Faculty Vote Allows Local Fraternities

Campus Leaders Make Comments On Fraternities

Here's what people around the campus had to say about the faculty voting to allow fraternities to be formed on campus:

Dean B. J. Rozehnal: In the past I have been against them. Of what I have seen of them, the bad outweighs the good. My criterion for them being on campus is that they could do could not be done otherwise under our present system. However, if impeccable behavior and high academic achievement is their criterion for membership, then I am 100 per cent for them.

In response to questioning, Dean Rozehnal stated that he felt fraternities could be in operation here by the end of the school year.

Robert Cross, one of the original founders of the Pinochle Club: We (the Pinochle Club) formed to try and create more interest in college activities and to show that an organization of this type can be an asset to the school. We feel also that by our organization, we have shown that fraternities can be successful. I think that we probably will change to a fraternity.

Dr. Richard Swensen, chairman of the faculty committee that did research on fraternities: Their success depends on how firm a control over fraternities is set up. With the right leadership they can be very beneficial in stimulating student participation. Local autonomy is a must.

Bob Richardson, Student Senate President: Future Senate action will be determined by the degree of interest shown. For now, they will be set up as a regular campus organization.

County Meet For Farmers Is Held Here

The joint St. Croix - Pierce County farm meeting was held on Jan. 23 at the College farm auditorium. The meeting was sponsored by the college agricultural department in cooperation with the River Falls Chamber of Commerce.

The meeting, starting at 10:30, was presided over by St. Croix County Agent E. E. Anderson. At 10:30 the first topic, that of Federal Crop Insurance was spoken about by Al Obermueller. Following this Bernie Peterson, Pierce County soil conservationist, spoke on soil conservation for 1963. The next lecture was given by Pierce County Agent Bernard Drewiske on the topic of the 1963 A. C. P. and Feed Grains Program. After this a forestry program was discussed by Gene Ruetz the Pierce-St. Croix county forester. At 11:30 Prof. George Werner, extension dairy specialist spoke on a topic entitled Feed Additives in Dairy Rations.

At 12:00 a luncheon was served with the compliments of the River Falls Chamber of Commerce. The luncheon gave the persons attending a chance to discuss the topics introduced in the morning speeches.

The afternoon session, with (Continued on page 2)

Vince DiSalvo, junior from Cudahy was crowned Winter Carnival King at the FFA Talent Show Wednesday night.

DiSalvo Named Frolics King

The audience broke into applause after the annual F.F.A. Talent Show on Wednesday night as Vince DiSalvo, junior from Milwaukee, was crowned king of the 1963 Winter Carnival. King Vince, who was sponsored by Stratton Hall, chose Pam Armbruster to be his date. Other candidates were Bob Armbruster, Gary Burke, Jerry Fehlen, Thomas Keefer, Tom Knutson, Bruce Penman and Leon Zaborowski.

This year the price of the talent show was increased to 75c so that more and better prizes could be awarded. First place of \$25 was awarded to Harvey Stower who imitated the late Eleanor Roosevelt and others. Pete Falkman took second place worth \$20 with his two piano selections, Claire De Lune and Moon River. Wrestler Dean Dix proved he was a versatile man as he won third place worth \$15 for singing and thickness of the beard, according to them. Jim Arndt won for the

Plan of Studies Should Be Given to Registrar

The Academic Standards Committee requests that your plan of studies sheets be returned to the Registrar's Office as soon as possible. The Committee is using the sheets in determining admissions to Senior Division.

Approval Is Culmination Of Long Student Effort

The faculty last Monday voted 55-33 to allow local fraternities to be formed on campus.

The exact wording of the rule in the minutes of the faculty meeting is held by President E. H. Kleinpell, who was out of town at press time.

However, the gist of the resolution allows fraternities to be formed, under certain controls. Who will determine these controls has not yet been established.

The passing of the resolution culminates a long effort by students to get fraternities for the College.

In 1957, a poll was taken of students. This poll showed that two thirds of men students favored the formation of fraternities, and about the same ratio of women were against the formation of sororities. In that year, the personnel committee, in a 5-4 vote, recommended that the faculty oppose the establishment of fraternities at that time. The faculty did oppose the establishment, by a 30-28 vote.

The same issue was presented to the faculty again in February, 1958, at which time 43 faculty members voted against the establishment of fraternities, and 28 for.

In the spring of 1962, the Student Advisory Council passed a resolution recommending the establishment of fraternities on campus. At the next Senate meeting, the resolution presented by SAC was passed unanimously.

The issue was then presented to the Personnel Committee. It endorsed the resolution by a 6-4 vote. The Faculty Council then directed the question to the faculty at a meeting in May, 1962. The result of this meeting was to establish a committee to do research on the question and report its findings to the faculty. This committee just completed its findings, and made its report to the faculty meeting last Tuesday.

'Grassroots' To Feature NFO Prexy

The sixth annual Grassroots Politics Conference, scheduled for Feb. 6 and 7, will feature Oren Lee Staley, president of the National Farmers Organization.

