RIVER FALLS STATE COLLEGE

VOL. XLVIII, NO. 6

'Campus Capers' Is Wednesday Eve

"Campus Capers," a fashion and variety show sponsored by the Student Center Activities Committee is scheduled for Wednesday evening at eight. The show features men's and women's wear for many different occasions. Especially featured at this year's show will be campus wear, date wear, sportswear and formal attire.

A special feature of the program will be several variety acts starring the show's models, said Miss Nancy MacNeil, program director and narrator.

According to Miss MacNeil, the show will be a "heel and tie" occasion. The show's purpose, she said, is to introduce the freshmen to campus wear. However, she stated, the show is definitely not just for the freshmen and everyone is very cordially invited.

The forty models that will take part in the program will display a wide variety of clothing which has been contributed by downtown River Falls stores.

According to Miss MacNeil, the exact length of the program is not known, but it should provide an excellent evening's entertainment.

Out-of-Staters Can Hunt For Resident Rate

Nonresident students and servicemen may purchase resident hunting and fishing licenses under a new statute recently signed into law by the Wisconsin Conservation Department announced today.

The new law abolishes free licenses for members of the armed forces but permits nonresident servicemen to obtain a license at the resident fee if stationed in Wisconsin.

Nonresident students who have registered as full time undergraduates in Wisconsin colleges or universities offering a Bachelor's Degree are also entitled to resident rates.

Other license changes now on the statute books authorize settler's licenses for both fishing and trapping in addition to small and big game hunting. Settlers' licenses are issued at resident rates to persons who have lived in the state for 60 days and intend to become residents. Settlers' license applications are processed only at Madison or area headquarters.

License changes which pertain to boating exempt two types of craft from registration requirements—sailboats 12 feet or shorter in length, and out-of-state craft participating in authorized races.

First Falcon Film Tonight at 8p.m. In N.H. Theatre

"Belles of St. Trinian's," the first in a series of nine foreign films, will be shown this evening at 7:30 in North Hall Auditorium.

Sponsored by the Falcon Film Society and the Foreign Students Association, the British farce stars Alastair Sim in the dual roles of an English girls' school headmistress and her horse racing brother.

As one of the oddest schools imaginable, St. Trinian's is pictured as a place consisting of awful teachers and uninhibited scholars who cheat at field hockey, bet on horses and make gin in chemistry class.

Tickets are on sale at the College Bookstore or may be purchased from members of the sponsoring groups. Season tickets are priced at \$3.50, patron tickets are \$5 each and single admissions are 50 cents.

"Campus capers," this year's campus fashion show, is scheduled for 8 p.m. Wednesday evening in North Hall Auditorium. Campus and date wear are modeled in this photograph of some of the models in the show.

Senator, Frosh Prexy Voted

Freshmen Elect Class President

A total of 451 freshmen turned out last week to elect their class officers. The freshman slate of officers is as follows: Hampton Wilmot, president; William Thussa, vice president; Mary Hartwig, secretary; and Gene Smith, treasurer.

The election showed 61 per cent of the freshmen class voting and each of the races turning up a very definite show of preference.

Interesting to note is the fact that in the all-school Student Senate election also held last week, 29 per cent of the students voted.

Dave Swan

Swan Voted To Senate

Dave Swan was elected the replacement member of the Student Senate in a special election held last week. Mr. Swan will fill the post vacated by Paul Kelly.

It was an extremely close race between Swan and Karen Wears with the difference being only three votes. Swan polled 135 votes and Miss Wears 132.

Other candidates for the post and the votes that they polled were: Frank Urbanz—71 votes, Jim Segerstrom—61, Larry Furr—57 and Sam Rineck—30. There were six write-in ballots and three invalid ballots. The total vote was 495.

'Pitch Out Point' Selected for '61 Homecoming Slogan

Smokey Stover and his Firemen

"Pitch Out Point" is the slogan chosen by the chairmen of the Homecoming activities this year. The slogan idea came from Don Kercheve, senior from Bloomer. He will receive a five dollar reward for his efforts, according to "Scotty" Smith, co-chairman of the Homecoming activities.

According to Smith, the consolation prize goes to the person that submitted "flour, sugar, pineapple," and other assorted food articles from a grocery list.

Any organization that wishes to participate in the homecoming activities must sign up by noon Oct. 19, Smith said.

