

I make ~~them~~ the suggestions being a warm
friend of the measure believing one of vital
importance our portion of the country
It has been suggested by some that there was
a State fund that could be procured for those
towns wishing to aid in raising the funds
to start a Normal School. If so I am satisfied
it would do much good to the cause to have it
known
Some good men are standing aloof from this matter
believing times are so hard we could not sell the
boards of the towns with^{out} the greater sacrifice more
perhaps than they would be willing to make to accomplish
our object. There is quite an effort being made to
get the public mind readily to act upon
subject. It has been thought best by some of the
influential ones among the farmers to have an
Incorporation act passed by the Legislature granting
the farmers of People of the two counties the
charter under which to become an incorporated body
with legal rights to do business, and being there
has been a committee appointed to draw & forward
such an act. as follows, J S White & J M Bailey
of Prescott E B Holmes of Bay. & you will most likely hear from
them soon. I would be glad to hear from you upon any of these matters
