## Campus Prepares for Registration and Finals

### Students Should Obtain Class Cards This Week

Final registration procedures begin this week for all students planning to attend school spring quarter. Students should obtain registration materials from the Registrar's Office if they have not already done so.

Counseling for students will continue through tomorrow (Tuesday) in faculty offices.

Class cards will be issued by instructional departments to those students presenting a permit to register and the trial study card filled out and signed by the student's advisor. Instructors of sequence courses will hand out class cards to students enrolled in their sections on Wednesday and Thursday, Feb. 27 and 28. Class cards for non-sequence courses will be issued at designated locations on Friday morning, March 1, 1963 — seniors at 7:55, juniors at 8:20, sophomores at 8:40, and freshmen at 9:00. All classes will be excused and all faculty members will be on hand from 7:55 to 9:45 o'clock for issuing class cards. Classes resume at 9:45.

Class cards will be handed out at the following places.

Art	12S
English, Speech, Journalism,	
Philosophy	212S and 213S
German and French	
Language Lab.	
Library Science	125L
Music	Music Rehearsal Room
Physical Science	218S
Biology	116 & 118N
Chemistry	West Amphitheater
Geology	Ag. 10

Mathematics	127S
Physics	216N
Social Science	Soc. Rm. & 121S
Physical Ed.	Karges Center
Agriculture	Ag. 15 and 20
Education and Psychology	Auditorium

Excess load applications should be made with Dr. Akins in 117N before 5 p.m. Friday, March 1.

Receipt of each class card will be indicated on the trial study card by the instructor's initials opposite the course.

Follow steps 4, 5, 6, 8, 9, and 10 printed in the registration instructions on the back of the annual class schedule.

Fees will be receivable in 219N at the following times: From 8:30-11:30, Tuesday, Wednesday and Thursday, March 5, 6, 7, and from 8:30-11:30, 1:00-3:00, Friday, March 8. A Board of Regents ruling states that "those registering late (on March 11, 1963 or after) will be subject to a \$10.00 late registration fee unless excused by the administration." Fees will be received from late registering students in the Business Office between the hours of 1 p.m. to 3 p.m. on March 11, 12, 13, 14, and from 3:00 to 5:00 p.m. on Friday, March 15, 1963. Registration materials must be validated in the Registrar's Office before paying late fees.

Faculty members may not permit a student to attend a class unless the instructor has a class card bearing the student's name. A student may obtain an auditor's card by applying at the Registrar's Office.

The faculty has ruled that "anyone in residence registering for the spring quarter will be expected to attend each class or laboratory during the first week of classes or will have his load reduced to not more than 14 hours. No exceptions will be made unless authorized by the Registrar. Absences during the first week of classes will be reported to the Registrar's Office."

Drop-adds will be processed in the Registrar's office between 10 a.m. and 12 noon on March 11 through March 15.

Textbooks will be issued starting March 11, 1963.

Max Morath

### Morath, Ragtime Pianist To Appear Here Feb. 28

Ragtime pianist, composer and singer Max Morath will be on campus Thursday, Feb. 28, to give a concert. His appearance on campus is sponsored by the Student Center Activities Committee. The admission price for the 8 p.m. show to be presented in the Student Center Lounge, is 25c a person.

Mr. Morath has written and performed two complete television series on ragtime music. His ragtime first appeared on television last year on a show called, "The Ragtime Era", for the National Educational Television Center. In addition to this he now has 15 half-hour shows, "Turn of the Century,"

in which he mixes snatches of cultural history in a formula of sings, monologues and lantern slides.

The ragtime musician now plays about 50 college dates a year. The entertainer was quoted in the Feb. 22 issue of *Time* magazine as saying that people are drawn to ragtime because, "it is happy music; it speaks of a time of tranquillity, reform, consolidation and harmony in our national life." He went on to say that he was particularly pleased that his audiences are so young. "If I found that only the tag end of another generation was interested, I'd have dropped it long ago."

### Testing To Start March 4

Final examinations for winter quarter classes will begin on Monday, March 4 and continue through Friday, March 8.

The class that has the first final is the one that meets at 10:40 first on Monday, Wednesday or Friday. Students that will take the last final of the quarter are those taking Psychology 50—that final is at 6 p.m. on Friday evening.

Spring quarter classes start Monday, March 11, at which time textbooks will be issued. Textbooks for this quarter are due March 8. After that, there will be a fine of 5c per day.

### 'Driftwood' Is Theme Of Cabaret

This year's cabaret, to be held on Saturday, March 16, will have as its theme, "Driftwood."

Highlighting the cabaret will be a group of exciting folk singers the New Wine Singers.

For the past several months this young vocal group, recently signed by Mercury Records, has been performing at the Offstage and The Rising Moon in Chicago before capacity audiences.

The New Wine Singers, according to the Chicago Daily News, "don't just sing the same routine folk songs made popular by the Kingston Trio et al. They do an entire cross-section of folk music - comedy, songs of social and political comment, spirituals, ballads and blues."

Some of their satirical songs are entitled, "Norman Vincent Peale," and the "UAW-CIO."

The cover charge will be \$1.50 per person and drinks as well as hors d'oeuvres will be served. Reservations will be taken in the Student Center March 13-15.

The cabaret will be sponsored by the Social Committee.

### Graduation Fees Must Be Paid Within 2 Weeks

Registrar Melvin Germanson announced that seniors that plan to graduate at the end of the spring quarter must have their graduation fees paid by March 15 in order to receive their diploma.

Diplomas are sent away for, he said, so the College must have the money early in order to pay for them.

**Editorials**

**Last Editorial**

It is the usual custom for editors of the Student Voice to write a farewell editorial, in which they expound on their opinions on the questions of the day. For our own reasons, we will write our final editorial one issue early.

