## Dramatic Club Presents Three One-Act Plays Tonight; 8:00

### Spring Valley Wins Finals In Loop Tourney

With Inaccurate Shooting Prescott Holds Valley In Close Race

In one of the hardest fought battles of the tournament the smooth-working Spring Valley team defeated the powerful Prescott cagers 17 to 14 Saturday night.

With the sound of the opening whistle the Spring Valley boys began to click and as the result of some clever ball handling which completely baffled the Prescott five they were ahead 6-0 at the end of the first quarter. Hanson and Conway were the main factors in the early lead.

Prescott came back strong in the second quarter to score six points while holding their opponents to a lone field goal and a free throw. The Prescott team seemed to be gradually overcoming their erratic shooting and it looked like anybody's game as the half ended 9-6 in favor of Spring Valley.

At the resumption of play it looked as if the Prescott outfit had found itself. The big boys turned on the power and came within a single point of the Valley to trail 10-9 at one time. However the smooth-working machine of Coach Berven's checked the Prescott drive and put on a scoring exhibition of its own to run the score to 15-10.

At this point Prescott caught the Spring Valley defense off guard to garner a bucket. A couple of free throws by Spring Valley and another bucket by Prescott concluded the scoring for the evening as Spring Valley won 17-14.

The smooth clever team work of the Valley cagers coupled with accurate shooting gave them the victory over the big hard-driving offense of the Prescott club whose play was hampered by erratic shooting.

Hanson and Conway starred with Spring Valley while H. Most, R. Most and Stoltz played good ball for the losers.

### Orchestra Gives Concert Sunday

Mary Jane Larson Features With Piano Solo at "Pop" Concert; Rozehnal Leads

The college orchestra under the direction of Professor B. J. Rozehnal will present the third in the series of Sunday afternoon "pop" concerts next Sunday afternoon at 3 o'clock in the college auditorium. Mary Jane Larson, a pupil of Miss Cara Wharton, will be assisting soloist.

These "pop" concerts have been very well supported this year. In each program there are enough different types of music so that everyone finds some number to his liking. In next Sunday's concert will be catchy waltzes, tone poems, clever dances, and pompous marches. The piano concert is indeed a fine feature. Miss Larson is one of our two very finest pianists and has done exceptional work.

Students are urged to attend these concerts because they afford excellent opportunities to hear good music played under the direction of a man who has had a great deal of experience in some of the largest orchestras in the United States. Mr. Rozehnal's career both in this country and in Europe is certainly an envied one.

The program is as follows:

Festival March in C ----- Cadman  
 Atlantide Suite ----- Safranek  
 Nocturne and Morning Hymn of Praise, Court Function  
 Poem ----- G. Fibich  
 Sarabande ----- C. Bohm  
 Concerto in G Minor -- Mendelssohn  
 Merry Widow Waltzes -- Franz Lehar  
 In a Chinese Temple Garden-Ketelby  
 Rokoczy March -- Hungarian Melody

### Eight Per Cent Honor Students

Forty-five Students Make Honor Roll Second Term; Eight Straight A's

Forty-five students made the A-B average which qualifies them to be on the honor roll for the second term. Two and one-half honor points for each hour of credit are necessary to make this average. About 8.5 per cent of the enrollment are included in the group. Eight of these made straight A's.

- Anderson, Ernest—A8, B7, 38

### Debaters Meet Macalaster At Assembly Thursday

A debate between the River Falls team composed of James Mason and Morris Buske, and the Macalaster team will be held at assembly tomorrow at 9:50.

The question to be debated is: Resolved: that the power of the President should be substantially increased as a settled policy. Macalaster will take the negative side of the question.

Our team is the same that debated in the finals at the St. Thomas tournament. This will be the last debate before the team goes to the national P. K. D. tournament at Lexington, Kentucky. Leslie Libakken is going to the tournament as extempore speaker. The team and Coach Wyman will leave March 30 for the tournament.

### Will Lead Y.M.C.A.

Harley Borgen

### Harley Borgen "Y" President

Cabinet Members Choose Dallas Man to Succeed Leonard Dorman

The cabinet members of the college Y. M. C. A. elected Harley Borgen '35 of Dallas, Wisconsin, as president of the organization for next year at their annual business meeting Monday evening.

