VOLUME XX

RIVER FALLS, WISCONSIN, WEDNESDAY, MAY 13, 1936.

NUMBER 28

## Scholarships Will Be Granted to Qualified Freshmen of 1936-37

Ranking High School Seniors Are Eligible for Awards At Teachers Colleges

Scholarships for 1936-37 at the River Falls State Teachers College will be available to ranking high school graduates and to good students in financial need who possess qualifications for leadership, according to the announcement made recently by President J. H. Ames.

As a result of the action of the 1935 Wisconsin legislature giving this authority to the board of regents of the teachers college, scholarships were awarded this term to a score of freshmen needing assistance who are now enrolled at River Falls.

That law provides that in Wisconsin high schools with an enrollment of less than 250 the student ranking first in scholarship shall be eligible for the award. Those ranking first and second in schools enrolling from 250 to 750 shall be eligible for the scholarship; and those ranking first, second, and third in schools enrolling 750 or more students.

In case a person or persons eligible for scholarships under the provisions of this law do not elect to enroll at a teachers college, then the next highest ranking student becomes eligible for the scholarship. The scholarship includes incidental fees collected by the state each term.

The board of regents is given the authority also to grant scholarships to bona fide residents of the state who, during their high school course, were good students, in financial need, who possess qualifications for good leadership. A limitation of 8 per cent of the freshman class enrolling at the college is placed upon the number of such scholarships to be awarded.

The provisions of this law are of widespread interest in northwestern Wisconsin, as recent statistics show that more than 500 students now enrolled at the River Falls State Teachers College come from more than 100 high schools.

## Wonders of Science Is Lecturer's Topic

Harry C. White, philosopher, lecturer, and scientist, entertained the college assembly Tuesday, May 12, at 9:50 with a lecture, "The Wonders of Science."

The lecture pertained to the lives and accomplishments of men of the scientific world. The main theme dealt with the power for good that is inherent in all of us as exemplified particularly in the lives of Edison, Steinmetz, Morse, Bell and many others. Mr. White dwelled on the lives of these famous men, illustrating by some of their accomplishments.

Mr. White used in this lecture paraphernalia valued at many thousands of dollars. His equipment represents a complete research laboratory. Each of the unusual demonstrations completed an outline of the Wonders of Science. Mr. White used the bioscope and demonstrated the power of the smallest lamp in the world. The lecturer also demonstrated and presented a beautiful word picture of the artificial larynx, and the electric eye with all its wonders. Transmitting a beam of light, at his command it lights another light, turns on fans and makes bells ring and when this light is interrupted by a person passing through it, it brings clearly the great wonders of modern science.

## Leads Grand March

Kenneth Wallin

## Senior Play Cast Has Been Chosen

"The Intimate Stranger" by Booth Tarkington Will Be Presented by Seniors

The senior class will present "The Intimate Stranger" by Booth Tarkington as the class play this year, announces Miss Nelle Schlosser.

This amusing play centers around the question as to whether men prefer the young flirtatious type of woman or the older woman of deeper charm.

This play was first presented in the New National Theater in Washington, D. C., and has had many successful presentations since.

The cast includes the following people:

Station Master ---- Kenneth Wallin  
William Ames -- Marlowe Mickelson  
Isabel Stuart ----- Helen Kotts  
Florence ----- Rhoda Hawn  
Johnnie White -- Gerhard Thompson  
Henry ----- Omar Bacon  
Aunt Ellen --- Nona Jean Rockwell  
Mattie ----- Mary Jane Larson

## Banquet Will Be Sponsored For Social Graces Meeting

The Social Graces group will sponsor a banquet on Tuesday evening, May 19, at 5:45 in the college cafeteria. The guests will meet in the Social Room at 5:30.

All college students are invited to attend, especially those students who have attended any of the Social Graces meetings.

The committee in charge of the dinner are Gerhard Tostrud, Lucille Bierbaum, and Marion Hawkins.

