

Meletean Vaudeville Proves Huge Success; Actors Take Parts Well

Much Mirth and Applause Greets Presentation of Annual Vaudeville; Crowd Enjoys Many Funny Acts.

The annual Meletean Vaudeville which was held in North Hall last Thursday night was a huge success. The hilarious laughter and tumultuous applause which followed each act attested to that. All the actors played their parts humorously and well and the audience had the feeling of money well spent.

One of the highest spots of the evening was "Mish" Norseng's "ruination" of the Varsity Drag.

The gesticulations and contortions of "Mish" had the audience spellbound and breathless for fear he would break a leg or tie himself up in a knot that he would be unable to unravel. His falls were perfected as no one could tell whether they were accidental or intentional. All in all, this dancing was true art.

The bold bad pirates, Wroe Wolfe and Gordon Page caused quite a sensation, especially with the female element.

Perhaps the biggest hit of the evening was the play of the College Masquers, "A Girl to Order", where Archie Muller made up as a girl made the heart of all the men pit-a-pat. Archie was a real surprise, as although everyone always knew he was good-looking, no one ever realized that his beauty was of a feminine nature. The rest of the cast also did well. "Trink" Glass starred as a broke, love-sick college boy.

When Winifred Waters cut loose in her version of the "Varsity Drag" one and all gasped with delight. Winnie could put many professional dancers to shame, and we feel sure that if she ever decided to go on the stage there will always be a position ready for her. The group of clever dancing college beauties formed an effective background for Winnie.

George Thomas lifted the audience from the humorous to the sublime with two piano solos, and made a pleasing contrast to the rest of the program.

The wise cracking violin playing team of Norseng and Runkle were also good. Tom Runkle did a good imitation of an unconscious Persian when unrolled from the magic carpet. The only drawback was that no one was quite sure whether or not he was conscious during the rest of the act. No reflection on Tom's acting though (Continued on page 4.)

Faculty Members and The Drama Class See Play "Macbeth"

All Who Attended Report That Presentation of Play Was Wonderful

Miss Schlosser and her Drama class and several of the faculty went to Minneapolis, Saturday, February 23, to see Macbeth a production justly famous because of the Craig Settings.

All who attended this play have a great deal to say about the beauty and the remarkable effects secured by the setting. The scenery is used, not to represent the originally intended scenes but bring out moods (or to put the audience in the proper frame of mind to interpret the play.

The stage settings were prepared by Gordon Craig an artist who is the son of Ellen Terry the famous Shaksperian actress.

The lighting effect was also described as marvelous. This effect was used so as to heighten the effect secured by the scenery, that it to interpret the mood of the play. The lighting and scenery effect are a new and very modernistic way to put on plays.

Those who attended from the Drama Class were:

Miss Schlosser, Matilda Zorn, Margret Kelly, Elma Stone, Norma Haunschild, Frances Bonney, Marie Wigen, Joyce Wiberg.

Many faculty members also attended.

FORMER GRADUATE RECEIVES PROMOTION

Miss Carol Tostrud, daughter of Mr. and Mrs. C. O. Tostrud, and a graduate from the local college, was recently happily rewarded for her efficiency as a teacher at the Weston, Wis., schools when she was elected to the superintendency of the grades with an increase in salary.

"HELP EAT SUPERIOR"

The College Masquers will sell cookies after assembly and at the game Thursday night. Buy cookies and eat up Superior.

All Classes Elect New Officers For The Coming Year

Clarence Alfonse Picked by Sophmores to be Pres. Prom. Leader

With the beginning of the second half of the school year the the class offices have changed hands as a result of the elections held in the few weeks.

The Seniors elected the following group to handle the class affairs for the remainder of the classes' active existence at River Falls. Loren Strong, president, Fred Wandrey, vice-president, Marion Mueller, secretary, Arthur Walsdorf, treasurer.

The Juniors have chosen a capable group to retain their offices until next fall.

Foster Mitchell, president, Robert Carlton, Vice president, Mildred Thomson, secretary, Milton Berlin, treasurer.

The Sophomores with the Prom and the other spring events in mind chose the following officers: Clarence Alfonse, President, Margaret McAndrew, vice president, Evelyn Moen, secretary.

The Freshman picked the following group for their second set of officers.

John Hammer, president, Lura Ross, vice president, Doris Amundson, secretary, Raymond Penn, Treasurer.

