen for the various committees are: Ruth Phillips, orchestra; Bette Campbell, decorations; Eunice Manske, punch; and Ester Jensen and Adelaide Christenson, programs and tickets.

Thursday afternoon new members will be voted into the GOP. A girl must have attended school at River Falls for one year and must have a C average in order to qualify as a member.

58 Enroll in New Agriculture Course

Interest and enthusiasm shown by the agriculture short course students at their first meeting last Friday evening in the auditorium points toward a successful year for this new department.

Nearly 50 young men met with the instructor, Mr. Thorvald Thoreson, to arrange meeting days and transportation and to get acquainted with the work.

Fifty-eight men have enrolled in the course which began last Monday, October 24. This group has been divided into five classes, each of which meets one day a week.

The program of the course consists of one hour of shop work in the morning with the remainder of the forenoon devoted to instruction in parliamentary law, business arithmetic, letter writing, hygiene, and etiquette. Afternoons will be spent in listening to lectures by college professors and classes in crops and soils, farm management, and animal husbandry.

FFA Delegates Attend National Meet in Kansas City

Four members of the River Falls FFA collegiate chapter attended the organization's national convention at Kansas City October 16-20.

Heading the delegation was Merton Timmerman who received the American Farmer degree, the highest possible FFA award. The requirements include outstanding FFA project work, scholastic ability, and character. Seventy men from the entire United States, two of them from Wisconsin, qualified for the award.

Richard Delorit, state FFA president, officially represented the state of Wisconsin. Henry Hermansen and Fred Whitmarsh represented the River Falls collegiate chapter.

This eleventh annual convention was attended by 6000 FFA members who represented 171,000 FFA members in forty-seven states, Hawaii, and Puerto Rico. The convention was held in the Kansas City municipal auditorium.

The delegates voted to establish a national FFA camp and leadership

Prominent English Debaters Will Meet River Falls Team Next Wednesday

Band Expresses Appreciation

The student body and the music department wish to thank the following merchants who so thoughtfully sponsored the trip to La Crosse for the band. Although it was impossible to complete the trip because of the weather conditions, it is hoped that it will have a chance in the future to make a successful trip. Special acknowledgment is due R. W. Freeman of the Freeman Drug Company, who was responsible for gaining the support of the following business firms which each contributed five

Novel Ideas Win Homecoming Prizes

Originality seems to have been the determining factor in selecting the winners of the various homecoming contests.

The GOP stunt, Snow White and the Seven Dwarfs, won the decisions of the judges at the mass meeting. The GOP was awarded the first prize of two dollars.

The miniature parade, organized by the senior class, received the first prize of four dollars in the float contest. The junior class won the second prize of two dollars in this contest.

Judges of house decorations awarded the prize, a football, to the House of Jerney.

Judges report that an exceptionally fine spirit was shown this year by the main street business men with store decorations. O'Brien's Cafe was the proud recipient of the traditional silver cup.

Larson-Osborne Will Argue Against U. S. Participation In Collective Security Scheme

British debaters from the universities of Cambridge and Oxford will meet two Falcon speakers, Jack Osborne and Loell Larson, in the college auditorium, Wednesday evening, November 2, for the fourth international debate ever held on the River Falls campus.

The two Englishmen, Mr. Christopher Paget Mayhew of Oxford, a socialist, and Mr. Philip R. Noakes of Cambridge, a conservative, are leaders at their respective universities.

Both have been presidents of their schools' union societies, debate organizations, and both have traveled extensively.

Though divided politically, they agree, as do nearly 100 per cent of their countrymen, that America should give armed support to England and France in maintaining world peace; hence they will uphold the question for debate, "Resolved: that the United States should cooperate in a scheme of collective security."

Loell Larson, a senior and Jack Osborne a junior, both of whom entered debate as Freshmen, will uphold traditional American isolation from European entanglements. Gordon Jackman, a freshman, was selected as alternate to debate should that be necessary.