## NOTICE

After tonight, the library will not be open evenings. The library will be open to all students from 9 until 12 on Saturday mornings as was previously the custom.

Rhea Gibson, Librarian

## Annual Field Day To Be Held Here Friday, May 22

Demonstrations To Be Given By Agricultural Students; Recreation Is Planned

Friday, May 22, has been set as the date for the thirteenth annual Field Day activities with the program beginning at nine o'clock and continuing throughout the day.

The morning program will consist of several demonstrations by members of the senior agricultural group. The afternoon will be taken up with entertainment which will include music, swimming, kittenball, and free admission to the college baseball game.

The Field Day program is sponsored by the Agrifallian Society and has a twofold purpose; first, it gives prospective teachers a chance to practice in the demonstration of farm skills; secondly, it gives high school agricultural students an opportunity to visit the campus here at River Falls.

The following farm problems will be discussed in the demonstrations during the morning program; soil erosion, home beautification, pasture management, caponizing, leather tanning and working, post mortem of a diseased fowl, binder knottter adjustment, and the calibration of a corn planter.

Mr. Sassman, state director of vocational agriculture, will be a guest on this day.

Invitations have been sent out to about thirty-five high schools in the neighboring counties.

## Spring Events Are Planned By Various Campus Groups

Picnics and other social events have been scheduled by several of the campus organizations.

The members of the Rural Life Club will have a picnic in Glen Park next Tuesday evening. The organization is planning another picnic which will be given at a later date by the members of the graduating class who have positions for next year.

The VOICE staff is planning to hold a picnic out at the Monument next week. The committee in charge of the arrangements is: Melvin Wall, chairman, Harold Gifford and Lauraine Isaacson.

Tomorrow night at 6:30 the Masquers will hold their annual banquet in the college cafeteria. The committee in charge of this banquet is Gerhard Thompson, chairman, Mary Jane Larson and Robert Knowles. New officers will also be elected at this meeting.

## Night in Monte Carlo Is Scene Of Biggest Social Event of Year

### Chosen Prom Queen

Hope Sandow

Wallin and Sandow Will Lead Grand March; Palmquist's Orchestra Will Play

The annual spring Promenade will be held in North Hall gymnasium, May 16. The receiving line will begin at 8:30 p. m., and the grand march will begin at 9:00.

The grand march will be led by Kenneth Wallin, president of the social committee, and Hope Sandow, whom he has chosen as Prom queen. Second in line in the grand march will be Marion Williamson and Stuart Larson.

The theme for the decoration is to be "A Night in Monte Carlo." There will be an arched ceiling of blue, with red and blue lights. The orchestra stand will be decorated in keeping with the arched ceiling. Modernistic walls will complete the decorations.

Dance programs will also carry out the Monte Carlo theme. Also in accordance with the theme, punch will be served by two little French girls.

Ernie Palmquist and his eleven-piece orchestra from Green Bay, Wisconsin will furnish the music for the dancing. They come to us very highly recommended, being the only Victor recording orchestra in Wisconsin and Upper Michigan. This orchestra has appeared at the Boulevard of Paris, St. Paul, Minnesota, for a lengthy engagement.

Chaperones for this annual event are Dr. and Mrs. Justin Williams, and President and Mrs. J. H. Ames.

Tickets can be purchased from Leone Capper, Louis Kulas and Joan Smith any day this week.

## Seniors and Former Students Are Placed

The Training School office reports further placements of students who are graduating this year as well as former graduates who are receiving new positions.

Floyd Krause has been engaged to teach science, mathematics and fill the coaching position at the high school in Luck. Perry Lucksinger, also a senior in the science-mathematics department, has received a similar position in Hammond.

Two history majors have also been placed during the past week. Vaughn Smith will teach history, social sciences, and English in Tony, and David Dykstra has received his contract to teach history, social science, and Latin at Wittenberg, Wisconsin. June Toftness has received a contract to teach in a rural school near Minong. She has been taking elementary work here this year after graduating from the Spooner county Normal last spring.