Appearing along with Mr. Staley will be Wisconsin's representative in the third district, Vernon Thompson (R-Wis.).

The conference sponsored jointly by the social science department at the College, and the Wisconsin Center for Education in Politics, will have "Politics and the Farm Dilemma" as its theme.

The conference begins at 8 p.m. Feb. 6 with a talk by Lauren K. Soth of the Des Moines Register. Mr. Soth is the author of the book, "Farm Trouble."

Representative Thomson will speak at a convocation at 10:40 a.m. Feb. 7.

Three farm leaders will speak that afternoon. The program will feature Mr. Staley, Percy Hardiman, Wisconsin Farm Bureau president, and Gilbert Rohde, president of the Wisconsin Farmers Union.

Carl Thompson (D-Madison) and Walter Hollander (R-Rosendale), members of the state senate's agriculture committee, will participate in a debate at a banquet at 7:30 p.m. Feb. 7. The banquet is sponsored by the Young Democrats and Young Republicans on campus.

playing a guitar. The Short Chords, who were really short in size, won fourth place worth \$10 with their two barbershop selections. Fifth place of \$5 was awarded to Marlene Grosbeck who presented a vocal solo.

Miss Wilcox, Mr. Thorsen and Mr. Foss brought an unusual gadget with them to judge the beard contest. It measured the heaviest, Earl Burton for the

most unusual and Dave Higgin for the longest.

Thursday afternoon the R-Club retained the "Brown Jug" as it trounced the Pinochle Club 4-0 in that rough and tough game of Broom ball. Also that afternoon the 4-H Club took first place in the snow sculpture contest. Prucha Hall was second and the Pinochle Club was third. The winning entry was a seal.

This is a chorus line? seems to be the question that even the chorus line was asking at the Talent Show Wednesday night.

Editorials

The Committee Reports

Fraternities of the social nature are about to make their debut at Wisconsin State College.

For the past several years it has been somewhat of an emotional issue, whether or not to allow them on campus. This emotionalism, we are sure, clouded some of the facts, as controversial issues will do. Charges and statements have flown thick and fast and it was apparent that no one knew exactly what the exact status of the question was.

One of the delays that has been criticized was the one that the faculty committee had in presenting its findings to the faculty. While anxieties would cause students to wonder about the work of the committee, the fact is that the committee was still making its inquiries. As recently as two weeks ago, it was still working on the report, as reported in the *Student Voice* of Jan. 14.

Having seen its written report (there were two given to the faculty at its meeting, one written, one oral) we can say that if there was any delay, it would have been only because of the nature of the report. It is fairly extensive, and much to the credit of the committee, it is unbiased, and presents both sides of the fraternity problem equally. It includes reports from schools both on the national level and in our own state college system.

Incidentally, the committee members were not picked until this fall. At the late date that the faculty decided to form this committee, a report to be handed in by the original deadline (Oct. 15 of this year) would have been a very poor effort indeed.

We feel that the students, and especially those that worked hard for the establishment of fraternities, owe the faculty committee (Dr. Blanche Davis, John Foss, Dr. William Abbott, Ann Dubbe and its chairman, Dr. Richard Swensen) a vote of thanks for the effort they put into this complete report.

R. B. B. Jr.

Farm Meet Last Week

(Continued from page 1)

Bernard Drewiske presiding, was opened at 1:00 with a welcome given by the Dean of Agriculture, Dr. Richard Delorit, and by the Chamber of Commerce President Paul Cudd. Following the welcome Prof. Orrin Berge, University of Wisconsin farm machinery specialist, spoke on selecting new and used farm machinery. Prof. Berge was followed by Prof. George Werner who spoke on haylage, harvesting, storing and feeding. At 2:45, concluding the meeting, county agents Drewiske and Anderson spoke.

3 Men to Hold Job Interviews For Placements

Mr. Clayton O'Hagan, Director of Elementary Education at the Mounds View, Minnesota, schools, will be here Friday, Feb. 1, to interview teaching candidates beginning at 9:00 a.m. Interested seniors may sign up for interviews at the Placement Bureau.

Mr. Ketterer and Mr. Liebig from the Madison Public Schools, will be here Monday, Feb. 4, 1963, to interview teaching candidates beginning at 9:00 a.m. Interested seniors may sign up for interviews at the Placement Bureau.

Lloyd Johnson New Instructor At Lab School

The River Falls Campus School has filled the recent vacancy left by Mr. Jenness with a River Falls resident, Mr. Lloyd Johnson.

Mr. Johnson attended River Falls high school, participated in the Korean Conflict from 1951-1954, and then attended River Falls State College, receiving a B.S. Degree with concentration on the sciences in 1958.

Upon graduation, Mr. Johnson joined the Ellsworth, Wisconsin high school faculty, hold teaching physics and general science. His vacancy there was filled by Jack Tomhave, a fall graduate of River Falls State.

In 1962, Mr. Johnson, through a National Science Foundation Grant, attended the State College of Iowa, Cedar Falls, Iowa, achieving a Masters of Science degree in education.