British teams debated at River Falls in 1934, 1935, and 1936, and, as before, the debate this year will be primarily a comparison of British and American debating. The unusual and interesting style peculiar to the English will be the feature of the debate.

Y.M. Open to New Members

The YMCA during its membership drive attempts to talk to every man in school about joining. However, one does not have to be asked in order to be eligible for membership. If those who are interested will attend the Y meeting next Monday, they will be given the opportunity to sign application blanks and will be issued membership cards.

"There are no dues or membership fees. The activities of the organization are financed largely through voluntary pledges of members."

YMCA Organizes Camera Club Project

A camera club, the newest society of the campus, was organized Monday October 17, with Werner Gleiter as adviser and the YMCA as sponsor. The purpose of this club is to aid its members in taking, developing, and making their own pictures.

Officers elected at the organization meeting were: president, Colonel Larson; vice president, Fred Brechlin; secretary, Stanley Torgerson; and treasurer, Lester Marquardt.

The student senate granted this organization the same privileges which other independent organizations on the campus now enjoy.

Meetings are to be held on alternate Monday evenings at 8 o'clock and will consist of lectures, demonstrations, and discussions. Laboratory work is also expected to be included in the year's program.

The next meeting of the club is scheduled for October 31.

Move for Sound Moving Pictures Started

Free Public Demonstrations to Be Held Wednesday Evening In Auditorium

Complete sound moving picture equipment for RFSTC is the goal of a group of students on the campus who have recently started a movement in that direction.

This system, if obtainable, will provide sound motion pictures, a public address system, and an opportunity for visual education.

Provisions will be made for the student body and faculty to examine the machine and witness its performance at a free public demonstration Wednesday evening at 8 o'clock in the auditorium. Following the presentation there will be a period of open discussion.

Students will vote Thursday morning at assembly to decide whether or not an extra assessment to cover the price of the equipment should be added to the activity fee.

Committee Allots 1938 Activity Fund

At a committee meeting of faculty members, the allocation of the college activity fee was made as follows per term:

Athletics	\$1.25
Health Service67
Student Voice50
Lectures and Entertainment40
Forensics35
Student Senate25
Music25
Meletean75
Reserve08
Total	\$4.50

The faculty participate in the support of activities in a way similar to that of students; however, distribution is somewhat different. This is due to the fact that faculty members do not receive any benefits from the student health service, but in order to increase the value of the program a portion of the funds contributed by the faculty are turned over to support the health program.

Payment of an activity fee by the members of the faculty is a unique feature of the administration of the River Falls State Teachers College.

Doolittle Obtains Federal Job

Mr. Stanley Doolittle, enrolled as a senior in the language department until last week, left school to start working for the Federal Narcotics bureau in Minneapolis. Mr. Doolittle secured the position by writing a civil service examination in which he was tied for high score by only one person among the entire list of applicants.

Mr. Doolittle will begin his work with the bureau as a court secretary. His chances for advancement are very favorable, and his many friends here at college hope that he has great success in his work.

Country Kids Go Collegiate in Big Way

Visitors' day at the college, and did they have a riotous time—dashing up and down the stairs, trying to ride the bannisters (having little success, maybe they need some waxing) and observing all the sophisticated college students—wondering if they would attain that intelligent look some day.

Two little girls appeared to be very interested in botany lab class, and were caught peeking through the door in the lab. on 3rd floor in North hall. The lassie in the blue dress, with the drooping socks asked her "pal", who also looked as though she were about to lose her hose, if she didn't think that that lady in the green smock hadn't better get to work herself in-

stead of running around looking into every one else's machines—if she only knew.

Another little fellow provided the lunch eaters in the "caf" with a bit of entertainment, when he neglected to use soap while rinsing his hands at the fountain, where everyone else was filling tumblers to wet their throats. But then—it was a clear case of innocence, he just missed the proverbial wash basin.