To begin with, we feel that the Sandborgh matter deserves some comment. The Student Senate listed as one of the reasons for tabling action on the situation the fact that they wished to poll students to find out their opinions.

Here is ours: We feel that Mr. Sandborgh should not have to pay for the letters that he obtained for the cheerleaders. This is not to say that we think he was right in purchasing them and sending the bill to the Senate. He was in the wrong and that fact can not be altered.

There are, however, extenuating circumstances in this situation that might not apply to a similar situation. Even some of the Senate members have admitted that they believe Mr. Sandborgh's motive for purchasing the letters was not for personal gain or personal satisfaction. It is this attitude on his part that we feel should be the determining factor. Assuming that Mr. Sandborgh was motivated by a desire to increase school spirit (this is a safe assumption, we feel. We have seen and heard Mr. Sandborgh at all the home basketball and football games this last year.), then who among the Senate or student body would be so small or so devoid of school spirit to condemn him for the methods he took? Although the Student Senate should take steps to insure against this happening again, we don't think they should hold Mr. Sandborgh responsible for the bill.

While the sum of the above-mentioned bill does not matter in the least, when there is a principle such as this involved, we feel that the sum of the bill seems rather paltry in comparison to the amount of money spent to get the Four Preps on campus.

The Student Senate was notified that they could get the Four Preps to appear on campus for some \$1700, which amounted to \$800 off the regular price, because the group was enroute, and had an open date which could be filled here.

The Senate accepted this offer, and the group was scheduled to appear here. At that time the Senate felt that the venture could and would, be called a success, if the Senate would only have to underwrite, or assume the cost of \$700. The other \$1000 would be raised by charging admission to the show.

After the show, when all the money was totaled up, it was found that the Student Senate, instead of paying \$700 out of its own account, would have to pay \$1100, or about \$400 more than it had planned on. This \$400 represents about ten times the amount of the bill that the Senate is currently fretting about.

We feel that an individual must be guided by his principles. That is perhaps one of the things a college attempts to impart to its students. Yet when these principles cost ten times as much, wherein lies the values? The Senate had a perfect right to spend as much as they wanted to to get the Four Preps, and while we are sure they would not be extravagant in its spending of student money, should they really complain about a small bill which would bring about a better, more lasting effect to our campus? We think not.

There is a committee that is in the process of being formed that possibly not too many students know about. This is the student disciplinary committee that is currently being discussed by the faculty.

As passed by the Student Senate, this committee would have disciplinary control over all the students, and would be subject only to Presidential review. The essence of the action is that discipline problems would be taken from the Dean's office into the hands of a student-faculty committee. When the faculty approves this committee, we feel that a great step forward in discipline problems will have been taken. However, we feel that the responsibility on the part of this committee will be great, and that the powers of this committee be sharply defined, in order to avoid any problems arising from misunderstanding of responsibility.

**LITTLE MAN ON CAMPUS**

by Dick Bibler

"WORTHAL'S PARTICULAR - HE WON'T BE SEEN WITH JUST ANYTHING."

Wisconsin is making good progress in training teachers for high school driver education courses, a survey by the Wisconsin State Colleges office here reveals.

Records for the 1962 summer session and the present school year indicate that the nine state colleges are preparing driver education teachers at the rate of about 435 a year and the University of Wisconsin school of education in Madison is training about 40 a year.

The need for such teachers is increasing because of the trend toward more driver education courses in high schools. Several national organizations have endorsed driver education as one of the most important ways to reduce traffic accidents.

The last Wisconsin legislature encouraged such classes by increasing various vehicle license fees to provide up to \$25 per pupil to high schools and vocational schools offering complete approved classroom and behind-the-wheel driver education courses. The present legislature may be asked to require completion of such courses before youths can obtain driver licenses.

William T. Richards, who is responsible for certification of driver education teachers by the state Department of Public Instruction, reports that 320 Wisconsin Public high schools offering complete driver education programs have 513 part-time driver education teachers and 58 who teach the subject full time. Another 41 high schools offer classroom instruction only. The remaining 64 high schools have no driver education classes at present.

In some cases, vocational schools are co-operating with high schools in offering driver education courses.

The State Department of Public Instruction requires teachers to complete 6 semester hours of driver education and safety education in order to be certified to teacher driver education in high schools.

Among the State Colleges, Stout at Menomonie pioneered such classes and leads in the number of teachers trained each year. Stout and the colleges at Eau Claire, Platteville and River Falls offer driver education courses for teachers during the regular school year and at summer sessions. The colleges at La Crosse, Oshkosh, Stevens Point, Superior and Whitewater offer courses only at summer sessions, when a majority of the students are high school teachers seeking additional certification in driver education.

## Second Front Page

VOLUME XLIX NUMBER 21 RIVER FALLS STATE COLLEGE MONDAY, FEBRUARY 25, 1963

## Symphonic Band to Present Concert

On Feb. 26 at 8 p.m. in North Hall Auditorium the music department of the Wisconsin State College at River Falls will present in concert the Symphonic Band conducted by Dr. William Abbott. Featured on the pro-

gram will be the first performance of Prelude and Fugue No. 4 by Shostakovich arranged by Miss Muriel Hansen of Spring Valley, senior music major. The program is as follows:  
Toccata Marziale - Vaughn

Williams  
Symphony No. 3 (Scottish)  
Third Movement - Mendelssohn

Minuet Italienne (The Third Movement of Symphony No. 4, Op. 90) - Mendelssohn

March and Chorale - Robert Washburn

Prelude and Fugue No. 4 - Shostakovich-Hanson

Chester - William Schuman  
New York Skyline March -

Templeton  
Ouvre Ton Coeur - Bizet  
España Rhapsody - Chabrier  
Parisian Street Dance - Green  
Fandango - Perkins

The concert is free and the public is cordially invited to attend.