Mr. Johnson holds the position of supervisor of Junior High Science and Mathematics, which entails teaching 7th, 8th, and 9th grade science and 8th and 9th grade math.

Rice Lake Meet To Include Stone

Dr. L. G. Stone, dean of the School of Education at River Falls State College, will participate in a program Feb. 5 at Rice Lake at a regional meeting of the Wisconsin Assn. for Supervision and Curriculum Development.

General theme of the meeting will be "Development of a Continuous In-Service Education Program."

Condon Visits Stanford

Professor Richard W. Condon, associate professor of history at RFSC, flew to Stanford University in California over the Christmas holidays to continue research on his doctoral thesis.

Entitled "The Moscow Parentesis," Professor Condon's thesis will be concerned with Finnish - German relations from March, 1940 to June, 1941.

The Stanford library, Professor Condon said, has the world's largest single holding of material dealing with war and the problems of war. He was working there from December 26 to 29.

"My doctoral dissertation," stated Professor Condon, "will try

to reveal whether or not Finland was compelled to side with the Axis powers during World War II and whether or not they could have formed a neutral bloc with the other Scandinavian countries."

Professor Condon will travel to Finland this summer to do additional research. He plans to finish work on his Ph. D. in the spring of 1964 at the University of Minnesota.

River Falls Historians Publish Two Articles In National Magazines

Two members of the history staff of River Falls State College recently have published articles in national publications.

An article entitled "The Geographic Dichotomy or 'East Is East and . . .'" by Dr. Edward N. Peterson appeared in the January issue of *The Social Studies*, a Periodical for Teachers and Administrators.

An article by Dr. John E. Lankford in a recent issue of the *Journal of Presbyterian History* is entitled "The Impact of the New Era Movement of the Presbyterian Church in the United States of America, 1918 - 1925."

Dr. Peterson urges the reader to re-examine current stereotypes of East and West. He questions the possibility of shrinking world continuing to exist while divided by prejudice.

Letters to the Editor

Dear Sir:
 Many aspects of this college are beyond reproach, granted. But, the service in the Falcon Cage on Sunday night borders on the ridiculous.

Because of the cold weather (-10) a few of the girls in the dorm decided to send a representative to the Union instead of all venturing out in the cold. I went to order 2 hamburgers, 2 grilled cheese sandwiches and 1 tuna fish sandwich.

I got to the Union at 4:45 and at 6:00 the order was still not ready. I asked once what the delay was and was assured, "I'll get yours next." That was 5:15. Approximately 15 people ordered and received prompt service after I had ordered. At 6:15, with my order as yet unstarted, I decided it was not worth the effort, cancelled the order and left.

I do not believe rudeness was in-

tended, but I do believe prompter service could have been rendered. If the Falcon Cage is to continue to offer a "take-out" service, students wishing to "take-out" should receive the same consideration as those eating there. In any case, no one should be made to wait 1½ hours for five sandwiches they never receive.

Helen Avery

Dear Sir:

In reference to your editorial of one week ago, I feel that you should have said that it is a shame that the adults have to suffer for the sake of the college students and the rest of the children.

It is truly a shame that the image of this school has sunk to the point where the sexes must be segregated for a movie such as the one in question.

Dave Taube

Member of the cast of the Cleveland Playhouse, which will present a convocation tomorrow night.

Cleveland Playhouse To Give Farce at Convo Tomorrow

The Cleveland Play House Touring Repertory Company will present the play, "The Importance of Being Earnest" at an all-school convocation tomorrow night at 8 p.m. in the North Hall Auditorium.

The play, written by Oscar Wilde, is regarded by some as the best farce in the English language. In creating this classic satire, Wilde pulled no punches in pointing out the social hypocrisies of his day.

Wilde was a stimulating writer whose wit and style have given him a sure place among the outstanding creators of dramatic literature. "The Importance of Being Earnest", an intellectual farce written in 1895 and frequently revived, stands as his masterpiece. It occupies a distinguished position in the vast repertory of the Cleveland Play House, whose touring company presents this new production.

The Cleveland Play House Touring Company is a fairly recent outgrowth of a time honored theatrical organization. This is the third season on the road for the troupe.

The Play House was founded in 1915 as a community theater. Although it was on an amateur level, it was serious-minded movement which lent itself to later

professionalism.

The Play House School offers in its apprentice system a unique opportunity for aspiring actors, designers and technicians to work with professionals.

The convocation is sponsored by the Concerts and Lectures Committee.

Students Allowed To Pre-Register For Next Term

Students who plan to attend college spring quarter may obtain their Plan of Studies form, a registration card, a fee card, and a Permit to Register in the Registrar's Office beginning Monday, Feb. 11, 1963.

Counseling for those in residence begins on Monday, Feb. 11, and continues through Tuesday, Feb. 26, in faculty offices. Faculty advisors are asked to post on their office doors the free periods on those days during which they will be available for counseling purposes.