Mrs. Mary Stevens, a student at this college in '34, has received her contract to teach at a rural school near New Richmond.

Walter Beebe, a graduate who has been teaching at Cylon, has been given the principalship of the high school at Wilson. Another alumnus, M. G. Batho, who is now at Bloomington, has received the position of principal at Lodi.

Leslie Libakken, who has been teaching English, social sciences and coaching debate at the Hammond high school, has been promoted to the principalship of that school for the coming year.

## Featurist Advises Against Perils of Monte Carlo

Again has come the time of soft lights and sweet music, punch, and yards of pastel finery, complemented with floral tributes of the stalwart gallants to their ladies fair.

All this beauty will be arrayed against a background of Monte Carlo nights. An inky sky studded with myriads of silver stars, the play of fountains and the reflection of moonlight against the marble of the palaces.

In the midst of all this splendor

will move the king of Monte Carlo with his lovely queen upon his arm. Always they will see that their guests are happy and carefree as they frolic and dance until dawn.

Now this is all lovely and beautiful and our pen has sort of wandered away till it got caught in an inky blot. But remember, my friends, the curse of Monte Carlo. It is like Scylla and Charybdis, luring men on to the rocks of financial destruction.

However, never fear, we have solv-

ed all. If you are very gallant and spend your all on milady's corsage before you ever go to Monte Carlo, you will be broke when you arrive and will be saved from the cruel clutches of beautiful sorceresses.

We think the idea is almost as brilliant as those evolved by the famed "Sisters of the Skillet." And even better, we don't charge a thing for our brain child and don't even ask you to buy our product as we're not in the florist business at all.

## CONES

I scream, you scream, we all scream for Ice Cream!  
Where—South Hall campus!  
When — Wednesday evening,  
May 13, 8:30-9:30. Bring your nickels and dimes and enjoy your cones under the trees.

## What Is Education Coming To?

The news that some three hundred students, recruited from various universities and high school throughout the United States, are embarking soon on a tour of Europe, might make some gray-beards wag their heads and wonder what modern "learning" is coming to. It is quite obvious that educational trends are veering away from the formalized idea of producing scholars in the sense of "book-full blockheads, ignorantly read," to whom the meaning of a college life has somehow gotten itself compressed between the forward and addenda of a textbook.

The modern colleges are trying to afford its students something of the luxury of a background, not with any intention of turning out "superior people", with its connotation of snobbishness, but men and women who are better for having been subjected to its influence. Such a supervised tour as this one, which is being conducted under the immediate auspices of the Y.M.C.A., can contribute immeasurable to the cultural development of the students. The enlargement of the vision naturally attendant upon travel, coupled with the sympathetic interest in the problems of other countries which it promotes, can do more to the promotion of a rich, cooperative existence than years of purely academic work.

Such trips afield, carried out on a modest scale to put them within the financial reach of a larger portion of the students, might well become an established part of the educational routine of our American universities.—Los Angeles Junior College.

## G-Men Making Nation Safe

During the last few years the lawlessness of this nation has kept the civilized world wondering as to just how far it could go. Confidence in the ability of the United States to control her criminals sank to a new low last winter when the Lindbergh family decided to leave this country in order to bring up their child unmolested. What an impression that must have made on other people. Not enough room for both the citizens and the hoodlums—so the citizens had to get out!

But the rapidity with which the Federal Bureau of Investigation has recently been rounding up public enemies should be an inspiration to those who still believe that law-abiding citizens have the upper hand. For within the space of ten days three of the most dangerous criminals in this country were captured by the "G-Men" of J. Edgar Hoover. First to be trapped was Alvin Karpis, public enemy second to none. He had sworn he would never be taken alive. But when the Federal agents, led by Hoover himself, surrounded the gangster in New Orleans, he didn't have a chance. The title of public enemy number one then was attached to Harry Campbell. He had borne it but a few days when G-Men, again led by Hoover, nabbed him in Toledo. Almost simultaneous was the capture of Wm. Mahon in San Francisco, by another group of Department of Justice agents. The last of the notorious kidnapers was quickly sentenced to a 60 year term at McNeil Island.