## Student Senate Takes No Action On Cheerleader

The Student Senate decided unanimously to table the matter of who is to pay for an unauthorized expenditure by Raymond Sandborgh at its weekly meeting Monday in the Student Center. Sandborgh apparently purchased some materials for about \$42 without officially clearing the purchase with the Senate. The Senate must now decide whether or not to pay for these items.

Earl Burton reported that the Fraternity Committee has completed work on the constitution for the fraternities and is working on the bylaws. The Senate voted to add Doris Raasch and Carol Christanson to the present committee, which consists of Earl Burton (chairman), John Hanson and Tom Knutson. The faculty advisors are Robert Brock and Dr. Richard Swenson.

The feasibility of combining the Student Center Governing Board, the Activities Committee and the Public Relations Committee was also discussed. It is felt that this would streamline the operations of these committees.

It was suggested that a "Spring Frolics" be initiated. This would give the school a spring activity to add to Homecoming, Foundation Week and the Winter Carnival, which are sponsored by the Senate. This event (if held) would take place entirely on the campus.

The possibility of a Cafeteria Improvement Committee was discussed. Lee Palmer, Ace Foods' Manager, is reportedly in favor of such a group to suggest new dishes and see that the students bus their tables. The Senate voted unanimously to refer the matter to the Student Center Governing Board.

Also brought up was the possibility of holding an open house for the state legislators of this area. The event, if held, would take place in the first half of March, will include short speeches by the legislators and will be open to students and their parents.

by Darlene Erickson

An audience composed mainly of high school students watched Masquers present the opening night performance of Moliere's "The Imaginary Invalid" on Wednesday evening on the Little Theatre stage.

The director of the play must first of all be commended for presenting a very difficult play in fine style. It is refreshing to see a play with the precise ingredients that make it good entertainment for a varied audience. The costumes and setting gave the play a good start which the cast seized upon from their first entrance and carried beautifully to the final bow.

Much credit is due Miss Ilona Hoover who displayed a great talent portraying Toinette. It is this critic's opinion she carried the spirit of the comedy in much the style Moliere intended. She exercised a great agility with the means of comedy — varying her actions and maintaining her vibrance. Miss Hoover is without a doubt one of the most talented collegiate players to grace our stage in quite some time.

As the invalid, Dan Love, at times, showed signs of being invalid. It was indeed, a difficult part to play and he did an admirable job. His child-like innocence in character was most enjoyable, but his strength was lacking when the returns were totalled.

Miss Sue Stanek was perfectly delightful as Angelique. The audience saw an amazing sincerity of character which made hers an excellent performance. As a newcomer to the theatre we can look forward to seeing her again in upcoming productions.

There are always those in a cast that have the minor roles, but perform in such a way they cannot be forgotten or praised enough. I speak specifically of Miss Judith Christenson who gave us another delightful performance. Thomas Holloway whose ability with comedy is always a treat to watch. Miss Grover who as Louison gives me little more to say than — excellent. David Bunch, with a tremendous amount of style, who gave a most laudable performance, and David Frazer with tremendous make-up who proved his ability in front of the lights as well as behind them.

As what may be termed the veterans, Thomas Brucks, Bev Roth, and David Balke, tonight had to take a back seat to the newcomers. They showed their ability with masterful handling of lines and action, but lacked the vitality that would have put

them on the level of the rest of the cast.

To the entire cast, the director, and the production crew go my heartiest congratulations for a worthy undertaking and a fine execution of it. Perhaps it was not clear to the entire audience but it was Moliere's fondest desire "to make the honest laugh" and we did laugh tonight at a good performance of an excellent play.

## Scientific Method Can't Help All Problems, Dr. Graham Tells 'Last Lecture' Audience

"You have little hope that this is going to be my Last Lecture because I am not planning on retiring and I can not be fired because of the Wisconsin tenure system. I plan to continue reading, writing and listening," said Dr. Charles Graham, head of the social science department, in his Last Lecture Wednesday in North Hall Auditorium.

A last Lecture is a lecture delivered by a professor if it were to be the last one he could make at River Falls.

Professors are selected by the Student Center Activities Committee, a subcommittee of the Student Center Governing Board. Dr. Graham is the fourth professor to give a Last Lecture.

The practice, which other colleges also have, began in the spring of 1961, when Dr. Robert Tonn, a biology professor, gave his Last Lecture. Last year, Dr. Edward Peterson and Dr. Robert B. Bailey III gave Last Lectures.

"I guess you could say my life was shallow and protected," said Dr. Graham. "I was lucky not to be a member of a minority group, my view was life was not shadowed by religion, my country was good and I had no physical defects."

Dr. Graham said that he belonged to a church of free thought and that his religious thinking had been changing since he was 13 years old and that it still is now.

"I believe that the scientific method does not apply wholly in life today," stated Dr. Graham. He said that religion tells man's relationship to other men, and he doubts if it can save the world but he believes that it can save millions of men and women from frustration.

