RIVER FALLS STATE COLLEGE MONDAY, JANUARY 14, 1963

'Frosty Frolics' Plans Set for January 21-26

A kick-off convocation Wednesday, Jan. 16 will officially begin the round of events scheduled as part of this year's Winter Carnival.

"Frosty Frolics," slogan for the festivities, was submitted by Michael Weiser, who was awarded a 5-dollar prize.

King candidates will be introduced at the kick-off convocation, which marks the start of their campaigns. The basketball players will also be presented at the convocation, by Coach Donald Page.

"Heaven Knows, Mr. Allison," a movie sponsored by the Social Committee, will be shown in the Little Theatre Sunday, Jan. 20, at 7:30 p.m. The movie is the start of Winter Carnival week.

One highlight of the week will be a style show at 8 p.m. Monday, Jan. 21, in the Karges Center gymnasium, sponsored by the Student Center Activities Committee. About 40 men and women students will model in the show.

The show will feature school-wear, date-wear, formal-wear and sports-wear with emphasis on ski-wear. Skogmos, the Town Shoppe, Hagberg's Dept. Store, Benson's Clothing Store and Kustad Brothers Clothing will be represented.

Lols Stytz will moderate for the show. The public is invited to attend. No admission will be charged, and Carnival buttons are not necessary.

The annual FFA Talent Show, at which the Winter Carnival king will be crowned and beards

judged, will begin at 8:00 p.m. on Wednesday, Jan. 23, in the North Hall Auditorium.

Fourth on the calendar of events is a non-conference basketball game here with Winona Thursday, Jan. 24, at 8 p.m. Following the game, the Young Dems will sponsor a dance.

Other activities planned for the week include a ski-outing at Ski-Mac, a snow sculpture contest, a bowling tournament, skating, a Swiss chalet dinner, a basketball game with Eau Claire, a semi-formal dance a swim show, an ice fishing contest and the movie "Diary of Anne Frank." A complete calendar of events will be published in next week's Voice.

Winter Carnival chairwomen Sidonia Sweeney, Nancy Miller and Stephanie Baker wait outside for the snow that will make "Frosty Frolics" a success.

'Booty' Trophies Now on Display In Trophy Case

The trophies to be presented to the person or organization collecting the most Oasis, L & M and Chesterfield packages to the Student Foundation Committee's "Booty for Beauty" project are now on display in the trophy case of the Student Center.

Any person or organization wishing to enter is asked to sign up in the Student Center no later than Friday, Jan. 25.

As stated in an earlier article, the Liggett and Myers tobacco Company will contribute one cent towards the beautification of the South Fork project for each package collected.

The Student Foundation Committee urges any person and organization interested in adding lasting beauty to our campus to participate in this fund raising campaign.

Further information may be obtained from Students Foundation Committee Chairman Larry Feltes.

Students That Expect To Teach Next Year Should Talk to Profs

All secondary education students (not including agriculture) who expect to be student teaching during the 1963-64 school year must meet with Dr. Carlton Beck, Dr. Mark Perrin or Dr. Allan Seimers this week.

Dr. Perrin and Dr. Beck will hold office hours Tuesday and Thursday after 10 a.m. and all day Friday in Room 111N. Dr. Seimers will be in Room 110N all week.

Conference Here Saturday To Aid Practice Teachers

All secondary student teachers from WSCR and their resident teachers have been invited to attend the Secondary Student Teaching Conference from 8:30 to 12:00 on Saturday, January 26. The purpose of the conference is improvement in articulation between resident teachers, academic departments, college supervisors, and student teachers.

The agenda calls for: 8:30 - 9:00 Registration in Student Center. Coffee in the basement snack bar.

9:00 - 9:15 General Session, 101 Student Center.

9:15 - 10:30 Student Teachers and resident teachers meet with departmental faculty in the area of the student's major. Meeting areas will be announced at general session.

10:30 - 11:15 Student teachers and resident teachers meet with departmental faculty in the area of the student's minor. Meeting areas will be announced at general session.

11:15 - 12:00 Student teachers meet with Dr. Beck and Dr.

Perrin, 101 S. C. Resident teachers meet with Dr. Siemers, 201 S. C. Questions about the student teaching and intern-in-team programs will be discussed.

This quarter there are 26 secondary student teachers in area schools, plus three Ford Foundation interns.

The student teachers, their schools, assignments and supervisor teachers are as follows:

James Accola, New Richmond, Physics, Algebra I, Mr. Waldo Marsh; Geometry, Mr. Donald Holmberg.

Glenn Anderson, White Bear Lake, English 12, Mrs. Ardella Hall; Biology, Mr. Frank Perpich. David L. Bory, New Richmond, U. S. History, Mr. Glenn Hansen. Christopher Coogan, White Bear Lake, U. S. History; Social Problems.

David E. Emerson, St. Paul Park, Algebra II, Mr. Mehdi Moheban; Chemistry, Miss Myrtle Belliveau.

Kathleen Engel, New Rich-

114 Students Comprise Fall Quarter Honor Roll

The Dean's Office has released the honor roll for the fall quarter. To make the Dean's List, one must compile a 3.5 average for the quarter. Fifty-one women and sixty-three men made the honor roll this quarter. The breakdown by classes is: 30 freshmen, 34 sophomores, 28 juniors, 21 seniors and 1 special student, for a total of 114.

Nineteen of these made straight "A's" for the quarter. They are: Frederic Owens, sophomore from Hammond; David Rabas, sophomore from Lena; Phillip Belfiori, freshman from River Falls; Earl Burton senior from Knapp; John Hansen, junior from Turtle Lake. Wayne Hendrickson, senior

from Spring Valley; Roy Olson, sophomore from Ellsworth; William Stoetzel, freshman from Beldenville; Victoria Szezech, freshman from Stanley; Kae Walker, junior from River Falls; Harriet Aanestad, sophomore from Spring Valley; Diane Fansler, sophomore from Amery; Mavis Grover, junior from Nekoosa.

