

# Seniors Receive Degrees in Ceremony Today

A free, liberated mind working in an atmosphere of freedom and in a climate that recognizes and honors the importance of creativity plus an unlimited desire to achieve excellence are the two factors needed for a better world, Dr. Harvey M. Rice, President of Macalester College said in his Commencement Day address at River Falls this afternoon.

Speaking on "Horizons Unlimited" to the 231 graduating seniors and their families, teachers and friends, Dr. Rice said ours is an era of the flowering of the producing and creative impulses of man's intellect and emotion.

"During the International Geophysical year," he said, the scientists of the world made more discoveries and amassed more knowledge about the world and the space in which our world spins than had been acquired . . . the previous 150 years."

(EXCERPTS FROM DR. RICE'S ADDRESS WILL BE FOUND ON PAGE TWO)

Although science will determine much of the character of the future world, he said, tomorrow's world will be the kind of world the people who live in it make it.

The graduating class included 64 seniors in secondary education, 58 in agriculture education, 57 in liberal arts and 52 in elementary education. B. S. degrees were awarded to 50 of the liberal arts seniors and 7 received the B. A. degree.

Regent David Rodi and President Eugene H. Kleinpell awarded the degrees to the graduates as follows:

## 'Berlin Is a Symptom, Not Cause', Gen. Hester Says of Current Crisis

by Fred Gilbertson

"Berlin is a symptom, not the cause, it doesn't increase the crisis it may even lessen it," said Brigadier General Hugh Bryan Hester, at a talk before students and faculty in the Little Theater, 2 p.m. last Wednesday.

General Hester said that we live in an age of crisis. To him a conflict as Berlin would serve to arouse the powers of the world to negotiate their problems around the conference table. General Hester

ter cited negotiation as one solution to world problems, but warned that complete understanding of the treaty by both parties was essential. Both the United States and Russia have broken agreements because of failure to understand the terms.

"War is no longer rational," the General pointed out. He went on to say that there is no security in military preparation. World military leaders all hope they will not have to use the military arms they are stock piling, according to him. General Hester expressed his belief that an atomic war would annihilate the human race.

General Hester believed that to unite Germany and give her arms would solve nothing and to let a united Germany stand unarmed would lead to crisis. In his opinion the world powers would have to cooperate before any solution could be possible. General Hester stated, "The only substitution for conflict is cooperation."

The position of the United States in the world situation according to General Hester, should be to recognize all nations. Our

## Faculty Members Announce Plans

Miss Vera Moss, Dr. Melvin Wall, and Mr. Robert Willson have announced their plans for the summer.

Teaching courses in English and American literature during the summer session at Wisconsin State College at LaCrosse will be Miss Moss, professor of English.

Dr. Wall is scheduled to teach a workshop in conservation at the "Trees for Tomorrow" Camp at Eagle River. The camp is a cooperative project of the Wisconsin State Colleges.

Mr. Willson of the mathematics department has received a grant to participate in the Summer Institute in Statistics. This is sponsored by the National Science Foundation at the University of Wyoming.

James Murphy of the campus school has been granted a year's leave of absence to begin Sept. 1. He will work on his doctorate in elementary education at the University of Colorado, Boulder, Colo. Mr. Murphy is specializing in arithmetic and science.

## Peterson and Danke Get Assistantships

Larry Peterson, senior from Black River Falls and Richard Danke, senior from Fremont have been awarded one year assistantships to begin September 1, 1959.

Mr. Danke, an agriculture and chemistry major will work as a biology-chemistry research assistant at Oklahoma State University in Stillwater, Okla. He is to receive \$175 a month.

Mr. Peterson was awarded his agriculture-economics assistantship to Iowa State University in Ames, Ia. He will work on the demand for agriculture products and receive \$190 a month. Mr. Peterson has a major in agriculture and a minor in economics.

## Senate Names Trio to Plan Homecoming

Ken Zahorski, Bob Vermillion, and Jerry Marlette have been named by the Student Senate as 1959 homecoming chairmen. The trio plans to better coordinate the alumni activities and to instill more spirit into the week's activities.

Jerry Marlette, junior from St. Croix Falls, is majoring in mathematics and chemistry. He is presently serving as secretary for the newly formed Commentarians and next year will be the senior class treasurer and treasurer of LSA. He is also active in Math Club, Chemistry Club, SNEA, and intramural sports.

Bob Vermillion, sophomore from Elkhorn, is an English major with minors in sociology and guidance. Mr. Vermillion has been vice-president of the French Club and N.C.T.E. He is a Stratton Hall counselor and participates in Wesley and SNEA.

