

the student **REGISTRATION ISSUE** VOICE

University of Wisconsin-River Falls

Campus plans for commuter savings

Approximately one third of the students attending the UW-River Falls commute to the campus from outside the immediate River Falls area. This means approximately 1,700 students driving to and from classes, most of them from a 30 mile radius of River Falls.

In the past two years, a six-member committee of the Faculty Senate has committed itself to solving some of the problems of commuting students. Saving energy, time and money are of utmost importance to commuters. And, in a rural area, without the benefit of mass transit, these concerns are not easily dealt with.

The efforts of the committee have taken form in two major thrusts -- car pool networks and two and three-day a week class schedules. The specially scheduled two and three-day a week courses met with great acceptance last year and are expected to be successful again this fall. Now the big news for the 1981-82 year in the area energy and money for the commuter is a program of car pool networks.

The results of a questionnaire sent last spring to all commuters indicates that more than half of those who commute do not ride in car pools. Often students do not car pool because of schedule conflicts and job and family obligations. The committee feels that if commuters know of all the commuting students in their home areas, there would be a greater chance of matching schedules.

"A student might know of only two or three others in his or her immediate area who commute to the campus, and class and work schedules may not permit a car pool among them," said Dr. Lyle

Hall, who heads the faculty committee. "However, there might be as many as ten commuters between the student's home and the university. And it's likely that one or two of these people can work out a car pool -- at least some of the time.

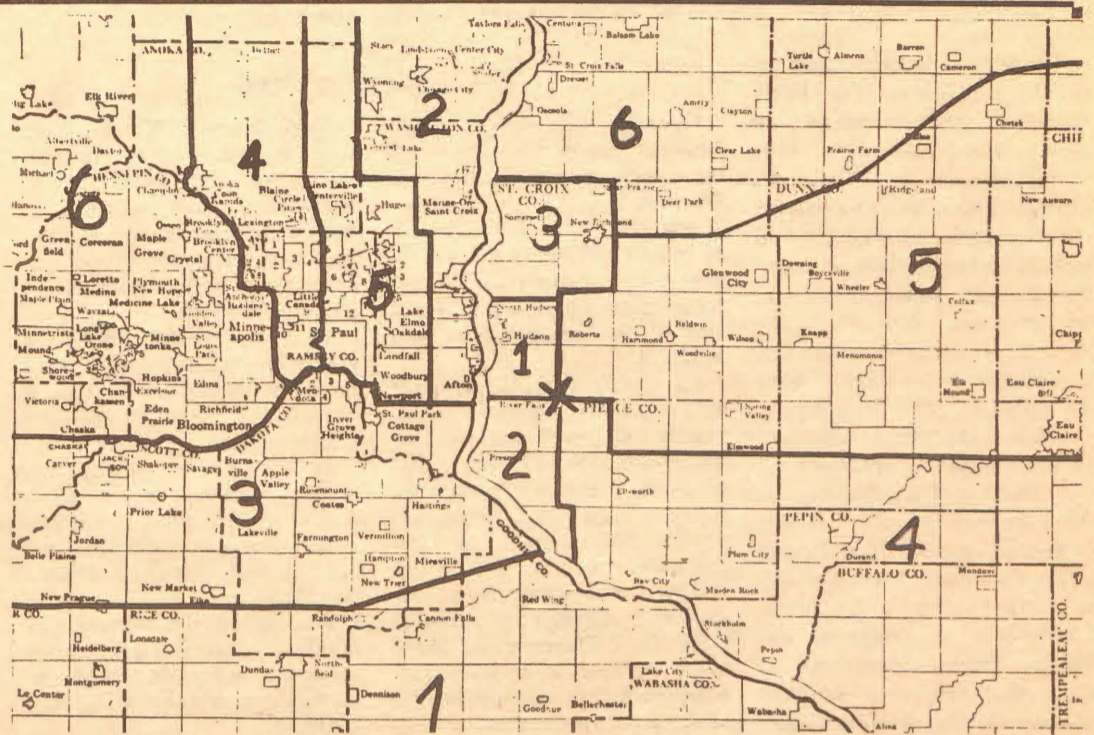

"Early this fall the committee will send commuters all the information they need to set up car pools. We also are finding area volunteer coordinators to assist students who want help in organizing car pools," Hall stated.

Hall's committee has divided the Wisconsin and Minnesota commuting radius into 12 areas, six in each state. Soon after fall registration, commuters will receive a computer printout of the names and addresses of all student commuters in their area.