Roxanne Gunvalson, freshman from Spring Valley; Karen Haddow, junior from Spring Valley; Margaret Lendell, junior from New Richmond; Carolyn McKenna, junior from New Richmond; Phillip Schneider, senior from Menomonie; John Wickre, freshman from Cumberland.

Students who made the honor roll are:

Agriculture: John A. Froseth, Elk Mound; George H. Glovka, Comstock; Roger H. Lambert, Trempealeau; Ronald A. Leitner, Chilton; Donald K. Mayer, Humbird; Ronald A. Naggatz, Clayton; Roger R. Neitzel, Ontario; Selmer E. Nelson, Prairie Farm; Coburn F. Ness, Spooner; Paul R. Ringlien, Whitehall; Robert Rosenbrook, Bloomer.

Liberal Arts: Myron Amundson, Red Wing, Minn.; Helen M. Avery, Fort Worth, Texas; Roger A. Bauer, Ellsworth; Barbara J. Beine, Charles City, Iowa; Ronald E. Berg, Cushing; Ronald Bourdaths, Stillwater, Minn.; David W. Bunch, Diamond Bluff; John Cegielski, West Allis; Marilyn J. Cordes, Comstock; Michael Ebersold, Alma; Roger S. Elliott, Sarona; Judith Engstrom, Hudson; Eugene D. Ermisch, Lakeland, Minn.; Gerald J. Forthun, Spring Valley; John M. Gorres, Amery; Susan A. Houck, Falls Church, Va.; Don G. Hueftle, Roberts; Donald E. Johnson, Boyceville; Anne K. Johnston, Roberts; Fred W. Kieske, Stillwater, Minn.; Rita M. Lenselink, Clear Lake; Margaret A. Lumphrey, River Falls; Ruth A. MacKenzie, River Falls; Perry J. Manor, Pepin; W. Bradford Martin, Pepin; Norman L. Millis, Black River Falls; Ronald Nordstrand, Ellsworth; John W. Pagel, Green Bay; Leslie N. Paulson, River Falls; John R. Peterson, River Falls; Melvin C. Peterson, Comstock; Richard Peterson, Ellsworth; Arden E. Romsos, Cameron; Marlys J. Rudi, Dallas; Frederick Simmons, Villa Park, Ill.; Janet K. Steen, Ridgeland; Harvey Stower, Amery; Catherine Suennen, Hudson; Karen Wears, Amery.

Education: Janice Albrightson, Woodville; Gary P. Bohlyen, Prescott; David L. Borg, Hudson; Rodney K. Brown, Stanley; George W. Cassell, River Falls; Raymond Christenson, River Falls; Christopher Coogan, Hayward; Janet L. Cox, New Richmond; Walter Culver, Ellsworth; Delores Dahl, Grantsburg; Diane Delorit, River Falls; Blaine E. Dinger, Centuria; Louise M. Fiebig, Hawkins; Virginia Freitag, Amery; Thomas L. Goff, Hillsdale; Karen L. Gray, River Falls; Muriel Hanson,

revealed, "is to do your homework. Learn all you can about our form of democracy and learn what makes it work. Above all, learn to tell the difference between a liberal and a Communist and between a conservative and an extremist."

Mr. Hall is mild mannered and non-emotional in delivering his lectures but does not hesitate in naming names and exposing the tricks of hate groups.

When asked why he collects so much bigoted material, he stated "I do this on the theory that the more I collect, the less they (hate groups) will have to distribute."

Roul Tunley of The Saturday Evening Post described Hall as "A fearless one-man task force flailing the 'hate boys' with their worst scourge-exposure."

His crusading lectures have brought numerous rebukes by his sworn enemies; Robert Welch, head of the John Birch Society and George Lincoln Rockwell, "Fuehrer" of the American Nazi Party, both extremist groups.

As a strong believer in the democratic process, he feels we must deal with the vicious and bigoted doctrine of men like Rockwell and Welch, "but this is best done in the framework of the Bill of Rights."

'Hate Group' Tricks Exposed By Hall at Convo Tuesday

"Question anyone's judgement if you wish . . . but don't question their loyalty unless you have absolute proof of their disloyalty."

So stated Gordon D. Hall, freelance writer and lecturer at the all-school convocation here Jan. 10. More than 350 faculty and students were in attendance to hear Mr. Hall speak on "Patriotism on the Extreme Right."

A native of New York, but now living in Boston, Mr. Hall spends much of his time in travel for research and lecturing purposes. At present his lecture dates average about 125 a year. His fees for speaking amount to very little if a group, worthwhile but poor, wants him to speak. He pays all of his own expenses including the cost of material for his files which he makes available for audience viewing.

In constant demand as a speaker, Mr. Hall uses his lectures to fight injustices. He admitted being picketed and physically beaten on several occasions.

"Bigotry," says Hall "gives me a sense of outrage and I want to fight back."

He feels he is lucky being able to do what he wants in life and still make a living from it. Few people have the chance," he explained.

"The important thing," Hall

Editorials

A Minute

We wonder if any of the readers have suffered the agony of having to waste a minute or two because of the crowds of students that flock to and from South Hall every fifty minutes. It is one of the most frustrating minutes wasted, just standing and getting jostled about while trying to make headway against the stream of traffic that seems to be always headed in the opposite direction.

While this minute is probably only one of many wasted during the course of a day, we feel that something could be done to alleviate the sorry plight of having to do a hundred-yard dash to make a class across campus on time.