The meeting opened with a group of selections by the Y quartet. Following this President Leonard Dorman gave a resume of the activities for the past year and a description of the duties of the Y. M. C. A. cabinet. Prof. Jacobson explained the method of selecting the Y cabinet following which the new cabinet members for next year were elected by the members of the organization.

The new cabinet members are: LeRoy Brown, Herald Compton, John Crow, Harry Guinn, Marlow Michelson, Gerhardt Tostrud, and Louis Zahradka.

Thorvald Thoreson gave a summary of the programs and social work conducted by the Y in the past year. Harley Borgen, treasurer, gave a report on the financial condition of the organization.

A discussion of the Y from a member's point of view was given by John Sebeson. According to Mr. Sebeson the purpose of the organization is to round out the cultural and spiritual sides of a person's education.

Mr. James P. Jacobson, the organization adviser, then gave his views of the Y. M. C. A. program for the past year. He gave the cabinet a great deal of credit for putting the program across. He felt that the activities of the past year had been particularly well done. Some of the outstanding events were the Mixer, the Christmas party, alumni dinner, stag party and the vaudeville. According to Mr. Jacobson the spiritual values are hard to impart but he felt that the association with the Y was very enlightening.

### Student Coaches Guide Masquer Presentations

Annual Dramatic Program Under Direction of Miss Nelle Schlosser

The annual Masquer's production—the program of one-act plays will be given in the college auditorium this evening at eight o'clock.

Three of the five plays which have been practised intensively for the past four weeks will constitute the program. At the time of going to press the final plays had not been chosen by the dramatic director, Miss Nelle Schlosser.

This annual production has become increasingly popular with the students and townspeople. Persons attending past performances report a very entertaining evening, and according to advance reports the audience this year will not be disappointed in any respect.

Admission for adults will be twenty-five cents and for children ten cents.

#### Comments of Coachs

Do you want a good laugh? If you do you must see *The Pipe of Peace* in which Allen Hocking and Carol Isaacson as Gladys and Joe Terrill skillfully wend their way through the entangling web of predicament they have woven for themselves. Carol knows how to bring Al down a notch with her haughty air, but Al goes her one better. The outcome is ---well, come and see for yourself. You'll like it.

Imelda Farrell, Coach.

You won't want to miss the sight of a Senior man taking the part of a college co-ed in the uproarious play *A Girl Made to Order*. It's packed with humorous episodes taken from college life.

Vernon Peroutky, Coach  
 Continued on last page

### Masquers' Annual Formal Saturday Night in Gym

The Masquers' annual formal will be held Saturday night, March 24, in the gayly decorated North Hall gymnasium.

All Masquer members are requested to attend in the company of a guest. Each member is permitted to invite another couple.

The theme of the decorations has been planned to fit the musical selection "The Last Round Up."

Arnie Kuss' Royal Badgers will furnish the music.

### Ask Another; This Time You Answer

- Who says "Hello, everybody" on the radio?
- What is the present value of an ounce of gold?
- What team won the Big Ten football championship last fall?
- Who is the highest paid movie actress?
- What nation has the strongest land forces?
- Who is the only American to win the Nobel prize for literature?
- For what is A. T. & T. the abbreviation?
- What is the eastern terminal of the Siberian railway?
- What is President Roosevelt's favorite recreation?
- In what county is River Falls State Teachers college located?

Can you answer these questions? Could you answer one hundred of them correctly? Members of the Current History class, to which this test was submitted, averaged only 64 right out of the 100. The 11 sophomores in the class ranked highest with an average of 69 and the high score of 87. Thirteen seniors averaged 61.5, with the 12 juniors half a point behind. The four freshmen trailed with an average of 56.5. Time subscribers averaged 68, or four points above the class average. Among those outside of the class who have taken Dr. Williams' test, a well-informed business man of River Falls made a score of 71, while one of the college professors scored 85.

### Bright Days Encourage Hobbyists

With a determined, yet half-wondering look, he stealthily approaches his object, quite unlike a cat creeping up on an innocent bird. He carefully surveys the situation first from a safe distance; then as though he had made up his mind to act he moves with a slow deliberate action toward the unsuspecting object of his attack.