Ken Zahorski, sophomore from Weyerhaeuser, is majoring in English with minors in economics and history. He has served as treasurer of the new Economics Club and has served on the College Countryman staff. Mr. Zahorski is in Wesley and participates in intramural sports.

The chairmen have decided to work as a trio throughout the whole of homecoming activities, so there will be no election of a Homecoming Chairman next fall.

## REGISTRAR'S OFFICE HAS DRAFT DEFERMENT FORMS

Any person desiring a draft deferment form 109 sent to their local Draft Board at the end of the school year should fill out a request in the Registrars Office.

GRADUATING SENIORS PARTICIPATED in the annual Honors Day Convocation, held last Tuesday in North Hall Auditorium. (Photo by Harmann)

## Students Win Awards At Honors Assembly

Speaking on "Education in the 21st Century", President E. H. Kleinpell delivered the main address at the annual Honors Day convocation last Tuesday.

"The future citizens of forty-one years from now," he said, "will probably include you students gathered here today." He told the students that their generation will probably make the modern day automobiles obsolete and have more leisure time than they want.

In discussing the probable necessities for development of the future citizens, he said. "It seems necessary to me to emphasize and reaffirm the fundamental mission of education, to discover and seek the truth. There is truth in the laboratory and the library, and only through seeking truth will we resolve our problems. All other

Following the president's address at the convocation, John Phillips sang Robert Franz's "Dedication." Dean B. J. Rozehnal presented the awards for academic achievement. Twenty-nine scholarships, with a combined value of more than \$5,000 were presented by President Kleinpell.

Senior and sophomore students were presented the annual awards for scholastic achievement, the gold and silver "R" awards, respectively. Top-ranking freshman and juniors were also honored at the convocation.

Requirements for the gold "R" consist of 3.5 honor point ratio with no grade below a "C". The silver "R" award is given to sophomores who have maintained a 3.25 average with no grade below a "C" for their first two years at River Falls. Names in boldface indicate special honors.

### Senior Gold "R"

Robert Ames, Phyllis Anderson, William Dobson, Michael Dodge, Clarence Dulek, Daniel Gaeu, Gary P. Glynn, William Hagestad, Delphine R. Johnson, James S. Johnson, Janet Kuechler, James Laue, Froydis Myhrwold, Carol Naiberg, Patricia C. Norman, Elaine Olson, Wayne Sukow, Wayne Tomfohrde, and Gordon Waller.

### Senior Honorable Mention

Jane Aide, LeRoy Anderson, Lutifali Ansari, Charlotte Baumgartner, James L. Benson, Jerome Benson, Hazel Chapman, Genevieve Churchill, Richard Danke, Mary Dougherty, Marilyn Elliot, Richard Enstad, Merlin Fawcett, Marlin Feld, Elvin E. Fleming, Marie Forman, Gladys Forkjer, Robert Gifford, Helen Glesnes, Ivan Gruetzmacher, Dora Holst, James R. Johnson, Sandra Kins, John H. Kirk, Edward Koca, Elmer Lau, Shelby Ludwig, Waldemar Moline, Helen Monchilovich, Verna Neumann, Vivian Nielsen, Dennis Nordstrand, Maynard Olson, Margie Olson, Francis Pelchel, Larry Peterson, Thomas Pfaff, William A. Shimel, Hilda Stein, Donald Waalen, and Dale Wyss.

### Juniors Honors

Leonard Becker, Byron Gorres, Larry Hel, Iola Johnson, Harriet Kettelkamp, Carol Korsmo, Curtis Larson, Patricia Lind, Marvin Muhlhausen, James Slough, David L. Skoug, Richard E. Smith, and David Will.

### Sophomore Silver "R"

Clarence Blomquist, Clair Brohaugh, Carol Busch, Judith Coen, James DeMarce, Michael Durand, Suzanne Gayner, Daniel Gorton, Wayne Handlos, Wayne Harmann, Russell Helwig, Ronald LaGrand  
(Continued on page 2)

AMUSING EVENTS MUST BE in store for next year's Homecoming, judging from the expressions of the chairmen, Ken Zahorski, sophomore from Weyerhaeuser, Jerry Marlette, junior from St. Croix Falls, and Bob Vermillion, sophomore from Elkhorn. (Photo by Harmann)

Final Exams.

June 15

Summer Session Begins

# The Editor Speaks

Graduation activities this year will serve as a double purpose. It is a day to honor the 231 graduating seniors and it will double as a day to put on display our outstanding building program.