A simple solution would be reverse the doors so that incoming students would be able to open the door on the right side and not have to wait for outgoing students that are using the one door. A law of physics, Bernoulli's theorem, states that the speed of a fluid (here a mass of students) will be inversely proportional to the diameter of the conducting medium (the width of the door). Since students are not mindful enough to walk up to a door and then run through, a crowd naturally develops. Open the other door, however, and much of the problem is alleviated.

Another solution which might be used, although it would take great understanding on the part of students and faculty alike, would be to lengthen the time between classes.

We feel that a return to the ten-minute break between classes and running classes an extra hour would not be too hard a pill to swallow, although we feel that few commuters would agree with us.

If ten minutes were too long, we could perhaps make it a seven or eight minute break. This would not make for too long an addition to the day's schedule and would make for less wait and crowds between classes. Then the only time lost to students would be in saying "I have to go to my 8:57 1/2 class."

R. B. B. Jr.

The Union

The following article appeared in the "La Crosse Racquet" last December. We feel that it also applies to our campus.

"Hey, Charlie, can you wait a second?"

"Sure, why?"

"Would you please hang up your coat?"

"Oh, sure, next time."

"Charlie, how about now? Must you throw it over the book case?"

"What do you mean, must I? Where else am I going to put it? There aren't any more hangers here. Besides, I can throw my books here too."

"Well, there are other places to hang coats. As a matter of fact, there is one hanger in the Union for each student on campus."

"Yes, but I haven't got time to walk around looking for a hanger. It's just as easy . . ."

"I know it's easier, but how does this doorway look? More like a bargain day downtown where the shoppers have rummaged through the items and left the table in shambles. A

sight like this certainly isn't attractive to the next customer, just as the coats piled up here aren't very eye-appealing to the next visitor to the Union. This person could be an important dignitary or a local citizen. After all, we do have many conferences and meetings here other than those concerned with the students. I realize that the Union is crowded, but we'll have to accept the situation and do the best we can until the addition is completed. Our 'best' would seem to be keeping our belongings in neat order."

"I suppose you're right. In fact, I think I'll tell my friends about your idea too. The Union does look rather messy; and if everyone helped by hanging up his coat and putting his books in a neat pile, our 'home away from home' might look better. yes, a very good idea . . ."

R. B. B. Jr.

Letters to the Editor . . .

Dear Editor,
Several weeks ago I attended, along with three other girls and our advisor, the state convention of A.W.S. held on your campus. In behalf of all the delegates from Oshkosh, I would like to congratulate the River Falls A.W.S. on their excellent planning of a meaningful day. I would also like to express my admiration of the students on your campus for the gracious hospitality and obvious friendliness they offered.

When we arrived late Friday night, we did not know where to go; so we asked the young woman taking tickets for your dance. She not only told us, but

showed us where we were to stay, and offered to take us there. She initiated the friendly feelings displayed to us during the entire meet. We would especially like to thank the three young men, names unknown, who helped to such a great extent to get our car going before we left. We certainly appreciated their assistance!

Again, thank you, to all the students of Wisconsin State College River Falls. You have a lot to be proud of.

Sincerely,
Fran LeFevre

Welfare Council Hires Students for Summer

The Welfare Council of Metropolitan Chicago has announced the following positions are open for students for summer work: public and private social agencies serving families, children, the aged, physically handicapped, mental health and hospital social service departments, probation and parole, day camps, neighborhood centers and positions in the Welfare Council. Students must be 19 years of age. Application forms are available from Dr. Nancy Knaak.

Film, 'Hiroshima' Is Next Offering

The Falcon Film Society is presenting an unusual film to be shown Wednesday, January 16, at the Falls Theatre. This film, "Hiroshima, Mon Amour," won the Critics' Prize at the Cannes Film Festival a few years ago. Since then critics everywhere have been impressed with this distinguished work.

Hollis Alpert in the "Saturday Review" wrote, "No more genuinely moving motion picture has emerged in years; none has ever been made in quite this way before . . . It is not simply a love story, it is not a document, or a plea for peace. It is a creative work, lovingly, poetically written by the French novelist Marguerite Duras, conceived cinematically by Alain Resnais, acted with purity by a French actress and a Japanese actor. It is, of course, a work of enormous dignity, a landmark in motion pictures."

Meletean Needs Senior Pictures

Seniors are reminded that senior information sheets are available in the Student Voice Office and should be filled out as soon as possible. Senior pictures must also be submitted before January 15 if picture is to appear in the 1963 Meletean.

3 College Students Teaching In Ford Foundation Program

Three River Falls State College students, David Borg, Merrill Clark, and Peter Bronson, will be taking part in a newly instituted Ford Foundation intern-in-term teaching program. All three men will intern the second semester, Mr. Borg in American History and Mr. Clark in 6th grade, both at New Richmond; Mr. Bronson in mathematics at West Bend, Wisconsin.

Wisconsin State College, River Falls, is one of two state colleges participating in a cooperative program with the University of Wisconsin under a \$500,000 grant from the Ford Foundation for teacher preparation. The experimental program is designed to attract two types of candidates. One is the well qualified undergraduate who is presently enrolled in a teacher education curriculum in any college or university. The student may substitute a semester of interning in an elementary or secondary school somewhere in this state to replace the standard student teaching program.

Also invited to participate are liberal arts graduates who have had little, if any, professional education. They can usually be certified to teach upon completion of two summers and one year of work at River Falls. The program is reciprocal with the University of Wisconsin, where a masters degree can be earned. Candidates selected for the program may become teachers in any elementary grade or on the high school level.