Students remain in the same sequence courses throughout the year unless a particular section is discontinued. Use the "Enter Daily Schedule" form on the registration card for checking conflicts. Enter the course number or abbreviation rather than a check or a cross. Excess load applications should be made with Dr. Akins in 117N before 5:00 p. m. Friday, March 1.

High school seniors throughout the state, now starting their final semesters, have begun sending admissions applications to the nine Wisconsin State Colleges.

Eugene R. McPhee, director of state colleges, said that college registrars expect 10,000 to 12,000 new students next September. Applications are accepted from high school seniors after they complete the first semester.

Despite growing enrollments, the colleges will be able to accept all qualified applicants, Mr. McPhee said. Dormitory rooms will be assigned in the order that requests are received. Dormitories now under construction will provide space for an additional 2,600 students by next September, bringing total capacity to 9,580.

High school seniors desiring to attend state colleges may obtain application forms from their schools or by writing to the college registrars. The state colleges are at Eau Claire, LaCrosse, Menomonie (Stout), Oshkosh, River Falls, Platteville, Stevens Point, Superior and Whitewater. Total enrollment next fall is expected to be about 24,000.

The student fills out part of the application form and the high school principal completes it and mails it to the college of the student's choice. Applicants also must have their physicians submit a medical report.

The colleges then notify students who are accepted and suggest that the student and his parents come to the college for a day during a summer orientation period. Much of the registration process can be completed at that time.

High school seniors who are in the upper three-fourth of their graduating classes and are recommended by their principals meet standard entrance qualifications. Others may be admitted by passing special qualifying examinations or by attending summer sessions and demonstrating ability to carry college work.

Fees at state colleges are \$100 to \$110 a semester. Most freshmen not living at home are required to live in college dormitories and eat in college dining rooms at a cost of \$300 to \$325 a semester.

Harris Is Consultant To Minn. Civil Service

Dr. Wilfred Harris, chairman of the psychology department at River Falls State College, acted as a consultant to the Civil Service Department, State of Minnesota, in revising their examination for psychologists the past year. In a recent letter which Dr. Harris received from Minnesota State officials they stated "We want to thank you for your assistance in the revision of our present Psychological I examination. Many of your suggestions were incorporated into the new examination." Minnesota now requires all practicing psychologists to be licensed. Wisconsin psychologists are now working for similar licensing.

Program Reorganization Is Success, Reports Dr. Klink

"Consensus of opinion from every source suggests that the reorganized program of student teaching for the elementary major has had a good beginning," reported Dr. Rowland Klink, director of student teaching for elementary education.

Beginning with the current academic year the elementary student teacher at Wisconsin State College, River Falls, enrolled for Education 180 during a professional quarter. The student spends all day of every day for the entire 12 weeks of the quarter working in the assigned classroom academic credit for the quarter's work is 15 hours.

Concurrent with this reorganization of the academic scheduling of Education 180 the college also initiated a policy whereby student teachers in elementary education may be assigned to a classroom in a cooperating public school. During the fall quarter one student was assigned to a kindergarten in the River Falls public schools. Winter quarter finds the list of off-campus assignments much longer. Six student teachers are working in the River Falls Public Schools. In each of the following communities one student teacher is working: St. Croix Falls, Wis.; St. Paul and St. Paul Park, Minn. Seventeen student teachers received assignments to work in the Ames Laboratory School for a total of 26 individuals enrolled in elementary education 180 during the winter quarter!

Off-campus supervisory responsibilities are being shared by Dr. Daniel Brown, elementary education faculty member and Dr. Klink.

Because of scheduling require-

January Record Is -42; High Is 57 for Month

by Ron Cummings

After 11 days of sub-zero temperatures it would seem unanimous that we have had enough. Now weathermen tell us the fun is just beginning. Temperatures are expected to drop even lower—to about the -40's.

A high of 40 was reached on Jan. 9. Then the bottom dropped out, when, on Jan. 12 the mercury dropped to a -4. The temperature has been falling steadily since then—with no let-up in sight.

Nineteen years ago on Jan. 25 the thermometers showed a sizzling high of 57. Oh for the good old days.

But for those who remember back to Jan. 30 of 1951, when the mercury collapsed at -42, understand that things could be worse.

John Mosher, faculty member at River Falls, has voluntarily handled all Federal and state weather information for this area since 1941. He maintains accurate records dating back to 1920.

His records show the average Jan. temp. to be a shivering 16.3 degrees, with precipitation averaging 1.00 inches (1 inch of water equals 10 inches of snow).

Last year's Jan. low, a -27, was recorded on Jan. 18. To date, our low for this month was reached on the 21st, a -28.

Temperatures reached up to 42 last Jan. 3. So far this year, 40 has been our highest reading, obtained on Jan. 9.

Due to the extreme cold spell, motorists are reminded to keep their gas tanks filled to lessen condensation and to carry an ample supply of warm clothing in case of unexpected motor trouble.