The commuters will note that Red Wing, Minn., has more than 40 commuters; Stillwater, Minn., has more than 70; and the St. Croix River Valley from Taylors Falls, Minn., south to Bayport includes approximately 150 commuters. Nearly 60 commuters live in Hastings, Minn., some 270 live in areas of St. Paul; and nearly 90 students drive to the campus from Minneapolis and its suburbs.

The printouts for Wisconsin will indicate that some 170 students drive from Hudson, nearly 50 from Prescott and approximately 100 from the New Richmond-Somerset area. An additional 90 commute from south and east of River Falls, and another 200 some students drive to River Falls from 47 cities and rural areas north and east.

Hall has a list of volunteers willing to help organize car pools in their areas and expects to announce other names by the time students register early in

CAR POOL AREAS

September.

UW-River Falls is taking a lead in showing concern for its commuters.

"Last year the State of Wisconsin directed each campus in the UW System to study its local transportation problems and implement a plan to improve efficiency," said Cleve Henriksen, UW-River Falls business manager. "Our campus had a practical plan already on paper when we received this mandate. And, I might add, the efforts of faculty on this campus are quite commendable because we can't simply take advantage of mass transit like some state institutions and agencies. We must put forth considerably more personal time and effort to come up with a transportation plan."

Hendriksen said that bike paths and bike parking racks have been added this summer to encourage biking for those who live closer to the campus.

The second thrust of the UW-River Falls plan for transportation efficiency is in the form of

class scheduling with the commuter in mind. Efforts have been made, particularly by the departments of business administration, chemistry, economics, and mathematics and computer systems, to make it easier for commuters to attend classes on a Tuesday-Thursday or Monday-Wednesday-Friday schedule. In the past two years a number of four and five credit courses, which until recently have met four or five days each week, have been changed to two and three-day schedules.

Although such scheduling is especially easy to design for underclassman, all commuting students should be able, with careful planning, to schedule some quarters on a two- or three-day a week basis, according to Assistant Registrar Richard Kathan.

Kathan reports that a special Basic Studies (liberal arts courses required for a degree) table has been created to aid commuters who wish to design energy and time efficient schedules. Sample schedules also have been

arranged for business administration majors and for those majoring in the sciences and agriculture. The tables are available in the Registrar's office in North Hall.

"Cutting out two or three round trips to the campus each week can make a tremendous difference for most commuters in terms of gasoline usage and cost," said Kathan. "It also makes a difference in time to those who are working at part-time jobs or to those who are self-employed, perhaps operating family farms, and to women with families to care for. Two and three-day schedules also are intended to help area residents with job and family obligations attend the university.

"It is probably difficult to complete an entire degree on a two or three-day schedule, and that is not the intention of our efforts," Kathan stated. "However, it should be advantageous for commuters to attend in that manner some quarters," he said.

2-wheel commuting encouraged

As part of the university's effort to encourage energy efficient transportation, Richard Kathan, assistant registrar and member of the campus transportation committee, attended a workshop on bicycle facilities planning this summer.

The workshop was held in Madison and conducted by the Wisconsin Department of Transportation for state agencies.

Kathan hopes that the knowledge he gained at the workshop can be used by the campus transportation-committee to make bicycling safer and more efficient for students and community residents.

Kathan explained that until recently most bikers were children and casual recreational riders. These bikers were usually safely and efficiently able to share sidewalks with pedestrians. However, as the number of casual riders has increased along with a new population, the expert biker, new concerns have arisen. Bike paths and lanes often are constructed when casual biking reaches proportions too large for safe movement on sidewalks and city streets and when traffic is too heavy for safe cycling.

"The expert, who is comfortable touring by bicycle and commuting up to eight miles one way to work or school, often rides nearly 20 miles per hour,"

said Kathan. "This biker is at ease in normal traffic, and needs special lanes and paths only when traffic is dangerously heavy.

"Traffic engineers have made a science of planning for bicycles," Kathan said. "The workshop covered the variable factors involved in planning for bikes. Then, we worked on a plan for bicycles in a city with a population of 250,000.

"We considered the number of bikers in the city, traffic patterns and speeds, parking, pedestrian traffic, street and road surfaces," Kathan stated. "A plan for bicycle facilities is designed by calculating the relationship of these factors with mathematical formulas.

cont. on p. 2

CAR POOL NETWORKS

According to Hall, a commuter information station will be set up in the Student Center during fall registration. Volunteer car pool organizers are still needed. Commuters interested in assisting in this effort are urged to sign up at the information station or contact Hall, 219 Centennial Science Hall, Ext. 3538, or Dr. Bernhardt Brohough, 265 Klempel Fine Arts Building, Ext. 3564.