Essentially the student enrolls at River Falls State College in summer, attends a two weeks work shop, enrolls in courses towards the completion of a teaching major if he does not have one, and takes work in professional education. He may also enroll in graduate courses at River Falls if he chooses. In either the first or second semester of the school year, the student becomes a teaching intern in the River Falls or Madison area during which time he is paid a stipend of \$1,200.

The program is not limited to recent liberal arts graduates, but may be followed by those who are graduates some years ago and who may have become housewives, entered business or some other occupation.

A meeting of all liberal arts, professional or teaching students who are interested in hearing more about the intern program will be held in 201 Student Center on Wednesday, January 23, at 1:25 p.m. The purpose of the meeting will be to answer questions about the intern program and to begin processing applications of those students who might want to follow a teaching curriculum leading to interning. Freshmen and sophomores are especially invited so that they can begin to make plans for their junior and senior years.

Questions about the program may be directed to either Dr. Allan Siemers or Dr. Daniel Brown of the education faculty.

Amir Arjomand

College Student To Give Persian Language Course

Iraj Amir Arjomand, junior from Tehran, Iran, will offer an extra-curricular course in Persian. There will be an organizational meeting at 6 p.m. tomorrow in Room 127S for all students and faculty who are interested in the Persian language.

CORRECTION

The last issue of the *Student Voice* carried a story on the Alpha Psi Omega initiation that reported "unanimous approval is required for each new member."

The story should have said, "Each new member must be approved by a majority vote."

Nuclear Physics Class, Lab To Be Offered in Summer

The Wisconsin State College at River Falls is making available the facilities of its radiation laboratory and nuclear physics equipment to students from other Wisconsin State Colleges by offering a complete course in nuclear physics (6 quarter hours) over a 4 week period from June 17 to July 12. The course will then be offered a second time from July 15 to August 9.

An all new radiation laboratory is available for this course. The laboratory is equipped in part with nuclear radiation physics equipment purchased by a \$9963 grant from the Atomic Energy Commission. The grant has been supplemented with additional funds for nuclear radiation equipment.

The course will be taught by E. G. Albert, chairman of the Physics Department, who spent eight weeks at the Oak Ridge Institute of Nuclear Studies at Oak Ridge, Tennessee, as a participant in an Institute on Radiation Physics during the summer of 1961.

Emphasis will be on laboratory work. Some of the new equipment available includes a gamma ray spectrometer also usable for beta and alpha particle spectra work, a plutonium-beryllium neutron source and neutron howitzer, four decade scalers with auxiliary Geiger-Muller counting tubes and tube mounts, nuclear emulsion plates and microscopes, portable alpha particle counter, portable gamma ray and beta particle counter, numerous alpha particle beta particle, and gamma ray

sources, and considerable other equipment. The College has a special nuclear materials license from the A.E.C. for use of the one curie plutonium-beryllium neutron source.

Some of the laboratory work will include several gamma ray spectrum experiments, resolving time of a Geiger-Muller counting system, beta particles and mass absorption coefficients maximum energy and range of beta particles, neutron activation and half life determination, preparation of radioactive samples, standardization of radioactive samples, nuclear emulsion plate study, total cross section of slow neutrons in metals, neutron scattering, and other.

Two afternoon field trips are planned, one to the Physics Department of the University of Minnesota and one to the Physics Research Area of the Minnesota Mining and Manufacturing Company.

College Prof Is Co-author Of Pamphlet

Dr. Daniel Brown of the School of Education is co-author of a bulletin of the Assn. for Student Teaching entitled "The Student Teacher Evaluates Pupil Progress."

The 43-page booklet, on which Dr. Brown collaborated with Paul C. Burns of the University of Tennessee, was published in December.

The bulletin, directed to the student teacher, supervising teacher and college supervisor, presents basic ideas for effective day-by-day evaluation. Emphasis is placed on the total classroom situation as well as on the individual pupils and specific subject areas.

Dr. Brown also was notified in December of his appointment to the Bulletin's Committee of the AST. The three-year term begins in February.

"THE WAR LOVER"

Paul Engle, Poet, Speaks on 'How Poetry Happens'

"Reality and poetry are enemies and must always be in opposition. However, I feel that they are, and must be, connected," said poet Paul Engle at a convocation Thursday in North Hall Auditorium. Mr. Engle's topic was "How Poetry Happens."

Mr. Engle, who is a nationally known poet associated with the spirit of man in the modern world, made his last speech in this country for about a year. He has been hired by the Rockefeller Foundation to travel to the Orient where he will help discuss problems of the foreign writers.

When you write about someone and something, how do you say it? Mr. Engle has felt this many times and he said this is the essential problem of a writer or poet.

"A poem comes from the way you live your daily life," said Mr. Engle. His purpose is to put his experiences into writing, he said. He has no tools such as the painter or sculptor. All he has is a pencil and words to describe happenings.

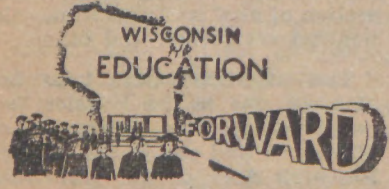

How then do you make an art out of poetry? All the poet does is heighten his experiences and activities and put them into a pattern. Everyone modulates the language in a certain tone and this is what the poet does. Fragment by fragment, word by word, you get the idea, he said. From this we are able to see that a poet thinks rhythmically. Mr. Engle used one of his sonnets called "The Parachutist" to illustrate this point.

"Poetry is not a spontaneous overflow of feeling," said Mr. Engle. "It is under control and never poured out." Mr. Engle took a sonnet from his book "The American Child" which is about his daughters, to show that poetry takes time to write.

Mr. Engle concluded with the poem "Collette" to show the audience that poetry takes ordinary life and its encounters to write it.

Paul Engle, nationally known poet, had lunch with some students on campus before his lecture last Thursday. Mr. Engle spoke on "How Poetry Happens."