Y-GOP To Meet

The YGOP will have an important meeting Monday, Jan. 28, at 8:00 p.m. in Room 105 of the Student Center. All members are asked to attend, as pictures will be taken and the Grassroots Political Conference will be discussed.

ments under the new program all elementary majors who expect to student teach during next year 1963-64, must make application in the Coordinator's office. Dr. Klink's office is in the Ames Laboratory School. Applications must be filed by Feb. 20, 1963.

Writing Proficiency Test Is January 30

The date of Jan. 30 has been set for the winter quarter Writing Proficiency Test at 1:25 p. m. This test is for second quarter sophomores as well as for third quarter sophomores and upper classmen who have not passed the test to date.

Mr. Finnegan Was Army Major

by Morgan Graham

Attention! This was the command I expected to hear when I had the pleasure of meeting Major John J. Finnegan. Major Finnegan, who is the most recent addition to the River Falls English department, retired Oct. 31 from the Army after putting in 20 years of service. He will be teaching two classes of Freshmen English here at school.

Major Finnegan, 41, was born in Butler, Penn. In January of 1943 he graduated from the Butler Senior High School. He then attended North Georgia College in Dahlonega, Georgia, for half a year.

"I attended the University of Biarritz, France, for one-fourth of a year," he said. "At this time I was also a noncommissioned officer from April of 1945 to August of 1950 in Europe, the United States and Japan." The duties that he handled were those of supply and miscellaneous administration and he earned the rank of Sergeant.

In August of 1950 Sgt. Finnegan applied for active duty. He was sent to Korea and promoted to the rank of Lieutenant. His duties were that of Infantry Platoon Leader and Company Commander. His outfit was the 27th Infantry Wolf Hounds.

Late in November of 1950 the first contact was made with China. It was made at the Yalu River in North Korea where he was wounded and one of his commanders killed. This commander, who he admired strongly, was a winner of the Congressional Medal of Honor.

He earned the rank of Captain being promoted to the rank of in one year and eight days after Sergeant. He said this was done by passing various exams.

"I have won 20 awards and decorations in the course of my service," he said. He was in six campaigns in Korea and won six battle stars. Most men only win three. His highest prized award is the Combat Infantry Badge with Star. He has also won the Silver Star with Clustrum which is the highest of order. Other major awards won include the Bronze Star and the Purple Heart.

From Nov. 1951 to July 1953 he served as administrative Unit Commander at Indiantown Gap, Pennsylvania, where he was responsible for handling an approximate daily load of 1000 men. For this job he had 11 officers and 93 men as subordinates.

He again resumed his job as Infantry Platoon Leader and Company Commander in Korea from January of 1954 to June of 1954. Also at this time he completed two years of correspondence at the Palmer Institute of Authorship.

In November 1954 he traveled to Heidelberg, Germany, where he resumed the position of Dependents' School Officer at the Heidelberg American Dependent Schools. His duties were logistical planning and the support of three schools which were staffed with

The annual broomball contest, sans brooms, was played Thursday nevertheless. The R Club won 4-0.

Finnegan

approximately 100 teachers and administrators. It was during this time that he completed a two-year course at the University of Maryland (overseas program) in Germany.

Since August 1957 until October 1962 he has prepared and presented more than 1500 hours of instruction in military subjects at St. Thomas Military Academy in St. Paul. He was an ROTC instructor.

"Three of my summers were spent teaching ROTC cadets on the college level at Fort Leonard Wood in Missouri and Fort Riley in Kansas. These were the future leaders and officers of our nation," he said.

He taught River Crossing the one summer at Leonard Wood. This is extremely hard and one of the biggest blocks in training for the men, he said.

Besides his previous education and service mentioned, he has also attended the University of Wisconsin for half a year (correspondence) and The Infantry School at Fort Benning, Georgia, for half a year in August of 1953 and 1957. In June 1962 he received his BA degree from the College of St. Thomas in St. Paul.

"For 19 years I have been taking courses in addition to being a soldier," he explained. "My wife regards me as a professional student."

EAT AT CURLY'S

N. Main St.

Quick and Reasonable

SHORT ORDERS MEALS

Since he has been overseas a total of nine years he has been in 17 countries. He has been in Europe and the Far East twice. Also, he has been in 34 of the 50 United States.

"My hobbies are reading, writing and music," he reported. "I have written an article and a story which have been published in a national magazine and an infantry magazine, besides writing a 1,000 page novel which is unpublished." His name also appeared in the novel, "The River and the Gauntlet."

In the last four years he said he has read 150 books and 23 plays which shows his deep interest in reading. Most of the books read were those of fiction.

Major Finnegan, his wife and six children and their pets live in St. Paul where all of the children except one attend school. The family is presently unsettled as to a future location. They like the St. Paul area because of its wonderful friendliness.

A truly religious and educated man, Major Finnegan tries to live by John Donne's immortal phrase — "No man is an island."

RIVER FALLS

Grapplers Lead Conference Defeat Superior, 16 to 11

By coming from behind to whip Superior 16 to 11 Friday night, the Falcon grapplers established themselves as the team to beat in the WSCC this year. Both Superior and River Falls have placed first once and second once in the last two years.