"Johnny" was very interested in the new fangled drinking fountains. His attempt to extract a drink from that peice of metal was like trying to "squeeze blood out of a turnip." I venture to say that his throat would

still be dry if some kind hearted soul hadn't turned the handle the right way, and told him he didn't need a dipper.

Several kiddies outside the library questioned the authenticity of the room—where's the school "marm" and why isn't everyone looking in the same direction? Anyhow, they had an amazed expression on their faces, and their mouths were hanging open at a forty-five degree angle. That's all right children, most of the students weren't doing anything in particular anyway, outside of telling their neighbor the latest bit of campus gossip.

Dictionaries on Sale

Miss Mary Bradley announces that she will again conduct the sale of Webster's Collegiate Dictionary.

Students may purchase this dictionary at a 40 per cent discount by leaving their name and \$2.25 with Miss Bradley before November 1. This reduced rate is effective only on the condition that 25 people order the volume. The book ordinarily sells for \$3.50.

The Student Voice

Published every Wednesday of the school year by the students of the River Falls State Teachers College. Accepted as second-class matter at the post office at River Falls, Wis., under the act of Congress, March 3, 1889.

The Value of Sound Equipment

It appears that the student body is about to determine to a large extent whether or not RFSTC shall have sound moving picture equipment.

Students may well ask, "What value would we receive from such an expenditure?"

First, high quality sound moving pictures could be used with this machine for assembly programs and organization programs. Silent or sound films pertaining to many subjects are available. They may be obtained from numerous sources free or for a nominal sum.

Secondly, the public address system incorporated in these machines is an independent unit and would aid in solving the entertainment problem for organization parties where a good source of inexpensive music is desired. It could be used at any event where an amplifying system is needed.

Thirdly, as a means of furthering visual education its possibilities are unlimited. A few specific examples in this field would be pictures of historic interest such as "The Rise and Fall of the Roman Empire" and "Custer's Last Stand." In the field of geography, travel pictures of all nations could be shown.

Students, attend the demonstration tonight! Participate in the discussion. Form your opinion. Then at assembly Thursday express your decision on the ballots which will be provided for that purpose.

College Bands Deserve Praise

With various individuals and groups being honored frequently for their campus activities, it seems only fitting that a few extra pats on the back should be given both the college marching and concert bands for their services, which too often are taken for granted by the student body.

It does not take a great deal of reminiscing to recall the spine-tingling thrill hundreds of us experienced at Homecoming when the red-and-white clad musicians went through their intricate maneuvers on Ramer field to stirring college tunes. The band gave a dash of color to the big event of the year.

But back of such spectacular performances are hours of hard and tedious practice. And behind the practice sessions is the masterful workings of Prof. Rozehnal who has given the best of his talents and efforts to put college functions over in scintillating fashion. In turn, the time spent in such intensive training entails a certain sacrifice by the band student of time for studying and recreation.

While the two band units contribute to and share in the general glory of the football season, they also serve the student body continuously during the school year. Even at the end of the spring exam week and after nearly all other students have departed, some 60 band members remain on the campus to help make commencement ceremonies more memorable.

To truly appreciate the many contributions of the two bands and their director, Mr. Rozehnal, the student body has only to visualize how colorless major college events would be without their presence.

The Baton

Mother Nature was jealous this week and decided to show us what she could do. Result: the marching band lost out. Unfortunate it was indeed that the 21st of October should bring what will be one of the worst snowstorms of the year; for that was the day that had been designated for the La Crosse game, and that was the day upon which the marching band, packed tightly into a huge inter-state 1938 cruiser-bus, was to accompany the team. The team went to La Crosse and won the game; the band went into a huge ditch 12 miles out of Ellsworth and was lodged there quite securely for better than four hours.