Hall reports that the following commuters have volunteered to organize carpools in their areas:

Donna Savage, Lakeland, Minn., 55043, (612) 436-7524, Area 2.

Mary Blickenderfer, Lakeland, Minn., 55043, (612) 436-7609, Area 2.

Paul Freiermuth, 6936 90th St., Cottage Grove, Minn., 55016, (612) 459-8160, Area 3.

Marilyn Polski, 1642 Lilac Lane, St. Paul, Minn., 55118, (612) 454-3635, Area 3.

Lyle Hall, 1361 LaFond Ave., St. Paul, Minn., 55104 (612) 647-0611, Area 4.

Mike Mordorski, 1150 Desota, St. Paul, Minn., 55101, (612) 774-2372, Area 5.

2 Play, concert this weekend

"Something's Afoot"

"Something's Afoot," the musical/murder mystery which was presented on campus this summer by the St. Croix Valley Summer Theatre, will return to the Theatre of the Kleinpell Fine Arts Building, Sept. 11 and 12. Each performance will begin at 8 p.m.

The play is loosely based on Agatha Christie's "Ten Little Indians." The story centers on a group of people who find themselves stranded in an abandoned mansion on a deseted island. People are murdered in strange and mysterious ways and the players dance their way through the unusual perils. Music and costumes are reminiscent of the days of Fred Astaire and Ginger Rogers.

The cast includes Ann Slattery as Lettie, Paul Doepke as Flint the caretaker, Dick Beckham as Clive the Butler, Kathleen Bloom as Hope Langdon, Tom Tangen as Dr. Grayburn, Mark Kovatch as Nigel Rancour, Susan Southworth as Lady Manley-Prowe, David Defenbaugh as Col. Gillweather, Terrace Motschenbacher as Miss Tweed,

James Westbrook as Geoffrey and Michael Lussenden as the Voice of Lord Rancour. Westbrook also is serving as musical director and choreographer.

For ticket reservations, contact the Theatre Box Office in

the lobby of the Kleinpell Fine Arts Building, 425-3114, 9 a.m.-11-45 p.m. and 12:30-3 p.m., weekdays, beginning Sept. 8. Adult tickets are \$3.50 and student and senior citizen tickets are \$2.25. All seats are general admission.

Great Western Band

Opening the Concerts and Lectures season on campus will be a performance of the Great Western Band of St. Paul on Sunday, Sept. 13. This afternoon of family entertainment will be presented admission free, beginning at 3 p.m. in the Recital Hall of the Kleinpell Fine Arts Building.

The unique brass band, which was originally organized in St. Paul in 1857, performs music of the mid 19th Century. The program repertoire includes gallops, overtures, marches, polkas and waltzes. In this particular concert, the group will play on instruments of those early days. During the course of the concert, Director Paul Mayberry will discuss the selections, composers and instrumentation of the pieces performed.

Today's Great Western Band is a recreation of the original ensemble and includes 17 musicians, drawn together by Mayberry. The ensemble plays selections which Mayberry has laboriously reconstructed from incomplete scores.

The music performed by the Great Western Band of St. Paul has been taken from brass band collections throughout the United States - Manchester, N.H., Minnesota Historical Society, Library of Congress, American Antiquarian Society, Iowa Historical Society and the Scala Collections (U.S. Marine Band).

To conclude this afternoon of family entertainment, ice cream cones and lemonade will be sold on the patio behind the Fine Arts Building.

Ag. program utilizes social science — anthropologist studies abroad.

The expansion of food production through technology in the Third World requires vast knowledge of soils, climate, food crops, animal husbandry and mechanization. It also requires an in depth understanding of the daily lives - the beliefs and habits - of the people of those countries.

"Development means change," said anthropologist Edward Robins, "and that change intimately affects the daily lives of people - just like the changes brought about by modernization in our country affect us, day by day."

With this in mind Robins, a member of the sociology faculty of the University of Wisconsin-River Falls, this summer joined five UW-River Falls agriculturalists in acquainting himself with the complex issues of rural development in Third World countries. Robins spent six weeks studying rural development in Indonesia. The agriculturalists traveled to Indonesia, the Philippines and West Africa to study the agricultural education and plant and animal science in those areas.