BIG MASS MEETING TO BE HELD WEDNESDAY

One of the biggest and most important mass meetings of the year will be held next Wednesday night. The team will need plenty of support for the Superior game so everyone should be there. Remember that this game decides the Championship hopes for River Falls, so turn out and give the team all the suport possible.

R. A. KARGES HELPS PICK TOURNAMENT TEAMS

Mr. Karges went up to Spooner last week end to consult with a representative of the W. I. A. A. as to what teams to pick for the coming district tournament. At this writing we are still unable to name the officials that will work in the tournament, but Mr. Karges will bring back with him this information.

Championship Hinges on Game With Superior Thursday, Falls Set for Game

"George Washington As a Human Being" Is Subject of Talk

Human Qualities of Hero Brought Out in Talk by R. A. Karges

George Washinton as a Human Being in spite of his biographers." was the theme of R. A. Karges' talk in assembly last Thursday morning.

Mr. Karges spoke of his trip through the East a year ago and told that he had unintentionally followed a Washington Trail from West Point through New York and New Jersey, to Philadelphia, valley Forge, Washington D. C. Mount Vernon, Fredricksburg, and finally Braddocks Road which is now the National Highway.

George Washington, if not a liar himself, was certainly the most 'lied-about' man of his time. His biographers have attempted to make a half statue, half god of a real human being, said Mr. Karges. Mr. Karges mentioned George's failure as a ladies Man even though he had an early start, and his apparent coldness which was probably due to his shyness and stiffness. He made up for his failure as a conversationalist by his faculty writing letters, of which thousands have been preserved.

George Washington kept a diary, which has contributed the greater part of the present information about the real Washington. In this diary he mentions everything from fox hunting and church going to his farm conditions and the direction of the wind for that day.

Mr. Karges said that Valley Forge, 17 miles from Philadelphia, had for him the most Washington associations, and he reviewed the events and conditions of Washington's famous winter there.

In closing, Mr. Karges said that Washington is one of the people of the world whom we can most afford to tell the truth about. He made mistakes, but was faithful and lovable, and that there is nothing in his life that we can not read and still not revere his memory.

"Boost for River Falls"

Falls Must Win to Stay in Running for Honors. Superior Coming with Great Record.

The last game that four of the River Falls veterans will play for this college will be played Thursday, February 28. This will be the hardest and most important game that Hunt, Nor Manion, Bud Manion, and Segerstrom, will play. This game will either make Superior stat champions, or put River Falls in a tie for championship with Superior.

Last year Superior came to River Falls after they had a victory over us at Superior in the first game. Last year they lost that game. The student body are looking for a really and truly basket-ball game, and the final score in favor of River Falls.

Chance for Championship

Superior has played six games and won six. River Falls has played seven and won six. This Saturday, March 2 Superior has to meet La Crosse there. La Crosse will be primed for that game. Superior stands a very good chance of losing especially since they are going to get a beating two nights before by River Falls, which they are going to. If Superior is beaten by La Crosse and River Falls will be on top of the State Teachers College basket-ball heap.

River Falls State Teachers College who has for the past sixteen years been the leader in Normal school and College athletics, again has a basket-ball team equal if not better than its opponents.

Veterans Last Game

This game will be the last game of collegiate basket ball that these veterans will play. In their junior high school days they had a team that held several high schools to close scores even winning a few games. They completely out-classed their junior high school opponents. While in high school, these men went to the Madison tournament twice after winning district tournament here. The last year they were in the state State Championship game. This game they lost by score of 7-9. Now we have these same four men playing their last college game. There is no fit way for basket-ball players such as these men are to finish their basket-ball career except by victory, and especially with Superior in the game that means State Championship to both teams.

Hip! Hip! For a "CHAMPIONSHIP" and then "WHOOPIE"

Novel "Y" Program To Be Held Tuesday

Men to Have Meeting in Cafeteria; Faculty and Students to Speak

Next Tuesday evening the men of the college will meet in the cafeteria and have their supper together. The meeting will begin promptly at six. Each person will get his own supper and eat in the usual place. During the supper and immediately following it there will be group singing.

At six-thirty to eight there will be short talks given by some of (Continued on page 4)

History of College Masquers, Young Organization of College; First of Series of Organization Histories

The College Masquers is a dramatic club which was organized this year in order to keep in touch with modern drama, to develop a finer appreciation, or the more worthy plays and in all ways possible to increase dramatic interest in the college.