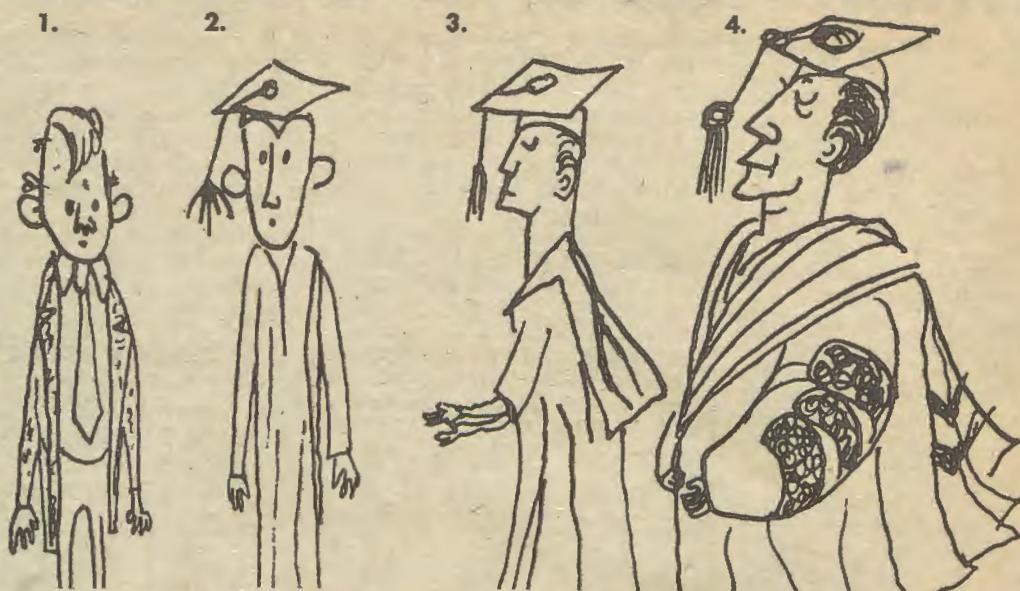

The new Student Union has been used this week for a Student Senate meeting, the Alumni-Faculty-Senior Banquet and a sock hop. It is not however officially opened.

Other campus building projects are in the building process. The Physical Education Building has showed encouraging results and should be completed by early 1960. The foundation for the new second men's dorm has been dug and work on the college farm is scheduled to terminate next fall.

The River Falls' campus has taken great strides over the past decade.

This year's graduating class shows an increase of 58 over last years seniors. This figure alone shows the need for the increased facilities.

The primary purpose of today's activities is of recognition of the graduating seniors. We wish them the best of luck in their chosen fields and offer our congratulations.

1. THE UNDERCLASSMEN

(By James Crane)

Great variety of costume denoting no status whatever, little better than a layman. Address as "Hey, you," or "Say, boy."

2. THE B.A. OR B.S. GRADUATE

Simple, austere garb denoting low status earned in a mere four years, really not worth noticing. Address as "I say, there," or "My good fellow."

3. THE M.A., M.S. OR M. ED.

Gown distinguished by short sleeves for ping pong and long, dragging sleeves for carrying books, pencils, test papers and cigarettes. The colorful banner on the neck and back is called a hood. It is not used to shield the wearer from the elements, but rather to tell where and when and in what he got his degree. There is nothing which indicates HOW he got his degree. Address respectfully as "Mister," or "Sir."

4. THE PH.D or ED.D

These are the elite and chosen — the guardians of the grand Medieval Academic Tradition. The splendid gown denotes honor, dignity, erudition, prestige and preferential status on the salary schedule (i.e. gold markings on the hat). The hood markings again proclaim the academic area and university of the wearer. Degree candidates are careful to select areas and schools where colors harmonize. A man of taste would not select phy ed (sage green) where the school color was baby blue. Bright colors are much sought after by college administrators to add the proper note of color and ritual to commencement. Address as "Doctor" in a reverent, subdued and humble tone.

## Student Senate Minutes

May 25, 1959

The final Student Senate meeting of the 1958-59 school year was held in the new Senate room in the Student Union, with Mr. Rozehnal and Dr. Knaak as guests.

The meeting was called order by President Clarence Dulek. After the secretary's report was approved as read, the treasurer reported balances of \$1,262.88 in the Student Senate account, \$1,127.64 in the vending machine account, and \$17.79 in the River Falls account.

Rolfe Rodlyn representing the cheerleaders, asked for an allotment to purchase two new megaphones for next year. His request was unanimously granted.