This year's activities will begin Oct. 21 following Dad's Day and the Stout game which will be played at Ramer Field. The activities will be kicked off with the Queen's Ball which will take the place of the kick-off convocation of the past. Music for the ball will be furnished by Larry Fisher. Edith (Walker) Scharfenberg, last year's queen, will reign over this event.

On Oct. 26, Smokey Stover and his Firemen will present a jazz concert. There will also be dance music provided by the Firemen. This performance and dance is expected to last about four hours.

The 1961 Queen's coronation,

bonfire and dance will be Friday afternoon and evening, Oct. 27 with the parade, football game, alumni reception and coffee hour, and the dance the following day.

"Scotty" said that the "R" Club is planning to have homecoming buttons and a pizza feed. Further details on this matter will be published later.

This year's homecoming festivities and organizations honors will be governed as they were last year, with a point system.

A breakdown of the points and prize money for Homecoming is as follows:

Floats	Points	Money
1st	50	\$25.00
2nd	25	\$15.00
3rd	15	\$10.00
entering	5	\$10.00
Lawn Decorations		
1st	25	\$10.00
2nd	15	\$10.00
3rd	10	\$ 5.00
entering	5	
Queen Candidate		
1st	75	
entering	15	\$10.00
Skits		
entering	25	
Window Decorations		
1st	25	\$10.00
2nd	15	\$ 7.00
3rd	10	\$ 5.00
entering	5	

Guest Editorial We Do Exist

"Kappa Delta Pi."
"Who are they?"
"What do they do?"
"Do they meet every month?"
"Heh, heh, heh, heh." (A silly giggle.)

What you read above are some of the reactions the author has heard upon mention of the words: Kappa Delta Pi.

Yes, ladies and gentlemen—members of the River Falls State College community—there is an organization on the River Falls campus called Kappa Delta Pi. We do meet every month and we do a variety of things.

Unfortunately, there has been an hierarchy established in the minds of persons associated with River Falls State College. Many of the community of scholars known as the faculty have been as instrumental as many of the student body in establishing and maintaining this mental construct. The fallacious concept at which I am striking places a rank order of worth upon the type of degree toward which a student is working. Those who are working toward the Bachelor of Arts rank first, followed by the Bachelor of Science. The Bachelor of Science in Education ranks third (in this case last or lowest). The reason for this rank order of worth, as far as I can ascertain, is the result of a very common phenomenon which I call intellectual snobbery. It is very obvious to the intellectual snobs that anyone who desires the traditional Bachelor of Arts is somehow better than anyone else. And those who pursue a mere Bachelor of Science in Education are hardly worthy of mention. I fail to see the reasoning which places the desire to pass on cumulative knowledge—society's most important function—last in any rank order of worth. Those of us in Kappa Delta Pi are proud of our organization which is made up of and serves those who desire to perform society's most important function—teaching. And just between you and I we're just as good as anyone else, regardless of what the intellectual snobs would have you believe.

Two quotations from Kappa Delta Pi's Manual for Officers succinctly summarize the purpose and function of Kappa Delta Pi on the national and local level. Kappa Delta Pi, an Honor Society in Education is "eager to promote a closer bond among students of Education and to enter into more intimate fellowship with those dedicated to the cause of teaching as a profession, for which specialized preparation is deemed imperative . . ." "The purpose of Kappa Delta Pi shall be to encourage high professional, intellectual, and personal standards and to recognize outstanding contributions to education. To this end it shall invite to membership such persons as exhibit commendable personal qualities, worthy educational ideals, and sound scholarship. It shall endeavor to maintain a high degree of professional fellowship among its members and to quicken professional growth by honoring achievement in educational work."

The River Falls chapter of Kappa Delta Pi meets monthly and aims toward the goals stated above. A program has been planned for the coming year which will fulfill the needs and interests of the members. Leading off on this program, on Tuesday, October 10 a panel of faculty members will discuss the general field of graduate study.

"Kappa Delta Pi."

"... an Honor Society in Education . . ."

"... eager to promote a closer bond among students of education . . ."

"... to encourage high professional, intellectual, and personal standards . . ."

"... commendable personal qualities . . ."

"... sound scholarship . . ."

"... a panel of faculty members will discuss graduate study . . ."

It is good to hear the right answers for a change.

Frederick Trautmann

AROUND THE CAMPUS

Senior Class

There will be a meeting of all seniors on Wednesday at 1:25 p.m. in the Little Theatre.