These study projects and similar projects last summer were funded by a matching, strengthening grant to the UW-River Falls College of Agriculture from the Board of International Food and Agriculture Development and the United States Agency for International Development (USAID).

The grant is allowing the UW-River Falls College of Agriculture to develop a center for technical agricultural assistance on campus. Faculty members are acquiring first hand knowledge of development in the Third World in order to assist agriculturalists of those countries in improving their food production systems. UW-River Falls students preparing for foreign service or related professions also are expected to benefit from these experiences.

The USAID and Third World

nations see a need to include social scientists in these technical assistance endeavors, according to Robins. Technology and changes in agricultural methods are more readily accepted when people can prepare for and understand the social consequences of such modernization, he said. He hopes social scientists can help the people of developing nations employ technology while maintaining their own social systems.

Robins studied rural development in Indonesia and more specifically the transmigration of people from the crowded Indonesian islands of Bali and Java to the sparsely populated and densely forested island of Sumatra. The Balinese and Javanese are clearing forests and learning to farm the previously undeveloped land using new technology and new strains of rice. The transmigrants are attempting to better themselves financially while helping to make Indonesia self-sufficient in food production.

Robins found that the transmigrants as well as other Indonesian people are experiencing changes in religious practices, family relationships, sex roles and economic structures due to rural development.

Robins believes that an understanding of the social customs and beliefs of Third World people is essential for technical consultants.

"I visited a rubber plantation in West Sumatra at which foreign consultants were suggesting ways for improving production," Robins recalled. "On the surface, lines of communication between the consultants and community leaders seemed to be open. However in reality, information was not filtering down to others within the plantation.

"This seemed to be a case of lack of understanding on the part of the consultants of the particular social network in this community," Robins stated.

"The Indonesian people are

ED ROBINS

extremely polite in public, not always voicing true feelings in order to avoid embarrassment or conflict. And they are very close to and supportive of their kin, with whom they often conduct business. These factors probably had a great deal to do with the difficulties in this particular situation," Robins said.

The anthropologist hopes he can offer such insights to his colleagues from the College of Agriculture who will consult agriculturalists of developing nations.

"And even more immediately, I will acquaint my anthropology and sociology students with social issues of the Third World. I hope to soon design a course on rural development for the sociology department."

Also visiting Third World nations this summer as part of the USAID project were Dr. Leland Wittwer (animal and food science), Marvin Thompson (agricultural education) and Louis Greub (plant and earth science), who traveled together to the Philippines and Indonesia to observe agricultural education in institutions and in extension programs. Drs. Stephen Ridley and Phil George (both animal food science) traveled to West Africa, where they studied food technology and animal and human nutrition.

Budget hits \$26.6 million

Inflation coupled with a two percent budget cut will mean another tight fiscal year for UW-River Falls. However, according to University Controller Jan Olson, there is a positive side to the 1981-82 budget.

This year's total operating budget is estimated (late in August) to be \$26,673,000. This figure reflects a net increase of 7.2 percent, or \$1,792,100 over last year's budget of \$24,881,200.

The two percent base reduction for 1981-82 is \$211,400. This reduction will be taken from two sources - the elimination of capital replacement allocation (\$105,000) and several vacant staff positions which will not be filled (\$106,400). By dealing with the reduction in this manner, the administration did not pass on additional cuts to departments.

State tax appropriation will account for approximately 51 percent, or \$13,623,700, of the 1981-82 budget and the remainder will come from federal funds, auxiliary operation revenue and student tuition and fees.

Olson reports that the UW System granted the university new dollars this year, funds added to the base budget, in order to correct inequities such as increased enrollment and geographic location. The campus also received special funding for a new agriculture program.

UW-River Falls will receive an additional \$350,000 in enrollment funding this year to make up for past inequities. Also, \$38,000 in non-salary support funds was granted and will be used as a partial inflationary offset to supply budgets. Because UW-River Falls is considerably farther from UW System headquarters than most campuses, the university received

a \$15,000 travel adjustment for 1981-82. Also, \$18,400 in new dollars has been added to the campus utility budget.

Olson added that a \$51,600 special funding allocation has been received for the Extended Degree Program in Broad Area Agriculture, one of the few new programs to receive such funding by System Administration.

Students still pay 25 percent of educational costs.

This year the average tuition paid by students will increase by 4.6 percent. Olson anticipates that UW-River Falls academic tuition will total \$3,900,000 in 1981-82. He also estimates that the total General Purpose Revenue (state tax support and academic tuition) for the campus will be \$17,523,700.