The Senate considered suggestions to fly the school flag all year round, or for the first few weeks in the fall and from Traditions Day on in the spring. The indoor flag will be placed on the wall of the eating area in the new Union next fall.

The six returning members of the social committee who wish to serve on the committee again next year will plan the events for the first few weeks of the fall. The permanent committee will be chosen later after all applications have been considered.

Patty Ross will handle the sending of student insurance brochures to all returning and new students this fall. Senate meetings next year will begin at 6:30 p.m. to avoid meal hour conflicts. The dress-up night in the cafeteria is tentatively planned for each Wednesday night next year.

Secretary, Jim Laue

### HESTER— (Continued from page one)

recognition of them wouldn't necessarily mean that we condone their policies, but that we would work out a solution with them. He proposed that we combat the rising tide of nationalism with aid that would give nations a means to fight poverty and ignorance.

He cited the United Nations as an effective means of instituting world cooperation and world government.

General Hester was sponsored by the Wesley and United Student Fellowship groups on campus. He also addressed a group at St. Bridget's Gymnasium under the sponsorship of the River Falls Committee on Human Survival.

### AWARDS— (Continued from page 1)

er, David Madis, Gretchen Maltery, Arlo G. Miller, Louis Padock, Louis Pape, Kurt Petersen, Anita Peterson, Muriel Peterson, Donovan Pihlaja, Dan Porfilio, James Poukey, Dora Rohl, John Ruemmele, Barbara Scheffer, Mildred Seeger, Mary Suennen, Leon Thompson, Wilma Thoreson, Irvin Vanasse, Gayle Wernberg, and Robert Wynveen.

#### Freshman Honors

Jon Bellisle, Sylvia Benson, David Cook, Allen Flygstad, Charles Flynn, Joan Gilbertson, Duanne Hall, Judith Harmon, Lucy Hofacker, Theodore Hughes, Jan Ihrke, John Kauphusman, Allen Libby, Warren MacKnight, Anita Munson, Carol Myhre, LeRoy Norderhaug, Neal Prochnow, John L. Rice, Wallace Simons, and Lois Steffenhagen.

#### Awards

James Laue of River Falls received the American Association of University Professors award. This recognition is given to an outstanding senior who plans to enter graduate school the following year. It is based on scholastic excellence and intellectual curiosity.

The P. E. O. Book Award, given to an outstanding sophomore girl, was presented to Mildred Seeger of Prairie Farm.

(Continued on page 4)

## "Horizons Are Unlimited," Says Rice

Excerpts from address delivered by President Harvey M. Rice, Macalester College, at the Wisconsin State College at River Falls commencement, River Falls, Wisconsin, May 31, 1959.

Horizons are unlimited for the liberated mind and spirit. At various times in human history, the mind and spirit of man have soared to new heights of creative and productive excellence never before achieved. Such a time was the Golden Age of Greece when a small number of persons in a small community on the western edge of the civilized world produced art and literature which has never been surpassed and has rarely been equalled.

Four hundred years later, out of the hearts and minds of the nomadic tribes of Israel, came the greatest moral and ethical concept of men's relationship to God and to each other that the human mind has ever produced. At approximately the same time, there was developing in Rome a concept of law which established opportunities for human beings to seek justice on the basis of principle rather than on the basis of strength or whim.

The next great flowering of the spirit came one thousand years later and we now refer to it as the Renaissance. Art, literature, the sciences, all of the creative aspects of man's intellect, flowered in a superlative way.

We are today in a similar flowering of the productive and creative impulses of man's intellect and emotions. Our present development began with the Industrial Revolution, now almost 200 years ago, and has been particularly concerned with science and the physical world in which we live. During the International Geophysical year, which ended on December 31, 1958, the scientists of the world made more discoveries and amassed more knowledge about the world and the space in which our world spins, than had been acquired in total in the previous 150 years.

We know that the present-day world and the future world are being shaped more than ever before in history by the findings and developments of science. At the same time, we know that tomorrow's world presents problems which grow out of the present and past; these problems will help us to find trends of what will exist into the future.

Let us look at some of these trends.

We know that life in the world of tomorrow will be a continuation of the scientific age.

We can depend upon it that the world of the future people will be living in families; and it will continue to be true that those families which help their children to live most effectively will be the ones in which children share in the real responsibilities of the group.

We also know that people will be living in and making greater use of more of the world than we now use. Swamps and deserts that are now unproductive will be brought into cultivation, and even the waters of the seas will become areas of production to meet human needs.