With this purpose in mind former Aurelia members with the assistance of Miss Schlosser organized the College Masquers on October 11, 1928. Both men and women who maintain an average grade of C in all studies are qualified and may apply for membership since the organization began there have been three tryouts for admittance. The membership has increased until at present it numbers forty.

Following is the list of the present club membership. Helen Mooney Aileen Fitzgerald, Norma Haunschild, Lucille Malott, Elaine Forsyth, Amy Twweit, Joyce Wiberg Pauline Isaacson, Anna May

Vold Beatrice Forsythe, Florence Mueller, Marion, Cudd, Margaret Burkholder, Jane Simonson, Margaret Fox, Winifred Waters, Ida Johnson, Bernice Sutherland, Maxine Blain, Esther Bailey, Claudia Vassau, Mathilda Zorn, Marie Strevey, Archie Mueller, Milton Berlin Harold Segerstrom, William Hunt, George White Gordon Page, Truman Glass, Foster Mitchell, Jerome Fink, Ben West, Gordon Grimm, Harold Sombke, Irwin Taylor, Don Zwickey, John Davison.

The officers for this year are: Helen Mooney, President, Aileen Fitzgerald, vice-president, Norma Haunschild, secretary-treasurer. The election of officers for next year will be held soon after the beginning of the third term.

The club first made known its name to the public by the float which it had in the Homecoming parade. Since then it has taken its place among the other organizations of the college.

In co-operation with the G.O.P. the College Masquers gave a tea for the girls interested in the work of either organization.

The work of the club was further presented to the public eye by the presentation of a play: The Knave of Hearts.

At the annual Meletean Vaudeville the club contributed its share by presenting a rollicking one-act play entitled, A Girl to Order. Under the direction of Miss Mildred Randall the following very ably played their parts. Maxine Blaine, Foster Mitchell, Archie Muller, Truman Glass, Gordon Page, Don Zwickey.

The club has already started work on a play contest. Each member is to participate in a group for the production of a one-act play. There are to be five groups with Jack Davison Mildred Randall, Margaret Fox, Mathilda Zorn, and Norma Haunschild as directors.

KAPPA DELTA PI

An item of particular interest in a recent issue of the Oshkosh Advance was the account of the establishment of an honorary educational fraternity, Kappa Delta Pi. Kappa Delta Pi is a national society, and this means another step forward for Oshkosh. After an extremely brief survey of the situation in other schools, we have come to the conclusion that River Falls is one of the few colleges lacking in this respect.

River Falls issues a term honor list, true enough but that makes no provision for anything else but scholarship. The qualities of outstanding scholarship, leadership, and character might well be made the requirements of an honor society: a society fitted to foster the highest educational ideals, and standards, and to serve as a mark of recognition for the qualities that the worth-while students possess. It would spur the effort toward better scholarship in school, because membership is such an organization would show the student that he has been appreciated.

Is it not time that we grow up and put away our childish ways, and become a college in fact as well as in name?

HOW ABOUT MARCH 4?

This year March 4 is to be important because of the inauguration of President-elect Hoover.

Because several students have voiced a desire to hear the speeches and ceremonies over the radio, a suggestion has been made that all the students be given the opportunity of hearing this program through the arrangement of an all-school radio assembly.

Whether or not this could be arranged will depend on those in charge of assembly programs. Certainly the suggestion is a worthwhile one.

Those students who attended the Minneapolis Art Institute and Macbeth this past week perhaps realize now that all their education is not based on book knowledge alone.

There should be no occasion for horse-play or the Ag yell at the game Thursday; every student should concentrate on "BEAT SUPERIOR".

It's time to begin the dash in order to finish in the lead in the scholarship race this quarter. Next week it's EXAMS!!!

DAVISON AND NORSENG. TO GIVE DANCE THURSDAY

Beat Superior? Will and can do! After we have defeated them Davison and Norseng Corporation are giving a dance in the Armory to celebrate, and we must have something to celebrate. The well known King Midas Orchestra of the Corporation will furnish the usual good music.

Davison and Norseng say,

"Please remember that this dance is to be informal. Members of both sexes will be welcome with or without escort and a goodtime is guaranteed to all. Girls, if all of you wait for escorts, what will the poor Superior chaps do?"

In 1722 the Spaniards established military posts in what is now Texas. The New Testament was printed at Cambridge, Mass., in 1661.