Students attending a UW campus still pay only 25 percent of their educational costs. The state has held firm on a 75 percent support of public higher education since the end of World War II, when university enrollments began steadily increasing.

JAN OLSON

... bicycles

cont. from p. 1

"However, what is most important to stress is that such a plan should only be used as a guide. Those who will use the bicycle facilities and those who will pay the cost of establishing and maintaining the facilities should have input into the plan for a community or institution."

One of the purposes of the workshop was to encourage safe, enjoyable commuter bicycling to work and school, explained Kathan. He suggested that a biker wishing to commute should consider the safety, length and aesthetic aspects as he or she chooses a route.

"For instance, the most direct route might take the biker through traffic which is heavier than he or she can handle

comfortably," Kathan said. "The biker might like to take pleasant, scenic back roads when time permits. The enjoyment, relaxation and healthful aspects of biking shouldn't be overlooked."

RICHARD KATHAN

Campus director of Security Donald Chapin reports that this year for the first time students and staff members will have the opportunity to register their bicycles.

The registration process will be announced later this fall in the "Student Voice."

Campus Security will keep identification information on the bikes on file and the bike owner will receive an I.D. sticker for the bike. This service will be free and is an attempt to deter theft and to identify stolen bicycles.

Grounds supervisor Don Black reports that there are 1,140 spots for parking bikes on campus. Twelve new racks, to accommodate 240 bikes, will be installed sometime this fall. This summer all bike racks were placed on crushed rock beds.

(Changes in bold type)

FALL QUARTER

Orientation and Registration	Tues-Thurs	September 8-10
Classes Begin at 8:00 a.m.	Friday	September 11
Commencement	Sunday	November 15
Examination Period	Thurs., Fri., Mon., Tues., Wed.	November 19,20,23,24,25
Fall Quarter Ends	Wednesday	November 25
Last day to Add a Class	Thursday	September 17
Last day to Drop a Class	Thursday	October 22

WINTER QUARTER

Thanksgiving Recess Ends 8:00 a.m.	Monday	November 30
Orientation and Registration	Monday-Wednesday	November 30-Dec. 2
Classes Begin at 8:00 a.m.	Thursday	December 3
Christmas Recess Begins at 5:00 p.m.	Friday	December 18
Classes Resume at 8:00 a.m.	Monday	January 4
Examination Period	Monday-Friday	February 22-26
Winter Quarter Ends	Friday	February 26
Last Day to Add a Class	Wednesday	December 9
Last Day to Drop a Class	Wednesday	January 26

Financial aid update

University of Wisconsin-River Falls students probably won't be adversely affected by financial aid cuts this year, according to John Laird, assistant to the director of financial aids.

"We warned students last year and encouraged them to file early," Laird said.

Most, he believes, heeded the warning from the financial aids office. The changes put into effect weren't as drastic as earlier anticipated, he added.

"Those who truly need aid will get it; it is the middle income ones who are hurt."

"Those who truly need aid will get it; it is the middle income ones who are hurt - those whose family incomes look good on paper but who really can't afford college. Boderline students will be cut from programs."

Students are again warned that

effective Oct. 1 eligibility for the Guaranteed Student Loan will change. The loan will then be based strictly on financial need if student's parents earn more than \$30,000 a year. Previously there was no maximum family income cutoff.

The Guaranteed Student Loan was also altered Aug. 23 when an "origination fee" went into effect. The fee, taken by the bank, is 5 percent of the loan. "Taken right off the top," Laird said.

When asked about the future, Laird said it will again be a matter of waiting and of watching the legislature. "Education is an easy target (for cuts). Students thinking of maybe going to school an additional year to finish - don't. Things (financial aid programs) are drying up."

Students with questions should stop by the Financial Aids Office in Room 122 of South Hall.

Faculty on leave

Six UW-River Falls faculty members have been granted leaves.

Pat Clark, professor of art, will be on leave for the second consecutive year while she serves as director of the Idyllwild campus of the University of Southern California.

James DeMuth, assistant professor of English, was awarded a Senior Fulbright Lectorship and will spend one year teaching at the University of Mansourah, Egypt.

Charles Kao, professor of economics, will be teaching at the National Normal University in Taiwan winter and spring quarters. Kao's leave is part of the exchange program that UW-River Falls has with two universities in Taiwan. Kao will teach economics of education and economics.