All students who plan on graduating at the end of Winter Quarter or at the end of Spring Quarter are urged to attend. Procedures leading to qualifications for graduation will be discussed.

Physics Colloquium

Upon invitation from M. E. N. C., members of the Physics Colloquium will attend the M.E.N.C. meeting to hear Mr. De Jong talk on electronic music. The meeting will be held in the social room in South Hall at 7 p.m. on Tuesday. All colloquium members are urged to attend.

Junior Class

There will be a meeting of the Junior class Wednesday in room 101-2 SC at 1:25 p.m.

Psychology Club

There will be a meeting of the Psychology Club at 7 p.m. on Wednesday, in rooms 101 and 102 of the Student Center. Seminar groups will be organized, Psi Chi will be discussed, and members of the group will relate experiences gained during the summer in fields related to psychology. Those speaking will be Mary Vilaten, on mentally retarded children, Diana Steen, on the mentally disturbed, Judy Harmann, on the emotionally disturbed children and Sandra Paulson, on juvenile delinquents. Interested faculty members are cordially invited to attend.

Swimming Pool

The college pool in Karges Physical Education Center will be open on Thursday nights from 7:30 - 9:30 p.m. and on Sunday afternoon from 2 - 4 p.m. Everyone is welcome to swim.

LITTLE MAN ON CAMPUS

"THANKS FOR HELPING US ON TH' TEST, LOUISE — WITH YOU IN THE OPPOSITE CORNER HE DIDN'T LOOK ONCE IN OUR DIRECTION."

Letters to the Editor . . .

Dear Editor:

We of the Social Committee would like to have this letter published in the Student Voice.

Clerical Help

Temporary clerical help is needed by the college administration. Students' wives who can type and have had some routine clerical experience are requested to make application to Mr. Henriksen in the business office.

Gamma Delta

Gamma Delta extends a cordial welcome to all students to participate in the following activities.

Sunday, there is Bible class at 9:15 a.m. Here the Day's Propers are studied and discussed in order to make the worship more meaningful. The Bible study is followed by Worship Service at 10:15 a.m. A warm welcome is given to you to come and take part in the service.

In the evening at 5:30 p.m., there is a cost supper which students prepare themselves. They have the opportunity to dream up and create their own masterpieces. You come and eat as you wish.

Monday mornings at 7 a.m. there is the Order of Matins. Its early, but it is one of the best ways to begin a week of work and study.

A Martin Luther Study Group is held on Tuesday evening. This week the theme will be "Reasons for not Being a Christian". The discussion will be taken from chapters eight to eleven in Walsh's "Campus Gods on Trial". A business meeting will follow the discussion and refreshments will be served after the meeting.

Office of Compline is held on Wednesday nights at 10 p.m. Closing the mid-week evening is a worship with fellow students.

To round out the week, a social night is held on Friday night. This is for the students who don't pack up and go home on weekends. Most students don't study on Fridays anyway, so why not meet your friends and enjoy the evening.

The Social Committee

Student Senate Minutes

The Student Senate was called to order by President Hendrickson at 6:40 p.m., Monday, October 2.

Secretary's report was approved as read.

Treasurer's report was read and approved.

Hanson moved, Kirk seconded that we accept Robert Ambas and John Painter as freshmen representatives to the Social Committee.

Motion carried.

The motion was made and seconded that we adjourn for 10 minutes.

Motion carried.

Kirk was excused at 9:07 p.m. Norrish moved, Churchill seconded, that the Student Activity Fee be raised in the amount of \$1.00 per quarter, effective the Winter Quarter of 1961. The motion was unanimously carried.

Richardson moved, Julien seconded, that the proposed 1961-62 budget be accepted as determined.

Motion carried.

Ben Stahl presented the proposed constitution of the newly formed Diffi Club.

O'Connell moved, Churchill seconded, that said constitution be submitted to the Senate's Constitution Committee for consideration.

Motion carried.

Richardson moved, O'Connell seconded that traveling expenses for one automobile be provided for athletic events attended by the cheerleaders, providing that at least four cheerleaders attend.

Motion carried.

O'Connell moved, Julien seconded, that the meeting be adjourned. At 9:29 the meeting was adjourned.

Respectfully submitted,
Linda L. Kirk
Secretary

Present:

Churchill, Hanson, Hendrickson, Julien, Kirk, Koepnick, Norrish, O'Connell, Richardson.