The most significant break-through in the field of physical science ever achieved by man has occurred in our lifetime with the discovery of the fission and the fusion of the atom.

Albert Einstein in 1905, in the vast creativity of his magnificent mind, decided that you could describe the conversion of matter into energy by the equation,  $E = mc^2$ .

Experiments conducted by others during the years since 1905 have proved the validity of this equation.

Our present knowledge of thermo-nuclear fission, however, is the product of many minds working in many places at many times. For example, the Curies discovered that radium disintegrates spontaneously as a result of its atoms disintegrating. As a part of this process, particles go out into space at very high velocities. One of these emissions is the Alpha particle thrown off by radium at a velocity of 10,000 miles per second. The concentration of energy in this particle is 400,000,000 times the concentration of energy in a particle of water when it is transformed into steam.

The field of physics, however, is not alone in the tremendous developments that have occurred in recent years. Chemistry is undergoing a virtual revolution, and in this field, it is large molecules that are receiving a great deal of attention. Plastics have become a fact of life through Chemistry.

Perhaps, however, it is in the area of protein that the greatest developments are occurring in large molecule chemistry. For many years it seemed to the organic chemist that the problem of understanding the order in which the Alpha amino acids were put together was such a complex one that the human mind could never comprehend it. Yet in recent years this has been accomplished.

A similar break-through has occurred in our knowledge of viruses, which, in turn, led to an understanding of the significance of the living cell, with consequent unbelievable advances in the field of biology.

Many other fields similarly are being effected by recent discoveries and developments. Not to be overlooked in this connection are the social sciences where all kinds of new combinations for the benefit of mankind are being developed; for example, the United Nations and all of its ramified activities, the complex Social Security and Old Age Insurance systems, and other similar programs provided by various levels of government in the United States.

Thus, science will determine much of the character of our future world; it is always to be remembered, however, that what is done with the products of science will determine the very existence of our world; for tomorrow's world, in the final analysis, will be the kind of world the people who live in it, make it.

Two factors are necessary for the achievement of a better world in the future. The first of these is the free, liberated mind, working in an atmosphere of freedom, and in a climate that recognizes and honors the importance of creativity.

The second of these is the unlimited desire to achieve excellence. Acceptance of the mediocre will not be enough; doing enough to "get by" will leave us behind. We, in our colleges and universities, in our schools at whatever level, indeed, in all of our society and universities, in our schools at whatever level, indeed, in all of our society must want to achieve excellence if we actually are to accomplish the potentialities that our present and future hold out for us. With such goals, with such ideals, the sky — which is eternal space — is the only limit.

For the free human mind and spirit working at a peak of excellence, horizons are unlimited.

## Coach Don Page Announces Spring Letter Winners

Falcon baseball coach, Don Page, announced last week the awarding of 16 letters for the season just completed.

Included in the number were four seniors. They were third sacker Don Swanson, shortstop Al Suezaki, first baseman Duane Teska, and outfielder Jim Larson.

Others who gained numerals were catchers Howie Madson and Rog Piehl; pitchers Charlie Johnson, Mick Lauber, and Bill Freeman; infielders Jim Turnquist, Dick Peper, John Gregorich, and Wayne Johnson; and outfielders Bill Halverson, Frank Gombold, and Gary Rohde.

## EDIE O'MERA CHOSEN PRESIDENT OF DORM

Edie O'Mera, sophomore from Knapp, has been elected president of Hathorn Hall. Other officers elected were Marge Wallen, sophomore from Prairie Farm, vice-president; Criss Jelen, freshman from Pepin, secretary; and Judy Monchilovich, freshman from Cumberland, treasurer.

Elizabeth Wintermeyer, junior from Hudson, Shirley Christenson, junior from Cushing, and Karen Gatten, sophomore from Chippewa Falls, were named student assistants.

## Five R F College Linksters Receive Letters in Golf

**GIRLS LEARN HOW TO** manage bows as well as beaux when the women's physical education class moves to the south campus for archery practice in the spring. Shown checking their accuracy are Sue Dorgan, freshman from Rice Lake, and Sandy Nelson, freshman from Minneapolis. (Photo by Harmann)

## TEAM POSTS 11-7 RECORD

The River Falls golf team closed the 1959 season with a record of 11 wins and 7 losses in match play. Included in the win total were three victories over Stout and Winona and two triumphs over St. Olaf.

Following is a summary of the performances of the six members of the Falcon links team:

Ralph Ryan - Medalist 8 times; Best nine-hole score - 34; Best 18-hole score - 69; Average 18-hole score for 18 matches - 77.8; Shot 101 pars, 16 birdies, and 1 eagle. Won 118 holes, lost 92 holes, and tied 114.

