WISCONSIN STATE COLLEGE

VOLUME XLII NUMBER 17

Renewed Quartet, The Chanticleers, Here Tomorrow

The Chanticleers, a male quartet appearing in North hall auditorium at 8 p.m. tomorrow night, have been greeted by enthusiastic audiences from North Dakota to Georgia.

The Chanticleers' success can be attributed partly to the fact that they have successfully violated some of the standard rules in selecting a quartet. Most quartets are selected to achieve a blend and balance of voices. The Chanticleers, however is made up of four young men, each a soloist in his own right.

The result of this combination of voices is a flexible and polished program of fine music. The quartet will sing arrangements of Schubert, Gilbert and Sullivan and Kurt Weill, among others.

The members of the quartet, William Diard and Richard Wright, tenors; Raymond Keast, baritone and James Martindale, bass, have backgrounds in opera, radio, TV, concert, Broadway shows and choral work.

The program for the concert is:

When Johnny Comes Marching Home, Lambert; Shenandoah, from the North Carolina mountains; Ezekial Saw The Wheel, Spiritual; I Still See Liza, Loewe; Sit Down, You're Rockin' The Boat, Loesser; September Song, Kurt Weill; Great Day, Youmans; Song of the Chanticleers, Donald Smith; Sheep May Safely Graze, Bach; Now is the Month of Maying, Thomas Morely; Nina, Peer-golssi; Danza, Danza Fanciulla Gentile, Durante; A "Pinafore" Fantasy, Gilbert and Sullivan.

PRESIDENT TO ADDRESS SCHOOLMASTERS CLUB

Dr. E. H. Kleinpell, president of River Falls State College, will present the main address at the evening session of the annual meeting of the Northwestern Wisconsin Schoolmasters Club which will be held at Eau Claire, Feb. 8.

The afternoon session of the meeting will be held at the Little Theatre of Eau Claire State and the evening session at the Elks club where the group will be dinner guests of the Eau Claire Book and Stationery Company. Also on the evening program is the River Falls high school chorus under the direction of Walter Grimm.

SECRETARY ADDED TO RF OFFICE STAFF

A recent addition to the college office staff is Mrs. L. M. Jacobson who is working in the Placement office and in the office of President E. H. Kleinpell.

Mrs. Jacobson completed a St. Paul business course and has been employed by several Twin City business firms. She has done clerical work at the State Mental hospital at Moose Lake, Minn., and has worked for the superintendent of the Hastings schools.

Mrs. Jacobson is married and the mother of three sons. The eldest is attending Winona State college, another is married and the youngest is serving in the U. S. Air Force.

Campaign Opens for Chairwoman Falkofske, Fick, Hooley In Race for Carnival Post

(Photo by Doetkott)
IN THE RACE for Winter Carnival Chairwoman are left to right, Catherine Hooley, Joanne Fick and Beulah Falkofske.

Beulah Falkofske, Joanne Fick and Cathy Hooley have been selected by the Student Senate as the candidates for the position of Winter Carnival chairwoman and will be presented to the student body at an all-school assembly, Wednesday, Feb. 1 at 10 a.m. in North hall auditorium. Voting will take place Friday, Feb. 3 between 9 a.m. and 3 p.m. in the cafeteria.

The position of chairwoman requires a girl well-versed in the activities of the students on campus as she will be responsible for the entire program of activities during the Winter Carnival, Feb. 17-18-19.

Among the several events scheduled for the Carnival are the FFA talent show on Friday night, a dance after the Saturday night game, a snow sculpture contest and a "Midway" for Friday. Organizations who would like to sponsor a concession at the midway are asked to begin planning them.

The annual FFA talent contest will be held February 17. All students are eligible to enter. Contestants may register in the Student Voice office any time before Feb. 14.

Candidates for the position of Carnival King will also be presented at the Feb. 1 assembly. Competing for the honorary position are Sam Erickson, senior from Brodhead; Bob Hubert, senior from Tomah and John Steffen, junior from Turtle Lake. The election for the king will also be Friday.

Chairwoman candidates are: Beulah Falkofske is a senior from Ellsworth, enrolled in lower elementary. She is vice president of the ACEI and a member of the FTA, WRA, LSA and has worked on the Meletean staff for three years. "Boo", a pert blonde cheerleader was queen of the junior prom her sophomore year. Last winter, she had a role in the student-directed production of "She Stoops to Conquer".

Joanne Fick, junior from Wilton is an elementary education major. This year she is president of Hathorn hall and secretary of Sigma Chi Sigma. The bouncy brunette serves on the executive board for LSA and also works part time as a student librarian. She has been treasurer of the ACEI and also sung in the choir for two years.

Catherine Hooley is a junior from Hudson. She is an elementary education major and president of the ACEI. Cathy has been an active member of the college choir, band and the Falconettes. The tall brunette is on the Newman Club Executive Board and also on the Neil Mulhollam Memorial Committee.