Coach James' Falcons fell behind early in the contest as Jerry Fehlen tied his match and Phil Flifiet and Jim Kanable were dished. This left the Falcons with an 8 to 2 deficit.

Pat Mrotek started the comeback with his third consecutive pin. After sparring for part of the first period on even terms with his opponent, he spotted an opening and scored the takedown and pin in quick succession.

Dick Culver kept the ball rolling by winning handily over his man and Jerry Halverson took a close 5 to 3 decision in an exciting match.

Terry Cole, the Yellowjacket 177 pounder, kept the Superior hopes alive by using a tenacious leg ride to win a close one from Freshman Steve Gutting. Gutting did surprisingly well in filling in for Ken Trudell who is out for

ten days with a shoulder injury.

This left the score 13 to 11 in favor of the Falcons and left the decision up to the heavyweights. Dean Dix came through again by winning a decision to give the Jamesmen their hard-earned victory.

The junior Falcons did not fare as well as their varsity counterparts in a preliminary match on

Saturday night. The Yellowjackets of Rochester Junior College won all but two of the matches to take an easy 22 to 8 victory.

Chuck Hindes was never in serious trouble as he won the first match of the evening by a 3 to 0 score. This was the last match that the RF team could come up with until Dennis Langkos pinned his man in the heavyweight clash.

Falcons Consistently Hot, Have Acquired Confidence

"They looked tough. I've seen them play three times this year and this is the toughest that I've seen them," said Coach Bill Zorn, Eau Claire basketball coach right after his team had become the Falcon's third straight victim.

When Falcon mentor, Don Page, who's cagers had just won their second game in three days by more than 25 points, was asked whether the team was using a different strategy, he replied, "No." We haven't been doing different things too much, only we're doing them better. We're running and pushing harder than we were," he continued.

The statistics on shooting bear this out as the RF quint was a model of consistency. The Falcons hit 49 per cent of their shots in each half while Eau Claire had only 28 per cent in the first half and 39 per cent in the second stanza.

This coupled with the infrequency of mechanical errors, such as traveling double dribbling and bad passes, illustrates the rapid rise of the Falcons after their miserable start.

Coach Page said he felt the

reason the team has jelled so suddenly is that they have been working together for a while, and are becoming acquainted with each other's style. He mentioned that the team was fielding the odd combination of three seniors and two freshmen.

The Falcons have two games coming up this week. On Wednesday they play a home game against a strong team from Augsburg. The Auggies will bring an undefeated record, 14 and 0, and a national reputation into the tilt.

On Saturday the Falcons return to conference action with a return match against the Superior Yellowjackets on the Karges court. The Pagemen will be out to revenge an earlier defeat suffered on the Yellowjackets home floor.

"The Auggies are tough," said coach Page, "they have a solid team." He said while the Falcons are going to try to upset the Auggies, the team would rather lose on Wednesday than on Saturday when they play a conference foe.

The coach is still working on ways of stopping the Auggies and there may be some changes made before the game.

3-M Sticks Jr. Varsity 75 to 52

The Frosh basketball team, sporting a 5 and 2 record, seems headed for another fine season. Their only losses have come at the hands of the Bethel College Frosh and a team from the Minnesota Mining Co.

With Nate Schilling (23 points) and Steve Rheil (22 points) turning in their top performances of the year, the Junior Falcons buried the Hammond town team by 34 markers, last Wednesday, 104-70. Six players tallied in the double figures for the Frosh.

Thursday night was a different story, however as the Falcons were again unable to get on track against a Minnesota Mining team, and lost 75 to 52. Only the fine outcourt shooting of Eric Leadholm kept the Falcons from being routed completely.

Nate Schilling with 106 points for the year leads Coach Gwynn Christensen's team, which has beaten the Olson Construction Company once, the Hammond town team twice, and the Osceola Air Force Base twice.

FROM WHERE WE SIT . . .

by DAVE TAUBE, Voice Sports Writer

River Falls fans would do the basketball team a lot more good if they would spend some time cheering the Falcons rather than razzing the referees.

A pep band sure would make a huge difference in the fans' enjoyment of the pre-game and halftime periods. This is illustrated by the big lift the two high school bands gave to the Eau Claire game. The enthusiasm generated would be a tremendous boost to the players.

If the cheerleaders were allowed to serve for more than one year they might get enough practice to do a good job. The few cheers in the Falcon repertoire are noticeable only for their unimaginativeness and obsolete familiarity.

It was recently muttered in the stands, "I wonder which of the four cheers they are going to do now?" Fans have commented on the inability of the cheerleaders to run through an entire cheer without a mistake. Fans also seem to have trouble following the cheers because of the indefinite arm and leg motions which the cheerleaders use.

It seems obvious that the average fan feels self-conscious about cheering when he knows that he is likely going to be led into a mistake.

Considering the success which the wrestling team has enjoyed this season, it seems strange that so few students come to the matches. The cheerleaders haven't shown up at a match yet either. The skill and science illustrated by Coach James' grapplers is far superior to the "dancing bear acts" offered by the professional wrestlers.