Jim Hallen - Medalist 4 times; Best nine-hole score - 34; Best 18-hole score - 73; Average 18-hole score for 17 matches - 77.4; Shot 79 pars, 20 birdies, and 1 eagle. Won 115 holes, lost 77 holes, and tied 114.

Jerry Derleth - Best nine-hole score - 38; Best 18-hole score - 81; Average 18-hole score for 16 matches - 84.6; Shot 52 pars, 8 birdies, and 1 eagle; Won 79 holes; lost 107 holes, and tied 102.

Jerry Stern - Best nine hole score - 34; Best 18-hole score - 78. Average 18-hole score for 18 matches - 82.9; Shot 75 pars, 10 birdies, and 1 eagle; Won 110 holes, lost 97 holes, and tied 117.

Jack Baldwin - Best nine-hole score - 37; Best 18-hole score - 77; Average 18-hole score for 15 meets - 83.2; Shot 72 pars and 5 birdies; Won 89 holes, lost 69 holes, and tied 112.

Val Barrows - Best nine-hole score - 33; Best 18-hole score - 73; Average 18-hole score for 11 meets - 79.7; Shot 66 pars and 11 birdies; Won 75 holes, lost 55 holes, and tied 68 holes.

Barrows fired the lowest score

of the season for nine holes, a 33 at Winona while Ryan carded the lowest 18-hole score, a 69 on the River Falls course. The Falcons won 165 team points while allowing the opponents 122.

Letters in golf were awarded to Hallen, Ryan, Baldwin, Barrows, and Stern. All are underclassmen.

For the second straight year, Ben Bergsrud's River Falls' golf team had to settle for second place in the conference meet. Milwaukee edged the Falcons in last week's tourney at Green Lake by a score of 615 to 635. Defending champion LaCrosse finished a poor fifth.

River Falls' Ralph Ryan shot 18-hole scores of 76 and 73 and just missed gaining medalist honors for the event with his total of 149. Milwaukee's Schmatzshagen fired a 75 and a 72 ending with a 147.

Jim Hallen came in with an 80 and a 77 for a 157 total, Jerry Derleth put together rounds of 82 for a 165 total, Val Barrows finished with 164 on scores of 81 and 83, and Jerry Stern had a 181 with a 94 and an 87.

The final totals:

Milwaukee	615
River Falls	635
Stevens Point	640
Whitewater	646
LaCrosse	648
Eau Claire	649
Superior	654
Oshkosh	662
Platteville	700
Stout	720

River Falls' final total was 20 strokes better than last year when LaCrosse won with a 644 score. Stevens Point didn't enter a team last year but gained third place this season. Stout finished last for the second straight year.

## Out on a Limb —

by Ed Schlumpf

It's amazing how many Los Angeles Dodger fans there are on this campus. Some are transplanted Brooklyn fans. Others are St. Paul Saints fans that feel they owe a debt to the parent club. Still others back the Bums simply because they hate the Braves.

I was fortunate in running into one of these Braves haters early this spring. He was fuming over Lew Burdette's claim that "me and roomie ((Warren Spahn)) will win 50 games between us." The Braves hater exploded with a claim I couldn't help but laugh at.

"Burdette and Spahn won't win 30 games between them, much less 50," boomed the Dodger fan. I immediately asked the pessimist

if he had any money to back that statement and he replied in the affirmative producing one crisp dollar bill as proof.

I don't know if I should collect my bet on the 4th of July or wait until Labor Day. Burdette is currently pacing the majors with eight wins and Spahn is close behind with six victories. They've got 14 of those 30 already and the campaign is a long way from over.

If the Braves hitting keeps up they could win this thing in a romp. Pittsburgh is starting to catch fire, however, and Bob Friend won his first of the year shutting out Milwaukee last Thursday. Despite their slow start, the Pirates still rank as the number one contender.

## LITTLE MAN ON CAMPUS by BIBLER

"OVER HERE, HENRY, I'D KNOW OUR BOY'S ROOM—ANYPLACE!"

**AWARDS—**

(Continued from page 2)

**Scholarships**

Gwen Schlough, from Elkhorn received the American Association of University Women Scholarship given to a junior girl who is outstanding in scholarship, character and leadership.

The Alumni-Faculty Scholarship, awarded to a sophomore who excels in scholarship and who plans to enroll in the junior class, went to Robert Wynveen of Baldwin.