Military Leaves Granted To Students and Faculty

Resolutions which have been gathering dust for almost a decade have been getting careful attention lately by presidents and other officers at the nine Wisconsin State Colleges.

With the mobilization of the 32nd National Guard Division, which promises to take a number of faculty and more than 300 students from the campuses, attention has centered on Board of Regents resolutions governing military leave for students and faculty.

A check of the volume containing Board resolutions from 1900 to 1959 reveals policy decisions dating back to the First World War—that 1914-18 conflict sometimes called the "War to End All Wars." Other entries call attention to the Second World War and to the Korean conflict.

According to Eugene R. McPhee, director of state colleges, students who attend a State College for two-thirds or more of a semester or a quarter, and who are actually

inducted into the Armed Services may be granted credit for the whole period depending upon their academic standing at the time.

If a student enters service before the completion of two-thirds of the semester or quarter, he may be refunded his fees in full.

As far as professors are concerned, a Board resolution of January 1942 states that the Board of Regents of State Colleges will grant a leave of absence, without pay, to any teacher, president or employee who volunteers, is drafted, or is called into military service; or is called by the state or national government into work in a civilian capacity connected with the "war effort."

A resolution the following year emphasized that military leaves of absence would in no way affect a teacher's tenure, and the instructor would be entitled to return to the college with his salary status unchanged.

River Falls Represented At AST Meet

Five members of the faculty of the School of Education participated at Oshkosh, October 6-7 in the 13th annual meeting of the Wisconsin Association for Student Teaching. They were Mrs. Leona Cooper, Miss Ann Dubbe, Miss Brenna Steil, Mr. James Murphy and Dr. Edward Selden.

Dr. Selden served as one of the group leaders of the research clinic.

Miss Ann Dubbe is secretary for the state AST organization.

The theme for the conference was "The Public School in Teacher Education - Problem and Policies".

Loes and workmen depict the present stature of the new wing being added to Hathorn Hall as the new structure rapidly climbs and develops under the eyes and skills of engineers, architects and skilled workmen. The new wing is expected to be livable by the fall of 1962 housing 142. It is intended to relieve some of the pressure of overcrowding that now exists in women's housing.

European Study Program Application Now Accepted

Today marks the official opening of the application period for three spring semester undergraduate European study programs offered by the Institute of European Studies.

Sophomores and juniors who meet the minimum standards for each of the programs may apply until December 15. The three programs are located in Vienna, Freiburg (West Germany), and Paris.

Robert T. Bosshart, Institute president, said a wide range of liberal arts courses is offered to

fulfill the varying needs of U.S. undergraduates studying in Europe.

"The programs are designed to be an enriching complement to American education. As such, they enable sophomores and juniors to study in Europe without disrupting their previously begun pattern of studies," he said.

Students need not be proficient in a foreign language to study in the Vienna and Paris programs. Classes there are taught in English as well as in the language of the host country. Only juniors may enroll in the Institute's Pre-

burg program, and competence in the German language is required there.

Intensive language instruction is given to all students, according to Bosshart. Other special courses may also be attended.

Students are housed in private homes to provide a practical workshop for the learning of a new language and a deeper insight into European culture.

All spring semester students will sail from New York in February, 1962, and return to the United States in July.

Bosshart said that full information about programs can be obtained by writing the Institute of European Studies, 35 East Wacker Drive, Chicago 1, Illinois.

8,000 Vets Get Dividend On Insurance

Approximately 8,000 Wisconsin Korea veterans who have converted or exchanged their "RS" insurance policies for "W" insurance will receive a special dividend as a result of a law signed by the President September 13, J. P. Cullen, Regional VA Manager, said today.

An additional 4,500 who have not yet changed from "RS" to "W" insurance may become eligible for the dividend if they convert or exchange their policies for the new type "W" insurance within two years from the date the law was signed.

"RS" insurance was issued as five-year term policies to Korea veterans discharged between April 25, 1951, and December 31, 1956. They could not be converted to a permanent plan of insurance and were not eligible for dividends. A new law effective January 1, 1959, established the new type "W" insurance and made "RS" policies eligible for conversion or exchange for this insurance on either a permanent or five-year plan.

The VA urges those eligible for the dividend, as well as those who may become eligible by converting to "W" insurance not to write or call the VA with individual inquiries. Such requests will only delay payment of the dividends the VA pointed out.