Howard Kaplan, assistant professor of psychology, will be on leave this year while he works as a school psychologist in Israel.

Terry King, professor of history, will be on leave this fall "catching up on his writing." He will be working in Colorado. His primary subject is western history and, in particular, the American Indian.

James Stewart, professor of education, is taking a year leave of absence to teach at Balsam Lake Elementary School. He will serve as coordinator of instruction for grades 1 through 6.

New students take note!

Advisor meetings - All new students are required to meet with their respective major departments and advisors, 4-5:15 p.m., Thursday, Sept. 10. Inquire in your major department for room numbers of these meetings.

Freshman English Test-out - Incoming freshman wishing to test out of Freshman English courses may take tests at 3 p.m. on Friday, Sept. 11, in Room 289, Kleinpell Fine Arts Building.

English Placement Test - Students who did not take the English Placement Test during summer pre-registration must report to 250 Ag. Science Building, at 11 a.m., Tuesday, Sept. 8, or at 2:45 p.m. Thursday, Sept. 10.

Financial aids - All undergraduate students receiving financial aid should attend one of be held at 10:30 a.m. and 2 p.m., Thursday, Sept. 10, in the North Hall Auditorium. The following sessions concerning financial aids. The sessions will

Adult learners - Incoming veterans and students 25 years of age and older, who are returning to the university after an interruption in their educations or are enrolling for the first time, are invited to a brunch on Wednesday, Sept. 9, 9-10 a.m., 137-138 Rodli Commons.

Veterans will have an opportunity to meet with the campus veteran's affairs representative and other students will meet with campus resource personnel.

International Students - Tuesday, Sept. 8, is orientation day for international students. Activities will begin at 8 a.m. in the Falcon Room of the Student Center and will continue until 5 p.m. Included in the day's activities will be registration, meetings with financial aids personnel, the registrar and advisors, and tours of the campus and city of River Falls.

A tea for international students will be held 4-5:30 p.m. Wednesday, Sept. 16, in 201-202 of the Student Center.

Privacy Act

The Undergraduate Bulletin includes notification and explanation of the Family Educational Rights and Privacy Act. Further information concerning this act is available in the Registrar's Office, 106 North Hall.

In order to restrict the release of public information, a student must file a form in the Registrar's Office. This form must be completed within ten days of the first quarter of attendance for the academic year. The form is valid only for one academic year.

Magic and Witchcraft

Dr. Edward Robins has announced that Anthropology 210, Magic and Witchcraft, will be offered winter quarter **only** - not in both winter and spring quarter as is indicated in the class schedule.

Modern Language Testout

!ATENCION!

Si puedes leer eso, !debes continuar estudiar el espanol. Debes estar en el curso Spanish 261 o tal vez en Spanish 315. Los dos son ofrecidos ahora. !No pierdas tu espanol!

ATTENTION!

Si tu peux lire ceci, tu dois continuer a etudier le francais! Tu dois suivre le cours French 261, ou bien meme le cours French 315. Les deux sont offerts maintenant. Ne perdez pas votre francais!

ACHTUNG!

Wenn du diese Satze lesen kannst, solltest du mit der deutschen Sprache fortsetzen! Dann darfst du German 261 machen oder vielleicht German 315. Da sind noch Platze. Vergiss dein Deutsch nicht!

If you can read any of these, take the modern language testout. It will be given in Room 284 of the Fine Arts Building - Tuesday, Sept. 8, 8 a.m.; Wednesday, Sept. 9, 10 a.m., and Thursday, Sept. 10, 3 p.m.

You can receive up to nine credit hours in Spanish, French or German by testing out.

Classroom Discipline

Following is a corrected schedule for the course Education 365, Classroom Discipline:

FALL: 11:00-11:50 MW C 101 Ames Lab School 2 crs.

WINTER: 11:00-11:50 MW C 101 Ames Lab School 2 crs.

SPRING: 12:00-12:50 T TH C 101 Ames Lab School 2 crs.

Phy Ed Basic Studies

As well as the non-credit basic studies physical education courses, a variety of classes in the area of life-time activities may be used for the basic studies physical education requirement.

Some of these courses are : 101, 102, 103, 104, 105, 106, 107, 145, 163, 164, 201, 202, 203, 205, 210, 220, 221, 222, 223, 224, 248, 251, 252, 253, 254, 255, 256, 257, 301, 302, 303.

If the student takes the above classes for he/her basic studies requirement, the grade will count in the GPA. However, the credit(s) cannot be applied toward the 192 hours required for graduation.