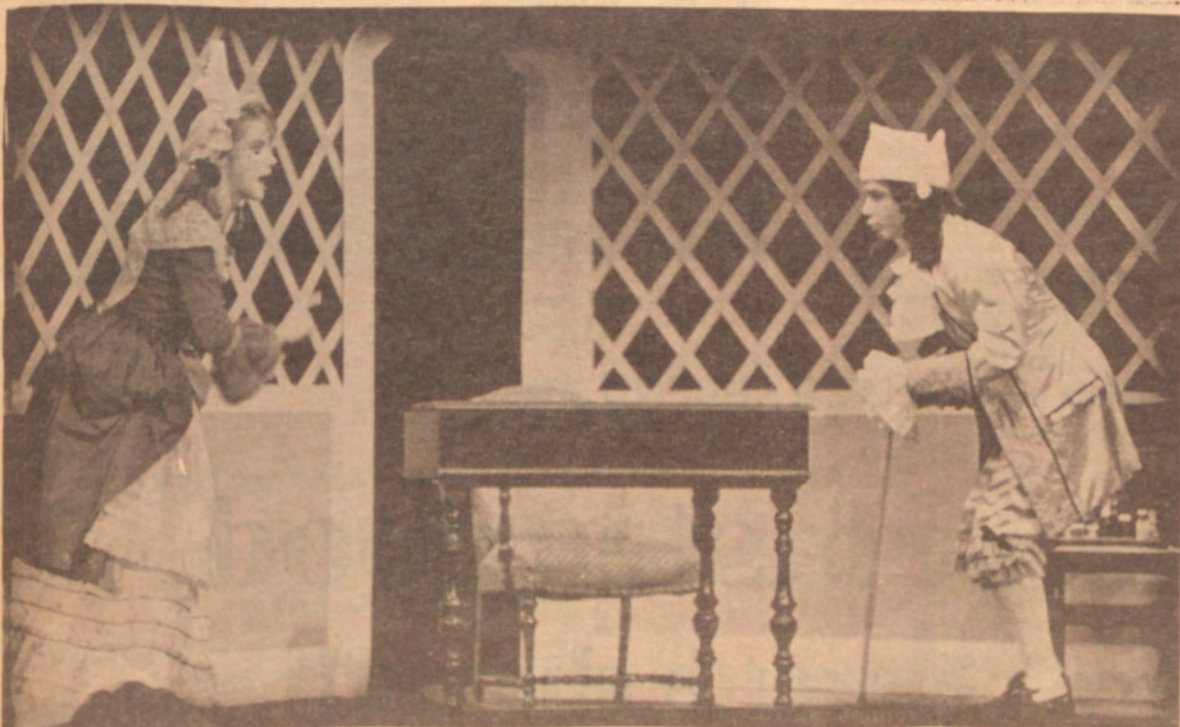

Today our culture has advanced because of the scientific study of politics. Our first modern political scientist was Niccolo Machiavelli and since his time the political scientist has met many different people, he said. In our culture today political science has two goals. The first is to apply the best methods to government and politics and the second is to make information available to as wide an audience as possible, he said.

"Danger is right around the corner in this society because of nuclear disaster, Communism, Fascism, risks of inflation and risks of recession," said Dr. Graham. "I do not want to frighten people but they must realize what these factors can do."

Looking at his stay here at River Falls for ten years, Dr. Graham said that it had been very good to him. However, when he first came he did not know how to behave because of students, etc. He said things have changed greatly since then. The staff is good, academic offering very impressive and River Falls alumni accepted nationally.

"In 1957 the college got the name of the 'Free Spirit' because a person could speak out if he wanted too," said Dr. Graham. This has made the college a great democratic offering, he said. One is able to see that

(Continued on page 8)

"The Imaginary Invalid" is not so invalid in this scene as he chases his maid in a scene from the "Imaginary Invalid."