The fact that Karpis, Campbell and Mahon were all in the process of being captured at the same time shows that we do have the means by which to control our desperadoes. The efficiency of the Justice Department in that clean-up is worthy of respect. Not so many weeks ago Mr. Hoover was required to defend his department before a House investigating committee. An attempt was made to cut its appropriation. The bureau was criticized for its tactics by none other than Representative Zioncheck, who thinks that congressmen should be allowed to operate apartment house switchboards and speedy roadsters while intoxicated. Fortunately the cut was not made.

When are we going to cultivate public opinion to the point where those who enforce the law are immune from the insults of petty politicians? As soon as the public becomes interested enough to demand that justice prevail we will be on the right road. The Department of Justice is a scientific institution. Give it a chance and we will soon have law and order worthy of a great nation.

## The Pun Parade

By JOE PUNNER

The recent advent of white shoes and trousers saved the Schoolyard Gossip column from becoming too trite about the annual remarks concerning spring.

There is nothing quite like Gossip-truth which begins, "I heard—"

The W. A. A. wishes to inform "Prexy" that there will be no noise in South Hall gym as the organization will be gone camping.

Mr. Stratton calls this publication the "Student Whine". The students would appreciate it if they could have as much as a little whine, even if they can't have a "voice" in the matters concerning them.

We would like to suggest to the Y. W. that they sponsor their next coffee party at St. Olaf. We are a little short on coffee drinking Olsons, Larsons, etceteras.

Now that hot weather is here, Herr Whitenack requests that the people keep quiet in the halls in order that he may leave his door open. Wonder if he gets a commission from the pres. for his monopoly on solitude?

Now is the time to be careful of engagement rings . . . the song, "Take Back Your Ring, My Finger's Turning Green" isn't very enlightening to warble.

## Clipped

The ideal student, according to the professors' opinions at the Colorado State college, is the collegian who is healthy, curious, friendly, has a hobby, does things to the best of his ability, and has a pleasant countenance. He isn't a book worm.

Anyway, we can fill the last requirement!

The freshman at Wyoming whose average age is 19.24 years is not as popular as he would like to be. This freshman has 1.9 dates a week but would feel much better if he had 3.7 according to a questionnaire given to all freshmen.

A University of Wisconsin student had been accused of cheating by a certain instructor. Came the day of the final exam, and retribution. The examination was barely under way when the suspected one began to peek at a slip of paper he held in the palm of his hand. Ever on the alert, the instructor came pounding down the aisle and confiscated the damaging evidence.

The message read: "Is it true that you were secretly married on December 4?"

## Voice Sleuth Uncovers Joe Punner

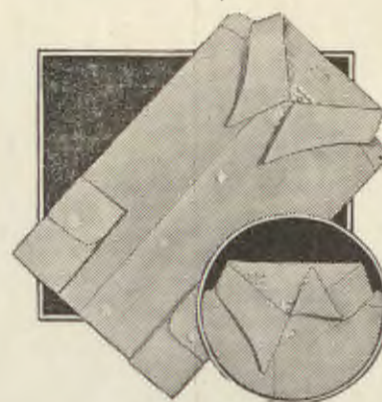

Gentle readers, and readers not so gentle, we have at last obtained permission to unmask the mystery man for you.

From the first time when Joe Punner's witticisms were handed in as an anonymous contribution for the VOICE, we have been conjecturing as to the possible identity of the author. We have never been able to catch him in the act of stuffing his copy in the VOICE box for the simple reason (which we discovered later) that a friend of his on the staff turned it in.