Coeds Note! Writer Finds Your Faults

In a college with an enrollment about the same as River Falls, a survey was recently conducted concerning "the things we don't like about you." The results were very interesting and, to some persons, instructive. The "pet peeves" were ones which would very well apply to any co-educational college in the United States. How does River Falls measure up?

The things which "get the men down" are, on the whole, things which could easily be remedied. In the first place, men despise red finger nails. (Bless their little hearts!) Can you imagine anyone not caring for nails seemingly fresh from a Macbeth scene?

Giggling is absolutely out. After all, what is less appealing than a giggling girl? It's your guess. In the same class with giggling is screaming. Now, we ask you, why do girls scream? The age-old question again. No one knows, and no one ever shall know, in all probability. It's just one of those Unknown Factors. It's really too bad that more girls can't realize the disadvantage at which they are putting themselves by their giggling and screaming. As an eminent psychologist has proved, these faults are merely expressions of self-consciousness. (Maybe that will hold them.)

College men see red when it comes to "screwy" hats. They resent walking down the street with a modified hay stack or an exaggerated pop-over bobbing by their side. Girls, here's the secret—hats distract masculine attention away from the wearer. Oh, well, no matter what is said, the feminine sex will continue to wear their "screwy" hats, under the delusion that men appreciate them. What to do about it?

False sophistication — that is more rampant among college students than any other fault. This particular "disease" is most commonly found in freshmen, so it seems: luckily it is usually outgrown. Nothing is more exasperating to the college man than a "false front" of sophistication. For those who have an art of this fault, there is no better remedy than one very decided slap-in-the-face, administered by one who has been through the mill, usually a senior. If that doesn't help, it must be genuine.

The feminine sex has one fault (wait a minute!) so universal and so well-known that it has become synonymous with the fair species. Too much chatter! Will the sweet young things of our college ever wake up and be quiet for just one minute, please? The college men-about-town, through ages (literally) of chattering femmes, have practically resigned themselves to their ultimate fate, as have the millions before them. Blessed is the girl who realized her greatest shortcoming and has enough sense to correct it. (Will she ever be found?)

College men as a group express their likes and dislikes very strongly it seems. Their opinions are very decided, and their criticism very just, although it may seem harsh at the time. But cheer up, girls, they like you anyway.

To arms, men, to defend yourselves against the charges to be hurled at you! May you receive them with as much grace as have the co-eds. (Editors note: Before too many co-eds get all up in arms let me clear something up. The above story is a direct duplicate of a story that appeared in the Student Voice of November 4, 1936. Next week the answer will appear as it did in the Student Voice of November 11, 1936. So watch for it and then get up in arms - any arms. . .)

A happy six cheerleaders show their appreciation after the Falcon gridmen posted their second victory of the season. The six cheerleaders for this year are: Kay Holmes of Nekoosa; Judi Harmon, Plum City; Karen Thompson, a new addition to the pep staff, from Lakeland; Judy Osen, River Falls; Barb Korsmo, Clintonville and Mary Ann Howard from Spring Valley and another newcomer to the squad.

Dr. Allison Quits After Taking Ill

Dr. James Allison of the English department was taken ill and forced to resign. The department is now in the process of obtaining another instructor to take his place.

Dr. Wyman and eight other members of the graduate faculty left for Madison to attend the state-wide meeting on graduate studies. Dr. Wyman is the director of studies on the River Falls campus.

All clinics for freshmen in this department have begun and have been well attended.

Falcons Edge Titans 12-6

The River Falls Falcons were second in almost everything but the score Saturday afternoon as they squeaked by Oshkosh 12-6 for their fourth straight win. The southern team outgained the visitors both on the ground and through the air and had 17 first downs to the Falcons 10. The win gave the Falcons a 3-0 league record and 4-1 over all.

Even with more yardage than the Falcons, the Titans needed 50 yards in penalties in one drive to finally score from the one yard line on a quarterback sneak.

The first half was uneventful as neither team could muster a drive with the half ending as it started 0-0. The Titans did get to the River Falls 17 yard line in the closing minutes but gave up the ball on downs. The Falcons managed to edge their way to the Titan 20 yard line only to have a Larry Lloyd pass intercepted.

River Falls came back the second half to score the second time

they got their hands on the ball marching 33 yards. The key play in the series was a 28 yard pass from quarterback Bob Dawson to Lloyd after River Falls had been penalized for clipping. Dawson cleared the goal line with a quarterback sneak from a yard out. Conversion attempt by Wayne Burich was blocked.