This trip, sponsored voluntarily by twenty of the merchants of River Falls, was to have been THE trip of the year. The determination of the men in the band to make this trip has been in evidence all season. Rehearsals this week showed the enthusiasm which had been worked up. That enthusiasm did not drop at any time. Throughout the entire morning last Saturday, everyone still contended that we would reach La Crosse. At twelve o'clock, after spending three hours in a horrible storm, not one person wished to go home. At one o'clock, when the bus was finally restored to its natural position on the road, the cry was still "On to La Crosse." It was too late. A distance of 100 miles was yet to be covered. A discouraged, wet, tired, and very hungry bunch rode back home in almost complete silence. Let's hope that the band will have better luck next time.

Chats on Recent Books

THE HANDSOME ROAD
Gwen Bristow

Gwen Bristow, the author of the well-known novel *Deep Summer*, has given to the public another equally pleasing novel, *The Handsome Road*. *Deep Summer* dealt with the people who developed in Louisiana a luxurious civilization, while *The Handsome Road* deals with the breakdown of that civilization as a result of the Civil War.

The life of a "poor white trash" girl, Corrie Mae Upjohn, is influenced by her master and mistress, Denis and Ann Larnes, the owners of the plantation, Andeeth. Corrie Mae's attempt to rise above her heritage and Ann Shermay's attempt to hold her plantation throughout the Civil War provide equal interest.

Unlike other Civil War novels this one pictures the home life before the war with utter realism and charm.

Gwen Bristow tells how the flourishing civilization was demolished and a new one made to take its place; to some it gave new hopes and to others destruction.

Malott Stresses Need of Education

"General academic training to increase an individual's adaptability for changing situations during his life is a fundamental need in our educational system," stated James I. Malott in an address before the YM Monday evening.

Speaking on "Education for Democracy"

Dr. G. J. Phillips

Optometrist

Eyes Examined
Glasses Fitted
and Repaired

ocracy" Professor Malott said that any nation might further her ideals through education. Thus a democracy may maintain and increase the freedom and liberty of her people by stressing these four points in her educational program: teaching children to think; developing the initiative and ideals of young people; training young people to cooperate; and educating adults and juniors in the proper use of leisure time.

"Education gives to each individual the best chance to develop himself to the highest possibility," he concluded, "and also furthers the ideal of democracy."

Next Monday evening the Rev. A. S. Johnson will speak on student activities in northern Europe.

Character Parts Popular In Masquer Try-outs

Masquers are busy adding new members to their organization. Prospective members are now working on short, three-to-five minute sketches; a number of these are planned for the Tuesday evening meeting. These tryouts will continue for several weeks. Since character parts are of the greatest interest, they are stressed the most. Complete plays will be given later in the year.

The society officers are: John Bradley, president; John Lowe, vice president; Betty Larson, secretary; and Howard Werts, treasurer.

Regular meetings have been changed from Thursday to Tuesday.

Homecoming Is Big Success With 13-0 Win

Inspired Falls Gridders Score Twice Early in the Game To Win Over Eau Claire

River Falls Teachers successfully fulfilled their duties toward making the homecoming celebration a joyous occasion by defeating Eau Claire at Ramer field Saturday, October 15, 3-0. The Falcons played an inspired game that ruined the morale of the Blugold, and made them fairly easy victims to the tearing claws of the determined Falcons. Every one of Lowery's men gave all he had and it was sufficient for a deserved victory.

River Falls made an auspicious start by scoring their first touchdown only seven plays after the opening whistle. Blank received the kick-off and made a nice return to the 40-yard line. Three plays failed to gain a first down, and Blank kicked. The ball was downed on Eau Claire's 29-yard line. After two plays failed to gain, Rudd's kick was blocked by the fast-charging end, Colonel Larson, the ball bounding high in the air and bouncing on the 21-yard line high enough for tackle Selvig to gather it in his arms and make bear-tracks across the goal line. Blank held and Dubbe's try for point was good.