In other parts of the campus more of his friends can be seen prowling about in the same orderly manner. It is a bright sunny day, in fact this

fellow is seldom seen except when there is an abundance of sunshine. It is to his advantage to have the sun shining directly in the face of his prey.

He becomes especially deliberate as he prepares for the actual attack. Time does not seem to matter to him now. After taking repeated glances at his prey he finally gets all set for action. There is a moment of quiet—then the sharp click of the camera as one of "Prof Jake's" photographers shoots another campus scene.

## No Excuse

The popularity of the book "100,000,000 Guinea Pigs", as evidenced by its being placed on the reserve shelf and the number of drawers, proves beyond a doubt that college student, if not the whole of the country, is vitally interested in the patent medicine hoax.

It gives the plain, experimental facts concerning a large number of foods, drugs, and cosmetics with startling brusqueness. Using the trade names wherever possible, it gives the chemical composition and effects on the users in a large number of cases.

Although most of these facts have been available to a limited number of the public through government reports and surveys by medical associations, they have never before been placed in a form which is so concise and readable as this.

There has been presented to Congress a bill providing for closer restrictions on pure foods and drugs popularly known as the "Tugwell Bill". Yet, opposition by well oiled lobbyists has raised such a large amount of resistance, that its passage is very doubtful. Newspapers and magazines have risen to the defense of their advertisers. The producing companies themselves are capable of mustering an amazing amount of power.

The surprising part of it all is that after members of Congress have had such astounding facts presented to them, they should continue to heed the lobbyists. It seems that if no other thing than next election day should influence them, they should certainly think of the polls after the American public has become acquainted with the facts. Pure foods and drugs are a vital interest of every person. The public should rise in a body to oust any Congressman who dares to vote against the bill. There is no excuse for this condition to continue. W. L.

## What Price Education?

The value of a college education is very similar to the value of a dollar. It can be just what you make it. First there must be an appreciation of the fact that there is some value attached to it. It may be wisely spent or foolishly squandered. Realization of any value at once admits that it can be made useful. The college graduate who is equipped well and properly by his alma mater must inevitably feel that something of value has been added to his person.

Again, if we are to consider value from a financial point of view, we must recognize the statistics we have to show how the earning power and the income of college men is superior to other groups. However, this cannot be an absolute standard of measurement, even under a system of economic imperialism. The value of a college education lies in the personal value that the college educated man or woman attaches to it.—Royal Purple.

## Fascism for America

A few years ago, government controlled industry was a revolting suggestion to most people. Today, because of the popularity of our President and five years of desperation in the form of a depression, it is hailed as a bonanza in our time of need.

Organized industry leaped at the idea of the repeal of the anti-trust laws, yet it is most reluctant to comply with the other part of the "new deal"—the formation of codes for individual industries that guarantee a living wage for its workers. Once the codes are formulated it is much more difficult to enforce and control them.

President Roosevelt has been given a tremendous amount of power—so much that observers claim he has more power over the destinies of such a large body of people than any other person in history. It is a power which has altered the lives of more than 125 million persons, and possibly that many more, indirectly, in foreign countries. Yet, with that authority he has not been able to bring industry into line. At a meeting of code authorities held in Washington recently, it was pointed out from data on 14 codes that all of them showed over-large profits, unwarranted price increases, and monopolistic control of prices. The weapon which the N.R.A. authorities promised to use indiscriminately against violators and "chiselers" was the removal of the blue eagle. To date the only firm that has been so chastised, that we know of, has been a small restaurant owner in Chicago. Yet violations of the spirit of the codes has been flouted under the very eyes of the administrators.

There is a term commonly known as "Fascism" which describes a government operated by and solely for, Big Business. The rabble of the nation, that is the common citizen, is kept in line by a bare, life-sustaining wage and frequent use of the bayonet and the firing squad.

We are frequently assured that we are still on the high road to Democracy, and that our government cannot fail. Of that, only time can tell. In that past year Industry has definitely shown itself to be the master, and its influence is growing greater each day.