Oshkosh received the kick off and preceded to march 85 yards to paydirt. Penalties of roughing the kicker, pass interference, offside, and a personal foul totaled 50 of the 85 yard drive. The Titan quarterback snuck over from the one yard line.

The Falcons took advantage of

a bad pass from center with a little over four minutes left in the game to score the deciding touchdown. The pass from center went over the punters head and as the Titan picked up the ball, hard charging Duane Tollefson jarred the ball loose. End Tom Overman picked up the ball and scampered 22 yards for the score. The conversion attempt by Burich was wide.

Oshkosh had 224.5 total yards to 162 for the Falcons. Dawson completed 10 of 17 passes good for 108 yards while Oshkosh had 114 yards in 8 of 25 attempts. River Falls could muster only 54 yards on the ground to 116 for the Titans.

This is the typical action that takes place every week as the Intra-Mural football squads battle at Ramer Field. Under the direction of Phy. Ed. Director Ben Bergsrud the twenty teams see action almost every week. (Photo by Lukowicz)

Tapping The Sports Line

by Jim Norrish

It seems the River Falls Falcons are the surprise team in the Wisconsin State College Conference as they were picked by the coaches of the 10 school circuit to finish in the second division. Expected to be in the championship race were Stevens Point and defending champion Whitewater. La Crosse was pegged as a dark horse in the pre-season poll.

The Falcons are currently tied with Stevens Point as the league leaders with three wins each. River Falls squeaked by Oshkosh Saturday afternoon but the game between Stout and Stevens Point was unknown at press time.

Whitewater was defeated by the Points 20-3 to leave the Warhawks with an outside chance for the title.

This writer would like to go on record as saying the Falcons will enter the Stevens Point game undefeated in conference play. This game should decide the championship.

Predictions

River Falls 16	La Crosse 13
Eau Claire 20	Superior 7
Stevens Point 33	UW-Milwaukee 6
Stout 20	Platteville 0
Whitewater 27	Oshkosh 7
Oregon 21	Wisconsin 14
Minnesota 26	Northwestern 21
Ohio 25	Illinois 1b
Iowa 35	Indiana 21
Michigan State 20	Michigan 13

Harriers Victorious

The River Falls cross-country team lost their third meet in a row as Carleton grabbed the first four places to win 10-26. Running in his first meet, Glen McNaughton, who suffered a hand injury in football, lead the Falcons with a fourth place finish. Jerry Halverson and Jerry Strum placed fifth and sixth respectively.

Kegler's Korner

by Ron Zirbel

With the first week of "All-Star" action the results show several outstanding bowlers. The Crew Cuts lead the league with games of 522, 470 and 530 against the Tequila Kids who had games of 481, 451 and 449. The Elmer's Boys owned the Duane Anderson team with games of 420, 402 and 420 which were good enough to take two of the three points. The Andy boys had a high game of 560 in the last match.

Results of the match between the Sojusens and the IC's plus 1 is unknown due to a shortage of a bowler.

The results of the "Regulars" for this week was not available at press time so there is not much to report from there. This week the "Regulars" will start open competition for standings.

200 games bowled in "All-Star" action so far are, Len Anderson 212, Norma Garlie 213, and Duane Anderson 203.

Standings

"All-Star"	
Crew Cuts	3
Elmer's Boys	2
Duane Anderson Team	1
Tequila Kids	0
Sujusens	0
IC's plus one	0

SCHEDULE

"All-Star"	
Tequila Kids vs. Duane Anderson team	
IC's plus one vs. Elmer's Boys	
Sujusens vs. Crew Cuts	
"Regulars"	
Alley Cate vs. Eric Nelson Team	(6)
Sleepers vs. Scraggs	
Gutter Dusters vs. Intellectuals	(5)

This week's grid action finds Fran Polsfoot's fighting Falcons hitting the road for the second consecutive week to match their muscles against another conference foe.

Saturday the Polsfootballers travel to La Crosse to face the Indians, a pre-season dark-horse for conference honors. Scheduled kick-off time at Memorial Field is 7:30 p.m.

Coach Bill Vickroy's La Crosse team has a 1-0 conference mark and are 1-1 for the season. At press time, the Indians had yet to score their first touchdown of the season having produced a total of six points in their first two games, losing to St. Norbert 14-3 and clipping Stout 3-0. A week ago the Indians were rained out of their game with Oshkosh and last week they traveled to Whitewater.