Larry Julien of Fairchild received the P. J. Belfiori Memorial Scholarship which is given to a needy student with a good scholastic standing, who has made an outstanding contribution to the college.

The Business and Professional Women's Club of River Falls Scholarship to a freshman girl who is outstanding in scholarship, character, and leadership was awarded to Lois Steffenhagen of Red Wing, Minn.

David Skoug of Chetek received the 1924 Scholarship Award which is given to a member of the junior class who excels in scholarship, character and general merit.

Arlo Miller of Amery and James DeMarce of Spring Valley received the William T. Evjue Scholarship, established by the publisher of the Capitol Times, which are awarded to two deserving students who are earnest about getting a good education with which to equip themselves in life.

Carol Korsmo of Shiocton received the Faculty Women's Club Scholarship which is awarded to a ranking junior girl.

The Falcon Award, given to a student who has made an excellent contribution to the college through her fine citizenship, scholarship, and leadership, went to Patty Ross of Hudson.

Kathy Hartwig of Hammond received the R. L. Garnett Memorial Scholarship which is granted to a promising candidate in elementary education.

The George & Helen Gilkey Scholarship given to an outstanding student majoring in social sciences or the humanities was awarded to Richard Smith of Roberts.

The Jay H. Grimm Memorial Scholarship given to an outstanding student in the Pre-Law curriculum was awarded to John L. Rice of Ellsworth.

Pat Lind of Minneapolis received the Jay H. Grimm Insurance Agency, Inc. Scholarship which is given to a student who has made an outstanding contribution to the college and maintained a high scholastic average.

The H. T. Hagestad Memorial Scholarship which is awarded to an outstanding freshman enrolled in pre-engineering went to Duane Hall of Roberts.

The Humanities Scholarship, awarded to a high ranking student majoring in the humanities, was awarded to Carolyn Brown of Somers.

James Poukey of Cumberland received the J. P. Jacobson Memorial Scholarship which is awarded to a freshman or sophomore student planning to graduate from River Falls, who is of good character with a demonstrated excellent scholastic record.

cellent scholastic record.

Charles Norelius of Barron received the Kappa Delta Pi Scholarship granted to a junior member of Kappa Delta Pi on the basis of need, scholarship, and leadership.

The E. H. Kleinpell Award, given to an outstanding junior, was awarded to Alma Bents of Comstock.

The River Falls Lions Club Scholarship, given to a ranking fellow student who has demonstrated leadership ability, was presented to LeRoy Norderhaug from River Falls.

Clair Brohaugh of River Falls received the Leslie McKeen Memorial Scholarship given to a ranking student majoring in one of the humanities.

The John May Scholarship, awarded to a high ranking sophomore student in the field of agriculture, went to John Ruemmele, from Hudson.

Ronald LaGrander of Chili received the River Falls Alumni Chapter Scholarship which is awarded to a sophomore or junior, who is completing the teaching curriculum, on the basis of scholarship, leadership and character.

Leon Thompson of Elmwood received the River Falls Foundation Scholarship which is awarded to a student enrolled in the teaching curriculum, who is of good character, is actively participating in the developmental program of the college, and is among the top 15 students in scholarship in the sophomore class.

The River Falls State Bank Forensic Scholarship, given to students who have outstanding participation in the inter-collegiate speech activities of the college, went to Judith Harmon of Clear Lake and Anita Munson of Minneapolis. It is awarded on the basis of achievement, leadership, and scholarship.

Muriel Peterson of Frederic received the Science Department Scholarship which is awarded to a high ranking student in the science department.

The Sigma Chi Sigma Scholarship, awarded to a freshman girl who has maintained a high scholastic average and has been interested in and actively participated in campus organizations, went to Judy Monchilovich of Cumberland.

Dora Rohl of Roberts was awarded the Augusta M. Thomas Memorial Scholarship given to a junior student who is outstanding and enrolled in elementary teaching curriculum.

The Walker D. & Helen Bryant Wyman Scholarship, awarded to an upper-division student majoring in either art or social science, based on merit and need, was given to Dexter Mayfield of Knoxville, Tenn.

Russell Helwig of Eau Claire received the YMCA Scholarship, awarded to a science major on the basis of scholarship, citizenship, and evidence of qualities of leadership.

Carol Trutschel of Plymouth received the Association of Wisconsin State College Faculties Scholarship which is awarded to a sophomore student with a high scholastic record, who shows unusual promise.