"The Lowdown"

Before half the school was conscious of it Klanrud and his agile "mob" of basket shooting, gang-went to Eau Claire, took them for a ride, and left them stranded 29-18. This wasn't exactly polite after Eau Claire has submitted to the hi-jacking over here, but all's fair in love or championship chasing. In the get-away Hunt got tangled up with some of the desperate Natives and at least temporarily left the health of one his limbs in their grasp. Here's hoping he doesn't have to use those crutches to greet Superior.

A select group at the gym on Friday witnessed a fore-runner of the H. S. basket ball tournament scheduled for several weeks hence Baldwin came down and tangled with the Frosh. Klanrud's fledglings didn't fare so well until Coach got in a few scathing comments whereupon the young red-shirts turned merciless.

Baldwin is coached by a chap who got his "Individuals" and "fifteen rabs" when he ran around here a few years ago. He is generally known as Elmer Beran, but when he plays Pro-ball he lets his beard grow and calls himself Red Cloud.

Our reckoning on the the vaudeville was just right. It was a good show, and the way the audience showed their appreciation proves it. Let's have some more school talent shows.

We wonder if it isn't a bit dangerous to have a lot of hair cut off this time of year. Well, no razz, we honestly think it looks nice, Miss.

Mr. Karges brought out George Washington in fine way last Thursday. We learned lots of new things about George.

Pretty "Hot" these new "sky pieces" the fellows are exhibiting. The reds, greens, greys, and so forth give the much needed gay colors these dark days.

And now they're trying to drown in the swimming pool. What these guys will do for publicity.

The debaters had their first fling Friday afternoon. Now that the basket-ball season is nearly over we'll have to look at them.

Although Davison and Norseng are helping the dance problem considerably, we'd like to have another school dance soon. We have to pay \$1.00 for their, and not so much at school.

Here is one time we aren't going to ask anybody to come out and support the team because we have a suspicion that anybody who tries to come out later than seven o'clock next Thursday night will have to wait until next winter to see the basketball team in action. There isn't going to be a seat or any standing room left when the boys face off against Superior.

Here is the game of the season. There will be the strongest conference opposition, the last game of the the season, and the Championship at stake. Pick your own pineapples as Roundy puts it.

Hot Tip: Smoke Luckies all week to get your voice in condition and take a cargo of Life Savers to the game so best results in the yelling line can be obtained. This yelling will continue throughout the game and the greater part of the night after we cinch that old Championship. C'mon gang let's loosen up with a lot of pep all week, the loudest mass meeting in history, and a big celebration right through and after the victory.

"IN THE DARK ROOM"

Come to Assembly next Thursday morning and see what happens in the "Dark Room" Mr. Jacobson's class in Photography will give an interesting revelation the deep and dark secret.

"Haint Enny Place" Says Board Prexy

Fresh attacks are being launched against the rural school system of America, and present indications are that the "little red schoolhouse" will have to defend itself, and get in step with modern educational methods if it is to survive.

Recent educational conventions have attacked, not only the school house, but the whole system which it typifies. It is accused of deliberation backwardness. The supporters of the rural schools reply that they are doing the best they can under different physical and financial conditions.

The latest attack is against some of the country school boards. Perhaps these boards typify a high grade of average intelligence, but this is not always true. There is some humor and a lot of tragedy in such cases as that of a recent college graduate on fire with ambition, who made application for a job as school teacher in a small town. Her letter came back with the scribbled notation, signed by the president of the school board: "Haint Enny Place." This case, declares the Woman's Home Companion, is illustrative of the ignorance of many men who nevertheless control the destinies of country schools. Testimony of teachers in all parts of the country asserts that school-board members of this type are blocking progress. But taxpayers, annoyed by the growing burden of expense for schools continue to elect to the boards men whose chief concern is to save money, and doing so instinctively challenge every "new-fangled notion."

A counter attack has been started by Miss Faye Mitchell, an Oregon teacher, who says that the city schools should all be moved to the country. "It would be entirely logical," she writes in Farm and Fireside, "to concentrate our schools in the country districts, to bring the city children to the wholesome atmosphere of the country. The country school needs no pity. It should rather be dignified with admiration and given equipment which will attract

to it the best teachers. The rural school teaches concentration and self-development. Its informality is an asset. Those who believe that the purpose of education is to develop the individual must also believe in the rural school."