Ted Harris, a defensive back, has provided the Indians with all of their points thus far this season by the use of his toe. Harris kicked a 36 yard field goal through the uprights against St. Norberts and sent one for 33 yards against Stout. Harris also had a kicking-off average, last year, of 48.8 yards per kick.

Coach Vickroy greeted 72 football candidates this fall including 16 returning lettermen. Visibly absent from this year's La Crosse squad, because of graduation are halfback Fred Pongratz and tackle Jim Killian. Both were two-way players in Vickroy's platoon system and both won all-conference honors last season.

Falcon fans traveling to La

SWIMMING

Swimming Coach Russ Gerber announced there will be a meeting of all those interested in trying out for the swimming team at 7 p.m. Monday, Oct. 9 in Karges Gym. Gerber said that previous experience is not necessary and the only requirement is that you are willing to work hard.

Gridmen Risk Winning Streak at La Crosse

by Phillip C. Thurston

Crosse can expect the Indians to work primarily from Vickroy's basic Winged T slot with the occasional use of the straight T and single wing.

The offensive attack will be led by veteran quarterback Don Murdrak. He completed 42 of 88 passes last year for a total of 673 yards. His principle targets are expected to be Cliff Moldenhauer and Jerry Gilbertson.

At the halfback spots are junior seatback Andy Fenderson, 5-5 and 147 pounds, and Neil Nelson, a two time all-state from Mondovi and a transfer from the University of Wisconsin.

The La Crosse team has plenty of "beef" in its line with Mike Rose, 210, at center; Jim Edwards, 210, at left tackle and Joe Michuta, 273, at guard.

Vickroy who is in his ninth season as head mentor of the Indians has given the Falcons a rough time. In eight seasons of competition he has compiled an impressive record of 52 victors, 26 defeats and three ties. Of these, 5 victories came at the expense of the Falcons.

The Falcons will be seeking revenge for last year's smarting 26-0 loss to the Indians. It was the first time since 1957, when Polsfoot took over the reigned of head coach, that a Falcon team has been shut out. Ironically, Polsfoot was absent from the sidelines in this game, as illness forced him to watch the game from his car.

In last year's game, played at Ramer Field, the Falcons lost the services of guard Ken Kraft for the remainder of the season when he suffered a broken leg in the opening minutes of play.

The Indians jumped to an early first period 6-0 lead on a 20-yard gallop around end by Pongratz. Pongratz's conversion attempt was wide.

A pass interference penalty against the Falcons early in the second period set up the second La Crosse TD, putting the ball on the Falls 20. On the first play from scrimmage the Indian's Ron Gilbertson scampered 20 yards up the middle to pay dirt. Pongratz added the extra point making the score 13-0.

Just before the half ended Ted Harris snared one of Bob Dawson's aeriels, setting up La Crosse's third touchdown which was capped on a four-yard drive by the pint-sized Fenderson. Pongratz added the conversion making the score at half-time 20-0.

The final Indian touchdown came after they recovered a Red and White fumble on the one yard line. Quarterback Mudrah sneaked across the goal line three plays later.

The River Falls and La Crosse all-time series now stands at 21 wins for the Indians, 17 for the Falcons, with four games ending in ties.

Letterwinners

All letterwinners that won letters for the second year in a spring sport is asked to report to Athletic Director Fran Polsfoot's office to be measured for sweaters.

No Campus Moles; Just Construction

by Francis O'Connell

To satisfy the curiosity of all inquisitive souls who think the lawn in front of Hathorn Hall has been invaded by gigantic moles, we should like to inform you that no such catastrophe has occurred. Neil Barron, chief engineer, informs us that one of the trenches being dug will contain underground electrical wires which will service what is presently Hathorn Hall, the new wing on Hathorn Hall and the Campus School.

Two new transformers will be installed also, as the two we now

Language Lab Helps Grades, Says Jurgens

by Shirley Olson

The new language lab seems to be proving its worth. Dr. Ernest F. Jurgens of the German department indicates that his German students did remarkably well on their first examination last week. He added, however, that it is difficult to determine whether the new lab was a determining factor in their progress or whether they are just good students!