After the second exchange of punts, River Falls had possession of the ball in mid-field where it began its second touchdown drive. Blank drove to the 40 for the initial first down of the game. Torgerson picked up seven and Blank made it two in a row on the 30-yard line. Bartz made it three successive first downs when he went all the way to the 20-yard line on a reverse. Doc Schmidt made his debut as a ball carrier and gathered in nine yards on an end around. A five-yard offside penalty on Eau Claire gave the ball to the Falcons on the six-yard line with another first down. Blank made four and Torgerson picked up one and the ball rested on the one-yard line as the first quarter ended. Blank piled across on the first play of the second quarter for six more points and the score remained 13-0 when Dubbe's kick was wide.

The remainder of the first half was a see-saw battle with fumbles, penalties, and one interception by Capt. Larson playing important parts. Eau Claire penetrated as far as the River Falls 37-yard line on a pass from Poquette to Larson. This threat failed when a Blugold fumble was recovered by Schmidt on the Falcon's 46-yard line. Torgerson broke loose for the longest run of the game, a 22-yard jaunt to the Eau Claire 30-yard line just as the half ended.

The third quarter saw River Falls again threatening to score when Selvig recovered a fumble on the Eau Claire 24-yard line. A forward lateral pass combination, Crosby to Colonel Larson to Frank was good for a first down on the 12-yard line. Two line plays failed and the Falcons took to the air, both passes being incomplete.

In the early minutes of the fourth quarter the Falcons were moving again on the Eau Claire 36-yard line but were stopped by an interception by Eau Claire. River Falls was penalized 5 yards and a long rolling punt went out of bounds on the Falcon 10-yard line to put the team in the hole. Martin, kicking from his own goal line, put one out on the River Falls 45-yard marker and then continued his helpful ways by intercepting an Eau Claire forward on his own 41. On third down Martin kicked out on the Eau Claire 20 and the whistle blew with Eau Claire on the 40-yard

Intra Mural Play Is Started

Director Clifford Juedes Has Planned Extensive Program

Intra mural activities for the year began last Wednesday afternoon, October 19, when the first game of the touch-football schedule was run off. This is the first year in which there has been a fall sport on the intra-mural program, but interest is already running high. Seventy-five men signed up for this sport. Six teams of thirteen men each have been selected. If enough additional men sign up, other teams will be added. Captains of the various teams are as follows: Badgers—Rudesill, Gophers—Hermanson, Wolverines—Stene, Panthers—Burger, Mules—Doornink, and Wildcats—Dykstra.

In the opening night's play, the Badgers eked out a 2-0 victory over the Wildcats. On Thursday night the Wolverines won a hard fought battle 6-0 over the Gophers when Captain Stene took the ball on his 20-yard line, and raced around end for a touchdown.

Under the capable direction of Clifford Juedes, new physical education instructor, an entirely new intra-mural system has been worked out. New sports have been added, both team games and individual events. These include ice hockey, basketball, checkers, horseshoe, tennis, soft-ball, a class swimming meet, and pentathlon. Other sports may be added if sufficient interest is manifested.

The entire program is based on a point system whereby each individual acquires points according to his own record in individual contests and his team record.

The person who has amassed the highest number of points at the end of the entire intra mural season will receive a gold medal. Individuals who amass the highest total in each class will also receive awards as recognition of their achievement.

The sports department offers its apologies for the omission of Don Gille's picture in the last homecoming issue. Quoting Coach Lowery: "Gille's the best guard I've ever had."

Statistics on La Crosse Game

LaCrosse	River Falls
8 First Downs	8
106 Yds gained by rushing	156
55 Yds gained by passing	4
8 Passes attempted	3
3 Passes completed	2
351 Total yds of punts	371
2 Fumbles	3
1 Own fumbles recovered	2
3 Penalties	2
15 Yds penalized	40

line after running two plays and gaining 20 yards.