Fascism is an ugly word, and at its best an uglier form of government. At the present tempo of affairs, we may have to get used to it before we fully desire to. W. L.

## Dead Wood!

In the quietness and security of their positions many men in the teaching profession have sought to do just enough labor to retain their self respect. These men have been asleep at the switch and is it any wonder at all that they are not alive to the fact that even their dull insipid students are beginning to understand them? Some of them in their leisure time have gathered up certain idiosyncrasies while others have become so absorbed in themselves that they are no longer qualified to teach.

They are, according to former governor Phil LaFollette "deadwood" and the sooner they are pensioned and removed the better for our educational program. A thorough cleaning up should be done at the state university as well as other state institutions. R. R.

## Clipped and Copied

### Aviation in High School

The Teaneck H. S. of Teaneck, N. J., has just purchased an airplane to instruct the eighty-five students in the aviation class. The course which is under the direction of a licensed transport pilot, grants credit toward a diploma equal to that of any other industrial arts course.

### Intellectual Suicide in Germany

Dr. William Aylen Neilson, president of Smith College, in commenting on Germany's attack on scholarship, science, and learning in general, stated, "It seems to me that Germany is being forced to intellectual and spiritual suicide, and, in view of the magnificent leadership she has furnished in the past, this catastrophe is the concern of the whole world."

### The Hobart Plan

Hobart College at Geneva, N. Y. has made plans to change the school calendar for the purpose of increasing teaching and learning efficiency by eliminating long breaks between terms, such as the Christmas recess before examinations. Under the new plan, the first term would last from Labor Day until December 22, and the second term from January 21 until late in May, allowing a short vacation between both terms.

### Education and the Movies

Mrs. August Belmont, who has just accepted the presidency of the Motion Picture Research Council, announced some of the council's plans after four years of research in trying to determine the effect of the movies on education. It has been found that movies remain in a child's memory much longer than books. Also, the dramatic element leaves the greatest impression. Combining these two, the "dramatic education movie" can be very beneficial to children educationally if properly exploited.

### Plan to Cut Failures

In order to cut the rate of failures in first year high school classes, District Superintendent John L. Tildsley, and Sinclair J. Wilson directors of organization, have approved a plan in which the first year of high school work would be one unit, having the same teachers. In this manner the teachers would be more familiar with the particular difficulties of the individuals and would allow a longer time for the pupils to adjust themselves.

### Book Tastes of Professors Vary

A group of professors at the University of Chicago, in answer to the question, "What ten books would you take with you if you were exiled to a desert island?" brought forth various answers. Among the books chosen were a book on etiquette, the Communist manifesto, a bridge guide, cross-word puzzle books, fairy tales, Shakespeare, "Count of Monte Cristo", "Outline of History", and "Story of Philosophy."

### Progressive Education

Three projects indicating the progressive strides in education made at Rollins College are: the unit-cost plan of tuition, in which those students who are able to afford a college

## Books Worth Reading

By M. W.

### THE HOUSE OF EXILE by Nora Waln

Not often does life-or Fate-bring to an individual the experiences comparable to those of this Philadelphia girl who was adopted by a family of landed Chinese aristocrats. For generations the Waln family had traded and corresponded with a family of Chinese merchants, but not until Miss Waln was a sophomore at Swarthmore did she ever have personal contact with them.

The intricacies of family conferences and ceremonies in a Chinese household are related accurately. The

beliefs bred in every Chinese child before he is hardly able to talk, the centering of civilization in the family, the peculiar Oriental indifference to the passing of immediate time—all these things are discussed from an unprejudiced point of view.

If you like Florence Ayscough, and if you like Mrs. Hobart and Pearl S. Buck, you are certain to appreciate this unusual book. And when you finish it, you will know something about China!

education pay for it, and those who can't but are worthy of it get scholarships; the conference plan of teaching, in which the students pass their time at study, in conference with their professors, in discussion groups, writing class papers, and oth-

er matter incident to mastery of the subject—doing away with the mass system; and revision of the curriculum, in which it is divided into two years each—the first two for general training, and the last two for specialization.—The Education Sun.