If the student takes the above classes for his/her basic studies requirement, the grade will count in the GPA. However, the credit(s) cannot be applied toward the 192 hours required for graduation.

Health Services

The Student Health Service is housed on the lower level of the River Falls Medical Clinic Building, 409 Spruce St., approximately one block north of the Student Center. The Clinic is staffed by general practitioners, a radiologist and a general surgeon.

The Health Service Fee is assessed students through the student activity fee which is paid each quarter with other registration fees. This money is used to pay physicians, a nurse and routine office expenses.

Fees for special services such as x-rays, laboratory work, physical therapy and prescription drugs must be paid by the student.

If hospital facilities are used, the student is responsible for any charges incurred.

A health insurance program is available through the Student Senate (office located on the second floor of the Student Center). Students are encouraged to take advantage of this protection if they are not already covered by a policy.

Physicians are available at the Student Health Service from 8 a.m. to 12:30 p.m., Monday-Friday, and for emergency care at the Clinic until 5 p.m. Students requiring medical care after 5 p.m. are seen at the River Falls Area Hospital. There is a charge for this emergency care by the hospital and the physician.

The University Nurse is available 8 a.m. - 4 p.m. in the office of the Student Health Service at the Clinic, 425-3292.

Parking Permits

Parking permits will be sold to students living in resident halls on Sept. 10 at 6 p.m. in the following locations:

"O" and "L" lots (Crabtree, Grimm, Parker and McMillan Halls) - Yellow Dining Room in Rodli Commons.

"K" Lot (Stratton, May, Prucha and Johnson Halls) - The Galley in the basement of the Student Center.

"N" Lot - President's Room of the Student Center.

The cost for a parking permit for the academic year is \$15.40.

Gallery 101

Gallery 101 in the lobby of the Kleinpell Fine Arts Building will open Sept. 11 with a senior exhibition. The show will be on display through Sept. 17.

The Russian artist Yaacov Vinkovetsky will display his work in the gallery, Sept. 22 - Oct. 12. An opening reception for the public will be held Sept. 28 at 7-9 p.m.

Deadline Dates

Student Teaching

The deadlines for student teaching applications for the 1981-82 academic year are Sept. 15, 1981, for those wishing to student teach winter quarter and Dec. 15, 1981, for those wishing to student teach spring quarter.

The deadline for student teaching applications for fall quarter 1982-83 and intern teaching applications for the 1982-83 academic year is March 15, 1982.

Drop/Add

A student must use an official program change form in order to ADD and/or DROP courses. Program changes will be processed in the Registrar's Office. The Drop/Add period will begin the third day of classes each quarter. Classes may be added during the first week of each quarter. Classes may be dropped during the first six weeks of each quarter. It is the responsibility of the student to be sure that the completed program change form is returned to the Registrar's Office.

Withdrawal

A student who finds it necessary to withdraw from the university during the course of the quarter must complete an application for general withdrawal, which may be secured in the Student Counseling Center, Hathorn Hall. Failure to comply with this regulation may result in failing grades posted on a student's record.

Late Fees

The Accounts Receivable Office will hold class cards for those students who cannot meet the nominal financial obligations (half of all fees, which includes tuition, room and board) until the end of the day the student registers. The student has until the end of that day to meet the minimum financial requirements or the class cards will be made available to other students.

Reciprocity

Minnesota (resident) students must complete and mail reciprocity forms to the Minnesota Higher Education Coordinating Board in order to obtain waiver of non-resident tuition. This procedure is required only once each academic year, which covers the period of Sept. 1 through the following Aug. 31. As per agreement, reciprocity cannot be granted retroactively. Therefore, students who do not properly apply during the term will be held legally responsible for payment of non-resident tuition for the term.

The eligibility period is from the time of approval through the following August. So, if your reciprocity was approved between Sept. 1, 1980, and Aug. 1, 1981, you must reapply for this fall quarter, if you have not already done so. It is not too late to apply for this quarter.

Information concerning reciprocity and application forms are available in the Financial Aids Office, 122 South Hall.

Changes on Campus

New Office Locations

During the summer a few offices moved to new locations. The office of Admissions is in 112 South Hall. This also is the office number of the UW-River Falls Foundation. The office of Financial Aids is in 122 South Hall. The Alumni office is 116 South Hall.

Also in South Hall are the offices of the "Student Voice" (216) and the College of Agriculture Extended Degree Program (220). The department of political science remains in South Hall (123).