The game was featured by crisp blocking and tackling and strong defensive play. The Eau Claire line appeared much stronger than their forward wall of last year and the play of Rudd, Solie, and Lee was outstanding. The entire Falcon team played inspired homecoming football, and were hard competitors. The freshmen in the game made a fine, encouraging showing.

Falcons Are Undefeated In Conference Race

Coach Lowery's Squad Beats Indians in 6-0 Battle to Take Conference Lead

River Falls battled its way into first place in the conference by defeating La Crosse 6-0 at the Indians' homecoming Saturday.

The Falcons completely dominated the play in the first half. Because of the soggy field, caused by the cold drizzle which continued throughout the game, the first half consisted mainly of line smashes and end runs. Very few passes were attempted by either team in this period. In the first few minutes of play the Falcons marched to within 10 yards of the Indians' goal line, only to lose the ball on downs.

The Falcons' score came in the second quarter when Crosby cut through left tackle on his own 44-yard stripe and raced 47 yards to the Indian nine-yard line. La Crosse took time out and were penalized 5 yards for too many time-out periods. Bohmback plunged through the line from the four-yard stripe for the score. Dubbe's kick was wide.

La Crosse showed an outstanding passing attack in the second half which enabled them to penetrate into Falcon territory time and again, once to the five-yard line where the River Falls line held its ground.

The Falcons played one of their best games of the season. The work of three first year varsity men, Le-Duc and White at the ends, and Rivard at guard was outstanding. Gille, being injured, played only a few minutes of the first quarter. Colonel Larson received a head injury in the second quarter on an end around play, and N. White took his position. Larson was taken to a local hospital where he remained until Sunday.

Sports Roundups

Congratulations to the team and to Coach Lowery for the performance in the La Crosse game. The Falcons played the same kind of ball they did in the Eau Claire battle. Every man played great ball and each was a star. Of the individual performances, Nook Blank's punting was perhaps the most outstanding. The presentation of the ball to Blank by Captain Larson after the game, exemplified that as well as a great team spirit.

Scores of last week's games: River Falls 6, La Crosse 0. Eau Claire 16, Stout 0. The Superior-Duluth game was postponed because of 3 feet of snow.

The Superior team finally found themselves in the Stout game. Led by its previously untried reserves, they beat Stout October 14 by a score of 31-6. It was their first victory in five starts. Smith, reserve halfback, scored two touchdowns on brilliant line plunges. Superior made 18 first downs to Stout's 5.

The Chicago Cardinals of the National professional league is the only team in the circuit which does not have at least one former Big Ten athlete under contract.

Captain Larry Adams of the Superior team wrote us a very interesting experience. Boarding the train for a game at Pittsburg, Kansas, the team found itself sharing a car with none other than Clark Gable. The team rode 500 miles with him and found him a "regular guy." At every stop there were large crowds to greet him and the 27 members of the team garnered some reflected glory. Gable had been on a hunting trip in Canada and was returning last Saturday.

Rhodey Leads In Hockey Series

Lovell, Manske, and Jorgenson Tie for Scoring Honors

Women's intra mural hockey team fought to a 2-2 standstill on Tuesday night. In the three-minute overtime period neither team scored, thus the game ended in a tie. Jorgensen and Parrish scored for Birkmose's team, while Case and Lovell marked up the Rhodey team tallies.

Thursday's game was a wide open affair with Rhodey's team subduing

Birkmose's 6-5. Passing was excellent and team play very much in evidence. Lovell and Manske led Rhodey's team in scoring with two goals each; Rhodey and Raawe contributed one each. Jorgensen paced the Birkmose team in scoring with two goals while Deiss, Birkmose, and Fellrath each made one.

As the series stands now, Birkmose's team would have to win both of this week's games to tie for the championship as Rhodey's team has won three of the five games played and tied one for a percentage of .750.

RIVER FALLS, WIS.

First Rural School Fair Held at R. F.