# Former Falcon Leads Winners

## Ove Berven Starred on '30 River Falls Championship Basketball Team

Ove Berven in his first year at Spring Valley has brought the district basketball championship to his home town. Quite an accomplishment for the young man who was a star on the River Falls state basketball team of '30. The tall Viking was a teammate of Ray Helixon, Edward Miller, Cecil LaDusire, Edwin Warwick, Bob Sutherland, Clarence Alphonse, and John Schlicht; regulars on that championship team.

Berven took "the best third place team in the tourney's history" and brought it up to the first position.

The giant Valley mentor lost over ten pounds during the games. He said the thing that bothered him the most was the fact that his boys might injure themselves in their anxiety to win. He praised the team and said it was their natural ability that won for them.

Ove pointed out that his boys were as put out as he was because of the excitement of the tournament games. His gallant group of basketballers had to be given capsules in order that they might gain needed sleep.

Coach Berven said the college boys made the Spring Valley team feel right at home and that he wishes to thank the school for the fine hospitality extended to him and his team.

### Colfax 27—Elmwood 13

Playing for the consolation prize of the tournament, the fighting quintet from Colfax took the Elmwood team into camp to the tune of 27-13. Both teams played a good game. Undoubtedly the Colfax five had the advantage right from the start.

However, the game was close in the first quarter with a 6-6 score. Colfax led at the end of the half 13-8. At the end of the third quarter the score stood 22-10.

Nelson of Colfax was high man for his team with 13 points.

go all the time in the first game Friday night.

The game opened with two quick baskets by H. Most. From then on Prescott was never behind. The score at the end of the first quarter being 4-3 in favor of Prescott. They increased this lead to 13-7 at the half and lead 27-18 at the end.

The game was featured by the play of Strom of Hudson and Osborne of Prescott. Much credit must be given S. Most at center. He played a great defensive game as did Ralph Most and H. Most. Johnson was high scorer for Hudson with six and S. Most for Prescott with ten points.

PRESCOTT—27	FG	FT	PF

### Spring Valley 22—Ellsworth 13

The Spring Valley-Ellsworth game was nip and tuck most of the time. Ellsworth led the Spring Valley lads at the first quarter 5-4. Spring alley led at the half 8-9. At the beginning of the second period, Conway, Valley forward, was ejected from the game, but Coach Berven had a capable substitute ready and the game went on.

Hanson, Spring Valley center, was high point man with nine points. He played a great game, outjumping Johnson of Ellsworth consistently at center.

For Ellsworth, Johnson and Haberman were the bright lights, with four and five points respectively.

## In Shots By Vern

To my mind, Ralph Most of Prescott was the outstanding player of the tournament. He was the unanimous choice for one of the forward positions of the first team. If there was to be a captain selected for the first team Ralph Most should be it.

Hanson's play in the final game gave him the position of forward opposite Most. His offensive play that game was outstanding. Teamed with R. Most at the other forward it gives the an ideal pair. They have height, speed, strength and basketball sense.

Stanley Most was the ideal type for center. His height gave his team most of the tip-offs. Under the basket on both offense and defense his height was a tremendous advantage to his team.

Charles Osborne was our choice for one of the guard positions. He was cool at all times and was a good ball handler.

Anderson of Colfax at guard completed the first team. A ball hawk whose main object in mind was to get the ball and that he did nearly every time there was a loose one. It was Anderson who was always taking the ball off the backboard and bringing it down the floor to start Colfax offense clicking.

The second team is practically as good as the first, but they lacked just a little of what it took to make the first squad. In some of the men, of course, there is little to choose from, but most of the final selections were made on how these men performed in the important games.

The second team rates on a par with the first in this respect; they have the size, but they lack a little of the speed of the first team.

Conway and Haberman make an aggressive pair of forwards; both are good shots and both play nice defensive ball.

Nelson at center was second to none in scoring. His one-hand push shots dropped in very consistently. Especially against Roberts, did he score enough points to defeat them single handed.

Graham and Bailey were our selections at the guard positions. Many will disagree on the guard selection and vice versa, but to my mind it would be hard to find a better pair of dribblers, defensive men, and better ball handlers than these two men.