How do you serve some six million nourishing meals a year at moderate cost and with a minimum of grumbling? That is one of the many non-academic problems being solved by the nine Wisconsin State Colleges as enrollments continue to climb.

By three years ago, when self-financing union buildings were opened on all the campuses, food service facilities had become woefully inadequate. The colleges at Menomonie, Platteville, Stevens Point and Whitewater conducted their own minimum food service operations. A student co-operative served food at La Crosse. Local persons provided limited food service at Eau Claire, Oshkosh, River Falls and Superior.

Now you'll find cafeteria lines and snack bars at all the college Unions, prepared to serve one or more meals a day to the 20,500 students and 1,250 faculty members. The 8,000 men and women students living in dormitories have identification cards entitling them to 15 to 20 meals a week for \$150 to \$180 a semester. Most of the other students, who live at home or in private rooms, eat at least one meal in the Union dining rooms.

At seven colleges, the entire food service operation is conducted by private companies which provide their own staffs, plan the meals, buy, prepare and serve the food. Kitchen and dining room equipment is owned by the Unions.

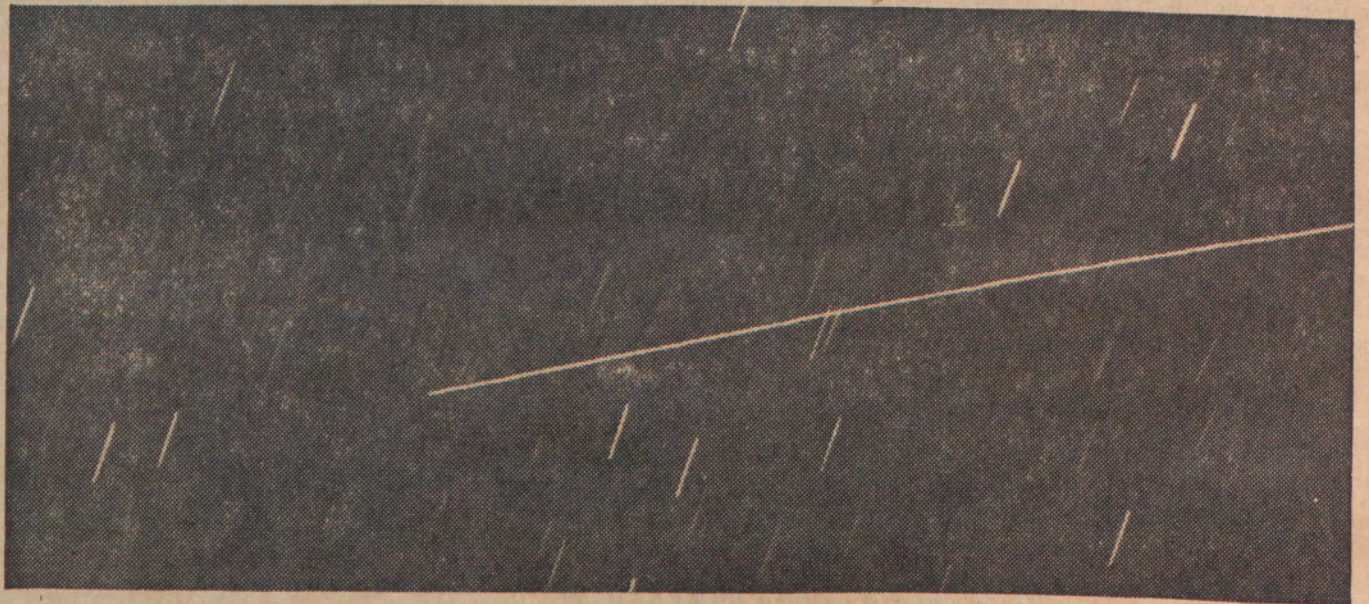

River Falls, Superior and Stevens Point have contracts with Ace Foods, Inc. of Milwaukee. The Prophet Company of Detroit serves the food at Eau Claire and Whitewater. The Slater-Minnesota Corporation, with headquarters in Philadelphia, supplies food service at La Crosse and Oshkosh. Contracts are for one year. Included are quality and quantity standards and, in some cases, provisions for "seconds" of potatoes, vegetables, bread and butter and beverages, including milk. The Unions are guaranteed a flat amount from the receipts, plus a percentage of the gross over certain amounts.

The colleges at Platteville and Menomonie (Stout) operate their own food service. Studies soon will start to compare services provided by the various private companies and by the colleges.

To keep up with the increase in the number of students and the construction of more dormitories financed by student fees, food service facilities are being enlarged at all of the colleges. Separate food service buildings where men and women dormitory residents will eat together will be completed by next fall at Whitewater and by 1964 on the north campus at Oshkosh. Two food service lines are included in a dormitory being built at River Falls. Other colleges will have more food service as part of the \$6,000,000 Union expansion program to be completed by the fall of 1964, at no cost to Wisconsin taxpayers.