CAMPUS CALENDAR

Monday, Jan. 30
8:00, Basketball with Eau Claire, North hall gym.

Tuesday, Jan. 31
10-4 p.m., Bloodmobile, South hall gym.
7:00, ACEI, Social room.
8:00, All-school Convocation, N. hall aud.

Wednesday, Feb. 1
10 a.m., Winter Carnival Candidates Presentation assembly, North hall, aud.
6:00, Toastmasters, Calico room.
6:00, Debate meeting, 212S.
7:00, Chess Club, 218S.

Thursday, Feb. 2
6:30, Young Democrats, 121S.
8:00, German Club, Calico room.
8:00, French Club, Social room.

Friday, Feb. 3
9-3 p.m., Winter Carnival Election, Cafeteria.
9 p.m., Valentine Formal, North hall gym.

Saturday, Feb. 4
8:00, Basketball, Superior, there.

Monday, Feb. 6
7:00, Rural Life Club, Social room.

Tuesday, Feb. 7
7:00, YM-YWA, Social room.

Wednesday, Feb. 8
6:00, Toastmaster, Calico room.
6:00, Debate meeting, 212S.
7:00, Chemistry club, 318N.

Thursday, Feb. 9
3-5 p.m. AWS Tea for Faculty Women, Hathorn hall lounge.
7:30, All-School Square Dance, South hall gym.

Friday, Feb. 10
8:00, Basketball at Oshkosh.
8:00, Dorm Dance and Party, Hathorn hall.

Kleinpell Named Veep By Chamber of Commerce

President E. H. Kleinpell was named vice-president of the River Falls Chamber of Commerce Tuesday at a meeting of the board of directors. He had been named to the board for a two-year term last week.

Sidd Brandt of the Grimm Insurance Agency was elected president and Mrs. Ruby Richards was elected to succeed herself as secretary-treasurer.

Women Seeking Dates For Valentine Formal Friday

Senate Gives Figures On Fund Allotments

The Student Senate recently released a list of Activity fund allotments for the 1955-56 school year. The figures are prepared on an estimated three term enrollment and represent the total figures for the year.

Athletics	\$ 4,800
Health	2,570
Stu. Sec. Committee	2,570
Music	1,200
Convocations	1,500
Forensics	1,000
Student Voice	3,700
Meletean	7,900
Miscellaneous	500
Total	\$25,740

NURSE GIVES INSTRUCTIONS FOR BLOOD DONATIONS

Mrs. Nelson, the school nurse listed the following instructions for all persons who plan to donate blood tomorrow. Fats or fried foods should not be eaten for at least four hours before a donation is made. No more than one egg should be eaten in the four hour period before giving blood. Blood donors may eat any type of other food, as long as they do not eat too heartily in the period before a donation is made. The Bloodmobile will be at the South hall gymnasium tomorrow between 10 a.m. and 4 p.m.

Audrey Windal, senior from Centuria and president of the Association of Women Students, has announced that the Valentine Formal will be Friday, Feb. 3. Girls at Hathorn hall who attend will receive two o'clock permissions.

Usually one of the most successful events of the year, the Valentine Formal is the traditional function when the girl asks the man and pays the evening's expenses.

Furnishing the music for the formal are the Falconaires, college dance orchestra. Dancing in North hall gym will be from 9 to 12 p.m. Tickets are \$1.50 per couple, and will be on sale in the cafeteria during the week.

The tickets for the dance are numbered so the fellow whose number is drawn at the dance will reign as king for the evening and his date will be queen.

Co-chairmen of the decoration committee are Ruth Hajek, sophomore from Hastings, and Donna Timm, sophomore from Alma. Helen Pechacek, junior from Hastings is in charge of tickets and Geradine Beggs, Minneapolis sophomore is in charge of the refreshments.

'High Parity Not Advisable' - Swanton

Milo K. Swanton told members of the Future Farmers of America here Thursday night "It is not advisable to have high parity on some agriculture products at this time."

Crops now in overproduction, he indicated, include corn, wheat and cotton.

A member of a 14-man Agricultural Advisory board appointed by President Eisenhower, Mr. Swanton backgrounded the farmers present economic situation. A farmer himself and former secretary of the Wisconsin Council of Agriculture cooperatives, Mr. Swanton said he is well aware of

SWANTON

the farm problem. His topic was "Faith, Hope and Parity." He was introduced by John May, director of the Division of Agriculture.

Other speakers at the annual banquet of the River Falls collegiate chapter included President E. H. Kleinpell, Edward Greschner, vocational agriculture teacher at Clear Lake, and Ralph Schmid, senior, from Chilton. Members of the FFA quartet provided music at the banquet in the college cafeteria.

Toastmaster for the affair, attended by 139 persons, was Edward Mahlum, senior from Mondovi.