500 Pupils, Teachers, Parents Attend Event Directed by Senior FFA Men

Approximately 500 rural school pupils, teachers, and parents attended the first annual FFA rural school fair held in the River Falls college gymnasium last Friday.

Directed by seniors in the agriculture department, the fair featured a display of rural school booths containing quality products and exceptional seatwork.

"Rural school pupils and teachers can be proud of the quality, quantity, and artistic arrangement of their booths. They compare in quality with booths of much larger fairs," stated Mr. T. L. Bewick, State 4-H club leader.

Competition was keen among the schools for the first prize booth. Each booth contained numerous crop and vegetable products of the farm, weed collections, posters, charts, woodcraft and seat work which were judged on quality of product, arrangement, and general attractiveness.

After scoring and deliberation by Judges T. L. Bewick and Thorvald Thoreson, the silver loving cup, donated by the Lions Club, was presented by their president, Mr. C. B. Carisch, to the Gertrude school for the best booth. Miss Clarice Anderson, a former River Falls student, is the teacher. Second prize of two dollars was awarded the Randall school taught by Miss Timmerman. Glass Valley school, whose teacher is Miss Florence Sagstetter received the third prize of one dollar.

The crop judging and weed identification contest, supervised by Henry Hermanson, resulted in a three way tie of teams from the Glass Valley, Clifton Hollow, and South Fork schools. Each school was presented with a kitten ball.

Exhibits of corn and potatoes comprised the largest class in the individual competition. Other classes included grass seeds, grains, and vegetables which were judged by Prof. E. J. Prucha.

The afternoon program was opened with several numbers by the College Band, and two songs by a quartette composed of Walter Stenneman, Paul Somsen, John Lowe, and Gene Egan. "Hog Sanitation" was demonstrated by a team from the Baldwin high school.

Albert Zahradka and Melvin Rydberg demonstrated "Wax Picking of Chickens." By this method the coarse feathers are removed, and the bird immersed in a special wax preparation, which, upon removal, leaves the bird free from small pin feathers.

"Being particular, patient, and having the ability to stick are qualifications of a good 4-H member," declared Mr. T. L. Bewick in a talk to the rural boys and girls.

A movie on conservation of wild life, followed by the awarding of prizes, concluded the program.

Prizes for the fair were donated by local merchants.

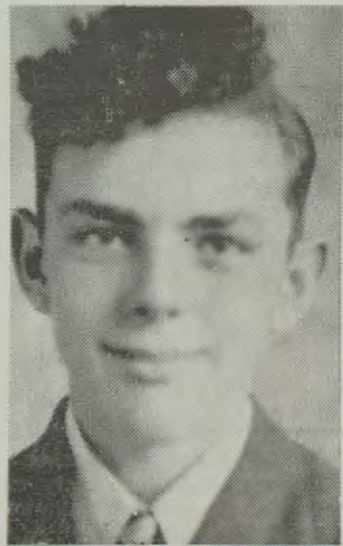

Sound Pictures Shown for First Time at Science Club

Sound pictures were shown in the auditorium for the first time in the history of the school when Mr. H. W. Fisher of St. Paul presented four films at the Science club meeting on last Thursday evening.

"Camera Hunting in Africa," the first reel placed on the screen, showed adventurers getting pictures of wild animals in their natural habitat. For the second reel several scenes from the picture "The Plainsmen" were shown. A reel on skiing, skating, tobogganing, and other winter sports was presented. The program was concluded with scenes from some of the outstanding 1937 football games.

Science club programs for the past three years have consisted largely of motion pictures whose educational and entertainment values have been recognized by the entire school.

Wins National Recognition

Arlyn Hollander

Hollander Grants Exclusive Interview

With a silver trophy and a medal in his suitcase Arlyn Hollander, a freshman in the agriculture department, has returned to the campus from the National Dairy Show at Columbus, Ohio, where he participated in the 4-H club judging contest. A score of 290 points out of a possible 300, won Mr. Hollander the rating of national champion Ayrshire judge.