# 60,000 Students Overseas Next Year, Study Reveals

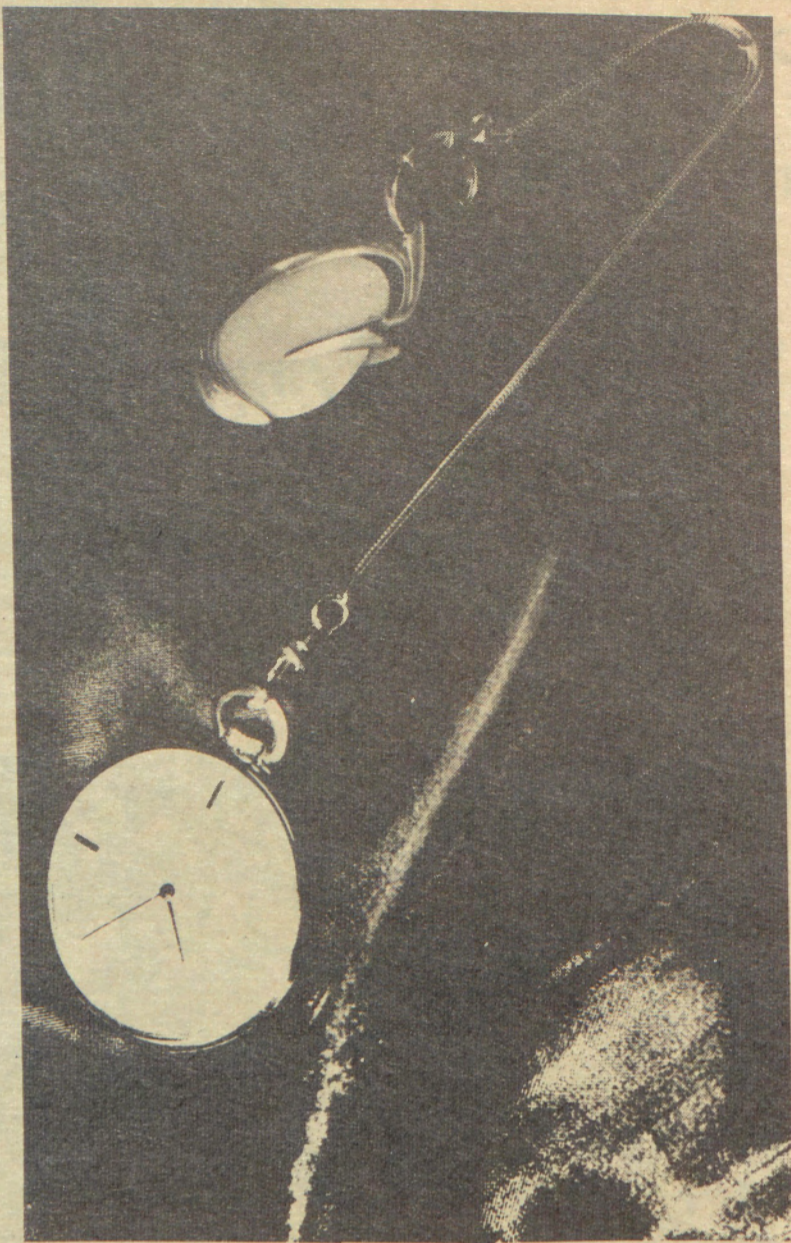

Last summer 54,800 students from the United States traveled in Europe, according to the U.S. Passport Division, 5000 more than the preceding summer. Assuming that the increase will be proportionate this year, more than 60,000 will go. "If you will be among them, are you looking for travel with a purpose?" asks Earl Decker, world travel consultant. "Then consider taking advantage this summer of the learning and fun to be enjoyed in living and exchanging ideas with people from Asia, Africa, Europe and the Americas in the informal International Vacation Courses given again this summer in Scandinavia under the leadership of Dr. Peter Manniche. You can cycle in the beautiful Scandinavian countryside, visit homes, farms, folk high schools, cooperatives, see historic places and museums." This non-commercial operation provides tuition, board and room for only \$5 a day, with courses lasting ten days each. Participants may enroll for up to four succeeding courses.

responsible citizenship closely resembles the task confronting developing countries today, Mr. Decker point out. (Note: The Scandinavian folk high schools are colleges for farmers, workers and others, which provide a simplified cultural education.)

Among the lecturers will be: Dr. Peter Manniche of Denmark, widely known educator who has traveled and lectured in Asia, the Middle East and Africa, lecturing on "Denmark," and on the countries he has visited; Dr. T. H. Griffiths, Professor of Political Science, University of Wales, on "Our New Neighbors - the Developing Countries"; Professor Bryan Holmes, London University Institute of Education, on "Comparative Education"; Mr. Soares of the Indian National Planning Commission, New Delhi, India, on "Town Workers and Farmers in the Indian Planned Economy"; Rev. Reginald Sorenson, M.P., England, on "Religions and World Peace." Other lecturers will be Scandinavian leaders and people of standing in other countries. All courses are given in English.

This year, the courses will be held in Denmark at Jerstrup Manor, Jullerup near Odense, July 2-12, 13-23, 23-30; in Norway at Ringerike Folk High School at Hoenefoss near Oslo, July 23-Aug. 3, and in Sweden at Granna on Vattern Lake, Aug. 4-14.

Travel may be arranged by the student, or the U.S. Representative will assist with arrangements. To secure additional informational Vacation Courses, 4607 Chain Bridge Road, McLean, Virginia.

Watch Fob

# Trudell Enters Silver Pendant In Art Exhibition

An abstract pendant, cast in silver seems rather insignificant to the average person. But to Don Trudell, a senior art major from Hudson, this pendant means a possible start in a successful art career.

On March 24, the Museum of Fine Arts, Springfield, Mass. will display Mr. Trudell's abstract pendant in its Spring National Jury Exhibition.

This art show is open to all U.S. artists and is not restricted to media. It is sponsored by the Springfield Art League.

Works of art had to be entered by Feb. 14 with a \$5 entry fee. Prizes will be given. They will be announced at the Members Private Preview at the Museum of Fine Arts, Saturday, Feb. 23.

The watch fob shown on this page was commissioned by Mr. Robert Beck of the English department and serves as an example of Mr. Trudell's work.

# Meeting to Organize Night Classes Feb. 26

A meeting to organize extension courses for the spring term will be held at 7:00 p.m., Tuesday, Feb. 26, in the Little Theatre. Anyone interested in taking on-campus extension courses should be at this meeting, according to Dr. L. G. Stone, Director of Extension.

Needs and aspirations of the people of developing nations are given primary attention in the International Vacation Courses, the basic purpose of which is the promotion of international understanding through education. To provide common ground for considering the needs of developing nations, the courses give much consideration to the development of Scandinavian democracy and especially the role of the folk high schools and cooperatives in aiding that development. The task which these institutions so successfully performed of bringing the Scandinavian people from feudal illiteracy to enlightened selfhelp and

# Deferment Tests Scheduled April 8

Applications for the Selective Service College Qualification Test to be given on April 18 are now available to college students at Selective Service Local Boards throughout Wisconsin.

The test will be given at more than 500 colleges in all 50 states, Puerto Rico, and the Canal Zone. In Wisconsin the test will be offered at the following schools:

- Appleton - Lawrence College
- Beloit - Beloit College
- Eau Claire - Wisconsin State College
- La Crosse - Wisconsin State College
- Madison - University of Wisconsin
- Milwaukee -- Marquette University
- Oshkosh - Wisconsin State College
- River Falls - Wisconsin State College
- Stevens Point - Wisconsin State College
- Superior - Wisconsin State College
- Waukesha - Carroll College
- West DePere - St. Norbert College
- Whitewater - Wisconsin State College

Scores on the test will provide Local Boards with evidence of aptitude for continued undergraduate and graduate study. The scores will not, of themselves, determine eligibility for deferment, but are considered with other information by the Local Boards in determining whether to defer individual registrants for further study.