LIBRARY SETS UP BOOK EXCHANGE

A pocketbook exchange is being set up in connection with the Browsing room in the library, it was announced today by Richard Cooklock, head librarian. Up to the present time the browsing room has been used as a place for recreational reading of books placed on the shelves by the library staff.

In the new exxchange, students may take a book if they bring in another to replace it. In this way the supply of books will be ever-changing.

The Editor Speaks . . .

Discussion On A Union

President E. H. Kleinpell shed a good deal of light on the proposed Student Union on campus in an informal talk at a meeting of the Vets club Wednesday night.

As most of our readers probably know, the Board of Regents of the State Colleges has made an application to the federal government for a loan. If granted, the money is to be used for the construction of Student Union buildings on Wisconsin State College campuses.

The proposed union for River Falls would cost approximately \$275,000, the building itself worth \$200,000 with the balance being used to pay the architect and other miscellaneous costs incurred in construction.

If the Board of Regents receives the loan and votes to build the Union here, River Falls students will pay an additional \$4 per term incidental fees when they register. We feel that a Student Union on campus would be well worth it. At \$4 (less than five cents a day) per term per student, and with our present enrollment, the loan could be paid in 42 years.

The Union building would be located directly west of South hall and might be connected at some future time to the proposed Health Education Building by means of a bowling alley.

Other suggestions for the Union include a book and stationery store, a cafeteria and snack bar that would be open every day (including week-ends), fountain service and a game room to include ping pong and billiard tables. A lounge large enough to be used as the "Falcon Ballroom" would be available for use for special events and dances. Possibly an Alumni-Faculty room could be included for meetings by these groups.

Publication offices (Student Voice, Meletean, and a darkroom) would also be located in this building as would offices for the Union Director and the Student Senate.

The new building is expected to be approximately one-half the size of the library and contain 20,000 square feet of floor space. It would cost \$13,000 per year to maintain and operate the building. President Kleinpell feels that this can be paid for by profits from activities in the Union.

President Kleinpell stressed the fact that the matter of our getting a union here on campus is still tentative, depending primarily on whether or not the loan from the federal government can be obtained.

SHAKY, HUH? Roy Dunlap (alias Paul Light), St. Paul Pioneer Press columnist, chats a moment with Shirley Neuner, Student Voice editor.

Hello, Paul Light!

Tuesday morning an odd caravan consisting of planes, air force trucks and an ancient 1902 Knox made its way to River Falls and roared by the college despite the efforts of members of the publication staff, photographers and the dean of men to flag it down. Determined to get at least a picture, if not an interview, we trekked downtown to complete our mission. We were partly successful. Paul Light, St. Paul Pioneer Press columnist and driver of the ancient Knox pleasantly agreed to pose with us. Somewhat gingerly we climbed on the panting beast, hoping for a few profound words from this energetic man and what did he say? Oh, yes, he remembered the college very well since his lecture here last year—this was the campus that had all the foreign students who were the only ones who didn't complain to their congressman! At this point someone pushed the gas lever and the Knox began a noisy, bouncing movement that threatened to shake us off the seat. By the time we had regained our balance, the picture was taken and the interview was at an end.

JOSEPH CONRAD'S BRAVE
COWARD: LORD JIM.

Joseph Conrad thought of as having started a movement in literature—I prefer to think of him as part of an era now past. Everyone is aware of the character of "Teddy" Roosevelt—hunter, statesman, explorer—something of a Renaissance Man, though he had a family. Roosevelt marked the termination of this era of which I believe Conrad was a part.

Conrad is utterly masculine in his writing ((his vehicles are the sea, ships, sailors, adventurers)—he speculates, though; this may not seem in sequence with his masculinity. Conrad's charm lies in the mystical tenor of his speculation. One can get a quick hint of this quality: his titles are commonplace enough: "Almayer's Folly", "Lord Jim", etc. It is in his subtitles and the first titles of his later novels that this mystical element shows itself: "Youth", "Chance", "Heart of Darkness".

"Lord Jim" is the tale of an apparently utter and irreconcilable coward. Jim, the protagonist, moves from situation to situation in which he finds his back to the wall. Throughout his life, his immediate reaction to a trying situation is to flee—this he does. He has run as far away as he conceivably can—to a tropical jungle where he finds himself the "white chief" of a river tribe. Pirates wish to trade in the area but the Indians are against this; they turn to their chief, Lord Jim. He faces the pirates in what appears to be what the reader always knew was coming—Lord Jim's final triumph over his cowardice.

In an episode in which Jim calmly faces and subdues the pirates, the reader is lead to believe that Jim is a whole man again—this is the sum and total of his experience. In the subduing of the pirates, the son of the tribal patriarch is killed. Since Jim's subduing of the privateers, he has been called responsible for all phenomena, the favorable and unfavorable rains, the good fish-in, etc., and is justly, from a standpoint of tribal psychology, held responsible for the patriarch's son's death.