This friend was our first important clue. We could not force her to confess who the real author was, but neither could she stop us from guessing. And now we can say triumphantly that we guessed right.

Joe Punner is a student well known on the campus. For a general description one would say dark, well-built, has black hair, and stands five feet five in stocking feet. Mr. Malott has a nice I.Q. score of 63 checked opposite the author's true name, which just goes to show something or other. This author is not the "book worm" type, but one who has taken an active part in most college sports offered, making an especially good record in badminton. Punner was voted one of the most popular men at the Puff-Pant Prom. And if all these clues together with the knowledge of this person's writing ability have not led you to the conclusion that the mystery "man" is none other than Audrey Jane Barrett, we advise you never to be a detective.

## Falconites Lose To Iowa Peds In 12th Inning

### Rain Forces Postponement Of Saturday's Contest; Iowa Victor in 5-2 Game

With only one of the two scheduled games being played, the River Falls Falcon baseball club fell on the short end of a 5 to 2 decision at the hands of the Iowa State Teachers from Cedar Rapids. A deluge of rain at the close of the second inning forced the postponement of Saturday's contest.

The game Friday afternoon proved to be the best of the year as the two evenly matched teams battled through 12 long innings before the visitors rushed over their winning runs.

From the outset the game developed into a tight pitchers duel between Blank of the locals and Blanchard of the Iowans. Both pitchers allowed 11 hits during the course of the afternoon, while Blanchard managed to whiff 12 to Blank's 8.

The Falcons drew first blood in the opening round when Stenback doubled and tallied a moment later on Johnson's ringing single to left. Al Erickson then doubled, but both runners were left stranded as Mel Erickson flied out to right field. The Falls concluded their scoring in the third when Stenback walked, took third on Johnson's second hit, and scored on a fielder's choice.

Meanwhile Blank was sailing along, allowing the visitors only two hits through the first four frames.

In the last of the fourth, the Falcons had a golden opportunity when with one away Martin drove out the longest hit of the day, a triple to deep left center, but at this stage Blanchard tightened up and retired the next two Falcon hitters in order.

The visitors finally broke through in the first of the fifth when three hits, including a double and two singles, coupled with a balk, tied the score at two all.

Both teams threatened continually in the late innings, but the pitchers managed to keep the situations well in control. The Falcons had no less than 14 men left stranded on the bases while the Iowans had 10.

Faulty baserunning and inconsistent playing cost the Falls at least two runs in the closing frames.

Don Johnson led the local attack with four hits out of six attempts, while for the visitors St. Clair and Hutchinson tied with two out of six.

The batteries for Saturday's game were the Erickson brothers against Kensington and Hutchinson of the visitors. Only two innings were played with neither team driving out a safe hit.

### Six Games Remain On Falcon Baseball Schedule

With six games remaining to be played according to the schedule made out by Coach Cowles, the Falcon baseball team is playing the Concordia College nine this afternoon at Ramer Field.

The Falls team is doped to win, since last year they handed the Concordia men a 16-2 defeat.

Friday the Falcons will begin a return double-header with the Iowa State Teachers team at Cedar Rapids, Iowa. This game and Saturday's promise to be fast ones, judging from last Friday's twelve inning game.

The other remaining games are as follows: May 19, Macalaster College at St. Paul; May 23, St. Cloud Teachers College here; and May 26, the St. Cloud team at St. Cloud.

## Kibitzer's Korner By LOUIE

FROM all reports Ray Helixon is back in the Northern League with Jamestown playing under his old manager, Johnny Anderson. Helixon played with the Birmingham club in the Southern League after he had reported to the Cubs. The big flychaser batted in the cleanup position for a while but fell into an early season slump. They then proceeded to change his stance at the plate and then he says he couldn't even hit foul balls to the grandstand. Helixon is again batting cleanup with the Jamestown club. Aaberg, the big Luther athlete who performed at end with the Luther team at Ramer field last fall, is also a member of the club. He is a hurler.