Eau Claire Loses to Red and White Quint, 29-18

Hunt Injuries Ankle May Not Play in Tilt With Superior Thurs.

No Individual Ball Stars; Segerstrom Again Cops Scoring Honors; Team Off On Short Shots;

River Falls won its sixth victory last Thursday night at Eau Claire by handing them a 29 to 18 drubbing. Although we won, the victory may not be so swell due to the fact that Hunt, the Falls high point man all year, was forced out of the game after only playing ten minutes with a badly sprained ankle. The Eau Claire defense was set to stop Hunt but he was getting his share of the points and also playing a good floor game before he was hurt.

No Individual Stars

There were no individual stars on the Falls team. They were all playing a bang up game as is shown by the amount of points that each man get. They were passing well and fighting all the time.

Game Started Fast

The game started with fast playing by each team, both were taking chances and playing open basket ball. Hunt was closely covered all the time. Bud Manion started the scoring with a pretty field goal from the side. Eau Claire made a free throw, and Hunt left his "shadow" behind long enough to make a field goal. Eau Claire made a field goal and a free throw to tie the score at four all. This was as close as they ever were all evening to the Falls team. Baskets by Nor Manion and Segerstrom and free throws by Hunt and Segerstrom gave the Falls a six point advantage with the score 10 to 4. At this time Hunt was hurt and Sutherland went in at forward. Eau Claire put in two rebound shots to bring their total to eight the scoring for the first half. The score was 11 to 8. Both teams were off on their short shots.

Falls Plays Careful

The second half the Falls worked through for three short baskets in rapid succession to give them about a ten point lead. They kept this lead the rest of the game by playing careful deliberate basketball. Towards the end of the game Coach Klandrud sent in reserves, all of them playing good ball. Superior here next Thursday, Nuff said.

Stretch Reports For Practice; Falls Hope For Win Increases

Basketball fans looking into the gym this week are glad to see that "Stretch" Miller the big six foot four inch lad from Shell Lake is out practicing for the big Superior game. He has been out of the last two games with a bad infection in his foot which kept him in the hospital the last two weeks. Miller's recovery increases our chances against Superior. We all hope that Hunt's ankle will also be in shape for we need all players in good condition for the big game with the lads from the north.

ART CLASS VISITS MINNEAPOLIS GALLERIES

The art appreciation class and Miss Druley visited the Walker Art Gallery and the Institute of Art in Minneapolis Friday, Feb. 22. The trip was made by 32 people in a chartered bus.

'Boost for River Falls'

FREE THROW CONTEST

The free throw contest has started and everybody should enter that possibly can. Men entering should register with Coach Klanrud, and this should be done before Friday, that being the last day that a person can register. The ten highmen from this weeks throwing will throw next week and the highest out of hundred attempts will be given medals. If you haven't registered yet, do it now.

PROMINENT AG STUDENT ATTEMPTS SUICIDE IN POOL

The fair co-eds of our school nearly came to grief last Friday morning when one of the shieks of the school almost succumbed in the great body of water that is in River Falls, a lake in fact. He was doing some deep sea diving in an effort to break all worlds records for depth of diving. He climbed to the loftiest peak above the lake and jumped off. He went down, and down and down for oh! no one knows just how far. Then to our surprise, he stopped. For some unknown reason he could not make himself go up or down. He realized that this was his last. He turned his head upwards and towards shore waving a sad farewell to his friends on the bank.

At this moment two life-savers appeared on the scene. After much struggling with heavy odds, they succeeded in bringing him to shore. They worked him over a barrel for nearly an hour before he showed any signs of life. He is up and around school again but is very weak.

The truth of the matter is that Friday morning at 9:50 the swimming class were enjoying their recreational hour when one of the "Ag" students, jumped off the diving board into the deep end of the pool, to be exact is eight feet deep. He got half way between the top and the bottom, and there he stayed. When he was recovered by two life savers he was nearly gone.

ANNUAL IZAAK WALTON LEAGUE BANQUET TO BE HELD THURSDAY

The local chapter of the Izaak Walton League will hold its annual banquet here in the school gymnasium, Thursday March 7th. This banquet is open to all outsiders who have a dollar to spend for the plate charge and is an event well worth attending. Good food, good speakers, and good entertainment will feature the program of the evening. Part of the entertainment will be the showing of several thousand feet of film depicting out door scenes and life in connection with the banquet, the local sportsmen will hold a Dog Derby the same day, consisting of dog sled races by the juveniles of River Falls. Any student interested in going to this banquet might see Mr. Stratton, who will furnish him the necessary credentials for the price of a dollar.