This is the stage for the real summation of Jim's experience. He is summoned by the patriarch—who promptly shoots him through the head with a pistol. Jim has no cowardice in this situation—this is both the puzzle and the key to not only the story but the questions Conrad asks about cowardice in "Lord Jim".

Letters to the Editor...

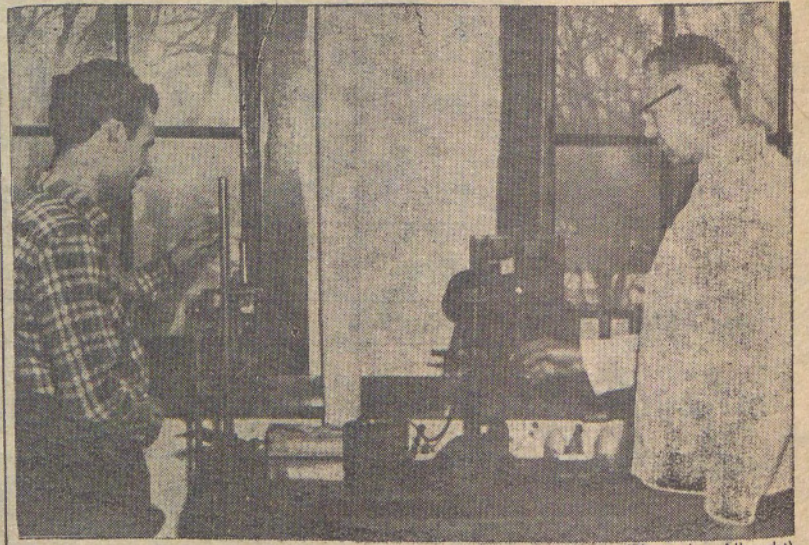

Dear Editor:

In response to Dr. Engler's comments on the small attendance at concert and lectures, I would like to offer one reason which may play an important part in the lack of attendance.

There have been so far this year a great many school functions, including lectures and concerts as well as plays and dances, which I would have liked very much to attend. However, it seems every time I plan to see one of these programs, at least one of my teachers schedules a test for the following day. Perhaps I am alone in this predicament, but before nearly every scheduled convocation I have heard repeatedly the comment "I was planning to go, but I have another test tomorrow!" I believe there are very few of us who feel free to attend a convocation with a test looming forebodingly on the next day's schedule.

Perhaps it would be too great an inconvenience, but wouldn't it be possible for the instructors to schedule tests a day earlier, or a day later? In this way, many of us who do not now attend these evening functions could do so with clear consciences and the feeling that we are not neglecting our studies.

WORKING WITH CLOUD CHAMBER

Physics Students Uncover Paths of Nuclear Particles

by William Hagestad

AROUND THE CAMPUS

MELETEAN PICTURES

Organization pictures for the Meletean will be taken Wednesday evening, February 1, in room 121S at the times scheduled below.

- Choir, 5:30.
- Trio, 5:45.
- M. E. N. C., 6:00.
- Junior Class Officers, 6:15.
- Sophomore Class Officers, 6:30.
- Pi Kappa Delta, 6:45.
- Debate, 7:00.
- W. R. A., 7:15.
- Young Republicans, 7:30.
- N. C. T. E., 7:45.
- Wesley League, 8:00.
- United Students Fellowship, 8:15.

YM-YWCA

A YM-YWCA meeting will be held Tuesday, February 7, at 7:00 p.m. in the Social Room. Mr. Hodges and some of the foreign students will form a panel to give some of their views of our culture. There will be a question period following the discussion and students are asked to bring questions. A lunch will be served after the program.

NOTICE

Students receiving mid-term deficiencies are urged to contact their faculty advisors.

1956 GRADUATES

All 1956 graduates are asked to report for cap and gown measurements, Feb. 1 in room 115S at the following hours: 9:00-11:00 a.m. or 2:00-4:00 p.m.

VALENTINE TEA

The A.W.S. sponsored Valentine tea for women faculty members and faculty wives will be held Thursday, Feb. 9 between 3 and 5:30 p.m. at Hathorn hall lounge. Doris Lindemann, senior from Barronett is general chairwoman of the event and Marion Haugen, freshman from Hudson is in charge of decorations. Counselors and the A.W.S. Executive Board are to be the hostesses.

PALETTE CLUB

The Palette club will meet in the visual aids room, 235L, Wednesday, Feb. 1, at 7:00 p.m. The topic under discussion will be "Primitive Art". All students sincerely interested in art are urged to join the discussion.

Students in the atomic physics course taught by Earl Albert are currently experimenting with nuclear particles—bits of matter so small and so fast that no instrument of man can weigh or see them. The best that can be done is to see only where these particles have been! This no-small feat is accomplished by an instrument the physics department has that is called the Raymaster Cloud Chamber.