Nelson was the leading high scorer of the whole tournament with a total of 45 points or 15 points a game. He scored 20 points against Roberts in their consolation game.

## Tennis Courts Will Have Improvements

Of interest to tennis fans will be the news of improvements soon to be made on the college tennis courts. A contractor has already submitted bids for the job.

The plan is to extend the concrete back to the fences at either end of the court, to treat the gravel alley between the courts to a flooring of cement, and to widen the side alleys of each court one foot.

Work on the shale courts will not begin until sometime later in the season.

### The Inquiring Reporter

Would You Like to Come to School At River Falls? Why?

Junior Roberts, a guard on the Roberts team was undecided about going on to school, but would like to attend college here.

"I would like to come to River Falls to college because of the good athletic department. I think it's a good all-around school."—Bruce Graham, Roberts.

"Your good looking Coach Cowles and the athletic department impressed me greatly and for these reasons if no others I would like to come to River Falls."—Red Schwalen, Roberts.

"I would like to come because you have such good looking teachers."—Walter Steneman, Roberts.

"The athletics offered interest me, but there's something about those good looking girls here."—Red Clapp, Roberts.

"My brother went to River Falls and I'm going partly because he did. I also hope to meet some nice girls."—Roger Haberman, Roberts.

"I would like to come to school at River Falls because I like the coach and the friendly spirit of the school."—Rodney Nelson, Colfax.

"I like the athletic department and everything about it."—Norman Larson, Colfax.

"So do I—and co'eds."—Vic Rye, Colfax.

"I would like to come to school here because I like the athletic department, have lots of friends here and know Gretna Waller."—Joe Springer, Elmwood.

"River Falls is a fine town and I like the school spirit. There may be one or two fair looking co-eds."—Warren Bredahl, Elmwood.

"I like the sportsmanship and the school spirit of River Falls."—Neil Zeig, Elmwood.

"I'd like to play for River Falls and wear on "R" sweater like Mr. Schiesser."—Harold Lansing, Spring Valley.

"I like your college town and met lots of nice people while here."—John Conway, Spring Valley.

"I would like to take a pre-medical course and play basketball at River Falls."—Charles Osborne, Prescott.

"The floors of the north hall make me think I'm walking in a bank. I'd like to play under Coach Cowles."—Stanley Most, Prescott.

"I like the friendly spirit of this college and the cafe puts out good food."—Ralph Most, Prescott.

### Rural Life Notes

Miss Warden, supervising teacher of St. Croix county, visited the college and the Trimble and Martell schools last week. Miss Warden was a pupil of Mr. Ames' when he was principal of the Stanley high school. Richard Hines and Oliva Nelson have obtained schools for next year.

The Rural Life club will meet on Thursday evening, March 22.

LOST—A gray and black Parker fountain pen. The name is on it. Will the finder please return to Edrys Ruethin.

### College Calendar

Wednesday, March 21—  
Glee Club, 4 p. m.  
Student Voice, 4 p. m.  
Masquer Plays, 8 p. m.

Saturday, March 24—  
Masquer Formal

Monday, March 26—  
Band, 4 p. m.  
Joint Y Session, 7 p. m.  
Girl's Band, 8:30 p. m.

Tuesday, March 27—  
W. A. A. Basketball, 4 p. m.  
Orchestra, 7 p. m.

### Y.W.C.A. Activities

The Y. W. C. A. has planned its annual election of officers for April 9. The constitution provides for the election of the four officers; president, vice president, secretary, and treasurer, by ballot.

This year the cabinet has arranged for members of the Y to make suggestions for nominations to these offices by placing the names of possible candidates on slips of paper and leaving them in a box. This opportunity shall be extended to all who wish to participate in it after each of the next two succeeding meetings of the Y. W. C. A. The cabinet will then take these nominations into consideration and select the possible candidates for each office.

The president will appoint the remaining five or six members to be on next year's cabinet.

Installation services for the new cabinet will be held shortly after the election. It is planned to have this business completed by the time for the Lake Independence conference, April 21 and 22.

A music program was given by Miss Gertrude Kirchmeier's music committee at the regular meeting Monday evening.