The department of history is now in the Kleinpell Fine Arts Building, with the main office in 355.

Coin Phones

There have been several coin telephone changes during the summer months, according to Business Manager Clete Henriksen.

Coin phones were removed from some residence halls when telephone traffic studies revealed that on the average less than one call a day was being made from them. However, no residence hall was left without at least one coin phone.

Henriksen also reported that new "charge-a-call" phones have been installed in two locations on campus. The phones are in the Student Center lobby and in the basement of Hathorn Hall. These phones, both adjacent to regular coin phones, are convenient for credit card and collect calls and will free coin phones in busy areas.

A coin phone also has been installed in the second floor hallway of North Hall.

Affirmative Action Officer

Dr. Emogene Nelson has been named University Affirmative Action Officer, a position formerly held by Dr. M. Susan Beck. Nelson, whose office is in 111 North Hall, also is assistant to the vice chancellor.

Join Up!

Speech and Theatre

The department of speech will host a speech interest party on Sunday, Sept. 13, at 7 p.m. in the Theatre of the Kleinpell Fine Arts Building. All students are invited to attend - you need not be a speech major.

During the evening, speech faculty members and upper classmen will discuss UW-River Falls theatre, debate and forensic activities.

University/Community Orchestra

The University/Community Chamber Orchestra will organize early this month. All string players from the campus and community are invited to join the group. Violins, violas, cellos and string basses are needed.

The orchestra rehearsal has been scheduled for 3 p.m., Mondays and Wednesday, in Room 134 of the Kleinpell Fine Arts Building. However, if there is enough community and student interest for rehearsals on a weekday evening, changes will be made.

See Donald Nitz in the music department for further information.

Auditions for Musical

Auditions for the musical "Once Upon A Mattress" will be held by Director Robert Beidler, Friday, Sept. 11, at 7 p.m. and Monday, Sept. 14, at 7 p.m. in the Theatre of the Kleinpell Fine Arts Building.

The musical by Mary Rogers and Marshall Barer will be performed on campus in early November.

Auditions for parts in the cast are open to all students, according to Beidler. Those auditioning are asked to be prepared to perform music of their choice from a Broadway musical.

University Bands

The UW-River Falls Bands are looking forward to another exciting year.

The Marching Band, with newly designed flags, will make its first appearance of the season at the Shrine parade and football game on Sept. 12. The group will perform at all home games and will present Homecoming and Parent's Day mini concerts. The Marching Band also will participate in the Homecoming Parade and will play at an away game in Stevens Point, Nov. 11. The season will conclude with the annual fall concert on Nov. 20, in the Recital Hall.

The Concert Band will perform with guest soloists and a guest conductor this year. A concert will be presented by the ensemble at the conclusion of each academic quarter. Two Commencement Concerts also will be performed. The group makes its concert tour in March.

For further information about the bands, contact W. Larry Brentzel, director of bands, B-50, Fine Arts Building.

Concert Choir Auditions

Following is the audition schedule for the UW-River Falls Concert Choir, which performs under the direction of Elliot Wold of the music department. Those auditioning need not bring music to the audition.

Wednesday, Sept. 9, 9 a.m.-noon & 1-5 p.m.

Thursday, Sept. 10, 9 a.m.-noon & 1-5 p.m.

Friday, Sept. 11, 9 a.m.-noon & 1-5 p.m.

There are openings in all sections of the choir, with a special need for low bass singers.

Each academic year the Concert Choir performs a number of times on campus and in the surrounding area. This fall the group also will sing in five appearances with the Minnesota Orchestra at Orchestra Hall in Minneapolis.

The highlight of the season will be a concert tour of West Germany, Switzerland and Austria early next Spring.

Kids' Swim Lessons

Swimming lessons for children will begin on Saturday, Sept. 26 and will continue for six consecutive Saturday mornings in the UW-River Falls pool in Karges Center. The registration fee is \$14 per child.

A special waterbaby class will be conducted for infants, 8-24 months. One parent must go into the water with the child. All parents wishing to have their babies in the course should attend a special meeting on Monday, Sept. 21, in Room 127, Karges Center.

Class enrollment will be limited. If you are interested in enrolling your child in any of the following sessions, call the physical education department office, 425-3705, as soon as possible.

Section A	8-24 months	9-9:30 a.m.
Section B	2-4 years	9:45-10:15 a.m.
Section C	4-6 years	10:30-11 a.m.
Section D	6 & older	11:15-11:45 a.m.