Another device used by the class attempts to measure the weight (mass) of the electron. This piece of apparatus throws out a stream of electrons from which data is taken. The electron beam emitted by this apparatus is visible because of vaporized mercury in a large glass tube. The electron beam is accelerated by an electrical field force and curved by a magnetic field force.

Experiments Exciting

A former physics student, now doing mass spectograph work in industry, says that the operation of this instrument is one of the most exciting experiments he ever made.

A series of twenty runs on this machine was made and data was taken. The values gotten were within one tenth of one percent of the accepted value for the instrument.

The Geiger counter the physics department has is being used now in a series of experiments with radioactive materials. Tests are being run on the rates of radiation of different substances and the effect of filters on the radiation process. Lead and aluminum are commonly used filters in these experiments.

Instruments Measure Charge
Another instrument, which determines the charge of the electron, uses droplets of oil. Oil is sprayed in between two plates, which can be made either positive or negative. A student chooses a moving droplet of charged oil and causes it to travel between these two plates. From this experiment, the student gathers a table of data and from this determines the magnitude of the oil droplet's charge by using a formula.

The important thing about these experiments, the instructors say, is that they illustrate so many of the principles of modern physics.

Students in the class report that to watch and operate these instruments is a fascinating experience . . . there is a certain thrill in handling and seeing forces which are the bases of all matter.

Electrical Circuits Studied
The general physics section is currently doing work in electrical circuits. They use electrical measuring instruments, motors and electrical generators. The agricultural physics group is working with the aspects of heat principles and fundamental electrical circuits.

The physics instructors say that the field of physics is advancing so rapidly that its place in the future social scheme will be hard to predict.

Pair of Strong League Foes On RFSC Schedule This Week

The Falcons will be out to avenge an earlier 82-68 defeat by Superior when they travel to the north shore town this Saturday, Feb. 4.

Superior's second place Yellowjackets are especially tough on their home floor. Last season they spoiled the Falcons' chance of a league title by clipping the Falls five 77-71 at Superior.

Eau Claire Tonight

But the Falcons have other business to look after first. League-leading Eau Claire, sporting a 5-1 conference record, will be out to repay Belfiori's crew for the 92-74 shellacking they took here last season. Eau Claire lost to La Crosse 85-83 on a last-second shot Saturday.

Belfiori, whose River Falls club has a 2-4 league mark, will chose his starters from among eight candidates: Dave Herum, Bob Hubert, Rock Hanson, Zeke Zimmerman, Bubs Youngberg, Jerry Carter, John Steffen and Dan Corcoran. Of this group, Herum is the only sure starter.

Blugold mentor Bill Zorn will probably stick with the winning combination of Carl and Glocke and Jet Johnson at forwards, Rog Hanson at center, and Jim Bilingler and Bob Morgan at guards.

Superior's Larsen Tops

In the latest statistical releases Superior's Tom Larsen headed the league in scoring with 132 points in six games for an average of 23.7 per contest. He and George "Duke" Nelson are the men to watch in the Yellowjacket lineup.

Though Coach Carl Vergamini had only five lettermen to start off the season, he's done a creditable job of molding them into a winning team. The Yellowjackets have a 5-1 conference record. In the 'Jackets last outing they suffered their only league defeat of the season, 96-75 at Eau Claire.

CONFERENCE STANDINGS

	W	L
Eau Claire	5	1
La Crosse	5	1
Superior	5	1
Platteville	4	1
Stevens Point	3	2
River Falls	2	4
Whitewater	2	4
Milwaukee	2	4
Stout	1	5
Oshkosh	0	6

Intramural Basketball Inactive Last Week; Beers Leads Scorers

by Harley Larson

The intramural leagues were inactive this past week leaving time to scan the scorebooks for some of the outstanding scores and scorers of the already one-third gone season.

Holding the top average per game is Tom Beers, of team B-8 with 23 points after one game. Neil Christenson of team A-1 is second with a 22.5 average in two games. Neil's 30 point total in his last outing also gives him the top individual single game score of the season.