AT A CAMPUS SCHOOL convocation last Thursday, pupils saw a presentation of "Cinderella" in the Little Theatre of the library. The play was presented by children of the seventh and eighth grades under the direction of Miss Marge Olson who did it as a project for a class in directing at the college. Tom Hagestad (the Prince) tries a slipper on the foot of Janice Berg (Cinderella) as Susan McLaughlin (the Fairy Godmother), Kay Armstrong (the second stepsister), Marcia Melton (the first stepsister), Margaret Dahlen (the mother) and Jimmy Stewart (the Chamberlain) watch.

## Four From College to Work In 49th State This Summer

### RAY THURSTON JUDGE IN INDUSTRIAL ARTS FINALS FOR FORD CO.

Ray Thurston of the industrial arts department has been invited to act as a judge at the Ford Industrial Arts National Finals at Dearborn, Mich., July 8, 9, and 10.

Mr. Thurston will serve as judge in the Ceramics and Models Division of the contest which is the largest one of its type in the nation. Exhibits which he will judge will be in the high school area, having been submitted by pupils from the 9th, 10th, 11th and 12th grades. The event includes all phases of industrial arts with entries from all parts of the nation.

### Child Lit Class Presents Program

The Children's Literature class, instructed by Miss Marion Hawkins, presented a creative hour in the Little Theatre last Wednesday at 11 a.m.

Taking part in the program were Janice Lundberg, Kathleen Hartwig, Jeanie Crownhart, Donovan Olson, and James Tostrud presenting a dramatization, "The Potatoes' Dance" written by Vachel Lindsey; James Hallen telling the story of "The Fisherman and His Wife"; and Barbara Kraft, Jackie Deppa, and Carolyn Beyl singing and acting the ballad, "The Monkey's Wedding."

A leader-audience participation story, "The Lion Hunt," was done by Dick Zamjohn; Earl Anderson did a flannelboard demonstration of Aesop's fable "The Miller, His Son, and the Ass"; and Mary Ann Wilcox and Terry Hughes presented a doll house dramatization of "Peter and the Wolf."

Lois Steffenhagen and Carol Myhre did a pantomime of a fairy tale and play reading of "Aladdin and the Wonderful Lamp" was done by Carol Naiberg and Karen Engebret.

The audience consisted of teachers, children, and supervisors. The program was a part of regular class activity.

## THREE RF SENIORS SIGN JOB CONTRACTS

Three more seniors have made plans for next year reported the Placement Office this week.

KANE

Pat Kane will be teaching sixth grade in the St. Paul, Minn., school system next fall. Miss Kane is from River Falls and has a lower elementary major with a physical education minor.

Working for Robert Gaard (seeds and feeds) will be Earl Anderson, senior from Stockholm. Mr. Anderson has an agriculture minor.

ANDERSON

MARGOTTO

An agriculture major, Robert Margotto of River Falls, will teach agriculture and biology at Webster next fall. Mr. Margotto has a biology minor.

## New Student Center Open For Senior-Alumni Dinner

Alumni who attended college when there were one or two buildings on the campus took part in the opening event in the Student Center of Wisconsin State College at River Falls last night.

The new \$600,000 building was used for the first time Saturday evening for the Senior-Alumni-Faculty banquet. Special guests were the classes of 1909 and 1919. When the class of 1909 was graduated, South Hall was the only building at the college. By 1919, North Hall had been added with a wing for a campus school.

The Student Center is the eighth major building on the campus and by 1960, when another class is graduated, two other buildings will have been added. Now under construction is a \$1,000,000 Health and Physical Education building and a second men's dormitory being built at a cost of \$550,000.

Last night's banquet was served in the dining room of the Student Center which will begin regular operation with the opening of the Summer Session June 15.

In addition to food service in

the dining room and snack bar, the new Student Center will include a book store, lounge area, meeting rooms, recreation area, game rooms, and publications offices.

Work was begun on the two-story brick structure a little more than a year ago. Construction was financed through a loan from federal government to be repaid from student fees over the next 20 years.

Approximately 500 persons were served at last night's banquet, although normal seating capacity in the dining areas is 350. Additional space may be made by converting a portion of the lounge area to food service.

The recreation and game area in the basement affords space for dancing, billiards, table tennis, checkers, chess, and cards. It will also include a TV room and music listening room. A sound system, purchased through efforts of the Student Foundation Committee, will pipe recorded music and announcements throughout the building.

INITIATING THE NEW STUDENT CENTER at the Soc Hop following Honors Day Convocation, students dance to the music of the Abbott Combo. Shown in the foreground are Bernie Berger and Ruth Fick, and Joe Stanek and Marge Wallen. (Photo by Harman)