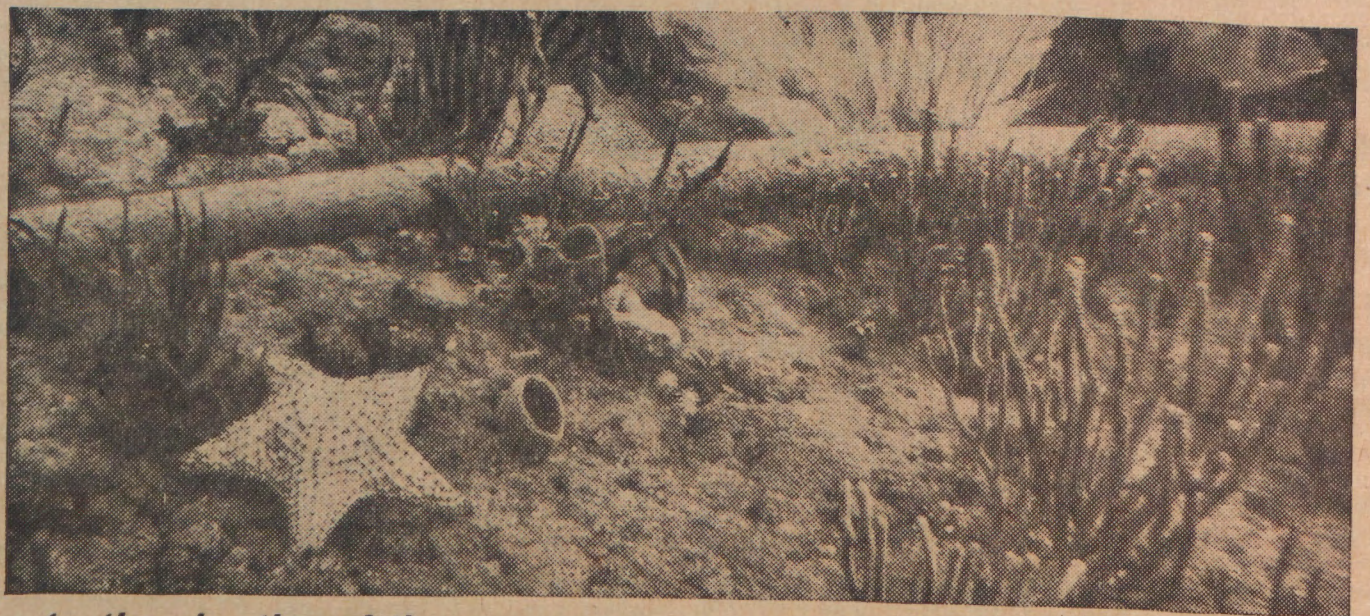

Both the food service and the student customers are becoming more sophisticated. One student recently went to her state assemblyman to complain about the food.

PROJECTS OF THE BELL SYSTEM

range from the reaches of space

Unretouched time exposure shows Echo 1 communications satellite (long line) crossing the heavens right to left. Shorter lines are stars "in motion."

to the depths of the sea

Actual undersea photo of telephone cable off coast of Florida.

Our job is providing communications of all kinds, wherever needed—whether in the northern snows to flash word of possible enemy missile attack, or in your home or college, or in serving the nation's business.

When we can't fill a need off the shelf, then we start fresh and create the answer to the problem. We've done that hundreds of times.

We began transatlantic radiotelephone service in 1927. Then we developed the

world's first undersea telephone cables to speed calls between continents.

We handled the world's first telephone conversation via satellite. And we have started development of an important world-wide communications system employing satellites.

When industry and government needed a way of gathering huge amounts of coded information from distant points, we were ready with our vast telephone network and Data-Phone, which can

transmit mountains of data at extremely high speeds.

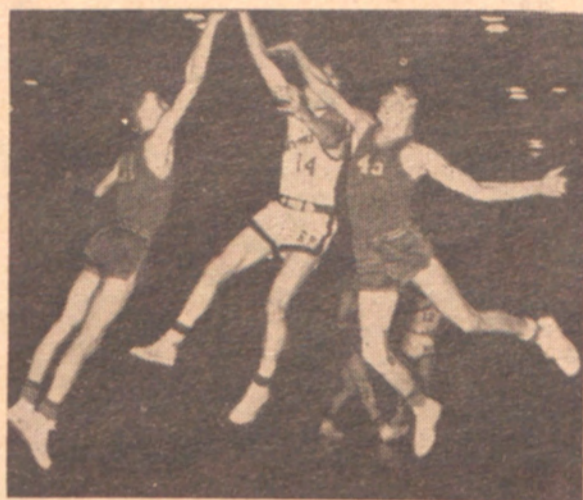

And so it goes—Long Distance service, Direct Distance Dialing, the Transistor, the Solar Battery—a succession of firsts which goes back to the invention of the telephone itself.

Universal communications—the finest, most dependable anywhere—are what we deliver. Inside: for home, office, or plant. Outside: on land, under the sea, through the air,

Falcon Ballet: Speed, Determination

Falcon Cagers gyrated all over the floor against Bethel in an apparent attempt to outdo the Pavlov Ballet Troupe. Their hustle paid off, however, in an 80 to 62 win over the Royals in the first post Christmas game. This was the second consecutive non-conference win for the Pagemen, the first being a pre-vacation win over St. Johns. Both games were played on the Karges Court. — Staff Photos by Mike Lukowicz.

Cagers Split Road Pair; Late Rallies Highlight Trip

A weekend road trip to Whitewater and Milwaukee resulted in victory and defeat for the Falcon cagers. On Friday night the Falcons defeated the Whitewater Warhawks 73-69 on a tremendous second half rally, but Saturday night the tables were turned and

the Falcons lost to UW-Milwaukee 68-66.

The victory Friday evening was the first in conference play this season for the Falcons and left them with a 1-2 conference record. Whitewater held a 44-29 lead at halftime and increased their margin to 46-29 at the beginning of the second half.

Coach Page's cagers then went into a zone press and immediately began to cut the Warhawks margin until a clutch free throw by Ted Heimstead tied the score in the closing moments of the game 69-69.

Whitewater then took the ball down-court and missed a shot. River Falls got the rebound and came right back with a basket to make the score 71-69 for River Falls. Kenny Lee was fouled and sank two free throws to close out the scoring for the evening.