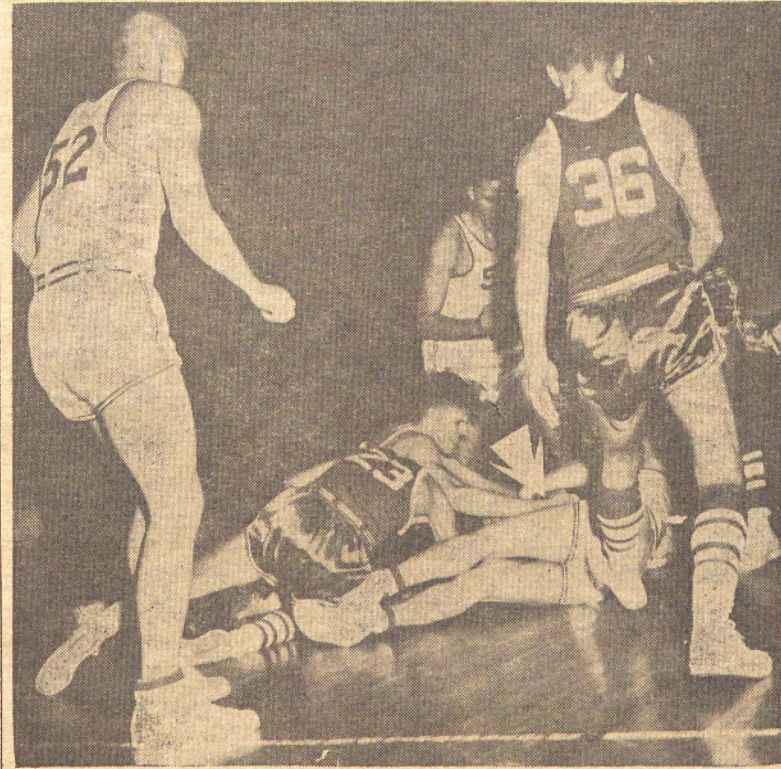

Name & Team	tp	g	ave.
Tom Beers, B-18	23	1	23
N. Christenson, A-1	45	2	22.5
S. Erickson, A-2	37	2	18.5
Gordon Hoff, B-11	52	3	17.3
Don Weiss, A-4	33	2	16.5
A. Linnerud, D-28	33	2	16.5
B. Hanzlick, B-10	49	3	16.3
N. McClellan, C-17	49	3	15.7
D. Johnson, A-5	31	2	15.5
R. Bonngard, A-5	31	2	15.5

In intramural bowling team 1 continues to lead the A league with a 6-0 record. Teams 9 and 1 remained in a deadlock for the B league lead with identical 6-0 marks.

Pee Wee Meyer of team 1 rolled the top game in the A league with a total of 188. His 358 was also the top two game score. Meyer's average of 188 in six games is four points below his previous average but he still maintains a big lead over the next closest rival John Brickner of team 3 with a 162 in four games.

Rolland Grothe of team 7 bowled the high single game in the B league with a 183, and also the top two-game score with a 331. Bob Ames' league leading average of 156 in four games is eight points below his previous average, but was enough to edge his nearest rival, Lyman Franzwa of team 9, who holds a 15 average in six games. Ames bowls for team 2.

River Falls Blasts Stout, 97 - 81, For Second Conference Victory

(Photo by Doerkott)

FIRST AND 10! Batling for the ball (arrow) are Falcon guard Johnny Steffen, Stout's Bob Sorenson (23) and an unidentified Stout player. Looking on are Rock Hanson (52) and Tom Shield (53), and Blue Devil guard Terry Meyer (36). River Falls won, 97-81.

The RFSC Falcons bettered their previous single game high score by 12 points last Saturday night and overwhelmed Stout, 97-81, on the North Hall gym floor. An 85 point outburst against Whitewater on Jan. 13 had been the highest River Falls point production to date.

It was the Falcons' second victory in conference play, giving them a 2-4 league record and a 4-8 season's mark. Stout is now 1-5 in the conference and 4-10 for the year.

New Line-up Clicks

Coach Phil Belfiori tried a new starting combination and it clicked from the opening minutes. Starting at forwards were Rock Hanson and Bubs Youngberg, Dave Herum was at center, and John Steffen and Dan Corcoran manned the guard positions.

The Falcons took a 4-0 lead on free throws by Hanson and a long shot by Corcoran, and were never headed. With four minutes gone the Blue Devils from Stout had narrowed the gap to two at 12-10, then the Falls went to work.

Belfiori switched offenses from a five out set-up to a high post combination with Hanson on the line, and River Falls hit 12 straight points in four minutes to pull away to a 24-10 lead. Stout shifted to a zone defense but the Falcons overloaded it and consistently riddled the defense with men cutting across the middle to the strong side.

Belfiori Substitutes

With 11 minutes gone in the first half Hanson had popped in 13 points and left the game with River Falls leading 38-19. Belfiori substituted freely from that point until halftime with equal success. At one time he had three freshmen—Corcoran, Tom Shield and Zeke Zimmerman—in the line-up. Stout pulled to within 10 points at 50-40 with a minute to go in the half, but Bob Hubert connected on six quick points to give the Falls a 56-42 intermission margin.

With Jim Bolm and Brian Howard handling the scoring Stout came within 11 points at 61-50 with 16:00 to go in the game, then settled back as River Falls roared off to margins-of-as-much as 19 points.