Benjamin Franklin signed the Declaration of Independence, the Constitution of the United States, the treaty and Alliance with France, and the Treaty of Peace with England.

Peter Minuit was one of our shrewdest realtors; he bought Manhattan Island from the Indians for twenty-four dollars.

The United State imports over \$4,000,000 worth of embroideries from the Philippines annually.

More than fifteen hundred people have written biographies of Lincoln.

Christopher Columbus received the equivalent of \$320 for discovering America.

'Boost for River Falls'

Classes Organize Teams; Tournament To Start Next Friday

Landis, Claflin, Turner, and Krueger To Lead Squads, Promises Fast Games

The first games of the class tournament are going to be played Friday at 4:00 o'clock. The Freshman play the Sophs and the Juniors play the Seniors. All men are allowed to play that have not won letters on this years varsity squad. Men that have won letters in other years and are in school now can play, and men on this years varsity that have not won letters may also play.

The fourth year men are under the leadership of Landis. Claflin is Captain of the second year men and Turner and Krueger are Captains of the Sophs and Freshmen respectively. The winners of the games Friday are to play for the championship at a later date. This tournament promises to furnish some good fast games and will be worth while watching.

Russian traders landed in Alasga as early as 1760.

Benjamin Franklin began publishing his Poor Richard's Almanac in 1772, the year Washing was born.

Rode Island, in 1732, offered a bounty of ten pounds for every wolf killed.

Patrick Henry, Thomas Jefferson and George Washing ton were known as the tongue, the pen and the sword of the Revolution.

Cleopatra was the last Queen of Egypt.

STEPPING OUT INTO SPACE

"You go drifting down and the earth jumps upto meet you and you just look around for a place to put your feet to stand on." Dropping 1,000 feet is as simple as that to some parachute jumpers. But the reader cannot easily comprehend what is means to plunge downward a fifth of a mile. Flyers estimate it requires about seven seconds to fall that far. Let's see what James Clark the Navy's star parachute jumper, says.

"The jerk you get when your body is suddenly dragged off the wing of a plane going at a speed of a hundred miles an hour is a bit sever, but it doen's hurt you. The first departure from the plane is the hardest. When you step off backwards into space it seems incredible to believe that you will land safely, but land safely you do, and the second jump isn't nearly as difficult to make.

"Usually when just falling I tumble over and over. This tumbling however can be avoided by dropping off in a crouching position with your arms clasped around your kness. But the tumbling is not unpleasant, nor is the jerk of the 'chute that breaks your fall hard to take. Of course, further you fal the more sever in the jerk; but even at that it is like falling into a great feather bed.

"The final moment before the jump is hardest. I always hesitate and ask myself, 'will I or won't I?' Then my stomach puckers and my breath catches. But the instant I am clear of the ship and my chute blossoms I feel easy. I could reach down and pull off my shoes or do any such simple motion while falling.

Many of you readers know the sensation of parachute jumping. Well, just as soon as Arthur Goebel is over the flu I'm going to get him to take me up, and let me walk back home. It is something everybody should do once.

to the affirmative.

Extempore and oratorical contests at La Crosse. Davison is the orator; the extempore to be selected later.

With the Colleges

Oshkosh Teachers College, judging from reports in the ADVANCE of the various parties in sleigh rides and dances, is becoming a great social center. The particulars of no less than five such events are chronicled on the front page of the latest edition of the Oshkosh paper.

The beginning of a new semester at Milwaukee was marked by an increase in registered students in practically all of the various departments of the college. Among the various new students there were many who had transferred from other institutions, The ECHO reports.

Whitewater Teachers College handed the Milwaukee quint a 38-18 defeat last week. They also gave Stevens point their second defeat of the season which tightened the race for the Championship considerable with Superior ship considerable with Superior and one defeat or less.

The Ag. Department

Last Thursday night the Agricultural Society met. The main speaker was Mr. Carlson of the King Ventilating Company.

Mr. Carlson talked on ventilation of the dairy barn. His experience was the big thing that of was interest to the group. Mr. Carlson has been with the company for about 25 years. For seven years he did nothing but experiment with dairy barn ventilation. Mr. Carlson was secretary of the Society of American Agricultural Engineers for a number of years.