Joe Steffen led the Warhawk scoring with 20 points and Bob Budgius and Dale Holzhueter had 13 and 12 points each. The Falcons were paced by Don Koepnick with 21 markers, 14 in the second half. Ken Lee and Toby Garey had 11 each and Gordy Olson 10, with Lee hitting nine in the second half.

Saturday evening the Falcons staged another rally but this time they could not cut the margin enough and lost to the UW-Milwaukee Cardinals 68-66. The loss left River Falls with a 1-3 conference record and in a tie for eighth place in the conference standings.

Grapplers Outpoint Bemidji; Capture Second Dual Win

BY KURT KLEINHANS
Voice Sports Writer

River Falls wrestlers made it two in a row with a 16-12 win over Bemidji State College here Saturday night. The victory was the second dual meet win in two tries for the Falcons this season.

Little Jerry Fehlen started the ball rolling when he easily decided his man 5-0 in the 123 pound class. Bemidji forfeited the 130 pound weight class giving

the Falcons with an eight to nothing advantage.

Bemidji squeezed out two close victories in the 137 and 157 pound classes as Falcon's Jim Kanable and Bill Culver lost in the final seconds of their matches.

Reliable Pat Mrotek turned in a top notch performance when he pinned his man in the third period of his match. Brown, the Bemidji man pinned by Mrotek, placed fourth last year in the

N.A.I.A. tournament.

Freshman Ken Trudell almost came up with a pin in the opening minutes of the first period of the 177 pound class. Trudell finally lost 10-8 in a match that was exciting all the way.

Going into the final match of the evening the score stood 13-12 in favor of River Falls. It was up to the heavyweights to decide the outcome. One hundred eighty-six pound Dean Dix defeated his man 4-0 to give the Falcons their final three points.

Dix escaped from his man at the start of the third period and then scored on a takedown in the final minute to assure him of his win.

Falcon Coach Byron James stated, "I was satisfied with the win but had hoped for more from the team. Chet Anderson, Bemidji coach, gave praise to Mrotek of River Falls, calling him, "a real fine wrestler." Anderson also stated that he felt the two teams strengths were evenly matched giving both squads a good experience.

Finmen Almost Win

The phrase, "lost a heartbreaker," has long since become a cliché in sportswriting. However, what else can you say when a team that has tasted the sweetness of victory only once in its two-year existence loses a meet by a mere two points. This was the case last Friday as the Falcon swimmers lost to St. Thomas College at St. Paul, by a 48 to 46 score.

The Falcons captured only four first places, but had an unusually strong array of second and third place finishes.

Individual winners for River Falls were:

Gene Kidd, diving.
Jim Hirschinger, 100 yard butterfly.

Lloyd Nelson, 200 yard breaststroke.

The fourth victory was scored by the team of Fellenz, Darikartz, Mitchell and Hirschinger in the 400 yard medley relay.

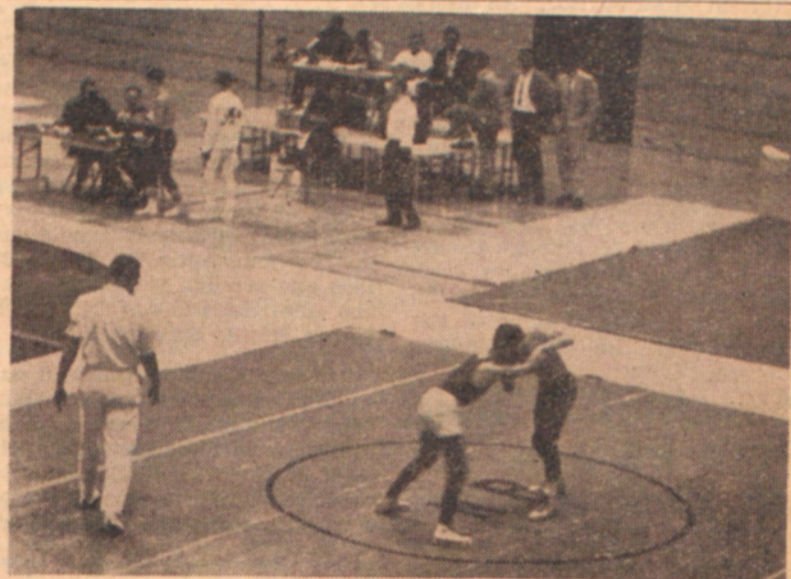

The Falcons were five points ahead going in the final event, the 400 yard freestyle relay, only to lose this event (and the meet) by 29 seconds. Yet, with just one more second place finish, River

Falls could have won the meet in spite of the relay loss.

Last Saturday the Falcons were swamped 72-19 by Carleton College of Northfield, Minn. Once again the Falcons were shut out without a single first place.

The combination of the tiring after-effects of the previous day's meet and the fact that they were facing a highly ranked, unbeaten team did little to encourage our swimmers.

This coming Saturday, the Falcons will be at home for a meet with the La Crosse Indians. The meet begins at 1:30 in the Karges pool.

Osceola won the team title and Flambeau Unity High of Milltown for runnerup honors in the annual high school wrestling tournament held at Karges Gym Saturday. The meet, which was jointly sponsored by the college and RF High School, attracted 250 participants from 20 schools.

WRA to Hold Tournament

by Dave Taube

A round robin doubles badminton tournament for all women is being started by the WRA. There will be a practice session for all interested women in the large Gym tonight from 6:30 to 9 p.m. Anyone who is interested, but unable to attend this practice should sign up anyway on the bulletin board in Karges Center.

The doubles tournament will be continued each Monday until the end of February. Then the top two teams will win the right to represent River Falls in the Wisconsin State Tournament at La Crosse, which will be held in March.

If enough interest is shown, singles competition will also be started.