Applications for the test must be postmarked no later than midnight, Thursday, March 28. Eligible students may also obtain information about the test from any Local Board or from the office of the Dean of Students. The test, used since 1951 to aid Local Boards in determining questions of student deferment, is administered by Science Research Associations, McHenry, Illinois.

To be eligible to take the test, the applicant must be satisfactorily pursuing a full-time college course, undergraduate or graduate, leading to a degree. He need not be a student of a 4-year college, but his entire course of study must be satisfactory for transfer of credits to a degree granting institution. He can take the test only once.

Colonel Bentley Courtenay, State Director of Selective Service, said that, "At the present time most Wisconsin Local Boards reach men for induction at about their 23rd birthday. Most students finish their undergraduate studies by that age, but those hoping to continue studies in professional and graduate schools, for example, may need a deferment to do so. Also, heavier draft calls would lower the age at which Local Boards reach men for induction, and deferments might be necessary to finish undergraduate work."

In either case, a test score in the file will give the Local Board an additional piece of important information to use in determining whether a registrant qualifies for student deferment.

## Music Faculty Plans Recital

Members of the college music faculty will be heard in a recital Sunday, March 3 at 3:00 p.m. in the Little Theater.

Robert Samarotto, Conrad De Jong and Carolyn De Jong will open the program with a Trio Sonata for two recorders and piano by the 18th century composer, George Philipp Telemann. This will be followed by "Five Bagatelles" for clarinet and piano by the contemporary English composer, Gerald Finzi, performed by Robert Samarotto and William Abbott.

The entire group will then present Paul Bowles' "Music for a Farce", a satirical suite scored for trumpet, clarinet, piano and a variety of such unlikely percussion instruments as doorbell, milk bottle and Chinese gong.

Highlighting the program will

be two works for two pianos played by Dr. Abbott and Mrs. De Jong: the Saint-Saens "variations on a Theme by Beethoven" and "Scenas Infantis" of Octavio Pinto. The "Scenas Infantis" is a charming suite depicting memories of Pinto's childhood in Brazil, the pieces being entitled "Run, Run!", "Ring Around the Rosy", "March, Little Soldier", "Sleeping Time", and "Hobby Horse."

The public is cordially invited.

# Archives Given Wyman Papers, Cairns' Diaries

The papers of Dr. Walker D Wyman, president of Whitewater State College and former head of the social science department at River Falls State College for 30 years, was presented to the RFSC Archives recently.

Dr. Wyman's papers a collection of letters, articles and manuscripts, were brought to River Falls last week by Dr. Richard Erney, archivist of Wisconsin. They cover the period from 1930 to the present, with a scattering of papers of the 1920's.

Also added to the RFSC archives last week were 11 boxes of papers of the former Burkhardt Mills and Willow River Company, and six volumes of Prof. William Cairns' diary of the 1880's and 1890's. The Burkhardt Mills papers contain 10 ledgers and other economic data of the company. The six columns of the diary of Dr. Cairns, a former professor at the University of Wisconsin, were presented to the College by Mrs. Phillip Wilkie of Waukesha, Wisconsin.

Coach Russell Gerber is flanked by the Falcon swimming team.

Members of the winning college bowl team are from back left clockwise: Gene Schroeder, Earl Burton, John Hansen and Dennis Glynn.

## Chem Club Wins 'College Bowl'

The chemistry club, champions for the last two years, successfully defended their title in college bowl competition held last week.

They came out on top of a two round competition that pitted them against the physics club, the math club and Beta Beta Beta.

In the first round, the chem club faced Beta Beta and defeated them, while the physics club defeated the math club. In the finals, the chemistry club beat the physics club.

Members of the winning chem club are: Dennis Glynn, John Hansen, Gene Schroeder and Earl Burton.

## Auggie Game; Same Story

MINNEAPOLIS. — "Yours is the shortest team that we have played all year," said Auggie Coach Ernie Anderson after his team had beaten the River Falls Falcons in their first meeting earlier this season. "We never try to run up a score, our object is to win," he further stated.

At that time Don Page, said, "That height is awfully consistent. The Auggies are as good as their national rating says that they are."

After last Thursdays return tilt at the Auggies' court neither of these men would have been likely to change their minds. The Auggies still had much more height than the visiting Falcons and had to work hard not to break 100 points.

Coach Anderson stated after the game that he didn't start his two top scorers because he wanted to give the two Hanson brothers, Ron and Phil, a chance to play together. "Phil is a senior and hasn't started all year," Anderson said. "The boys have been looking forward to it all year."

The other two observations made by the coaches for the earlier game would also hold. The Auggies dominated both

the backboards as they out rebounded the Falcons by a 41 to 23 margin. The Auggies would certainly seem to deserve their national ranking of 14th after their reserves clobbered the team which had recently lost to the leader of the WSCC by only one second.

Coach Page said while he didn't expect this game to have any ill effect on the team for its remaining two games against Stout and Eau Claire, it was an excellent illustration of why the WSCC should adopt a "round Robin" schedule of play. He said such a system would prevent the colleges from having to schedule non-conference games this late in the season. Page said this late in the year he would much rather be able to concentrate on conference opponents rather than have to prepare for non-conference tilts.

If all the non-conference teams are going to be as tough as the Auggies it would seem that playing in the conference would be a good thing. This would also mean that all teams would play eighteen conference games and no team would have the advantage of an easy schedule.

## St. Cloud Downs Grapplers, 17-8; Conference Meet This Saturday

The River Falls wrestlers suffered their second defeat of the season last Thursday when they were downed by St. Cloud State College 8 to 17 in an exciting match at St. Cloud.