Falcons Widen Margin

Herum picked up his fourth foul early in the second half and left the game, but the Falcon offense clicked just the same. Hanson racked up 11 quick points then left the game with 7:00 to go and River Falls leading 85-70. Shield and Corcoran supplied the scoring punch from that point on with eight points apiece. Phil Kuss' long shot with 45 seconds left gave the Falcons their last two points, making the final score 97-81.

Hanson led the evening's scorers with 24 points. He was followed in Falcon scoring by Steffen and Corcoran with 18 each and Hubert with 10. Howard and Bolm hit 20 and 19 respectively and Bob Sorenson scored 10 to pace Stout.

BOX SCORE:

River Falls 97

Halftime Score: River Falls 56, Stout 42.

Belfiori's RFSC Five Drops Non-Loop Game To Carleton College

Coach Phil Belfiori's River Falls State Falcons suffered their eighth defeat of the season, 80-72, against a big, rugged Carleton five on Wednesday, Jan. 8. The non-conference tilt was played at Northfield, Minnesota.

River Falls' record stood at 3-8 following the Carleton game. Carleton, a member of the tough Midwest Conference, had a 3-9 mark after Wednesday's game.

Lead Changes Eight Times

For the first 30 minutes the game was a nip and tuck contest, with the lead changing hands eight times. Rock Hanson's fade-away jump shot broke a 54-54 tie midway in the second half and gave the Falcons their last lead of the evening.

Carleton employed a widespread offense with center Dick McAuliffe drifting in and out of the free throw lane. The Carls, taking advantage of the long court and four feet space between the backboard and the end line, drove for the bucket consistently, dropping in a number of well-executed backhand lay-up shots.

Herum, Armacost Tops

Falcon center Dave Herum bettered his 21 point average with a 24 point performance to take game scoring honors. Carleton's Mike Armacost hit 22 and team mate Rog Worlock connected for 16. Hanson also had 16 for River Falls.

SPORTS IN A NUTSHELL

by Rog

A problem which has been facing promoters of professional sporting events for some time has been the telecasting of sports contests. This problem has confronted football, basketball and baseball men alike, although in varying degrees in each instance.

In the case of pro football, the main question is not whether games should be televised, but when. When can a game on television draw the largest frontroom audience? It is no secret among play for pay football executives that TV has made pro football, or at any rate, it has revived fan interest.

At the annual meeting of the National Football league magnates recently in Los Angeles, Bert Bell, commissioner of the league, reported that attendance has continued its steady climb upward to new records. Commissioner Bell told team representatives the league recorded over 2.5 million paid admissions, an increase of approximately 300,000 or 15 percent over the 1954 season.

The National Basketball Association likewise seems to be on the "rebound"—a trend toward climbing gate receipts through the introduction of television as a media of advertising the game. Another crowd-drawing feature is the scheduling of NBA double-headers, where the average fan can see half the top basketball players in the country all in one evening.

However, this added fortune has not been without expensive consequences to some other sporting event. In New York it has cost local college cage teams dearly. Since the scandal of some six years ago, participation in sporting events by New York college teams has been de-emphasized, creating a problem of survival for the college teams.

The solution seems to lie in the building of tougher college teams in the New York vicinity, and eventually the formation of a metropolitan league. Currently the home town boys are being lured out by other, more competitive colleges. So, how you gonna keep 'em down on the farm?

Next week: The baseball attendance problem.

Falcon Fanfare

by K-Don Tibbetts

Leading scorer for the Falcons this year is Dave Herum, 6-5 junior from River Falls. He's a math major with minors in biology and phy ed, and is a member of the R Club.

In the first 11 games this season Dave scored 235 points for a 21.4 average. He's third in conference scoring with 102 points in five games for a 20.4 average.

This is really rapid improvement for a fellow who never played basketball until he was a junior in high school. He was a regular as a senior at River Falls high school and averaged 13 points a game. As a frosh at RFSC he was understudy to all conference Don Pick. Last year as a regular he averaged 12.5 points a game.

When this reporter asked Dave what he did in his spare time he replied "I milk cows as a past-time." The big boy got the nickname "Shep" because he used to raise sheep. Dick Fischer once told him he looked like a bird dog running down the floor and, as you may have guessed, the name stuck.

Easy-going Dave says that two of the things he likes best about basketball are:

1. the way Coach Phil tapes his ankles, and
2. the basketball trips that enable him to see new towns and places.

We strongly suspect he likes the game of basketball, too!

River Falls 97, Stout 81.
La Crosse 85, Eau Claire 83.
Stevens Point at Platteville, postponed, bad roads.

COLLEGE GOES TO THEM

More Than 150 Get Courses By Attending Night Classes

Approximately 150 students, many of whom never see the campus, are taking work at River Falls this quarter.

They are students in extension classes being operated by the college.