Now 2 I-M Leagues

by Richard Ricci

The intramural basketball league has been split into two 15-team leagues for the rest of the season. The leagues began action last Tuesday night. The teams which showed the best ability in the first five games this year, were put in the "R" or better league and the other 15 teams were placed in the "F" or poorer league.

The first five games, played prior to the new league arrangement, do not count, so the standings begin anew according to Coach Ben Bergsrud.

Seven teams tied for first place in the season's first five games before the league was split. They were the Chuggers, the Magnificent 7, the Mophia, the Rinky Dinks, the Rizzo Raiders, the Untouchables and the Vet's Club.

Organization Calendar

Monday			
6:00	Social Committee	Every	2
6:30	WRA	Every	Karges

Shakespeare's Plays to Run On Television

A 15-part series based on five Shakespeare plays are currently being offered on KTCA-TV, the educational television station in the Twin Cities. These plays are assigned viewing for classes in English 135 and Speech 35 said Dr. Francis Chisholm, chairman of the English department.

Produced by the British Broadcasting Corporation and shown elsewhere in the country to great critical and audience response, it traces the careers of seven English monarchs including the weak Richard II, Henry IV, Henry V, and the hunchbacked Richard III. Presented as a continuous pageant, this manner of presentation allows the viewer to watch them rise to power and fall one after another.

Since the BBC uses no arbitrary time schedules such as we are used to on U. S. TV, the episodes vary in length, from an hour to 80 minutes.

Ch. 2 is running each of them twice a week, starting Jan. 8. Starting times are 10 p.m. on Tuesdays, and 7 p.m. on Fridays.

Bev Roth, River Falls, Ron Weitecha of St. Mary's and Bonnie Wilson of Macalester were winners in their respective divisions at the annual forensics tournament held Saturday at River Falls.

Bev Roth Wins 1st in Speech Tournament

Bev Roth, senior from St. Croix Falls, took first place in the poetry reading division of the Class B Forensic Tournament held last Saturday at the College. Heidi Flueger captured second place in the prose reading contest. She is a junior from Red Wing, Minn.

The participating schools were: Northern Illinois University, Luther College, State College of Iowa, Mankato State College, Bethany, St. Olaf, Bethel, St. Mary's, Northwestern College, Macalester, University of Minnesota, North Dakota State University, and Wisconsin State Colleges of Oshkosh, Eau Claire, Superior, and River Falls.

River Falls was represented by James Sherwood, freshman from St. Paul and Miss Flueger in prose reading; Miss Roth and Larry Baker, freshman from Massillon, Ohio in poetry reading; Ann Sjolun Poulter, senior from Spring Valley in public speaking; Anita Roessler, freshman from Hudson; Lincoln Betler, freshman from Berlin; Vincent DiSalvo, junior from Cudahy; Allen Webb, soph-

omore from Elmwood; Robert Casselman, sophomore from Star Star Prairie; John Cegielski, sophomore from West Allis, in debate.

The conference was under the direction of Judith Runkel, senior from Dallas and Kae Walker, junior from River Falls.

The River Falls chapter of Pi Kappa Delta, the national honorary forensics fraternity, sponsored the annual tournament.

New Photography Club Organized in Prucha Hall

The newest organization on campus is the Prucha Hall photo club, Photos Unlimited, which is believed to be the first club of its kind on the River Falls campus.

The club, which meets second and fourth Wednesday of the month is headed by Bill Transburg, president; Larry McCormack, vice-president; and Dave Weitz, secretary.

Membership in the club is now restricted to residents of Prucha Hall but later in the year the club plans to expand its membership by offering memberships to others not from Prucha.

The organization is just now finishing its constitution and the selection of an advisor. An interesting thing to be included in the constitution is the fact that there will be no dues to this club. Instead of dues the members will contribute time and work to develop the assets of the club further.

Group excursions are planned where members will take photos and afterward be able to discuss the results and techniques used. A proposed project for later in the year is a display of some of the photos that the club members

plan to take.

The club hopes to teach the basics of photography to newcomers to the field and to develop the newer, more advanced techniques for those who are veterans of the darkroom.

Law Allows Disabled Vets To Get Vocational Training

The enactment of PD 87-815, October 15, 1962, makes vocational rehabilitation training available for the first time to veterans who incurred a disability as a result of service in the armed forces during any period of service covered by the Universal Military Training and Service Act. The periods of service included are (1) July 26, 1947 to June 26, 1950, and (2) February 1, 1955 to the present. If you are receiving compensation from the government because of a disability incurred during either of these periods, you may apply for vocational rehabilitation by completing VA Form 22-1900 and sending it to the Veterans Administration at 342 North Water Street, Milwaukee, Wis.

Applicants will be provided vocational counseling to ascertain what training they may need to overcome any handicapping effects of their disabilities, and to assist them in making a choice of a future occupation. The Veter-

ans Administration will pay for books and tuition and a subsistence allowance during the period of training which may be needed for this purpose. Training will not be provided under this Act for veterans whose disabilities are rated at less than 30% unless they show clearly that the disability causes a pronounced employment handicap.

COLLEGE PHARMACY Don Aspens, R.Ph. River Falls

Shepherd's Clinic Will Be Jan. 17 At College Farm

A Shepherds clinic will be held at the Wisconsin State College at River Falls farm pavilion Thursday, Jan. 17, from 12:30 to 3:30 p.m.

Speakers on the program will include University of Wisconsin sheep specialists Art Pope, R. E. Hall and Quinn Kolb.

Bernard Drewiske, Pierce county agent, and E. E. Anderson, St. Croix county agent, say that this is the only clinic of this type to be held in this area this year.

All sheep producers are invited to attend this meeting to hear discussions on control and prevention of parasites and disease; also feeding and management problems of sheep producers and the 1963 market outlook.