The program consisted of selections of music by the following:

Mr. Rozehnal ----- Violin solo  
Wilma De Master ---- Vocal solo  
Girl's Sextette --- Vocal numbers  
Group Singing.

Haide Larson talked on the "Soul of a Race."

Miss Irma Hathorn, Miss Marie Klugow, and Miss Bernice Smith represented the Y. W. C. A. at the Minnesota and northern Wisconsin area committee meeting held in the Men's Union on the University campus, Saturday, March 17.

A luncheon was served at noon. Reports on national Y. W. affairs were given by Miss Martha Calicut and Miss Jane Bradley of the University campus. The Lake Independence project was discussed.

The A Capella Choir under the direction of Mr. Geere meets every Wednesday night at 6:45.

The Girl's Quartet, under Mr. Mr. Geere's direction, has been seriously handicapped due to sickness of its members.

### Mud 'n Yer Eye

In bequeathing the week's award to outstanding merit to Mr. Allen R. Hocking, the local dispenser of *Time*, we believe we are giving recognition to a spirit of helpfulness and ingenuity that has rarely been equalled in these here parts. For, apparently unaided and unabated, Mr. Hocking suggested at the last meeting of the Masquers that expenses of their Formal be defrayed by having each Masquer bring in all the pencils from the programs of former formals that were lying idle in the midst of pressed flowers and bows of pink ribbon, and consecrate them to the programs of this year's formal, thus saving the expense of buying new ones. It was a feat almost as great as the writing of this last sentence, and of a far more worthy purpose.

A recent group of statistics gathered at the basketball tournament showed that the games were harder on Ove Berven than on anyone else present.

A far more startling fact was revealed when someone recently announced that McChesney was taking Contemporary Poetry this term. "Mac" may have reasons for wanting to brush up a bit; it still seems an alarming trend. In a few years we may be faced with a situation in which beefy ends and hulking centers—not to mention guards and full-backs and all the rest of whatever you call'em—will be poring over the nuances of Swinburne and discussing the theory of Hamlet's madness under the trees on spring afternoons, while the coach is sweating on the football field with a group of Art majors. 'S a funny world.

The combined pleas of Mr. Stratton, Miss Fuller, and Mr. Geere were all that caused us to consent to the further writing of this column from now on anymore—that and the thought of the enormous public we would be depriving of ----- (we leave this blank for you to fill with the word you think best applies) since the Inquiring Reporter's column has practically made this an unnecessary second fiddle. How can we hope to express ourselves with the conciseness and clarity of Brekke's opinion on matinee dances? How can we hope to attain the brevity of Nolde's agreement? Maybe we'll just have to be satisfied with things as they are.

Report has it that Mr. Wyman is looking up the speed laws of Kentucky and some of the neighboring states.

Meditations—by Us  
Sometimes I wonder  
Why I wonder  
What would happen  
If Mr. Hanna stood at the front  
Of the room  
And tossed books to people  
Sitting  
In the back row!

### Student Coaches Guide One-Act Productions

Continued from first page  
On the Rocks will delight you with its many humorous and thrilling turns as the play progresses. This will show that business is not always what one would think by looking at a store front.

Harriet Gilbert, Coach

Martial troubles are sometimes much more funny than and entertaining than mere family quarrels, especially when they come in the form of a play such as Divorce for Four.

Leslie Libakken, Coach

A woman may change her mind, and such is her undeniable right, but what would you expect of a woman with seven personalities, each functioning perfectly at the proper time? We promise you this rare treat in *Seven in One* this evening in the college auditorium.

Emma Lou Tubbs, Coach

### Informal Debaters Adopt Novel Method

"If you talk less---, the betterment for all concerned would be greater!"  
"If you birds weren't so dumb it wouldn't be necessary", signed ----.  
"It's guys like you that drive us, to ----."

"God hates a hypocrite."  
"Make an honest living, but if you cant'----preach!" signed ----.

"Make an honest living, but if you cant' make it honest, make it anyway," says the ----.

It sounds like an uproar in gang-land or perhaps like a back-yard combat between neighbor's wives.

The truth of the matter is that classes broke up arguments between the Reverend Mr. Caraway and his student opposition. A poster in the men's cloak room served to convey these opinions that must be exposed.