This quarter the eight classes include: Man and the Physical Universe taught by Robert Polk at River Falls, Children's Art taught by James Crane at Clear Lake, Visual Education taught by Robert Krueger at New Richmond, Child Development taught by Phil Anderson at St. Croix Falls, Children's Literature taught by Clifford Fortin at Ellsworth, Remedial Reading taught by Miss Ann Dubbe at Holton, and two courses in Music History and Literature taught by C. B. King at Woodville and Nick Jadinak at Amery.

The college cooperates in setting up courses where there is a community demand and at least 15 persons who wish to enroll in the class.

During the fall quarter, six extension courses were offered.

Music Department Sets Workshop Schedule

The Music department at River Falls has announced a schedule for its Vocal Music Workshop here Feb. 27, 28 and 29.

Conducting the workshop this year is Roy Wall, baritone, of Wichita, Kansas.

The first day of the workshop will be devoted to individual work with voice students of the college choir. On the second day Mr. Wall will work with high school students from surrounding towns including River Falls, New Richmond, Ellsworth, Spring Valley, Eau Claire, Chippewa Falls and Rice Lake.

The last day will be devoted to a resume of the common problems that were revealed in the total workshop.

The purpose of the workshop is to improve choral singing in the area. Emphasis of this year's session will be on vocal technique.

Music Notes

by Joan Engebretson

The name of Vincent Youman belongs in the company of American composers of recognized musical ability. Some of his successes were "No No Nanette" and "Hit the Deck". "Great Day" was perhaps his finest work although it did not strike the public fancy as favorably as his earlier creations.

Mr. Youman has a distinctive style in that he makes a few notes go a long way in producing the effect he desires. For example: The chorus of "Tea for Two" is built mostly on three notes in different position. The title tune of "Wildflower" was largely made up of descending scale patterns.

Such songwriting represents more real musicianship and inspiration than the more elaborate composition. The high point in Youman's creative work was reached in his independent number "Without a Song". It is considered an art song rather than a passing popular hit. The main phrase of the chorus is repeated at different levels of pitch to form a most appealing theme.

LITTLE MAN ON CAMPUS

Many Reasons for Complex

Says Sinbad . . .

I have a complex. To be specific, it's an inferiority complex. People look down on me. I've tried to tell myself that it's because I'm only two feet tall, but it doesn't work. I still feel that I'm below other people.

Psychologists have various ways of determining the cause of an inferiority complex. It may, in some cases, be attributed to a lack of motherly devotion. The proper cure, of course, is to find a mother who will shower you with the necessary affection . . . preferably one about 18-20 years old, nice figure, pretty, and sociable. That kind makes the best mother. If she has money, that may be substituted for the aforementioned virtues.

Another reason for such a complex is that of being born in a low stratum of society, with a resultant awkward feeling when mixing with the upper crust. The obvious answer to this is the taking of preventive measures. Examine the prospects for ancestry. Look over the possible parentage and then make a wise choice. For best results, this should be done at least three years prior to birth to avoid last-minute substitutions.

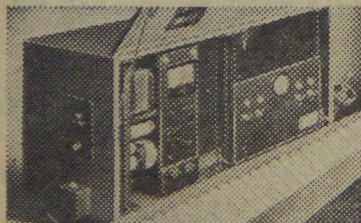

The primary reason for an inferiority complex is the one the psychologists never mention. In it I see the reason behind my own complex. Quite simply, I'm inferior! There is the unvarnished truth. When you inferiority complexed chaps are out with your best gal, and she looks into your eyes and says, "You're so different from all my other boyfriends. You're STUPIDER!"; don't get mad. After all, she's right! Let's face it. We hate school, sports, and life because we can't get grades, play or live worth a . . . hoot. (Fooled you, didn't I?) The only way to live happily is to get away from superior people. Anyone else for Robinson Crusoe's island?

PACKS MORE PLEASURE

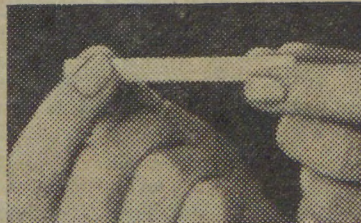

because it's More Perfectly Packed!

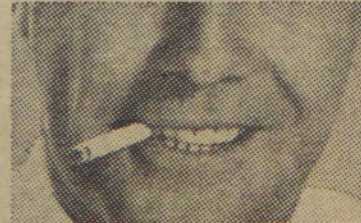

Satisfy Yourself with a Milder, Better-Tasting smoke—packed for more pleasure by exclusive Accu-Ray

The more perfectly packed your cigarette, the more pleasure it gives . . . and Accu-Ray packs Chesterfield far more perfectly.

To the touch . . . to the taste, an Accu-Ray Chesterfield satisfies the most . . . burns more evenly, smokes much smoother.

Firm and pleasing to the lips . . . mild yet deeply satisfying to the taste—Chesterfield alone is pleasure-packed by Accu-Ray.