Why not organize an intramural track setup? There is no apparent reason why this could not be worked into the intramural situation here at RF.

Interest has been generated on the Voice Sports Staff concerning the sponsoring of the intramural invitational track meet. The idea has a great deal of merit and the Voice Staff has shown the interest which could make an event of this nature a big success.

The swimming and diving exhibitions in the pool during halftime at the basketball games have been well attended and well received by the fans. It is hoped that these shows will continue and grow even more in stature.

Kegler's Korner

ALL-STAR LEAGUE

The Falconers, Maolons and Angels emerged victorious at the expense of the second-division clubs.

The Angels, paced by Dick Longsdorf, were the hottest team of the night. Dick had the high game and series with 194 and 549, respectively.

The Falconers are a shoe-in for first place, as the tournament is just two weeks away.

Standings

Falconers 28½

Maolons	18½
Angels	16
202 Club	16
Raiders	10
10 Pins	7

Top Three

Vic Londo	174
K. V. Kovacevich	170
Dave Balke	168

REGULAR LEAGUE

The Wolverine's, "Fred's Hotel Boys," are assured of a first-place finish after a victory over the lowly Alley Cats. Elmer's Boys and the "221" Club were also victorious.

Roger Neitzel was the man of the hour, a member of the 221 Club, as he rolled a game of (you guessed it) 221. Roger also had the high series with 388.

Standings

Wolverines	20
Elmer's Boys	14
221 Club	12½
Scraggs	9½
Sleepers	9
Alley Cats	7

Top Three

Norm Garlie	159
Duane Anderson	159
Pete LeMay	156

WRA News

In the initial badminton tournament action held Monday night, Barb Larson and Marilyn Lewis defeated Karen Halverson and Mary Riek, while Regina La Venture and Sandy Wallen took a close decision over Janet Zaspal and Alice Lerverenz.

The second flight will open tonight at 6:30 in Karges Center and all college women are invited to get their names on the roster before the end of next week. Winners have to be a WRA member before they earn the right to go to the La Crosse Sports Day. But all women are invited to enter for the fun aspect, however.

Bowling will start January 31. There are still vacant spots on some teams. Two games at 35c a line are bowled every week. A large turnout is expected.

Falcon center, Tobey Garey, scores on a tip-in against the Eau Claire Bluegolds, Saturday night in the Karges Center gym.

Falcons Win Again, Soar Over Blugolds

In one of their best performances this season, the Falcons, Saturday night got off to a fast start and never let up as they soared past the Eau Claire Bluegolds 92-68.

By winning their third in a row and sixth out of the last seven games, River Falls boosted its conference record to 3-3 and an overall season mark of 7-5.

The game started out with Eau

Claire getting the opening tip but Falcon guard, Ken Lee immediately stole the ball and scored on a driving layup. River Falls scored twice more to make the count 6-0 before Eau Claire got on the scoreboard. The remainder of the first half was all River Falls as they built up a 45-28 half time lead. The Falcons were led in the first half by ace Tobey Garey who had 16 points and dominated both backboards.

The second half action was much like the first with the Falcons in the driver's seat all the way. Forward Al Kohl tallied 16 points in the second half to lead the Falcon's second half total.

With 6:26 left and the Falcons in front 82-55, Coach Page began to substitute.

In the scoring department, the Blue Golds were led by John Schaaaf with 21 points. The River Falls attack was paced by Garey with 24 big markers, Kohl with 18 and Don Koepnick with 21.

This week's action has the Falcons playing two home games against highly touted and undefeated Augsburg Wednesday night and conference foe Superior on Saturday night.

After being behind 30-28 at halftime, the Falcons came back to outscore Winona State 57-29 in the second half and defeat the Warriors from Winona 85-59, here Thursday night.

The first half displayed a ball control attack by both teams and thus enabled the taller Warriors to hold the Falcons fast break down to a minimum. But at the opening tip of the second half the Falcons unleashed their familiar ball hawking defense and many times stole passes for easy, fast break layups.

The Falcons went ahead by as much as 29 points at one time when they led 83-54 with 2:30 left in the game.

The defeated Warriors were led by Lyle Papenfuss with 12 points and Arlen Klinder with 11. River Falls was paced by Ken Lee's 23 markers and Al Kohl's 18.

"F" Leaguers Score High

Tuesday night was a hot night for a few intramural teams as some spectacular scores were run up. Biggest spread of the night, and of the season for that matter, was the 139 to 40 romp by the 409's over the 419 Alks in "F" league play.

This leaves the 409's in the top spot along with the Amery Red Wings, the Fabulous 5, the Little Falcons and the Prucha 3 teams. All have 4-0 slates. These five teams are running away with the league as the other 10 teams all have losing records.

The standings are a little bit closer in the "R" league though. The favorites to take the league are the Magnificent 7 and Untouchable squads, both of which sport perfect 4 and 0 records.

Following behind them are the Mophia, the Steve Allen All Stars and the Vet's Club with four wins and one setback.