AFTER the ball game Saturday the fans got a slant on the present ball club as to how good they are. That 12 inning game was just as good as the fans can figure on seeing here this year. Even in defeat the boys looked good on the ball. Blanks unintentional balk that gave the Iowa team the second run was really a break for the Tall Corn boys that counted. Johnson's three for five with the stick makes him the best hitter on the club by far.

LOSING to the Iowa team brought out some smart baseball by both teams. The squeeze plays that scored the final runs were perfect and were impossible to break up. On the last one the batter pulled the ball down from way above his head to lay down a perfect squeeze bunt. If the batter had popped the ball to the pitcher, Blank, a double play would have been in order and the side retired only one run in the lead. But he didn't, and it was a good ball game anyway.

COUNTING two straight wins over local teams, Thompson's Terriers will challenge any of the teams around now. Thompson says his team will play any team on a one-day notice. So far the Terriers have beaten Hanson's Hyenas and Anderson's Epicureans. Epicureans Hart and Luchsinger led the boys to defeat. Next Wednesday Thompson will take his team to Dresser Junction to play a team from the quarry town under the lights. The Dresser boys go in for their softball in a big way.

ON the subject of an intra-mural softball Thompson wants to find out if there are enough teams to form a sort of a league. There are a few weeks left in which to get going on the series. If there are any teams that are interested in playing any games see Thompson.

NYSTROM says the beating at the hands of Martell was pretty humiliating. The boys from the wide open country climbed on Martin for a 10 to 8 win. The reason: the Falcon pitchers were all used up for the game. Martin, who chucked, had a sore arm and the opposition climbed on him for the runs. Stenbach, the fireball infielder, hurled three innings with good results.

SOME of the golfers and the barnyard golfers had better look to their laurels with the progress Lampson has made in the punchers and tossers. The long one can toss on the shoes right smartly!

## Tennis Tourney Is Being Played

The semi-finals of the spring tennis tournament appear to be an all "S" affair with Sondegaard and Sletteland already in and Sveinson and Simmelink almost certain to be there. In that probability Sondegaard will meet Sveinson and Simmelink meets Sletteland. All of the first and most of the second round has been played off.

Wednesday afternoon the college team will meet the team from Concordia. This is the first tennis meet of the year.

The scores of the first round were: Sletteland vs O'Brien, 6-2, 3-6, 11-9  
Larson vs. Simmelink, 2-6, 2-6  
Olson vs. Marquardt, 6-0, 6-2  
Ryan vs. Sondegaard, 0-6, 0-6  
Henke vs. Shepard, 5-7, 6-3, 2-6  
Devereaux vs. Loofborrow, 6-4, 6-3  
Sveinson vs. D. O'Brien, 6-0, 6-1

Second round matches:  
Sletteland vs bye  
Simmelink-Olson, 6-2, 5-0, (rain)  
Sondegaard-Shepard, 6-0, 6-1  
Devereaux-Sveinson, not played

## Campus Chatter

Has anyone noticed the Frank Buck helmet out among the N.Y.A. workers? Eddie says that it gives him distinction. Why, the other day a fellow asked him if he were the boss.

After that assembly program a lot of these dames don't know what color their dresses are. Just like the old shell game, first it is - then it ain't.

And here is another hangover from that program. Zorn and Dykstra intend to drop debate and take up chemistry. Can't you just see one of them giving that same speech about forty years from now.

Why do seniors who have jobs have to go to school the rest of the year? The pros say that they act so smart that there is no teaching them anything.

This week is the all-school brawl. Two people on one person's feet, etc. Why do people punish themselves the way they do?

Now I sit me down to sleep, The lecture's dry, the subject deep, If he should quit before I wake, Give me a punch, for goodness sake!