The following conversation ensued when a reporter interviewed Mr. Hollander about nine o'clock one evening just as he was going to bed.

Q. Do you always go to bed this early?

A. Yes, and get up at quarter to seven.

Q. I hear that the Wisconsin team did well at the National Dairy Show. Just what were the results?

A. Wisconsin tied for second place with Nebraska. We were nine points behind Illinois which ranked first.

Q. Where are you from? Where did you go to high school?

A. Rosendale Union Free High School. Get it all in.

Q. Who was your high school agriculture teacher?

A. Floyd Miller, a River Falls graduate.

Q. What professor do you like best?

A. Kettelkamp because of his stories.

Q. How did you feel while you were actually competing in the contest?

A. It was just another ring of cattle.

Q. How did you happen to be chosen to help represent the state at the Dairy Show?

A. Through individual competition among the four who placed highest in the 4-H judging contest at the state fair.

Q. Have you received recognition in local 4-H work previous to this year?

A. Well, I have received a portfolio and two fountain pens for the best record book in the county.

Q. Are you eligible for recognition again this year?

A. Yes, but I hope I don't get another fountain pen.

F.F.A. Delegates Attend Meet

Continued from first page school at Washington, D. C. to be used by local chapters who travel there during the summer.

Held at the same time was the American Royal Livestock Show which is a national roundup of hundreds of choice beef cattle, hogs, horses, sheep, mules, and poultry.

Mr. C. B. Campbell, agriculture instructor at the River Falls high school accompanied the group.

Life Underseas

Revealed by Speaker

Weird descriptions and tales of life underseas held the rapt attention of every student when Mr. Max Gene Nohl, noted deep-water diver, gave an illustrated lecture last Thursday in assembly. He told of personal experiences, adventures, dangers, and the progress which is now being made in his particular profession.

Accompanying his lecture were movie films of actual underwater realms which portrayed a new world of beauty to all who saw them.

Band Expresses Appreciation

AD FADS

Kulstad Brothers' Clothing Store was the first stop. Those corduroy bush-jackets in royal blue, or this year's color, green, priced at \$3.50 look very well. But, when the costume is completed with one of those collegiate Tyrolian hats with the braid band, well, we just can't express our enthusiasm. For anyone who has a "half-idea" of buying a suit, we suggest that he drop in down there to look over their stock of either single or double-breasted models.

As we walked into Helgeson's Golden Rule, we noticed their display of fall Strutwear hosiery. The colors used this year are taken from the brilliant hues of the desert. Most popular of the various shades are Shimmer, Twilite Trail, and Ramber, all priced at 79 cents and 98 cents. "Take pride in your stride."

At Munson's we found some very "neat looking" sweaters and skirts for coeds. Most interesting were the bolero twin-sweater sets done in contrasting colors. These were priced at \$2.95. There were also some attractive sweaters made with the popular crew neck-line. These were marked at 98 cents and \$1.95.

To Strengthen Friendships

Nothing carries with it so much good will and lasting pleasure as the gift of your portrait. Plan for Christmas photos now from

YWCA Notes

The YWCA budget was "taken for a ride" in a parody of Sheridan's Ride given at the meeting in the social room Monday evening, October 24.

Virginia Smith read the play while it was being pantomimed by eleven other students.

Joyce Odell then explained the budget to the group and made a plea for pledges in an original poem.

Country Kids Go Collegiate

Continued from first page

After giving the country "kids" a "ribbing," one question is still prominently fixed in mind. It's queer what time can do to one. I still remember the day when my teacher asked me what stupid meant, and I demonstrated by walking down the aisle with my shoulders hunched over—stooped. "Johnnie's" attempt at getting a drink was certainly no worse than my "stooped" answer. So, I guess they're just a good example of what we were like about seven or eight years ago—undoubtedly the younger generation has a little more common sense. Then have we a right to "rib"? The answer—SURE!!!