Jurgens also stated that two engineers from Racine, Wisconsin have been here to make the final adjustments on the facilities in the new lab. Arrangements have been made with the Webster Company of Racine to install an amplifier in the room so that one may obtain the attention of the whole class other than through use of the ear phones. A microphone will also be installed in the control room so that each student may record a live program on his own tape.

Dr. Jay W. Gossner of the French department stated that a full program has been planned for the Cercle Francais for the current year. Among the features already arranged are a 20 minute film, starring French pantomimist, Marcel Marceau to be shown at the October 18 meeting. At the November 15 meeting, Dr. Edward N. Peterson, professor of history at River Falls, will discuss the French Revolution and show slides to accompany his talk. Plans are being formulated for the group to attend a French restaurant in order to sample some French cooking, says Joanne Belfiori, French Club president.

have are operating under full capacity, and could not handle the additional load required to illuminate the new buildings.

The other trench according to Chief Engineer Barron is for steam pipes which will provide the heat for the new Campus School.

By April 15, the new wing on Hathorn Hall should be completed, the trenches filled in, and our campus restored to its former beauty.

Old Gym Will House Classrooms

Workmen will soon be on campus to begin work on the remodeling of the old North Hall Gymnasium. The old gym, which has not seen much use since the construction of the new gym in Karges Center will be converted into two pit-type lecture rooms. Each lecture room will seat approximately 120 to 140 students. Lectures will be given from what is now the floor of the gym, and students will be seated on the first floor balcony.

The locker rooms adjacent to the gym will be converted to science laboratories for the use of those students who are majoring in science.

\$65,000 have been appropriated for this project, and President Kleinpell states; "We hope to have it ready by Spring Quarter."

RF Winters Are Chilly

by Eddie Fisk

Do you students who come from other sections of the country, and especially those from foreign countries, know what our winters are really like here in River Falls?

For instance, did you realize when you applied for admission to Wisconsin State College at River Falls that the number of days with zero degrees or lower has been as high as 58 in 1936 and that in 1959 the average daily temperature during the month of January was a chilly 9.3 degrees.

These cold figures are substantiated through the records kept by C. G. Stratton from May 1, 1918, to Jan. 2, 1960 and John G. Mosher Jr. Jan. 3, 1960, to present.

The United States Weather Bureau describes the winters in River Falls as "cold with moderate snow." However, as far as we

students are concerned, scientists explain that moderate cold is "mentally stimulating."

The average date of the last 32 degree freeze in the spring is May 14, and the first in the fall is September 26. In case you were wondering just how cold it could get, the lowest recorded temperature in River Falls was in February, 1936, when the mercury dipped to a frosty 47 degrees below the zero mark.

All of the skiing enthusiasts and especially the Winter Carnival chairmen had better cross their fingers and hope history will repeat itself as far as record snowfalls in this city are concerned. The record snowfall in one month is 35.1 inches which blanketed the campus in March, 1951.

The amount of snowfall in a year has varied from 80 inches in 1951 to 15 inches in 1931 and 1958. The average date of the first one inch or greater snowfall is Nov. 15.

The chance of this amount by Oct. 24 is one in 10 years and by Dec. 7, is nine in 10 years.

To add to the student's discomfort is the fact that the prevailing winds are from the northwest from November through April. And — you guessed it—the highest wind speeds are usually from the northwest.

Early winter in River Falls is Novembbrrrrrrrr.

Foreign Service Office To Test Applicants In St. Paul for Jobs

An examination for persons interested in government appointments as foreign service officers will be held Dec. 9 in St. Paul. The College placement office has the necessary application forms and other information.

The closing date for filing applications is Oct. 23, according to a State Department information bulletin. Candidates must be between the ages of 21 and 31 as of Oct. 23. Persons 20 years of age may apply if they are college graduates or college seniors.

Starting salaries for newly appointed foreign service officers range from \$5,625 to \$8,345 per year. A new appointee's first tour of duty might be in Washington, D.C., or at one of the 290 American embassies, legations and consulates abroad.

'Committee Needs Public Relation Workers', Nelson

Students with a flair for publicity work are in demand. Rodney Nelson, chairman of the public relations committee, reports that more students are needed to work with the group, whose aim is to promote campus activities through publicity.

The committee works with the student center activities and social committees, whose members plan campus social and cultural functions.

The three groups work under the Student Senate and the Student Center Governing Board.

Interested persons may contact Rodney Nelson or Robert Brock, Student Center director.