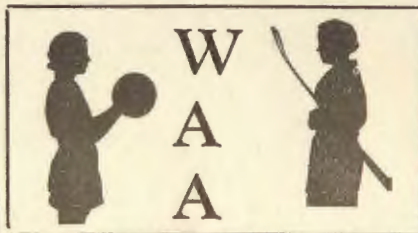

When the dentist married the manicurist they fought tooth and nail.

Candy School Supplies

The soft ball tournament will begin Tuesday, May 19. All girls interested in the sport are urged to report. Florence Greeley is captain of the Out-Fielders, and Lucile Striebel is captain of the Batter-Uppers.

Twenty-five W.A.A. members plan to go on a camping trip to the "Y" camp near Hudson on Friday, May 15.

The program of the sport activities for the week-end include softball, kitten-ball, soccer, and swimming.

Last Thursday the members of the W.A.A. enjoyed a picnic supper in the park. As a feature of the evening's entertainment the girls played horse-shoe.

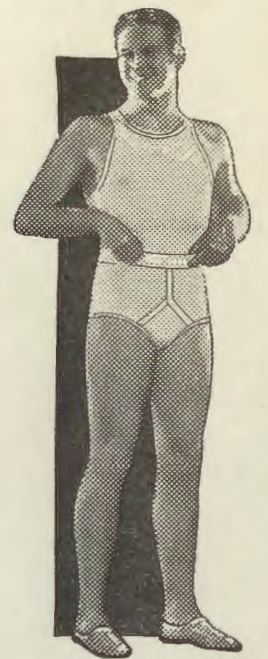

The team composed of Vaughn Smith and Lucille Creswell won the final match of the badminton tournament which was played off last Wednesday night. After losing the first two sets of the match to Audrey Jane Barrett and Dr. R. A. Karges, the Smith-Creswell team scored high in the next three sets to be declared the tourney winners.

### Stewart Speaks of Propagation of Fish

"Wisconsin leads all other states in the propagation of fish", said Mr. Stewart, guest speaker at a joint meeting of the Agrifallian Society and Science Club last Thursday night.

Mr. Stewart is superintendent of the Osceola State Fish Hatchery and has been propagating trout and other fish for the last thirteen years.

The methods and means of fish propagation were related by the speaker. He explained in detail the methods used in spawning and rearing trout fry and fingerlings.

In commenting on the work done in Wisconsin and other states, Mr. Stewart explained some of the difficulties which are encountered when fish are raised in other than their natural habitat.

The speaker also told about some of the work which is being done at the present time in an attempt to learn more about the natural spawning methods of the muskellunge and the feeding habits of the fry. To date it has been almost impossible to raise this species of fish in captivity due to the fact that they will not feed on the food provided. Consequently, it has been necessary to release the fry into the lakes immediately after they are hatched.

Mr. Stewart said that with the cooperation of the CCC and PWA an extensive research program is being carried out at the present time in an effort to learn more about some of these fish; their habits; their feeding grounds; and the spawning methods. That the work by these relief organizations will advance the work of the fish conservation department by at least ten years was the belief of the speaker. Heretofore the department of conservation has been entirely self-supporting, receiving its revenue from fishing and hunting licenses that were sold.

Several of the students present accepted an invitation by the speaker to remain and submit questions which he answered.

### High Scorers in Time Test Will Receive Free Copies

The winning of a year's subscription to Time Magazine for being "the highest scoring student (in a test to be sent out by the editors) in each class using Time as its current affairs text-book this last semester" is the opportunity offered the students of Dr. Wyman's American government class and Dr. Williams' two American history classes.

Part of the above is quoted from a letter to Dr. Williams from Time editors in which they further stated that in case of ties duplicate awards would be made.

### Novel Party Is Planned by Frederic Students May 15

A "Frederic" party will be held at 7:30 Friday evening, May 15, in the Social Room. This party, which is for college students and other guests from Frederic, exclusively, is the first event of its kind to be held here. Lillie Ahlgren and Ethel Schallenberger are in charge of the arrangements for this party. After the playing of monopoly and bunco, a short program will be given and refreshments will be served.