The only other defeat the team has suffered all year was at the hands of South Dakota State. The team, however, is undefeated in conference action, having won all four of its conference matches.

Only two Falcons won matches in the St. Cloud meet. There was one tie.

Pat Mrotek defeated Rich Peterson 3-0 in the 137 pound class and Dick Culver won over Gary Nelson in the 147

pound class, also 3-0. The tie occurred in the 167 pound class between Jerry Halverson and Monte Sinner at 2-2.

Although the Falcon grapplers lost five out of the eight matches, the losses were respectable ones as Jerry Fehlen, Phil Fli-fiet, Jim Kanable, Dennis Lankas and Dean Dix all lost to the St. Cloud matmen by a score of 3-0.

Coach James' grapplers go into the conference meet Saturday with an undefeated conference record and two returning conference champs. The former champs are Dick Culver at 157 pounds and Pat Mrotek at 147 pounds. Mrotek will

probably be down to 137 for this tournament.

The Falcon wrestlers have compiled an excellent record losing only one conference duel meet in the last four years. The team defeated Augsburg, Bemidji State and Winona in non-conference competition and downed Stout, Superior, La Crosse and Stevens Point in conference tilts, this year.

The conference tournament is expected to be a two team race between the River Falls Falcons and the Superior Yellowjackets. Whitewater is also given "dark horse" status.

Outside of Mrotek, the Falcons have some other matmen who are expected to do well. Jerry Halverson and Jerry Fehlen took second in their divisions and will be shooting for the top this year. Chuck Hinds, at 115 pounds placed third last year and is hoping to improve.

The team will leave Friday morning for La Crosse. The first matches will be held in the afternoon, with the championship matches slated for Saturday evening.

The following week the National Association of Inter-collegiate Athletic wrestling tournament will be held in Bloomsburg, Pennsylvania.

### Hi 'Class' Bowler

Ron Johnson, a freshman from St. Paul and a member of Coach Don Page's 9:45-Friday physical education class recently bowled a 711 series at the Collins Bowling Lanes. According to Page, this series is probably the highest ever bowled by a River Falls student during a phy. ed. class. The school does not keep official records for the classes.

Johnson rolled games of 269, 257 and 185. In the first two games, he spared only four times, having two spares in each game. Ron is a league bowler at the Sunray lanes in St. Paul.

## Height Advantage Helps Auggies Win

By DAVID TAUBE  
Voice Sports Writer

MINNEAPOLIS — The Augsburg Auggies took the opening tip, came down the floor and threw the ball away. The Falcons took the ball out of bounds and Don Koepnick hit a jump shot to draw first blood for the underdog River Falls quint.

Then the Falcons picked off another Auggie pass and Tobey Gary tipped the ball in after a missed shot. Lloyd Raymond, the Auggie captain, hit four long set shots and almost before you could hollar "beat Augsburg" the Auggies had grabbed a 13 to 7 lead and were pulling away fast, enroute to their 94 to 56 victory here on Thursday night.

Don (Dusty) Koepnick, who has been hitting so consistently of late, had a cold night. Although he scored 24 points, his shots seemed to lack the "radar eyes" which have been leading them toward the bucket so unerringly.

While Koepnick was having a sub-par night the rest of the team was no exception. Tobey Gary was the only other Falcon to score in double figures and he was only able to manage

10 markers.

Gary also picked up four fouls quite early in the second half, trying to hold down the big Augsburg centers. This was a futile attempt, however, as Dan Anderson, a 6 foot 8 inch sophomore, scored 22 points. Anderson did this despite playing only a little more than half the game.

Height was, as it was in the first game, a big factor in the final score. Gary had three of his shots blocked and at one point the tall Auggies blocked two consecutive RF shots. There was also a spot where the Auggies had five consecutive offensive rebounds. The Falcons just could not get high enough to prevent the Auggies from tipping the ball up again and again. Eventually, of course the law of averages came through and one of the tips went through the hoop.

To say, that the Auggies were not a sharp all around team would be ridiculous. The Falcons got the ball very rarely on Auggie mechanical errors and their shooting was sharp. Only the free substituting of Auggie coach Ernie Anderson prevented the Minnesota team from running up the score to 125 points or more.

The Auggies did not even start their first team. Don Anderson and Doug Pautz the team's top two scorers sat out the entire first ten minutes.

After being down by 26 points at the half (21 to 47) the Falcons were able to improve slightly in the second half as they nearly matched tallies with the leaders in the early stages of that frame. As the game wore on, however, the Auggies got back into high gear and continued to roll up a high score. With two minutes left Coach Page cleared his bench and gave the Frosh a chance to play.

With the exception of Coach Anderson, it seemed as though all the Augsburg fans and players wanted to top 100 points. Despite being ranked as the fourteenth small college team in the nation the Auggies have never scored in triple figures. Anderson's substitution policy has held the scores down to solid if unspectacular victories.

## Cagers Face Stout Tonight

This evening Coach Page and his cagers take on the Stout Bluedevils in the final home game of the season for the Falcons.

The Falcons will take a five and five conference record and an overall 10 and nine season record into tonight's action.

Stout is led by Fred Seggeling who is currently in fifth place in the conference in scoring. In an earlier meeting this year, River Falls defeated Stout 78-76 on the Bluedevils home floor.

In other action this week, River Falls will meet the Eau Claire Bluegolds Wednesday evening on the Bluegolds' home floor.

The game with Eau Claire was scheduled for Saturday night but has been changed to Wednesday night instead. The annual varsity alumni game scheduled for Wednesday has been cancelled for this year.

Eau Claire has good scoring punch and two weeks ago defeated Platteville. Platteville defeated River Falls on the same weekend by two points.