Although the "F" league is supposedly the poorer league of the two, it has produced the highest individual scoring efforts thus far. Of the top five scorers for both leagues last Tuesday, four of the five are from the "F" league.

This is the way the individual scoring looked after last Tuesday's games. No games were played on Thursday.

(1) F. Johnson	34 pts.
(2) Nelson	32 pts.
(3) Olson	28 pts.
(4) Van Abel	24 pts.
(5) Henderson	24 pts.

Photographers Catch Winter Carnival Events

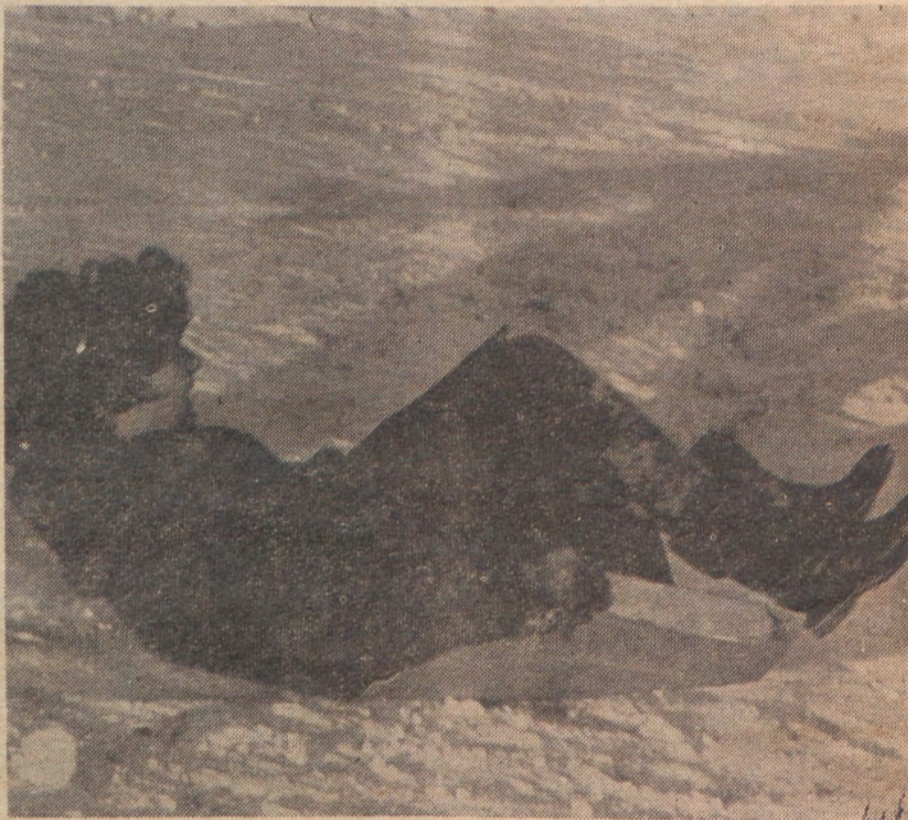

The college photographers were kept busy all during the week as Winter Carnival events ran from one end of the campus clear to Somerset. Our men followed with their cameras, catching the action and depicting it on this page and elsewhere in the paper.

Peering from a forest of skis, one of the hardier students at Ski-Mac rests before starting down the slopes.

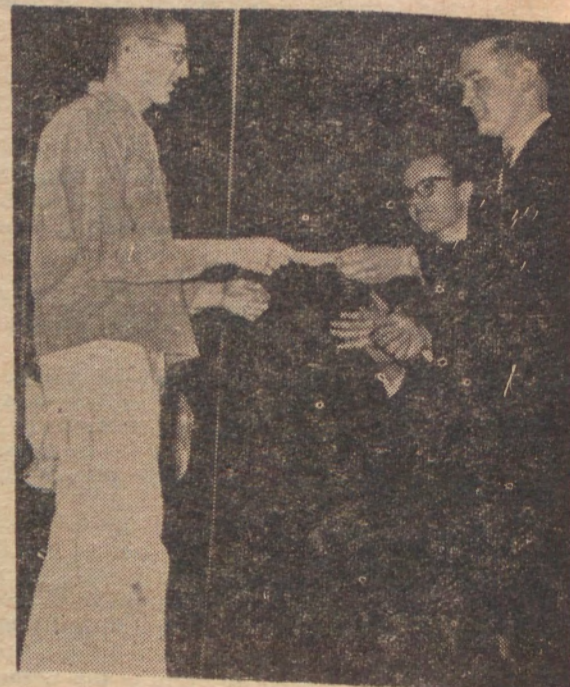

Two skiers prepare to make the run Saturday, as one of the biggest crowds in the history of Winter Carnival flocked to Ski-Mac for a day of fun.

This co-ed seems to have found the easiest way to get down the hill, even if the going is a little rough.

A pretty co-ed poses for the photographer in front of the prize-winning snow sculpture. The sculpture was done by the 4-H club.

Harvey Stower, freshman from Amery, accepts the first place check from the judges at the FFA Talent Show Wednesday night.