### Senior History Majors To Be Entertained at Dinner

The history majors in the senior class have been invited to attend a dinner Thursday evening at six o'clock at the home of Dr. and Mrs. Justin Williams. This dinner is given in honor of these seniors by the faculty members of the history department, Dr. Williams, Dr. W. D. Wyman, Miss Maude A. Latta, and Miss Nathalie Delander.

### YM-YW Cabinet Members Attend Supper on Mound

The retiring cabinet and next year's cabinet of the Y.W.C.A. and their adviser, Miss Hathorn, were the guests of the Y.M.C.A.'s retiring and future cabinets, and their adviser, Mr. J. P. Jacobson, at a picnic supper on the north side of the Mound, Monday evening, May 11, at 5:30.

Following the picnic supper which was attended by twenty-six people, the singing of some familiar songs, led by Howard Elliott, and a discussion, led by LeRoy Brown, closed the program.

The food committee was composed of Herald Compton, Lloyd Wilson, and Mr. Jacobson. The chairman of the grounds committee was LeRoy Brown.

### G.O.P. Plan Picnic in Glen Park and Alumni Banquet

The regular meeting of the G.O.P. was held Wednesday evening, May 6, in the social room.

A committee was appointed to take charge of the alumni banquet to be held June 6 in the college cafeteria. The committee is composed of Maxine Peabody, chairman, Marion Hawkins and Lauraine Isaacson. Nancy Njos was appointed to select a gift to be given to the social room.

The G.O.P. has scheduled a picnic to be held in Glen Park Wednesday, May 13. Emma Lou Tubbs heads the committee for this picnic.

### R. Gettinger Will Speak at Math Club Meeting Tonight

Following a discussion of spherical trigonometry and its applications, there will be held the annual election of officers of the Mathematics Club at the regular monthly meeting of the club, Wednesday, May 13, at 7:30, in Mrs. Eide's room.

The discussion of spherical trigonometry by Russell Gettinger will include a comparison of plane and spherical triangles, the history of spherical trigonometry, methods of solving right and oblique spherical triangles, and the application of spherical trigonometry to astronomy and navigation.

The election of chairman and secretary for the coming year will be held immediately after the discussion.

### Concert Soloists Give Program

Miss Stolofsky, concert violinist, and her accompanist, Miss Magdalen, concert pianist, entertained the faculty and students during the assembly period last Thursday.

Miss Stolofsky's solos were chosen to show the variety of things which can be accomplished with a violin. Likewise, the piano solos were descriptive and imitative numbers.

The audience seemed most appreciative of Miss Magdalen's interpretation of "By the Sea" by Schubert and the "Turkish March" by Beethoven-Rubenstein.

Miss Stolofsky demonstrated her ability with "The Butterfly", a solo played entirely in harmonics, and by the unusual tones which she secured in "Imitation of a Bagpipe with Variations" by Sarasati.

"The Chase" by Paganini-Liszt, a number descriptive of the hunt, "Spanish Dance" by Granados, Ibert's "The Little White Donkey", and the "Yumi Indian Rain Dance" were among Miss Magdalen's piano solos.

Miss Stolofsky closed the program with three solos: "Country Song and Dance", a number imitative of the "Canary", and the well known "Ave Maria" by Schubert-Wilhelmj.

### Bridal Shower Is Given for Eleanor Ohman by Friends

A shower was given in honor of Miss Eleanor Ohman last night by the Misses Mary Jane Larson, Maxine Olson, Helen Kotts and Joan Smith at Miss Larson's home.

Miss Ohman, a senior in the English department, has selected June 13 as the date of her marriage to John Thompson, a '34 graduate of River Falls. The ceremony will be performed by Mr. Thompson's father, a minister in Cameron.