In an earlier encounter this season, the Falcons mauled the Bluegolds 92-68.

Eau Claire has had its troubles this season, losing some close games and at other times playing inconsistent ball. They have been bolstered of late by the scoring of forward Al Green.

One of the standouts on the Eau Claire team is guard John Schaaf. Schaaf collected 21 points against the Falcons earlier this season.

## Koepnick Hottest WSCC Scorer; Now Only 4 Points Behind Leader

Don "Dusty" Koepnick, the Falcon's senior guard, is without a doubt the hottest scorer in the WSCC at present. "Koep" has bucketed 129 points in his last four conference games which averages to 32.2 points a game.

This scoring splurge has placed Koepnick only four points behind conference leader Ron Kampstra of Platteville. Kampstra has scored 253 points in ten games for a 25.3 average compared to Koepnick's 249 points for 24.9 game average.

"Dusty" could very well take the lead this evening when the Falcons play Stout in the Karges gym. Koepnick has led his team in scoring for the past three seasons.

### WSCC SCORING (Conference Games Only)

## Kegler's Korner

By DUANE ANDERSON  
Voice Sports Writer  
ALL-STAR LEAGUE

### REGULAR LEAGUE

After losing last week and being down ten pins after the first game, the Walverines edged Elmers Boy's by one pin. Thanks to handicap.

The Walverines, who thought they had actually lost, were paced by Fran O'Connell's 202 game.

The Scraggs remained as the only unbeaten team in tournament action as they defeated the 221 Club, 1,457 to 1,435. Max Klecker again paced his team with a 189 game and a 349 series.

The Alley Cats, last year's champs, went to the extreme opposite this year. They occupied the cellar during the regular season and were the first team eliminated from the tournament.

The "Lowly Kittens" lacking two Cats, rolled over and played dead for the Sleepers. Norm Garlie provided all the power for the Sleepers with the high game of 192 and the high series with 357.

The Falconers remained as the only unbeaten team after two weeks of tournament action. Dave Balke set a new seasons high series with 579 to roll his team over the Maolons, 1,401 to 1,234.

This year's cellar team, the 10 Pins, were dropped from the tournament. The Raiders, with "Ozz" Hagen's 199 game and 520 series, blasted the maples to give the 10 Pins their second loss with only a 1,144 series compared to the Raiders 1,416.

The 202 Club set a new seasons' team game with 1,558 to beat the Angels 1,334.

John Kovacevich (K. V.) rolled a 210 game and a 572 series to pace his team. Tom Harris, rolling a powerful back-up ball, was the difference when he rolled unbelievable scores of 196 and 187.

Tonight the Raiders will meet the Angels and the 202 Club will oppose the Maolons. All four teams have similar record of one and one. The Falconers (2-0) have a bye.

# Retired Whitewater President Recruiting System Faculties

A former college president has come out of retirement to take an important assignment; helping to find new faculty members for the nine Wisconsin State Colleges.

Dr. Robert C. Williams retired last July at the age of 70 after serving as president of Wisconsin State College at Whitewater for 16 years. Since Jan. 1 he has been on temporary duty with the Board of Regents of State Colleges as co-ordinator of faculty recruitment for the system.

Vigorous and enthusiastic about his new job, Dr. Williams has traveled by automobile, bus and plane to interview nearly 100 graduate students at universities and colleges in Wisconsin, Iowa, Minnesota, the Dakotas and Colorado. He has sent information about the teacher candidates to presidents of Wisconsin State Colleges, with his

evaluations and recommendations.

The presidents thus far have notified Dr. Williams of more than 100 impending vacancies on their staffs, due to retirements and resignations to take better jobs or for further study. It is the first time that one person has represented all of the State Colleges in the search for faculty members. In the past, each college did all of its own faculty recruiting.

Eugene R. McPhee, Director of State Colleges, points out that finding enough teachers for the colleges is difficult because of the "professors' market" created by a more rapid increase in students than in available teachers.

Last fall the State Colleges hired 271 new faculty members, half for new positions and half as replacements. The colleges at Oshkosh and Whitewater each had to find nearly 50 new faculty members. At present the colleges have 1,267 faculty members in teaching and administrative positions. Enrollment totals 19,369 and is expected to be about 24,000 next fall.

Dr. Williams will leave soon on a two month tour of southern colleges and universities. After that, he hopes to have more time to spend with his wife at their home at Whitewater.

## Graham Tells Audience Convictions

(Continued from page 3)

students mature from a freshman to a sophisticated senior. He said this is also evident in term papers too.

The college still has its weaknesses though such as commuting students who have to work, no leave system, limited resources and a heavy teaching load which does not let the teacher prepare as well as he wants to, he said. Some of these have gotten better though.

"Since my beginning in October ten years ago, I have become a partisan of this college. If I ever have to leave I will carry its lessons to other colleges," said Dr. Graham. "Thus, I conclude my Last Lecture, but not for the day. I have a class at 3:15 in History of Political Thought and anyone who wants to come is welcome!!!"

# THE BELL TELEPHONE COMPANIES SALUTE: TOM HAMILTON

When the Bell System recently product-tested the new Touch Tone telephone in Findlay, Ohio, they called on Ohio Bell's Tom Hamilton (B.S.E.E., 1960) to coordinate the project. Quite an honor since this was one of two Touch Tone trial areas in the entire-country.

This happened on Tom's second assignment with the company. Since completing the project, Tom has joined the Fundamental Planning Engineer's Group. Here he

makes engineering economy studies and submits programs for capital expenditures. Tom's performance has earned him the opportunity to attend a special six-month Bell System engineering course in Denver.

Tom Hamilton and other young engineers like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.