In his speech he gave the group of students some inside ideas on ventilation. The system used by King is the natural draft system that operates at about 97.3 per cent pure. Not over 2.7 percent of the air in a building can be impure with the use of the King system.

The system, complete in every way, will cost ten percent of the building costs. It is expensive but Mr. Carlson believes its a paying proposition. The best information on ventilation can be secured from the United States bulletin number 1393. He advised every student to send for one. At the end of his speech and demonstration on ventilation Mr. Carlson answered questions asked by the club. A very interesting discussion took place.

Friday morning Mr. Carlson and Professor Johnson examined the College dairy barn. The ventilation system in the barn was given.

It is interesting to note that Mr. King was once a physics teacher at River Falls, Teachers College.

This week the Agricultural classes are finishing up the term's work. Every one is beginning to put on the finishing touches. The poultry class is studying incubation and brooding. The class may set an incubator so everyone will gain experience in handling incubators.

The Feeds and Feeding class is studying the feeding of horses.

The freshman woodworking class is just finishing up the terms work in making foot stools and mirrors. Won't they sit down and look at themselves?

Adolph Salquist is putting the "Fierce Arrow" together this week. He has some extra parts for sale.

Well lets save some energy for the pep fest and Superior. **BEAT SUPERIOR**

NOVEL "Y" PROGRAM TO BE HELD TUESDAY

(Continued from page 1) the faculty and the leading students. Mr. Karges will speak on

"What is the worst thing that the faculty can say about the students?" "Mish" Norseng will give the student reply with a talk on "What is the worst thing the students can say about the faculty." Mr. Stratton will answer the question, "Do the faculty love the students?"

Whether or not the students love the faculty will be disclosed by "Bong" Luberg. President Ames will talk on the subject "How can the students and the faculty be better acquainted?" The meeting will end promptly at eight.

This meeting which is sponsored by the Y. M. C. A. will replace the regular "Y" meeting which usually comes at this time.

The Y. M. C. A.

The meeting of the Y. W. C. A. on March 5 will be of a different character and of special interest to every one.

Miss Wharton has promised to render the program that evening. It will consist of several piano selection on nature themes, all typifying the approach of spring. Miss Wharton will precede each of her piano renditions by an explanation of the piece she is about to play.

This program will be of interest not only to those ardent music lovers but of great benefit to all who aspire to increase their knowledge of true classic in music.

MELETEAN VAUDEVILLE PROVES HUGE SUCCESS; ACTORS TAKE PARTS WELL

(Continued from page 1) as conscious or otherwise, he did a good job.

In "Behind the scenes in Station KIK" the spectators were given a glimpse of what lies behind the high sounding phrases and glib description of the Radio Station announcer. Even though things were not quite as described the music of the King Midas Orchestra was excellent, and as a famous Prima Donna, Archie Mueller could deceive anyone.

The farce football game in which the "poney" team upset the dope and won from the husky line plungers, and the grand finale ended the evenings entertainment. The general opinion was that all former efforts were surpassed in this year's Vaudeville.—H. H.

RED BAND UNIFORMS TO BRIGHTEN SUPERIOR TILT

The college band will appear in red band uniforms for the Superior game, and will appear in full force in an effort to give the team all the pep they need to defeat Superior in the big game of the season Thursday.

"Boost for River Falls"

The Junior High

The seventh grade class are modeling with clay. Next week they will carve modles from soap. A prize will be awarded to the pupil who has the best model.

The seventh grade class is very enthusiastic over Lamb's Tales from Shakspeare. They are having a story a day read them in the English class for this week.

Genevieve Sombke has returned to school after three day's absence on account of influenza.

Most of the ninth and tenth grade students are taking up art. They like to continue their art work during other classes, much to the disapproval of their teachers. Their artistic aim is in the drawing of pretty girls and handsome men.

The music classes have begun work on an operetta, The Gypsy Rover. Some parts have not been definitely assigned. College students are takng some of the leading parts.

Within the last week our basketball team has played 2 games with Ellsworth. The first played on our own floor our boys won easily by a score of 10-2. Captain May was high point man with 3 field goals. The second game played at Ellsworth had a very different outcome. Ellsworth won 8-0.

THE DEBATE SITUATION

FRIDAY, FEBRUARY 22; Debate with Winona Teachers College at River Falls.

Question: "Resolved that the public should retain and develop the principal hydro-electric power sources which it now owns."
